

**What Is Claimed Is:**

1. A variegated polymeric article comprising:  
a tinted substrate; and  
a substantially clear capstock layer applied onto said tinted substrate, said substantially clear capstock layer having a plurality of accent color streaks and a polymeric capstock material.  
5
2. The variegated polymeric article of claim 1, wherein said polymeric capstock material comprises a substantially clear, ultraviolet light resistant polymeric capstock material coextruded on to said substrate.
3. The variegated polymeric article of claim 2, wherein said  
10 polymeric capstock material comprises a methacrylic acid based resin material.
4. The variegated polymeric article of claim 3, wherein said methacrylic acid based resin material is selected from the group consisting of Acryligard CS-103 and TufCoat 4840.
- 15 5. The variegated polymeric article of claim 4, wherein said article has a visible color, and said substrate provides substantially all of the visible color of the article, and said capstock provides no significant contribution to the visible color.
6. The variegated polymeric article of claim 5, wherein said  
20 substrate comprises a PVC-based substrate.
7. The variegated polymeric article of claim 5, wherein said methacrylic acid based resin material is substantially free of titanium dioxide.
- 25 8. The variegated polymeric article of claim 7, wherein said methacrylic acid based resin material is selected from the group consisting of Acryligard CS-104 and TufCoat 5000.
