A41G 1/007

{Artificial trees}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

A41G 1/009

{Artificial grass (surfaces simulating grass [E01C 13/08](#))}

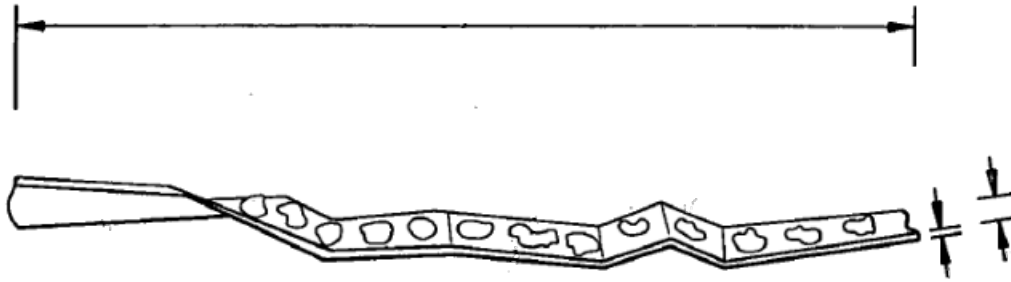

Definition statement

This place covers:

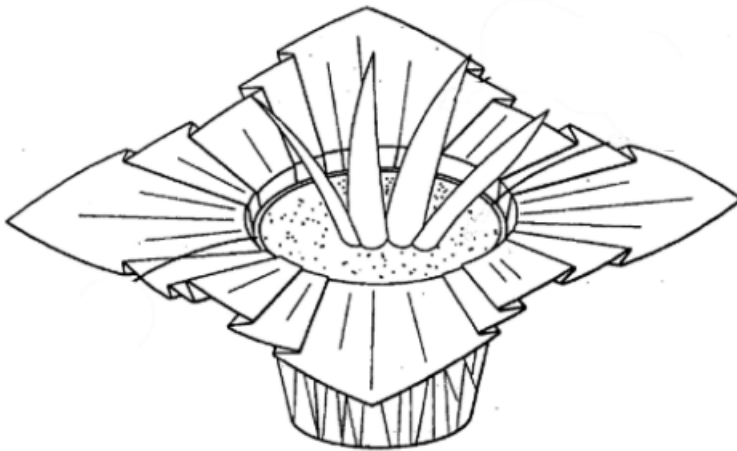

Artificial grass blade shapes and sheet materials imitating grass, often used for decorating plants or flowerpots.

Illustrative examples of subject matter classified in this place:

1.

2.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Formation of filaments by cutting or fibrillating films	D01D 5/42
Flexible sheet glued on macromolecular material, characterised by their backing, e.g. secondary backing, back-sizing	D06N 7/0036
Models for demonstration purposes of scenic effects, e.g. trees or rocks	G09B 25/08

Special rules of classification

This group does not cover layered constructions with under surface simulating grass fields. Artificial turf with such layered constructions, often including drainage systems, is classified in [E01C 13/08](#).

Glossary of terms

In this place, the following terms or expressions are used with the meaning indicated:

turf	a sod of grass, with the roots and earth adhering
------	---

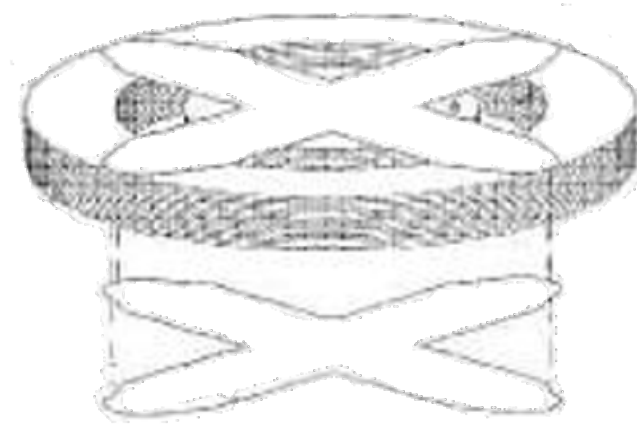

A41G 1/04

Garlands; Assembly of garlands

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

The Figure illustrates a multicolour garland fabricating method for use in decoration field, involves taking garland in stack of sheet, taking another garland to ream another stack of sheet and integrating ends of stacks to combine two garlands together.

