U.S. Customs & Border Protection (CBP), a bureau of the Department of Homeland Security, maintains a trademark recordation system for marks registered at the **United States Patent and Trademark Office**. Parties who register their marks on the Principal Register may record these marks with CBP, to assist CPB in its efforts to prevent the importation of goods that infringe registered marks. The recordation database includes information regarding all recorded marks, including images of these marks. CBP officers monitor imports to prevent the importation of goods bearing infringing marks and can access the recordation database at each of the 317 ports of entry. Holders of registered trademarks and copyrights concerned about imports or exports of infringing goods should record their trademarks and copyrights with U.S. Customs and Border Protection (CBP).
