1. CLASSIFICATION SCHEME CHANGES

A. New, Modified or Deleted Group(s)

**SUBCLASS B64C – AEROPLANES; HELICOPTERS**

| <u>Type*</u> | <u>Symbol</u> | <u>Indent Level Number of dots (e.g. 0, 1, 2)</u> | <u>Title (new or modified)</u><br><u>“CPC only” text should normally be enclosed in {curly brackets}**</u>                 | <u>Transferred to#</u>                         |
|--------------|---------------|---|--|--|
| C            | B64C23/065    | 2   | {at the wing tips}   | B64C23/065, B64C23/069, B64C23/072, B64C23/076 |
| N            | B64C23/069    | 3   | {using one or more wing tip airfoil devices, e.g. winglets, splines, wing tip fences or raked wingtips}                    |  |
| N            | B64C23/072    | 4   | {the wing tip airfoil devices being moveable in their entirety}  |  |
| N            | B64C23/076    | 4   | {the wing tip airfoil devices comprising one or more separate moveable members thereon affecting the vortices, e.g. flaps} |  |

\*N = new entries where reclassification into entries is involved; C = entries with modified file scope where reclassification of documents from the entries is involved; Q = new entries which are firstly populated with documents via administrative transfers from deleted (D) entries. Afterwards, the transferred documents into the Q entry will either stay or be moved to more appropriate entries, as determined by intellectual reclassification; E= existing entries with enlarged file scope, which receive documents from C or D entries, e.g. when a limiting reference is removed from the entry title; M = entries with no change to the file scope (no reclassification); D = deleted entries; F = frozen entries will be deleted once reclassification of documents from the entries is completed; U = entries that are unchanged.

NOTES:

- \*\*No {curly brackets} are used for titles in CPC only subclasses, e.g. C12Y, A23Y; 2000 series symbol titles of groups found at the end of schemes (orthogonal codes); or the Y section titles. The {curly brackets} are used for 2000 series symbol titles found interspersed throughout the main trunk schemes (breakdown codes).
- For U groups, the minimum requirement is to include the U group located immediately prior to the N group or N group array, in order to show the N group hierarchy and improve the readability and understanding of the scheme. Always include the symbol, indent level and title of the U group in the table above.
- All entry types should be included in the scheme changes table above for better understanding of the overall scheme change picture. Symbol, indent level, and title are required for all types except “D” which requires only a symbol.
- #“Transferred to” column must be completed for all C, D, F, and Q type entries. F groups will be deleted once reclassification is completed.
- When multiple symbols are included in the “Transferred to” column, avoid using ranges of symbols in order to be as precise as possible.
- For administrative transfer of documents, the following text should be used: “< administrative transfer to XX>” or “<administrative transfer to XX and YY simultaneously>” when administrative transfer of the same documents is to more than one place.
- Administrative transfer to main trunk groups is assumed to be “invention information”, unless otherwise indicated, and to 2000 series groups is assumed to be “additional information”.

### **B64C23/069**

**using one or more wing tip airfoil devices, e.g. winglets, splines, wing tip fences or raked wingtips**

#### **Definition statement**

*This group/subgroup/subclass covers:*