Decorative bow structures	D04D 7/10

Glossary of terms

In this place, the following terms or expressions are used with the meaning indicated:

garland	a wreath made of flowers, leaves, worn on the head like a crown or hung about an object for decoration
---------	--

A41G 3/00

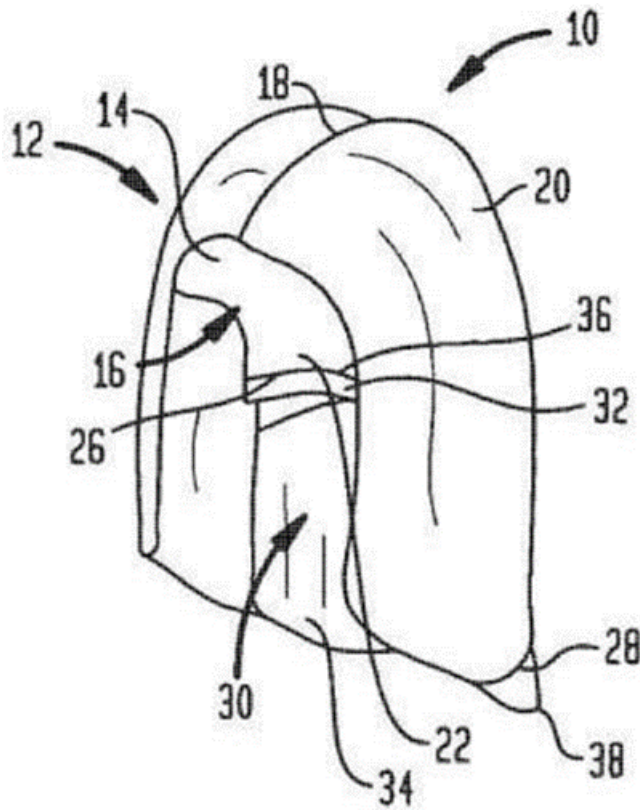

Wigs (for dolls only [A63H 3/44](#))

Definition statement

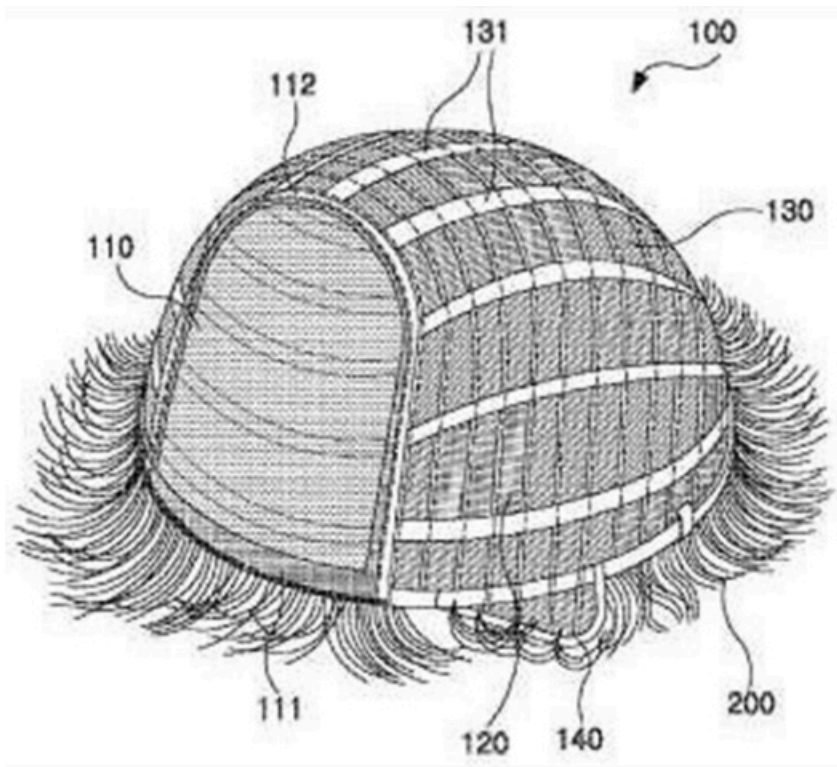

This place covers:

