Subject: PTO Based in Boise, Idaho

I understand that PTO is currently evaluating sites for satellite offices and I just would like to urge you to consider putting a satellite office in Boise, Idaho. As a federal employee based in Boise, I can attest to the high level of innovation occurring in Boise. It wouldn't be a market one would typically think of but there is a great deal of science and technology professionals working in Idaho and constantly innovating and generating new companies. Boise is very centrally located in the northwest and has easy direct flight access to many other markets such as San Francisco, Denver, Portland, Seattle, and Salt Lake City.

If I can provide any further perspective as a federal employee, please feel free to contact me.

Many thanks,
Amy
