USPTO,

Please support the 2019 Revised Patent Subject Matter Eligibility Guidance.

For the past four decades I've created clean skilled US jobs and exports through creating and manufacturing my new products primarily through:

[www.ProMotorcarProducts.com](http://www.ProMotorcarProducts.com)

[www.Vansteel.com](http://www.Vansteel.com)

and now licensing others via

<http://pfanstiehlDesignworks.com/>

Without a degree of clarity, consistency, and predictability of examination and post issuance review of patents by the USPTO,

I would be very hesitant to spend the time and money it takes to bring a new product or technology to market,

This is essential, and will help the USPTO to better foster innovation and thereby economic strength in the US

Thank you,

John