Illustrative examples of subject matter classified in this place:

1. Adjustable wig

2. Wig comprising cap with nano-silver

References

Limiting references

This place does not cover:

Wigs for dolls only	A63H 3/44
---------------------	---------------------------

Special rules of classification

Wigs covering complete hair area of head are classified in [A41G 3/00](#) and lower groups.

Hair pieces covering part of hair area of head (i.e. bald area) are classified in [A41G 5/00](#) and lower groups.

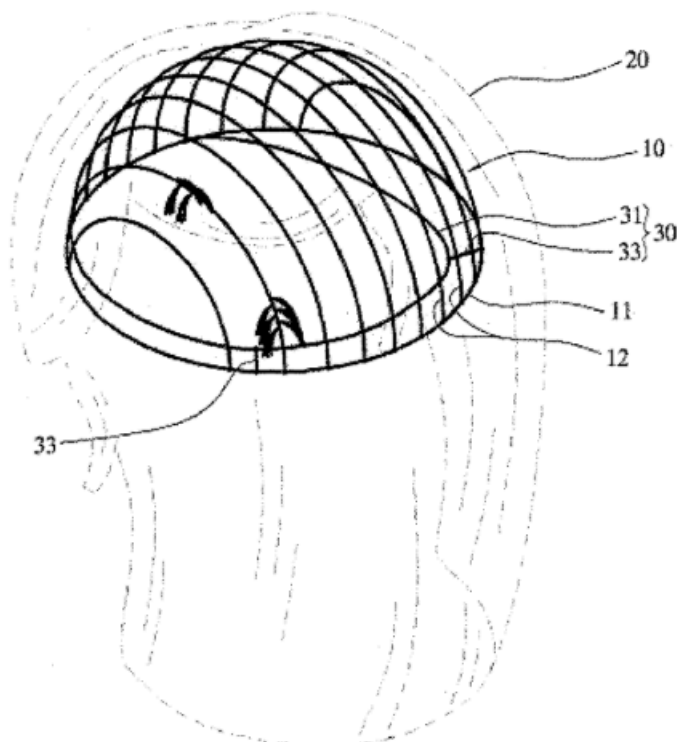

A41G 3/005

{made of a net structure}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

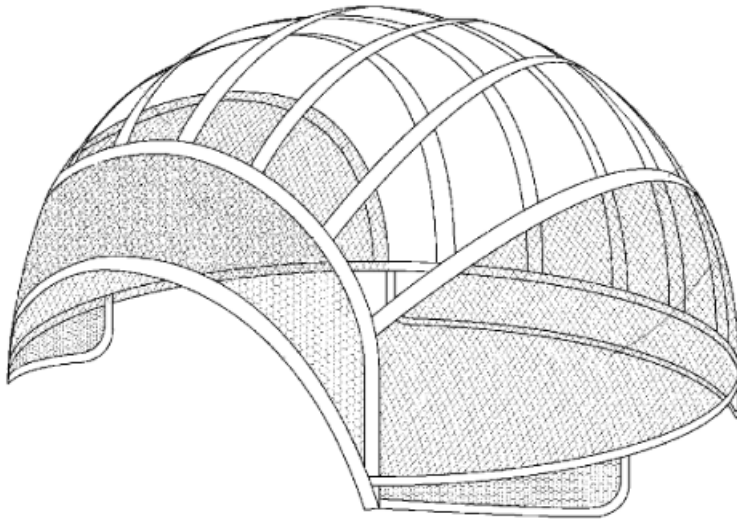

A41G 3/0058

{made of a frame structure}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

