D. CHANGES TO THE DEFINITIONS

## CLASS D14 - RECORDING, COMMUNICATION, OR INFORMATION RETRIEVAL

Definition Abolished

Subclasses

136, 156

Definitions Established:

**203.1 Digital media recorder or player:**

Design under subclass 496 that is specifically designed to play music or video images based on binary number or digital type logic such as a MP3 device.

(1) Note: Flat screen television, telephone equipment, CD and DVD players excluded.

## SEE OR SEARCH THIS CLASS:

140-153, for telephone equipment.

315-340, for laptop computer.

341-247, for pocket type computer.

480.1-480.7, for flash drive.

498-511, for disc type recorder or players.

Example of a design for a digital media recorder or player.

**203.2 Simulative:**

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Design under subclass 203.1 that includes an ornamental feature or features that show the ornamental appearance of another article either as applied ornamentation or form.

(1)Note. The search for simulative digital media player that simulates the appearance of another object should also include the appropriate design class and subclass(es) for the actual object

SEE OR SEARCH THIS CLASS:

189, for simulative radio receiver.

207, for simulative speaker.

Example of a design for a digital media recorder or player that is simulative of another item.

**203.3 Pocket or portable type:**

Design under subclass 203.1 with a case that is intended to be portable and supported by the human body or hand.

SEE OR SEARCH THIS CLASS:

341-347, for pocket type computer.

315-327, for laptop type equipment.

SEE OR SEARCH CLASS:

D21, Games, Toys and Sports Goods, subclass 329 for video game.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a pocket or portable type digital media recorder or player.

**203.4 Folding body or case:**

Design under subclass 203.3 with casing that shows a top or cover that lifts or retracts.

(1)Note. Includes retractable lid or screen.

SEE OR SEARCH THIS CLASS:

136.5, for pocket type optical player with folding cover.

Example of a design for a pocket or portable type digital media recorder or player with a folding body or case.

**203.5 Body attached:**

Design under subclass 203.3 with provision to attach to the human body, apparel or belt.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

(1)Note. Design should show clear show a fastening member or cord to attach to the body or apparel. A loop or cord opening, per se, is not considered.

**SEE OR SEARCH THIS CLASS:**

192, for body or clothing attached radio receiver.

205-206, for headphone or headset.

**SEE OR SEARCH CLASS:**

D3, Travel Goods and Personal Belongings, subclasses 215-230 for carrying containers that attach to the body apparel or belt. See subclasses 247-253 for wallet.

**203.6 Round or oval case:**

Design under 203.3 with casing that is circular or ovoid in plan.

**203.7 Includes screen:**

Design under subclass 203.3 that shows a defined area for the viewing of images or data.

**SEE OR SEARCH THIS CLASS:**

341-347, for pocket type computer.

315-327, for laptop type equipment.

**SEE OR SEARCH CLASS:**

D21, Games, Toys and Sports Goods, subclass 329 for video game.

Example of a design for a pocket or portable type digital media recorder or player that includes a screen.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS**203.8 Combined with stand:**

Design under subclass 203.1 that includes a support or holder.

## SEE OR SEARCH THIS CLASS:

209.1, for speaker combined with holder or support.

224, for element or attachment for support or frame.

Example of a design for a digital media recorder or player combined with a stand.

**209.1 Combined with holder or stand:**

Design under subclass 204 for docking type media speaker.

## SEE OR SEARCH THIS CLASS:

224.1, for holder or support for digital media type player.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a speaker that is combined with a holder or stand.

**224.1 Digital media specific:**

Design under 224 with specific provision for MP3 type player.

SEE OR SEARCH THIS CLASS:

209.1, for speaker combined with holder or support.

238.1, for element or attachment for digital media player.

SEE OR SEARCH CLASS:

D13, Equipment for Production, Distribution, or Transformation of Energy, subclass 108 for battery charger for cordless appliance.

Example of a design for a support for digital media player.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS**238.1 Digital player specific:**

Design under subclass 217 for attachment or element for MP3 type player.

**435.1 With USB type port or connector:**

Design under subclass 435 that shows a Universal Serial Bus (USB) type connector or port.

