

F05D**INDEXING SCHEME FOR ASPECTS RELATING TO NON-POSITIVE-DISPLACEMENT MACHINES OR ENGINES, GAS-TURBINES OR JET-PROPULSION PLANTS****F05D 2230/90****Coating; Surface treatment****References****Informative references**

Attention is drawn to the following places, which may be of interest for search:

Manufacture with deposition of material	F05D 2230/30
---	------------------------------

F05D 2240/127**Vortex generators, turbulators, or the like, for mixing****References****Informative references**

Attention is drawn to the following places, which may be of interest for search:

Improvement of heat transfer by creating turbulence	F05D 2260/2212
---	--------------------------------

F05D 2260/2212**by creating turbulence****References****Informative references**

Attention is drawn to the following places, which may be of interest for search:

Vortex generators, turbulators or the like, for mixing	F05D 2240/127
--	-------------------------------

F05D 2260/6022**of leakage having past a seal****References****Informative references**

Attention is drawn to the following places, which may be of interest for search:

Leaf seals	F05D 2240/57
Glands for admission or removal of fluids from shafts	F05D 2240/63

F05D 2260/61

Removal of CO₂

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Removal of carbon dioxide from waste gases	B01D 53/62
--	----------------------------

F05D 2260/95

Preventing corrosion

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Coating or surface treatment	F05D 2230/90
------------------------------	------------------------------

F05D 2270/14

to control thermoacoustic behaviour in the combustion chambers

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Preventing, counteracting or reducing vibration or noise	F05D 2260/96
--	------------------------------
