CPC COOPERATIVE PATENT CLASSIFICATION

E FIXED CONSTRUCTIONS

BUILDING

E02 HYDRAULIC ENGINEERING; FOUNDATIONS; SOIL SHIFTING

E02F DREDGING; SOIL-SHIFTING (winning peat <u>E21C 49/00</u>)

NOTE

This subclass covers:

- primarily equipment for excavating or loosening earth or for moving loose earth;
- equipment for working similarly on other materials and similar equipment for loading or unloading materials

WARNINGS

3/141 {buckets}

1. The following IPC groups are not in the CPC scheme. The subject matter for these IPC groups is classified in the following CPC groups:

E02F 3/39 covered by <u>E02F 3/286, E02F 3/306, E02F 3/3402</u> E02F 3/85 covered by <u>E02F 3/841, E02F 3/842, E02F 3/844, E02F 3/845, E02F 3/847</u>

2. In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

1/00	General working methods with dredgers or	3/142	• • • • {tools mounted on buckets or chains which
	soil-shifting machines (methods for making		loosen the soil, e.g. cutting wheels, or the
	embankments <u>E02D 17/18</u> ; methods for mining		like (teeth <u>per se</u> <u>E02F 9/28</u>)}
	<u>E21C</u>)	3/143	• • • • {chains; chain links; scraper chains (chains or chain guides <u>E21C 25/28</u>)}
3/00	Dredgers; Soil-shifting machines (for special	3/144	
	purposes E02F 5/00; other machines or apparatus for	3/144	• • • • {emptying or cleaning the buckets, e.g. in combination with spoil removing
	mining E21C; tunnelling E21D)		
3/02	 hand-operated {; handheld soil shifting equipment 	2/145	equipment}
	acting by sucking E02F 3/8891 (spades or rakes for	3/145	{drives}
	agriculture or gardening purposes A01B)}	3/146	• • • • {guides for chains or buckets, e.g. for
3/04	 mechanically-driven 		buckets movable relative to chains (chains
3/045	• • {with oscillating digging tools, e.g. oscillating	2/1/-	or chain guides <u>E21C 25/28</u>)}
	spades}	3/147	• • • • {arrangements for the co-operation
3/06	• • with digging screws {(earth drilling <u>E21</u> ; for	2/1/0	between buckets or buckets and wheels}
	digging trenches or ditches $\underline{E02F5/04}$)	3/148	• • • • {wheels, sprokets}
3/08	• • with digging elements on an endless chain	3/16	Safety or control devices (safety devices in
-,	(conveyors <u>B65G</u>)		general <u>F16P</u> ; controlling in general <u>G05</u>)
3/081	• • • {mounted on floating substructures (floating	3/18	• • with digging wheels turning round an axis {,
-,	substructures per se E02F 9/06)}		e.g. bucket-type wheels (for digging trenches
3/082	• • • {including a belt-type conveyor for		E02F 5/08; for laying cables underwater
<i>5,</i> 552	transporting the excavated material }		<u>E02F 5/109</u> ; cutting machines <u>E21C 25/00</u> ;
3/083	• • • {including a screw-type conveyor for		methods or apparatus for making tunnels or
5,005	transporting the excavated material}	2/101	galleries <u>E21D 9/00</u>)}
3/085	• • • { with auxiliary or additional digging elements	3/181	• • {including a conveyor}
5,005	other than digging elements on an endless	3/183	• • • {with digging unit shiftable relative to the
	chain}	2/105	frame}
3/086	• • {vertically shiftable relative to the frame}	3/185	• • • {with digging unit mounted in a plane which
3/087	• • • {with digging unit working in a plane inclined		is inclined to the direction of travel; with tools
0,00,	to the direction of travel	2/106	digging laterally with respect to the frame}
3/088	• • • {pivotable relative to the frame}	3/186	• • • {with the axis being substantially parallel to the
3/10	• • with tools that only loosen the material {, i.e.	2/100	direction of travel}
5/10	with cutter-type chains}	3/188	• • • { with the axis being horizontal and transverse
3/12	• • Component parts {, e.g. bucket troughs}	2/20	to the direction of travel}
3/14	Buckets; Chains; Guides for buckets or	3/20	• • with tools that only loosen the material {, i.e.
3/14	chains; Drives for chains		mill-type wheels}
	chains, Direction chains		

3/205	• • • • { with a pair of digging wheels, e.g. slotting machines (implements for making	3/3417 {Buckets emptying by tilting (<u>E02F 3/342</u> , <u>E02F 3/345</u> take precedence)}
	foundation slots with definition of the walls or foundations <u>E02D 17/13</u> ; bulkheads	3/342 Buckets emptying overhead (E02F 3/348 - E02F 3/358 take precedence)
	or similar walls made solely of concrete in situ E02D 5/18; with a pair of buckets	3/345 Buckets emptying side-ways (E02F 3/348 - E02F 3/358 take precedence)
3/22	<u>E02F 3/475</u>)} Component parts	3/348 Buckets emptying into a collecting or conveying device
3/24	Digging wheels; Digging elements of	3/3483 {Buckets discharging on a conveyor or
3/241	wheels; Drives for wheels {digging wheels}	elevator mounted on the machine} 3/3486 {Buckets discharging overhead into a
3/243	• • • • {wheels rotatable in both directions}	container mounted on the machine}
3/245	• • • • { with digging elements mounted movable	3/352 Buckets movable along a fixed guide
	relative to the wheel}	3/355 Buckets connected to the rear end of a tractor
3/246	• • • • {drives}	{not used}
3/248	• • • • {Cleaning the wheels or emptying the	3/358 Bucket-arms pivoted on a turntable being
	digging elements mounted on the wheels,	part of a tractor frame {or buckets arranged
	e.g. in combination with spoil removing	on a turntable supported by the arms}
	equipment}	3/36 Component parts
3/26	Safety or control devices (safety devices in	3/3604 {Devices to connect tools to arms, booms or
	general <u>F16P</u> ; controlling in general <u>G05B</u>)	the like}
3/28	with digging tools mounted on a dipper- or	3/3609 {of the quick acting type, e.g. controlled
	bucket-arm {, i.e. there is either one arm or a pair	from the operator seat (quick-acting
2/202	of arms}, e.g. dippers, buckets	couplers to connect booms or arms
3/283	• • • { with a single arm pivoted directly on	to tractors <u>E02F 3/627</u> ; quick-acting
	the chassis (linkage mechanism for it	couplers for machines mounted on tractor