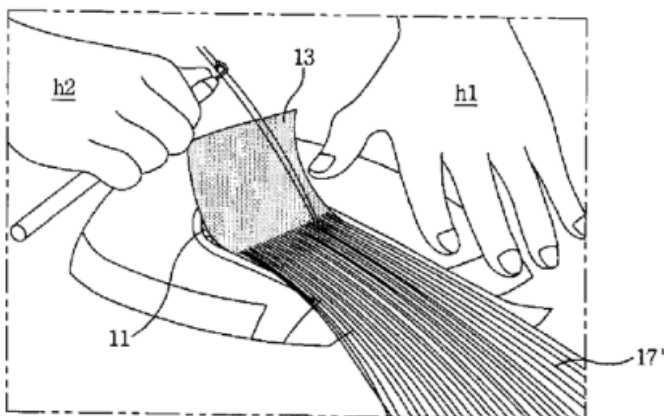

A41G 3/0077

{for fixing hair filaments on wig bases}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

The Figure illustrates a hand-braiding method for hair with skin net and wig produced thereby.

A41G 3/0083

{Wigs characterised by their hair filaments}

Definition statement

This place covers:

Hair filaments specially adapted for wigs.

Illustrative examples of subject matter classified in this place:

1. A hairpiece

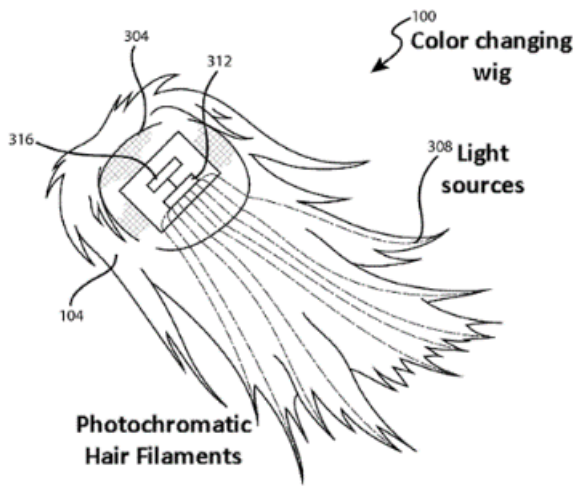

Figure 1 illustrates a perspective view of an underside of a hairpiece. The individual strands of the hairpiece (100) may be interwoven in a cap portion (304) adapted to fit on the head or other body section of the wearer.

Definition statement

2.

