

Uploading a single document containing the concise description of relevance for multiple items when filing electronically in Patent Center

Applicants may submit a single document including a concise description of relevance for multiple items in one of two ways as follows.

Option 1: Single document wherein the descriptions of the multiple items are combined, e.g., a claim chart

- Click the “**Add new citation**” button in the “**Enter citations**” section. For the first item, upload the document containing the concise description of relevance. As shown below, select “**All**” for the “**Contained on**” drop down menu. Click the “**Save & add another**” button to save the citation and add another citation.

Add citation

* indicates required

Citation type: U.S. patent Patent number: 8675309 Find

Patent number: 8675309 Kind code: (optional) Issue Date: 03/18/2014 First named inventor: Patrick Mesquita Braganca

Concise description of relevance *

Multi_corrected.pdf Contained on: Selected range Start: 1 End: 1 Clear selection

Total number of pages: 6 All Selected range

Cancel Add Save & add another

- For the second and any subsequent item, the single concise description of relevance document should **not** be uploaded. Instead, as shown below, enter text in the provided text box to convey that the document uploaded with the first item includes the concise description of relevance for the second/subsequent item(s). For example, “Multi_corrected.pdf uploaded with US 8,675,309 includes the concise description of relevance for US 10,139,570.” Click the “**Save & add another**” button to save the citation and add another citation, or the “**Add**” button to add the citation and display each previously entered citation in the “**Enter citations**” section.

Option 2: Single document wherein the description of each item is contained in a discrete portion, i.e., on nonoverlapping page ranges

- Click the **"Add new citation"** button in the **"Enter citations"** section. For the first item, upload the document containing the concise description of relevance. As shown below, select **"Selected range"** for the **"Contained on"** drop down menu. In the **"Start"** box, enter the first page on which the first item is discussed. In the **"End"** box, enter the last page on which the first item is discussed. Click the **"Save & add another"** button to save the citation and add another citation.

- For the second and any subsequent item, select the previously uploaded document. Select **“Selected range”** for the **“Contained on”** drop down menu. In the **“Start”** box, enter the first page on which the second/subsequent item is discussed. In the **“End”** box, enter the last page on which the second/subsequent item is discussed. As shown below, the values entered in the **“Start”** and **“End”** boxes for the second/subsequent item must **not** overlap with any of the previously entered values. Click the **“Save & add another”** button to save the citation and add another citation, or the **“Add”** button to add the citation and display each previously entered citation in the **“Enter citations”** section.
