F21K	F21V 9/16	References out of a residual place	Delete: Selection of luminescent materials for light screens F21V 9/16
F21K 2/00	F21V 9/16	References out of a residual place	Delete: Using excitation by another light source F21V 9/16
F21S 8/00	F21V 14/00	Informative reference	Modify text of the reference: Controlling the distribution of the light emitted by adjustment of elements F21V 14/00
F21S 10/00	F21V 14/00	Informative reference	Modify text of the reference: Controlling the distribution of the light emitted by adjustment of elements F21V 14/00

NOTES:

- The CRL tables above are used for changes to locations **outside** of the project scope. Changes to references in scheme titles or definitions **inside** the project scope will be reflected in the “scheme change” template or one of the “definition” templates.
- In addition to other changes proposed in the tables above, in the column titled “Referenced subclass or group to be changed,” **referenced** D symbols should indicate an action of “delete” or should indicate a replacement symbol and **referenced** F symbols should indicate a replacement symbol.
- When a reference is deleted, text related to that reference will also be deleted unless other references or a range of references associated with the same text remain.
