To the Commission For Patents:

Please accept my comments regarding the Myriad-Mayo examination guidelines.  
I suggest the institution of an Independent Review Committee in the Patent Office.  
The body would review applications claiming Myriad or Mayo type subject matter prior to grant, taking into account the ethical implications of the patent should the application be granted.  
More details are found in my book "Other Peoples Bodies" on pages 80-81.  
A link to my book is found here.  
A copy of the book is forwarded to the USPTO under separate cover.  
Thank you for your consideration.  
Respectfully submitted,  
Arthur P. Gershman