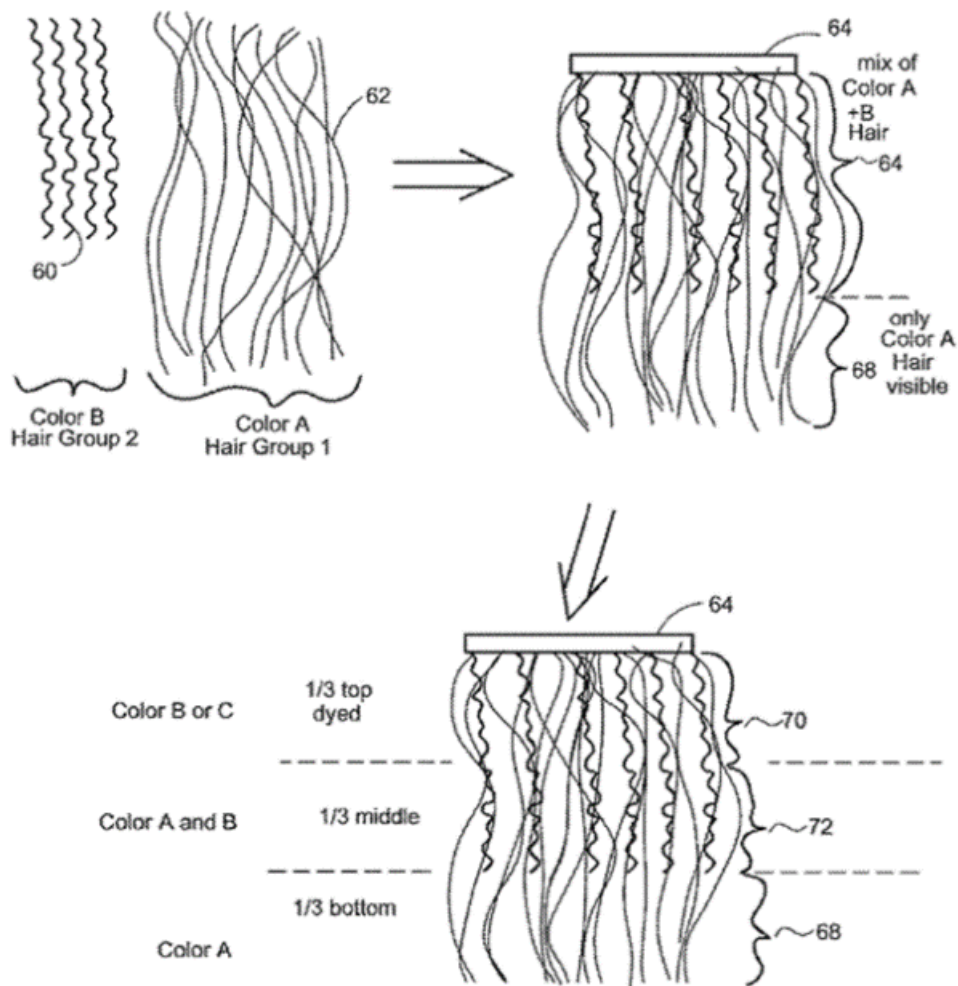

Figure 2 illustrates a process showing the starting hair groups 1 and 2, the combination or joinder of hair groups 1 and 2, and the final colour processing step.

Relationships with other classification places

Material aspects of hair filaments, such as chemical compositions, construction or shape or treatments applied thereto, are classified in the respective material scheme(s) (e.g. [D01E](#), [D01D](#), [D06M](#)) and may be designated under group [D10B 2503/08](#) to indicate their intended use in wigs.

Body deodorants	A61Q 15/00

A41G 5/00

Hair pieces, inserts, rolls, pads, or the like; Toupées

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Hair fillers, e.g. wire gratings	A45D 8/38
----------------------------------	---------------------------

Special rules of classification

Wigs covering complete hair area of head are classified in group [A41G 3/00](#) and lower groups.

Hairpieces covering part of hair area of head (i.e. bald area) are classified in [A41G 5/00](#) and lower groups.

Hairpieces covering partial bald area are classified in group [A41G 5/0006](#) and lower groups.

Glossary of terms

In this place, the following terms or expressions are used with the meaning indicated:

toupée	a patch of false hair or small wig to cover a bald spot
--------	---

A41G 5/0006

{Toupées covering a bald portion of the head}

Definition statement

This place covers:

Illustrative examples of subject matter classified in this place:

1.

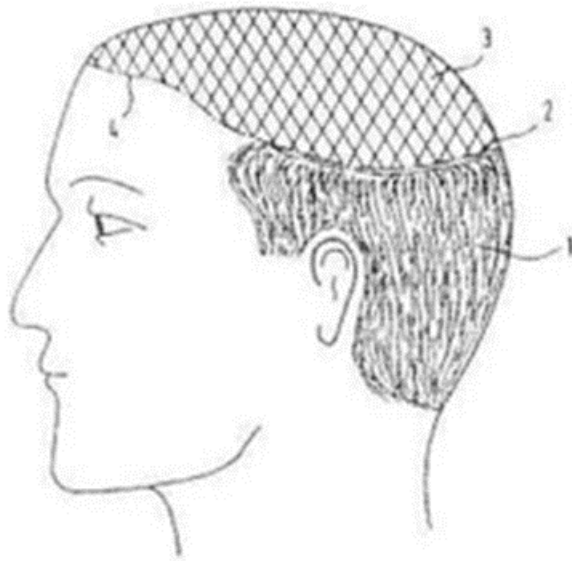

Figure 1 illustrates a toupée wearing acclimation in three suggested stages.

2.