(1) Note. Includes dongle.

Example of a design for a cartridge, chip or card with a USB type port or connector.

**480.1 Flash drive type:**

Design under subclass 474 that includes Universal Serial Bus (USB) type interface or connector.

(1)Note. The design must show a USB connector or a provision therefor.

## SEE OR SEARCH THIS CLASS, SUBCLASS:

- 137, for radio receiver.
- 240, for element or attachment for telephone equipment.
- 244, for telephone modem.
- 348, for hard drive for personal computer.
- 356, for computer peripheral equipment.
- 383-387, for personal access verification device.
- 426, for hand held scanner or bar code reader.
- 432-434, for computer specific adaptor or computer

D. CHANGES TO THE DEFINITIONS

attachment.

435, for cartridge, chip or card.

458, for transmitter.

## SEE OR SEARCH CLASS:

361, Electricity: Electrical Systems and Devices, subclasses 685 and 686 for computer related support disc support drive or with input/output memory device support 737 for module with IC card or card member; subclass 752 for printed circuit board with particular conductive material or coating.

365, Static Information Storage and Retrieval, subclass 63 interconnection arrangements, subclass 131 for systems using particular element, two magnetic cells per bit.

439, Electrical Connectors, subclasses 141, 139, 140, 141 and 144 for connector with contact preventer or retractable cover part, subclass 638 for connector with insulation other than conductor sheath, two or more plural-contact coupling parts combined in one integral unit.

710, Electrical Computers and Digital Data Processing Systems: Input/Output, subclass 62 for peripheral adapting device; subclass 74 for Input/output data processing, peripheral adapting, application-specific, for data storage device.

711, Electrical Computers and Digital Processing Systems: Memory, subclass 115 for detachable memory.

D13, Equipment for Production, Distribution, or Transformation of Energy, subclass 110 for transformer, rectifier or casing, subclasses 133, 146-153 for USB connector or element.

Example of a design for a flash drive.

**480.2 Simulative:**

Design under subclass 480.1 that shows an ornamental feature or features that simulate the ornamental appearance of another object either as applied ornamentation or in form.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

- (1)Note. The search for a design that resembles the appearance of another object should also include the appropriate design class and subclass(es) for that actual object.

Example of a design for a simulative flash drive.

**480.3 Combined with diverse article:**

Design under subclass 480.1 that, if disclosed separately, would be proper subject matter for a subsequent subclass or another design class.

**480.4 Biometric type:**

Design under subclass 480.1 that includes a security device that permits or restricts access.

SEE OR SEARCH THIS CLASS, SUBCLASS:

383-387, for personal access verification device.

426, for hand held scanner or bar code reader.

432-434, for computer specific adaptor or computer.  
attachment.

435, for cartridge, chip or card.

458, for transmitter.

SEE OR SEARCH CLASS:

283, Printed Matter, subclasses 658-70, 74, 75 and 78 for fingerprint reader.

356, Optics: Measuring and Testing, subclass 71 for fingerprint pattern analysis or verification.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS**480.5 With cap or cover:**

Design under subclass 480.1 that includes a top or protective covering.

Example of a design for a flash drive with cap or cover.

**480.6 Swivel type:**

Design under subclass 480.5 that is permanently attached to the body or casing and pivots or rotates to open.

**480.7 With retractable port:**

Design under subclass 480.1 that shows a USB connector that slides or pulls back inside the body or casing.

**484.1 Flash drive specific:**

Design under subclass 483 for an element or attachment for a flash drive only.

(1) Note. USB port or generic connector excluded.

SEE OR SEARCH THIS CLASS, SUBCLASS:

435.1, for connector, adapter or coupler with USB port.

SEE OR SEARCH CLASS:

D13, Equipment for Production, Distribution, or Transformation of Energy, subclass 110 for transformer, rectifier or casing, subclasses 133, 146-153 for USB connector or element.

**497 Karaoke system or accessory:**

Design under subclass 496 for a music entertainment system that provides prerecorded accompaniment to songs that a performer sings live usually by following the lyrics shown on a video or screen.

