PROJECT RP11801-C

CORRECTED PUBLICATION

CORRIGENDA

Overview

Administrative transfers in this project were performed on February 1, 2023 according to the originally published RCL.

This corrected publication reflects the appropriate movement of documents to properly account for all target sources and destinations required for this reclassification.

This corrigendum notice <u>does not change</u> the contents of the CPC Scheme, Definitions or CICL. Intellectual reclassification will be delayed in this project. Therefore, corrections to this project necessitate a new CPC release to update the Warnings.

Technical Details

In the Scheme Change table (A. New, Modified or Deleted Group(s)): • Change Type "Q" for H10K39/601 to "C", and add the following subgroups to the "Transferred to" column H10K39/10, H10K39/12, H10K39/15, H10K39/18,

In the Scheme Change table (B. New, Modified or Deleted Warning(s)): • Update the warning for the following subgroups H10K39/10, H10K39/12, H10K 39/15, H10K 39/18, H10K 39/601, H10K39/621

A. <u>New, Modified or Deleted Group(s)</u>

SUBCLASS H10K - ORGANIC ELECTRIC SOLID-STATE DEVICES

Type*	<u>Symbol</u>	Indent Level Number of dots (e.g. 0, 1, 2)	"CPC only" text should normally be	<u>Transferred to</u> [#]
С	H10K 39/601	1	{Assemblies of multiple devices comprising at least one organic radiation-sensitive element}	H10K 39/601, H10K39/10, H10K39/12, H10K39/15, H10K39/18, H10K39/621

*N = new entries where reclassification into entries is involved; C = entries with modified file scope where reclassification of documents from the entries is involved; Q = new entries which are firstly populated with documents via administrative transfers from deleted (D) entries. Afterwards, the transferred documents into the Q entry will either stay or be moved to more appropriate entries, as determined by intellectual reclassification; T = existing entries with enlarged file scope, which receive documents from C or D entries, e.g. when a limiting reference is removed from the entry title; M = entries with no change to the file scope (no reclassification); D = deleted entries; F = frozen entries will be deleted once reclassification of documents from the entries is completed; U = entries that are unchanged.

NOTES:

- **No {curly brackets} are used for titles in CPC only <u>subclasses</u>, e.g. C12Y, A23Y; 2000 series symbol titles of groups found at the end of schemes (orthogonal codes); or the Y section titles. The {curly brackets} <u>are</u> used for 2000 series symbol titles found interspersed throughout the main trunk schemes (breakdown codes).
- U groups: it is obligatory to display the required "anchor" symbol (U group), i.e. the entry immediately preceding a new group or an array of new groups to be created (in case new groups are not clearly subgroups of C-type groups). Always include the symbol, indent level and title of the U group in the table above.
- All entry types should be included in the scheme changes table above for better understanding of the overall scheme change picture. Symbol, indent level, and title are required for all types.
- "Transferred to" column <u>must</u> be completed for all C, D, F, and Q type entries. F groups will be deleted once reclassification is completed.
- When multiple symbols are included in the "Transferred to" column, avoid using ranges of symbols in order to be as precise as possible.
- For administrative transfer of documents, the following text should be used: "<administrative transfer to XX>", "<administrative transfer to XX and YY simultaneously>", or "<administrative transfer to XX, YY, ...and ZZ simultaneously>" when administrative transfer of the same documents is to more than one place.
- Administrative transfer to main trunk groups is assumed to be the source allocation type, unless otherwise indicated.
- Administrative transfer to 2000/Y series groups is assumed to be "additional information".
- If needed, instructions for allocation type should be indicated within the angle brackets using the abbreviations "ADD" or "INV": <administrative transfer to XX ADD>, <administrative transfer to XX INV>, or <administrative transfer to XX ADD, YY INV, ... and ZZ ADD simultaneously>.
- In certain situations, the "D" entries of 2000-series or Y-series groups may not require a destination ("Transferred to") symbol, however it is required to specify "<no transfer>" in the "Transferred to" column for such cases.
- For finalization projects, the deleted "F" symbols should have <no transfer> in the "Transferred to" column.
- For more details about the types of scheme change, see CPC Guide.
