CPC NOTICE OF CHANGES 1254

DATE: FEBRUARY 1, 2022

PROJECT RP0717

**The following classification changes will be effected by this Notice of Changes:**

| <u>Action</u>         | <u>Subclass</u> | <u>Group(s)</u>     |
|-----------------------|-----------------|---------------------|
| <b>SCHEME:</b>        |                 |                     |
| Symbols New:          | H04N            | 2201/3251           |
| Titles Changed:       | H04N            | 1/32                |
|                       | H04N            | 2201/32             |
|                       |                 |                     |
| Warnings New:         | H04N            | 2201/325, 2201/3251 |
|                       |                 |                     |
| <b>DEFINITIONS:</b>   |                 |                     |
| Definitions Modified: | H04N            | 1/32                |

**No other subclasses/groups are impacted by this Notice of Changes.**

**This Notice of Changes includes the following [Check the ones included]:**

1. CLASSIFICATION SCHEME CHANGES

- A. New, Modified or Deleted Group(s)
- B. New, Modified or Deleted Warning(s)
- C. New, Modified or Deleted Note(s)
- D. New, Modified or Deleted Guidance Heading(s)

2. DEFINITIONS

- A. New or Modified Definitions (Full definition template)
- B. Modified or Deleted Definitions (Definitions Quick Fix)

3.  REVISION CONCORDANCE LIST (RCL)

4.  CHANGES TO THE CPC-TO-IPC CONCORDANCE LIST (CICL)

5.  CHANGES TO THE CROSS-REFERENCE LIST (CRL)

CPC NOTICE OF CHANGES 1254

DATE: FEBRUARY 1, 2022

PROJECT RP0717

1. CLASSIFICATION SCHEME CHANGES

A. New, Modified or Deleted Group(s)

**SUBCLASS H04N PICTORIAL COMMUNICATION, e.g. TELEVISION**

| <u>Type*</u> | <u>Symbol</u> | <u>Indent Level Number of dots (e.g. 0, 1, 2)</u> | <u>Title</u><br><u>“CPC only” text should normally be enclosed in {curly brackets}**</u>   | <u>Transferred to#</u>         |
|--------------|---------------|---|--|--------------------------------|
| M            | H04N1/32      | 1   | Circuits or arrangements for control or supervision between transmitter and receiver {or between image input and image output device, e.g. between a still-image camera and its memory or between a still-image camera and a printer device (H04N 1/38, H04N 1/387 take precedence)} |                                |
| M            | H04N2201/32   | 1   | Circuits or arrangements for control or supervision between transmitter and receiver or between image input and image output device, e.g. between a still-image camera and its memory or between a still-image camera and a printer device   |                                |
| C            | H04N2201/325  | 4   | Modified version of the image, e.g. part of the image, image reduced in size or resolution, thumbnail or screenail   | H04N2201/325,<br>H04N2201/3251 |
| N            | H04N2201/3251 | 5   | where the modified version of the image is relating to a person or face  |                                |

\*N = new entries where reclassification into entries is involved; C = entries with modified file scope where reclassification of documents from the entries is involved; Q = new entries which are firstly populated with documents via administrative transfers from deleted (D) entries. Afterwards, the transferred documents into the Q entry will either stay or be moved to more appropriate entries, as determined by intellectual reclassification; T=existing entries with enlarged file scope, which receive documents from C or D entries, e.g. when a limiting reference is removed from the entry title; M = entries with no change to the file scope (no reclassification); D = deleted entries; F = frozen entries will be deleted once reclassification of documents from the entries is completed; U = entries that are unchanged.

NOTES:

- \*\*No {curly brackets} are used for titles in CPC only subclasses, e.g. C12Y, A23Y; 2000 series symbol titles of groups found at the end of schemes (orthogonal codes); or the Y section titles. The {curly brackets} are used for 2000 series symbol titles found interspersed throughout the main trunk schemes (breakdown codes).
- U groups: it is obligatory to display the required “anchor” symbol (U group), i.e. the entry immediately preceding a new group or an array of new groups to be created (in case new groups are not clearly subgroups of C-type groups). Always include the symbol, indent level and title of the U group in the table above.
- All entry types should be included in the scheme changes table above for better understanding of the overall scheme change picture. Symbol, indent level, and title are required for all types.
- “Transferred to” column must be completed for all C, D, F, and Q type entries. F groups will be deleted once reclassification is completed.
- When multiple symbols are included in the “Transferred to” column, avoid using ranges of symbols in order to be as precise as possible.

## CPC NOTICE OF CHANGES 1254

DATE: FEBRUARY 1, 2022

### PROJECT RP0717

- For administrative transfer of documents, the following text should be used: “< administrative transfer to XX>”, “<administrative transfer to XX and YY simultaneously>”, or “<administrative transfer to XX, YY, ...and ZZ simultaneously>” when administrative transfer of the same documents is to more than one place.
- Administrative transfer to main trunk groups is assumed to be the source allocation type, unless otherwise indicated.
- Administrative transfer to 2000/Y series groups is assumed to be “additional information”.
- If needed, instructions for allocation type should be indicated within the angle brackets using the abbreviations “ADD” or “INV”: <administrative transfer to XX ADD> , <administrative transfer to XX INV>, or < administrative transfer to XX ADD, YY INV, ... and ZZ ADD simultaneously>.
- In certain situations, the “D” entries of 2000-series or Y-series groups may not require a destination (“Transferred to”) symbol, however it is required to specify “<no transfer>” in the “Transferred to” column for such cases.
- For finalisation projects, the deleted “F” symbols should have <no transfer> in the “Transferred to” column.
- For more details about the types of scheme change, see CPC Guide.