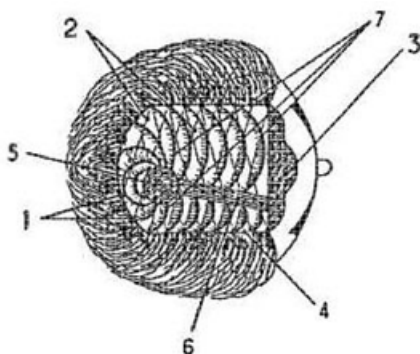

Figure 2 illustrates a hairpiece with small leather washers (1) which are fixed to the hair and to the scalp by double sided adhesive tape. A network of threads (2) is stitched to these and three nets (3,5,6), of different sizes, are fixed to the threads and form the front, centre and parting. Made-to-measure hairpiece fixed to hair by using small washers (1) to cover baldness.

Special rules of classification

Wigs covering complete hair area of head are classified in group [A41G 3/00](#) and lower groups.

Hairpieces covering part of hair area of head (i.e. bald area) are classified in group [A41G 5/00](#) and lower groups.

Hairpieces covering partial bald area are classified in group [A41G 5/0006](#) and lower groups.

Glossary of terms

In this place, the following terms or expressions are used with the meaning indicated:

toupée	a patch of false hair or small wig to cover a bald spot
--------	---

A41G 5/004**{Hairpieces, e.g. hair extensions}****Definition statement***This place covers:*

Illustrative examples of subject matter classified in this place:

1.

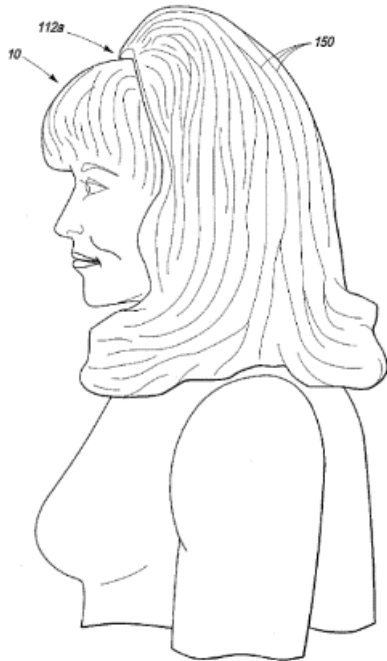

Figure 1 illustrates hair addition for providing bump effect.

2.

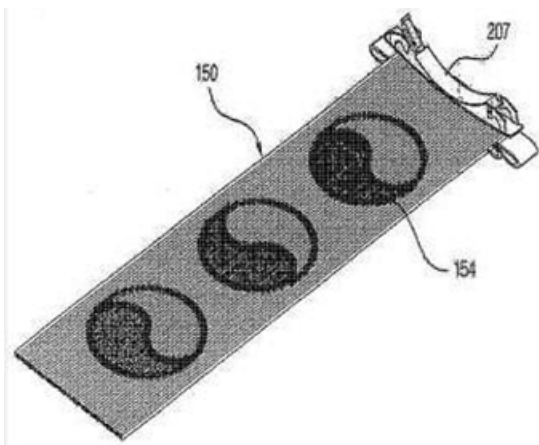

Figure 2 illustrates decorated hairpieces and method for decorating hairpieces.

Special rules of classificationWigs covering complete hair area of head are classified in [A41G 3/00](#) and lower groups.

Hairpieces covering part of hair area of head (i.e. bald area) are classified in group [A41G 5/00](#) and lower groups.

Hairpieces covering partial bald area are classified in group [A41G 5/0006](#) and lower groups.

Forming hair extensions from bundles of hair are classified in group [A41G 5/0046](#) and lower groups.

Hairpieces held by head covering or headband are classified in group [A41G 5/0093](#).

Hair extensions alone are classified in group [A41G 5/004](#), but when hair extension is characterised by the fastening technique, classify only in group [A41G 5/0053](#) and lower groups and not in group [A41G 5/004](#).

