

B62B

HAND-PROPELLED VEHICLES, e.g. HAND CARTS OR PERAMBULATORS; SLEDGES (characterised by animal propulsion [B62C](#); propulsion of sledges by driver or engine [B62M](#))

Definition statement

This place covers:

"Hand carts" also embraces hand-propelled wheeled devices in so far as the features thereof are generic to hand carts and also embraces pedestrian controlled power-driven vehicles in so far as the features thereof are generic to hand carts.

References

Limiting references

This place does not cover:

Vehicles drawn by animals	B62C
Propulsion of sledges by driver or engine	B62M

Informative references

Attention is drawn to the following places, which may be of interest for search:

Carriages for welding	B23K 37/02
Vehicles with the driver not being seated	B62D 51/00
Devices for moving or tilting heavy loads	B65G 7/00

Special rules of classification

Although wheels or skis can be mounted to almost every mechanical item, not every such item should be classified in [B62B](#); e.g. items characterised by their functions for special applications are classified in the appropriate subclasses, e.g. office furniture on wheels in [A47B](#), lawn-mowers in [A01D 34/00](#), wheeled vacuum cleaners in [A47L](#), etc.

Synonyms and Keywords

In patent documents, the following words/expressions are often used as synonyms:

- "rollers" and "wheels"

B62B 1/00

Hand carts having only one axis carrying one or more transport wheels; Equipment therefor

Definition statement

This place covers:

Hand carts with only a single wheel axis and hand carts with a single wheel axis that can be converted to a two-axis hand cart

B62B 1/04

involving parts being adjustable, collapsible, attachable, detachable, or convertible

B62B 3/00

Hand carts having more than one axis carrying transport wheels; Steering devices therefor; Equipment therefor {(convertible from one-axled to two-axled vehicle [B62B 1/002](#))}

Definition statement

This place covers:

Hand carts with at least two wheel axes, one behind the other

References

Limiting references

This place does not cover:

Hand carts having more than one wheel axis that can be converted into single-axis hand carts	B62B 1/002
Hand carts having essentially one wheel axis and a load being disposed between this wheel axis and the handles and comprising an additional wheel, e.g. wheel mounted on a strut	B62B 1/186

{Foldable roll containers}

Definition statement

This place covers:

"roll containers" which can be folded in some way to achieve a smaller storage volume, for example by folding down their side walls, by folding up the bottom, etc. The term "roll container" means that the container is being provided with wheels, casters or the like to enable the container to be rolled along a surface. The term "foldable" refers to the "container" as a whole, and not only to the rolls.

Collapsible or detachable roll containers are also covered by this group.

B62B 3/027

{collapsible shopping trolleys}

Special rules of classification

Used also for foldable or detachable shopping trolleys

B62B 3/06

for simply clearing the load from the ground (masted lift trucks [B66F](#))

Definition statement

This place covers:

Low-lift hand trucks for transporting goods
