

PICTURE AGENCY COUNCIL OF AMERICA

May 19 1997

Dear Mr. Fowler:

This letter will serve to notify you officially that the Picture Agency Council of America has voted to sign off on all three sets of guidelines resulting from the efforts of the Conference on Fair Use.

PACA hopes that the issues raised in nearly three years of discussion will be revisited by an on-going group in the future. It is obvious that the development and use of intellectual property is evolutionary in nature and requires continued study and monitoring.

Confu has demonstrated that nothing benefits the entire intellectual property community more than thoughtful dialog between creator groups and user groups.

Sincerely,

Jane S. Kinne
