Azam Khan, Deputy Chief of Staff
United States Patent and Trademark Office
Alexandria, VA

Dear Mr. Khan:

I am pleased that the America Invents Act that empowers the USPTO director to create regional satellite offices, and I encourage you to consider Colorado for a satellite office.

Colorado is an ideal location for a new USPTO satellite office. We are home to one of the country's most vibrant clusters of innovation, technological development, and economic growth. Our innovation-based industries are heavily dependent on the approval of new patents for growth. Additionally, our state boasts a large number of technology workers that would be excellent long-term patent examiners. These unique qualities, along with affordable housing, an exceptional quality of life, and many others, make Colorado the perfect choice for a new office.

Respectfully,

/David H. Carroll, Reg. #29903/