PROJECT RP0717

B. New, Modified or Deleted Warning(s)

**SUBCLASS H04N PICTORIAL COMMUNICATION, e.g. TELEVISION**

| <u>Type*</u> | <u>Location</u> | <u>Old Warning</u> | <u>New/Modified Warning</u>  |
|--------------|-----------------|--------------------|--|
| N            | H04N 2201/325   |                    | Group H04N 2201/325 is impacted by reclassification into group H04N 2201/3251. Groups H04N 2201/325 and H04N 2201/3251 should be considered in order to perform a complete search.                     |
| N            | H04N 2201/3251  |                    | Group H04N 2201/3251 is incomplete pending reclassification of documents from group H04N 2201/325. Groups H04N 2201/325 and H04N 2201/3251 should be considered in order to perform a complete search. |

\*N = new warning, M = modified warning, D = deleted warning

NOTE: The "Location" column only requires the symbol PRIOR to the location of the warning. No further directions such as "before" or "after" are required.

## 2. A. DEFINITIONS (modified)

### H04N 1/32

Insert: The following NEW Definition statement.

#### Definition statement

*This place covers:*

Where the control or supervision is between two devices that can be embedded within the same apparatus or be embedded in multiple apparatuses.

Where the front-end device has images that are intended to be sent to the back-end device and the control can be from either the front-end device, the back-end device or both.

For example:

- a still-image camera or scanner and an another separate device (i.e. printer, display, server)
- a still-image camera or multi-function peripheral [MFP] and its internal memory

#### References

Insert: The following new rows to the Informative references table.

#### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

|   |                              |
|---|------------------------------|
| Devices for controlling television cameras or cameras comprising electronic image sensors   | <a href="#">H04N 5/232</a>   |
| Circuits or arrangements for control or supervision between transmitter and receiver or between image input and image output device | <a href="#">H04N 2201/32</a> |

PROJECT RP0717

3. REVISION CONCORDANCE LIST (RCL)

| <b>Type*</b> | <b>From CPC Symbol (existing)</b> | <b>To CPC Symbol(s)</b>       |
|--------------|-----------------------------------|-------------------------------|
| C            | H04N 2201/325                     | H04N 2201/325, H04N 2201/3251 |

\* C = entries with modified file scope where reclassification of documents from the entries is involved; Q = new entries which are firstly populated with documents via administrative transfers from deleted (D) entries. Afterwards, the transferred documents into the Q entry will either stay or be moved to more appropriate entries, as determined by intellectual reclassification; D = deleted entries; F = frozen entries will be deleted once reclassification of documents from the entries is completed.

NOTES:

- Only C, D, F, and Q type entries are included in the table above.
- When multiple symbols are included in the “To” column, do not use ranges of symbols.
- For administrative transfer of documents, the following text should be used: “< administrative transfer to XX>”, “<administrative transfer to XX and YY simultaneously>”, or “<administrative transfer to XX, YY, ...and ZZ simultaneously>” when administrative transfer of the same documents is to more than one place.
- Administrative transfer to main trunk groups is assumed to be the source allocation type, unless otherwise indicated.
- Administrative transfer to 2000/Y series groups is assumed to be “additional information”.
- If needed, instructions for allocation type should be indicated within the angle brackets using the abbreviations “ADD” or “INV”: <administrative transfer to XX ADD>, <administrative transfer to XX INV>, or < administrative transfer to XX ADD, YY INV, ... and ZZ ADD simultaneously>.
- In certain situations, the “D” entries of 2000-series or Y-series groups may not require a destination (“To”) symbol, however it is required to specify “<no transfer>” in the “To” column for such cases.
- RCL is not needed for finalisation projects.

CPC NOTICE OF CHANGES 1254

DATE: FEBRUARY 1, 2022

PROJECT RP0717

4. CHANGES TO THE CPC-TO-IPC CONCORDANCE LIST (CICL)

| <u>CPC</u>     | <u>IPC</u> | <u>Action*</u> |
|----------------|------------|----------------|
| H04N 2201/3251 | CPCONLY    | NEW            |

\* Action column:

- For an (N) or (Q) entry, provide an IPC symbol and complete the Action column with “NEW.”
- For an existing CPC main trunk entry or indexing entry where the existing IPC symbol needs to be changed, provide an updated IPC symbol and complete the Action column with “UPDATED.”
- For a (D) CPC entry or indexing entry complete the Action column with “DELETE.” IPC symbol does not need to be included in the IPC column.
- For an (N) 2000 series CPC entry which is positioned within the main trunk scheme (breakdown code) provide an IPC symbol and complete the action column with “NEW”.
- For an (N) 2000 series CPC entry positioned at the end of the CPC scheme (orthogonal code), with no IPC equivalent, complete the IPC column with “CPCONLY” and complete the action column with “NEW”.

NOTES:

- F symbols are not included in the CICL table above.
- T and M symbols are not included in the CICL table above unless a change to the existing IPC is desired.
