## U.S. Department of Commerce Privacy Impact Assessment USPTO Landon IP Information System

**Unique Project Identifier: PTOC-019-00**

### **Introduction: System Description**

*Provide a description of the system that addresses the following elements:  
The response must be written in plain language and be as comprehensive as necessary to describe the system.*

*(a) a general description of the information in the system*

The LIPIS is an infrastructure information system that is designed to support the USPTO international application or PCT application process. The Patent Cooperation Treaty (PCT) provides a unified procedure for filing patent applications to protect inventions in each of its Contracting States. The LIPIS facilitates PCT searches and enables Landon IP employees to submit an accompanying written opinion regarding the patentability of the invention in question.

Landon IP is under contract with the USPTO to perform work related to PCT applications. Landon IP receives PCT application data from the USPTO via SFTP, a secure file transfer system based on the SSH protocol. Utilizing this data, Landon IP conducts searches and develops opinion papers for the USPTO.

In support of this contract with the USPTO, Landon IP has implemented the LIPIS. The LIPIS is the automated information system comprised of the Landon IP network environment that supports the USPTO. The LIPIS was developed to provide a comprehensive set of security controls to adequately protect USPTO data. The LIPIS is a networked system of servers, equipment, and applications that meet the requirements for the General Support System/Infrastructure System.

*(b) a description of a typical transaction conducted on the system*

Landon IP receives PCT application data from the USPTO via SFTP, a secure file transfer system based on the SSH protocol. Utilizing this data, Landon IP conducts searches and develops opinion papers for the USPTO.

*(c) any information sharing conducted by the system*

Landon IP does not share any information with other agencies, individuals, or organizations. The information provided by USPTO is used by Landon IP for submitting an accompanying written opinion regarding the patentability of the invention.

*(d) a citation of the legal authority to collect PII and/or BII*

35 U.S.C. 1, 2, 41, 115, and 261; E.O. 9424; 5 U.S.C. 301

*(e) the Federal Information Processing Standard (FIPS) 199 security impact category for the system*

Per Federal Information Processing Standards (FIPS) 199, LIPIS is categorized as a Moderate security impact system.
