Subject: USPTO Satellite Office in San Francisco

Dear Sir or Madam,

I believe that a USPTO satellite office should be established in San Francisco. Silicon Valley has been a great generator of innovation in general, and patentable innovation in particular. Many patent attorneys and agents work in the area. A local office would assist those patent attorneys and agents, as well as help with the recruiting of new examiners for the USPTO; many Silicon Valley engineers and scientists, as well as patent attorneys and agents, would be happy to work as patent examiners if it does not require moving to the opposite coast.

I appreciate the opportunity to make my comment.

Sincerely,

Larisa Migachyov (Reg. No. 57,791)
