Director David Kappos
U.S. Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Director Kappos,

As the USPTO considers locations for future satellite offices, I want to recommend and support the consideration of Colorado as the next location. Our company is focused on innovation in the aviation sector. We are one of many innovation based companies located in Colorado who will continue to patent, license and produce new technologies that will in turn promote economic growth for our local, regional, and national economies. That growth and innovation would be significantly enhanced by the location of the next USPTO office in Colorado.

In the event you need additional information from us, do not hesitate to contact me.

Sincerely

Charlie Johnson
CEO

Beyond Aviation.