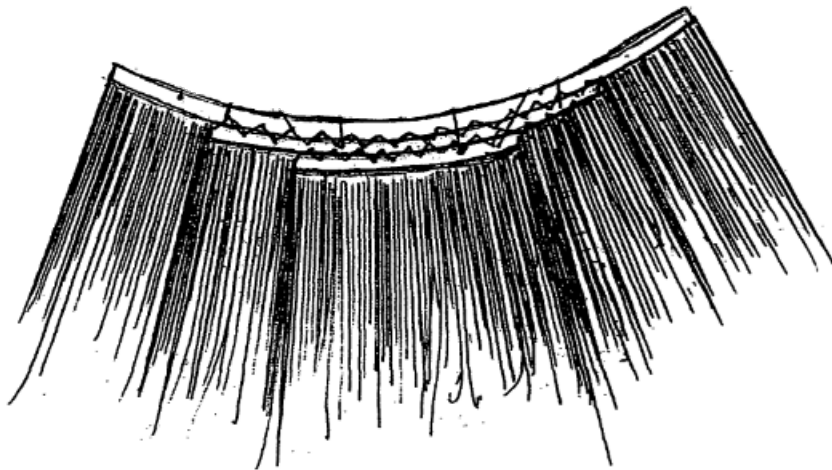

A41G 5/0046

{forming hair extensions from bundles of hair}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

A41G 5/0053

{Fastening thereof}

Special rules of classification

For hair extensions alone class in [A41G 5/004](#), but when hair extension is characterized by the fastening technique, class only in [A41G 5/0053](#) and lower groups and not in [A41G 5/004](#).

A41G 5/0086

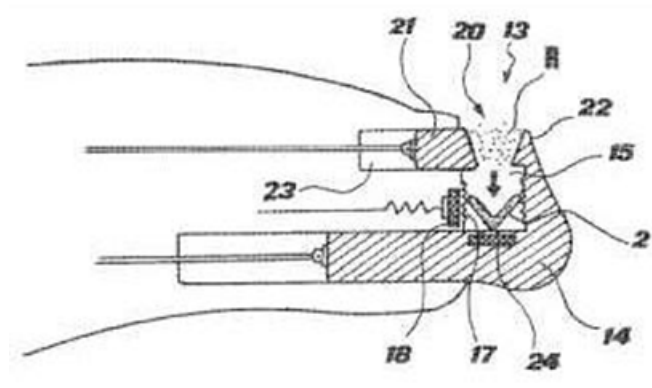

{Applicators or tools for applying hairpieces to the user}

Definition statement

This place covers:

Applicators or tools for applying or removing hair extensions.

Illustrative example of subject matter classified in this place:

The Figure illustrates a hair extension with method of application thereof and device for applying hair extensions.

Joining of preformed plastic parts, by internal stresses, i.e. shrinking	B29C 65/68

A41G 5/0093

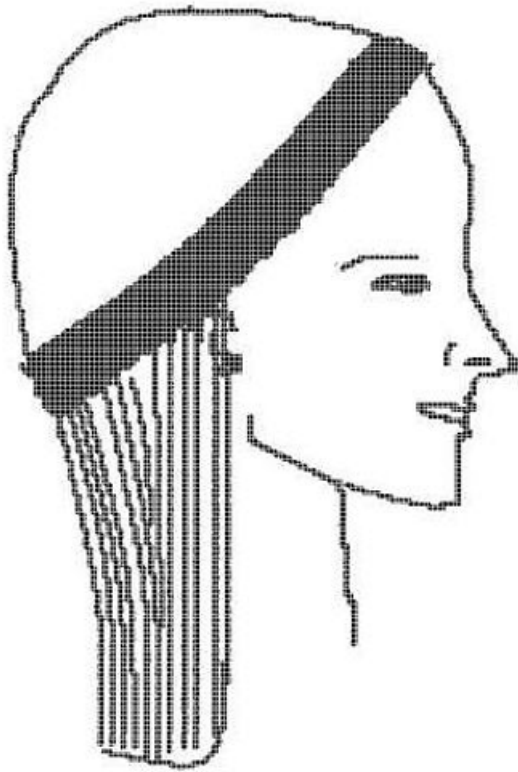

{connected to head accessories or to hair accessories, e.g. connected to scarves}

Definition statement

This place covers:

Hairpieces held by head covering or headband.

