(54) CHIP TYPE ELECTRONIC PART ASSEMBLY

(57)Abstract:

PURPOSE: To enable a chip type electronic part assembly composed of chips which form devices of different electrical functions such as a capacitor or/and a resistor or devices of the same functions to constitute a multifunctional composite part and be lessened in size.

CONSTITUTION: A cutout 2 is provided to each of four corners of a flat plate-like chip 1, outer electrodes 3a and 3b are provided to the opposed end faces of the chip 1, and the chips 1 are linked
