Dear Mr. Fowler:

On behalf of the National Council of Teachers of Mathematics, I am pleased to convey to you our endorsement of the three sets of educational fair use guidelines (Digital Images, Distance Learning, and Educational Multimedia) developed by the CONFU working groups over the past two and a half years. As direct participants in drafting and negotiating the guidelines for Digital Images and Educational Multimedia, we have a healthy appreciation for the enormous amount of work, negotiation, and compromise that has gone into these documents.

NCTM represents the interests of both creators and users of educational materials, and we appreciate having had the opportunity to participate in the creation of guidelines that will assist our members, as well as other educators, in making fair and reasonable use of copyrighted materials.

Sincerely yours,

Jean T. Carpenter  
Manager, Publications Services and Permissions