Illustrative example of subject matter classified in this place:

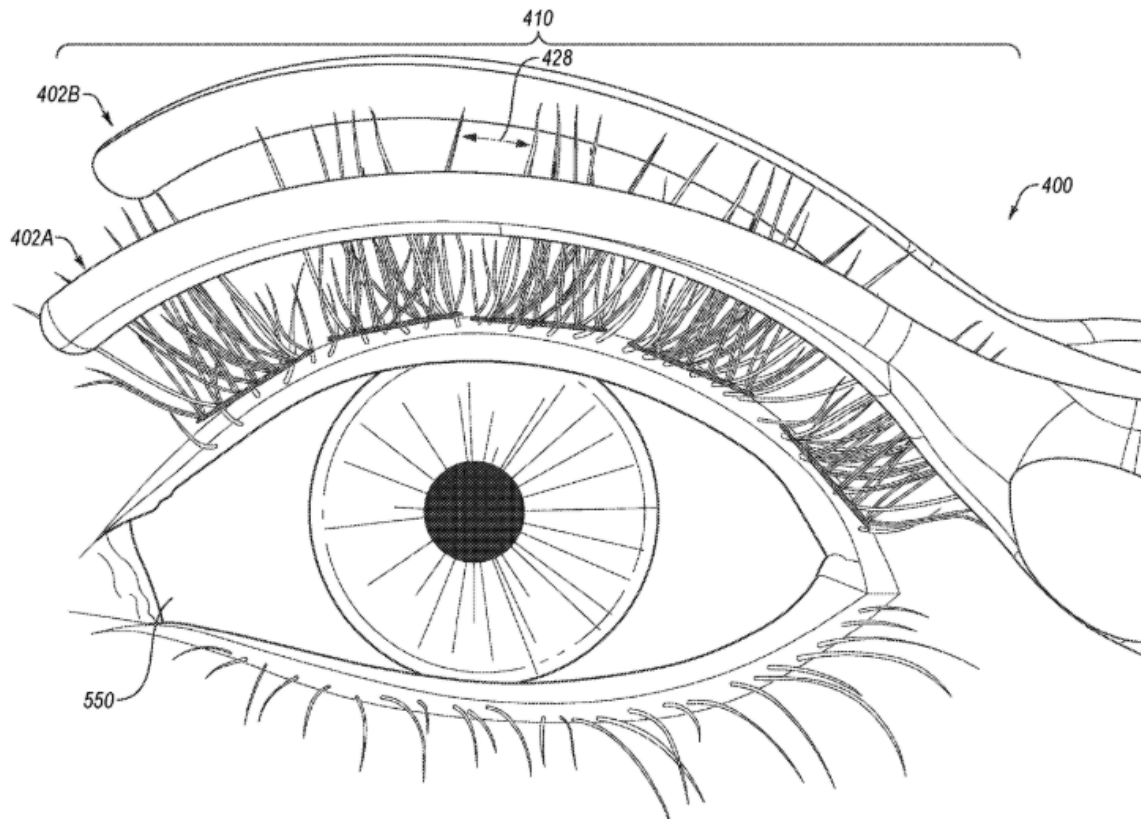

A41G 5/026

{Applicators or tools for attaching artificial eyelashes or eyebrows to user's head}

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

The Figure illustrates an electric applicator (400) used to affix the artificial lash extensions to the natural lashes.

A41G 5/027

{Methods for attaching artificial eyelashes or eyebrows to user's head}

Special rules of classification

If the process for applying the artificial eyelashes or eyebrows is defined by use of a specific, inventive applicator or tool, classification should be made in group [A41G 5/026](#) and not group [A41G 5/027](#).

A41G 7/00

Masks or dominoes for concealing identity, e.g. for theatrical use

Definition statement

This place covers:

Illustrative example of subject matter classified in this place:

Decorative mask
