## 1. Introduction

eTerminal Disclaimer- provides applicants with greater control over when their Terminal Disclaimers are filed and promotes greater efficiency in the patent examination process. This web-based eTerminal Disclaimer can be filled out completely online through web-screens and no EFS-Web fillable forms are required. eTerminal Disclaimers are auto-processed and approved immediately upon submission if the request meets all of the requirements.

Fees must be paid immediately which will then provide users more financial flexibility. A paper filed Terminal Disclaimer includes a fee but does not guarantee a granted Terminal Disclaimer.

The resource page for eTerminal Disclaimer can be located at:  
[www.uspto.gov/patents/process/file/efs/guidance/eTD-info-I.jsp](http://www.uspto.gov/patents/process/file/efs/guidance/eTD-info-I.jsp)

This Quick Start Guide will provide you with the information you need in order to rapidly understand how to file an eTerminal Disclaimer, including a brief overview of the process and screen shots that identify critical aspects of the product.

A more comprehensive guide on how to use EFS-Web can be found at the EFS-Web Guidance and Resources page located at:  
<http://www.uspto.gov/patents/process/file/efs/guidance/index.jsp>

The electronic Terminal Disclaimer (eTD) can only be used if:

- 1) the inventor(s) named as the applicant in the application own(s) 100% of the entire right, title and interest;
- 2) the assignee and/or obligated assignee named as the applicant in the application owns 100% of the entire right, title and interest; or
- 3) some combination of inventor(s) and partial assignee(s) named as the applicant in the application together own 100% of the entire right, title and interest.

## 2. Basic Guidelines for Filing Terminal Disclaimers:

- Must be a registered eFiler.
- Must be able to access EFS-Web registered.
- Registered eFiler users are strongly advised to transmit their electronic filings sufficiently early in the day to allow time for alternative paper filing when

transmission cannot be initiated or correctly completed.

- The ability to submit an eTerminal Disclaimer under EFS-Web Contingency is not permitted.
- Consult the current fee schedule available at <http://www.uspto.gov/about/offices/cfo/finance/fees.jsp> for the correct fee amount. The fee required to be paid upon filing a request for eTerminal Disclaimer is: Statutory disclaimer, including terminal disclaimer.

- In accordance with MPEP 1490 V and 37 CFR 1.321, Terminal Disclaimers (including eTerminal Disclaimers) will only be considered in compliance with the requirements when filed into a PENDING Nonprovisional Utility application (including national stage and reissue) or PENDING Design application (including reissue). If an eTerminal Disclaimer is filed after payment of the issue fee but before the patent grant date, a request for Certificate of Correction must be filed requesting that the face of the patent be amended to state --This patent is subject to a terminal disclaimer.
- Requests for terminal disclaimers for plant applications, reexaminations and terminal disclaimers based on a joint research agreement must be filed by paper.

**Warning:** For your protection, your EFS-Web sessions will time-out after one hour of inactivity. An eTerminal Disclaimer request that has not been submitted after one hour of inactivity will be lost. You will need to login to EFS-Web again and re-enter the eTerminal Disclaimer from the start.

### 3. Filing an eTerminal Disclaimer:

#### Application Process

Once you have signed on to EFS-Web as a registered user, you will need to certify that you are the certificate holder or working under the authority of the certificate holder.

To submit an eTerminal Disclaimer, you must select the radio button located next to “**Existing application/patent**”. The Web screen will expand to display additional options. Select the radio button next to “**eProcessing** (Electronic Terminal Disclaimer and other requests for automatic processing)” then select **eTerminal Disclaimer (for automatic processing and immediate approval, if all requirements are met)**. A valid application and confirmation number must be entered followed by the certification statement.

**Note:** Information entered on the Certification screen cannot be edited on subsequent screens. Please review the application number, confirmation number, and other data entered carefully before continuing. If you need to make a change to the data entered on the Certification screen after you have proceeded to later screens, please click the **Cancel** button at the bottom of page to restart the request.

## Save for Later Submission

When preparing an eTerminal Disclaimer the applicant has the option of saving the submission for later. Under the “Application Data” tab the applicant must complete all of the necessary fields in order to save the submission for later. At the bottom of the screen the option to click on “**Save for Later Submission**” or “**Save & Continue**” is available.

If the applicant clicks on “**Save & Continue**” the submission will be saved on the EFS-Web server. The applicant is then allowed to advance to the next screen towards finalizing the submission. The applicant still has the ability to work on the eTerminal Disclaimer even though it has been saved. If the applicant clicks on “**Save for Later Submission**” a pop-up warning will appear notifying the applicant of the action and clicking on “**OK**” will save the submission for later.

After clicking on “**OK**” the next screen will display the saved application for later submission. There is a notification statement that explains that the submission has not been filed officially at the USPTO until the applicant executes the Submit function. The screen also displays application data and which documents have been saved for later submission. A statement at the bottom of the screen details how long the submission will be saved.