(1)Note. Includes karaoke type microphone that is combined with controller or the like.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

## SEE OR SEARCH THIS CLASS:

- 158, for voice synthesizer or translator.  
218, for remote control device used with other D14 subject matter.  
225-229, for generic microphone.

## SEE OR SEARCH CLASS:

- D13, Equipment for Production, Distribution, or Transformation of Energy, subclass 168 for generic type remote control device.

**498 Disc type player or recorder:**

Design under subclass 496 that plays or records compact disc type media.

- (1) Note. Includes CD, DVD, HDV, optical and laser type discs.

## SEE OR SEARCH THIS CLASS:

- 199, for phonographic record player or turntable.  
203.1-203.8, for digital media player.  
314-340, for desktop or laptop computer with built-in disc drive.  
363-369, for disk type data drive or reader for a computer system.  
370, for media loader or copier.  
478-480, for media disc or floppy disc.

## SEE OR SEARCH CLASS:

- D6, Furnishings, subclasses 407-635 for storage case for compact disc (CD, DVD, HDV, etc.)

**499 Disc oriented vertically:**

Design under subclass 498 that plays or records with the disc positioned substantially in a vertical orientation.

- (1) Note. Excludes hand held or pocket type disc player or recorder.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a disc player or recorder with the disc placed vertically.

**500 Shelf type:**

Design under subclass 498 that is an appropriate size for use on top of a desk type work surface or cabinet shelf.

SEE OR SEARCH THIS CLASS:

363-369, for computer disc drive.

Example of a design for a shelf type cd or dvd player or recorder.

**501 With lid, cover or screen that folds or retracts:**

Design under subclass 500 that shows an attached member that covers the playing mechanism or includes a display screen.

**502 Front loading:**

Design under subclass 500 with provision on the front surface for inserting a media disc.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a front loading shelf type cd or dvd player with a extended disc tray.

**503 With extended disc tray:**

Design under subclass 502 with visible projecting platform or holder for disc.

SEE OR SEARCH THIS CLASS:

199, for phonograph or housing.

260.1, tray or support for optical of magnetic disc.

366, for disc drive or reader with distended tray or compartment.

368-369, for front loading disc drive for computer.

Example of a design for a front loading shelf type cd or dvd player with an extended disc tray.

**504 Provision for plural disc:**

Design under subclass 503 with a provision for more than one media disc.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a frontloading shelf type cd or dvd player that shows provision for plural disc.

- 505** **With array of three or more identical control members: example D524,755 Fig.1**  
Design under subclass 502 with an array of three or more knobs or controls that are identical and aligned.

Example of a design for a shelf type cd or dvd player with an array of three or more identical control members.

- 506** **Circular:**  
Design under subclass 505 with an array of identical and aligned round knobs or controls.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

Example of a design for a shelf type cd or dvd player with an array of three or more identical and circular control members.

**507 Hand held or pocket type:**

Design under subclass 498 with a small case that is intended to be supported or carried by a human hand.

SEE OR SEARCH THIS CLASS:

341-347, for pocket type computer.

368-369, for front loading disc drive for computer.

Example of a design for a hand held or pocket type cd or dvd player.

**508 Simulative:**

Design under subclass 507 that includes an ornamental feature or features that show the ornamental appearance of another article either as applied ornamentation or form.

SEPTEMBER 02, 2008

PROJECT D-7323

D. CHANGES TO THE DEFINITIONS

- (1) Note. The search for simulative digital media player that simulates the appearance of another object should also include the appropriate design class and subclass(es) for the actual object.

**509 Round or oval body or case:**

Design under subclass 507 that shows a circular or ovoid body in plan.

Example of a design for a hand held or pocket type cd or dvd player with a round or oval body or case.

**510 Curved on one side:**

Design under subclass 507 that shows one edge of the body in plan that is curved.

Example of a design for a hand held or pocket type cd or dvd player with a body or case that is curved on one side only .

**511 Element or attachment:**

Design under subclass 498 for a part or accessory for a compact disc player (CD, DVD, HDV, etc.).

- (1) Note. Excludes a portion of the body or case.
