Subject: Satellite Office in Irvine, CA

Dear USPTO,

Reasons why we should have a satellite office in Irvine, CA:

- 1) It is a burgeoning tech sector for the country. Many entrepreneurs would appreciate a patent office that is local and accessible to them. This would provide the initial demand for such a satellite office, and enhance growth of the Irvine tech center in the growing years.
- 2) You would have access to many tech savvy workers from Irvine. For example, I have always wanted to work for the USPTO, but I do not want to move to Washington.
- 3) Irvine is one of the safest cities in the country.
- 4) Irvine is close to my office, and I would be able to do more personal interviews with examiners (as would anyone in LA and San Diego)

Sincerely,

Paul Main
