Subject: suggestion

Dear Honorable Director of USPTO,

I request you to set up an office in the silicon valley where HP, Lockheed Martin, Stanford University etc are located.

The satellite office should be open to public.

Sunnyvale library had a satellite USPTO office.

San Jose State University together with city of San Jose has a library.

Stanford University has lot of space.

I hope you will build a satellite office in the silicon valley.

Respectfully

Satyendranath Das
