Subject: USPTO coming to Boise

I couldn't think of a better place for USPTO to locate one of their satellite offices both professionally and personally. I am a 5th generation Idaho native and have lived in the Boise area almost 50 years. Boise has maintained as one of the most desirable places to live for the past 11+ years nationally. It offers a safe family environment and has proven its ability to recruit and retain science and technology professionals (Micron/HP) and we have a high level of innovation activity and entrepreneurship statewide. We would be honored to have a facility such as USPTO in our community!

Now serving Eastern Idaho. [Click here to meet the team.](#)
