# CPC COOPERATIVE PATENT CLASSIFICATION

## B PERFORMING OPERATIONS; TRANSPORTING

(NOTES omitted)

### **SHAPING**

B23 MACHINE TOOLS; METAL-WORKING NOT OTHERWISE PROVIDED FOR (NOTES omitted)

SOLDERING OR UNSOLDERING; WELDING; CLADDING OR PLATING BY SOLDERING OR WELDING; CUTTING BY APPLYING HEAT LOCALLY, e.g. FLAME CUTTING; WORKING BY LASER BEAM (making metal-coated products by extruding metal B21C 23/22; building up linings or coverings by casting B22D 19/08; casting by dipping B22D 23/04; manufacture of composite layers by sintering metal powder B22F 7/00; arrangements on machine tools for copying or controlling B23Q; covering metals or covering materials with metals, not otherwise provided for C23C; burners F23D)

#### NOTES

- 1. This subclass <u>covers</u> also electric circuits specially adapted for the purposes covered by the title of the subclass.
- 2. In this subclass, the following term is used with the meaning indicated:
  - "soldering" means uniting metals using solder and applying heat without melting either of the parts to be united

#### **WARNINGS**

1. The following IPC groups are not in the CPC scheme. The subject matter for these IPC groups is classified in the following CPC groups:

B23K 35/04 - B23K 35/20 covered by B23K 35/363 covered by B23K 35/3601 - B23K 35/3618

2. In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

	g. brazing, or unsoldering (essentially requiring the use achines or welding equipment, see the relevant groups	1/018	Unsoldering; Removal of melted solder or other residues
	ng machines or welding equipment)	1/06	• making use of vibrations, e.g. supersonic vibrations
1/00	<b>Soldering, e.g. brazing, or unsoldering</b> (B23K 3/00 takes precedence; characterised only by the use of special materials or media B23K 35/00; dip or wave soldering in the manufacture of printed circuits	1/08 1/085 1/14	<ul> <li>Soldering by means of dipping in molten solder</li> <li>{Wave soldering}</li> <li>specially adapted for soldering seams (making tubes involving operations other than soldering B21C)</li> <li>longitudinal seams, e.g. of shells</li> </ul>
