

Index of Eligibility Examples

The table in this appendix provides a comprehensive index of examples for use with the *2014 Interim Guidance on Subject Matter Eligibility*. The source documents for the listed examples include:

- *Examples: Abstract Ideas (AI)*, which issued on January 27, 2015;
- *Examples: Nature-Based Products (NBP)*, which issued December 16, 2014;
- *Computer Based Training & CBT Slides (CBT)*, which were posted March 6, 2015; and
- *July 2015 Update Appendix 1: Examples (July 2015 Update)*, which issued July 30, 2015; and
- *Subject Matter Eligibility Examples: Life Sciences (LS)*, which are newly issued.

All of these documents, along with the guidance, examiner training materials, and the public comments, are available on USPTO.GOV at the *2014 Interim Guidance on Subject Matter Eligibility* webpage.

For ease of reference, all examples have been consecutively numbered in the table, and future examples will follow this same numbering scheme. However, because some of the source documents used different numbering schemes, the “Source Document” column in the table indicates not only the source document for each example, but also the number that was used in that source document to identify the example. For instance, example AI-2 (Composite web page) appears in the *Examples: Abstract Ideas* source document as Example 2.

The columns that are titled with reference to Step 1, Step 2A, and Step 2B are intended to provide a brief guide to the concepts illustrated by each example, so that examiners and the public may quickly locate example(s) pertinent to a particular situation. Accordingly, these columns indicate for each example the relevant statutory categories, judicial exceptions, characteristics discussed in the MDC analysis, and considerations evaluated in the significantly more inquiry.

NOTE: This appendix is an updated version of Appendix 2 from the *July 2015 Update: Subject Matter Eligibility*.
