NOTE regarding competence of the IPEA/US

A Demand may be filed with the IPEA/US by a registered user via EFS-Web by selecting “Existing Application” and providing the required information for the existing PCT international application. If the IPEA/US receives a Demand and determines that it is a competent examining authority, the Demand will be processed by the IPEA/US. If it is determined that the IPEA/US is not competent, the Demand will be forwarded to the International Bureau for further processing. Therefore, if applicant does not want the IPEA/US to perform the examination, the Demand should be filed directly with the selected IPEA. Further, to avoid any misinterpretation of the intent of the applicant, it is preferred that applicant not provide to the RO/US or ISA/US a copy of a Demand filed with another IPEA.

NOTE regarding Chapter II document code descriptions

Applicants are advised that it is important to use the correct document code description (i.e., document descriptions associated with Chapter II of the PCT) whenever possible because Chapter II document code descriptions are used to determine which documents are not viewable in Public PAIR until after the expiration of 30 months from the priority date. Using document code category PCT Chapter II will help ensure that a Chapter II document is indexed with a Chapter II document description. If other document code categories are used, whenever possible select the document code description that begins CHII.
