Glossary of terms

In this place, the following terms or expressions are used with the meaning indicated:

Bagatelle	A modification of billiards in which the players' object is to strike the balls so that they, and perhaps other balls, shall fall into numbered holes that determine the score. Usually the bagatelle table has a rounded far end and a channel on the right hand side along which the balls are propelled. The bagatelle requires the players standing at the square end of the table hitting the balls with a cue towards the holes at the other end.
Children's bagatelle	Consist of marbles or balls that are shot onto a board which features areas fenced in by nails hammered into its surface. Each container scores different points depending upon the likelihood of a ball finishing in it (it is normally smaller than a bagatelle, table size).
