(NOTE omitted)

# F24H FLUID HEATERS, e.g. WATER OR AIR HEATERS, HAVING HEAT-GENERATING MEANS, e.g. HEAT PUMPS, IN GENERAL (steam generation F22)

### **NOTES**

- 1. The distinguishing feature of the air heaters covered by this subclass is that the heat is predominantly released to the air by convection, mostly by forced circulation of the air. The domestic stoves or ranges covered by subclasses F24B, F24C may also be fired or electric air heaters but they release their heat to a considerable extent by radiation and only to some extent by natural convection.
- 2. In this subclass, the following terms are used with the meanings indicated:
  - "water" includes other liquids and means always the liquid to be heated;
  - "air" includes other gases or gas mixtures and means always the gas to be heated;
  - "furnace tubes" means tubes inside the heater wherein combustion is performed;
  - "fire tubes" means tubes inside the heater through which flue-gases flow from a combustion chamber located outside the tubes;
  - "heater" means apparatus including both heat generating means and means for transferring the generated heat to water or air.
- 3. All storage heaters are classified in group F24H 7/00.

1/00	Water heaters, e.g. boilers, continuous-flow	1/122	• • • {combined with storage tank}

9/1877 . . . Arrangement or mounting of combustion heating means, e.g. grates or burners

#### WARNING

Group F24H 9/1877 is incomplete pending reclassification of documents from group F24H 9/1854.

Groups <u>F24H 9/1854</u> and <u>F24H 9/1877</u> should be considered in order to perform a complete search.

9/1881 . . . using fluid fuel 9/189 . . . using solid fuel

9/20 • Arrangement or mounting of control or safety devices

#### WARNING

Group  $\underline{F24H\ 9/20}$  is impacted by reclassification into groups  $\underline{F24H\ 9/25}$ ,  $\underline{F24H\ 9/28}$ , and  $\underline{F24H\ 15/00}$  -  $\underline{F24H\ 15/493}$ .

All groups listed in this Warning should be considered in order to perform a complete search.

9/2007 . . {for water heaters}

## **WARNING**

Group <u>F24H 9/2007</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2014 . . . {using electrical energy supply}

## **WARNING**

Group <u>F24H 9/2014</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2021 . . . . {Storage heaters}

## **WARNING**

Group <u>F24H 9/2021</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00 - F24H 15/493</u>.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2028 . . . (Continuous-flow heaters)

#### WARNING

Group <u>F24H 9/2028</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - <u>F24H 15/493</u>.

All groups listed in this Warning should be considered in order to perform a complete search. 9/2035 . . . {using fluid fuel}

#### WARNING

Group <u>F24H 9/2035</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2042 . . . {Preventing or detecting the return of combustion gases}

#### WARNING

Group <u>F24H 9/2042</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - <u>F24H 15/493</u>.

All groups listed in this Warning should be considered in order to perform a complete search.

9/205 . . . . (Closing the energy supply)

#### WARNING

Group <u>F24H 9/205</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2057 . . . {using solid fuel}

## **WARNING**

Group <u>F24H 9/2057</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2064 • • { for air heaters }

## **WARNING**

Group <u>F24H 9/2064</u> is impacted by reclassification into groups <u>F24H 9/25</u>, F24H 9/28, and F24H 15/00 - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2071 . . . {using electrical energy supply}

### **WARNING**

Group <u>F24H 9/2071</u> is impacted by reclassification into groups <u>F24H 9/25</u>, <u>F24H 9/28</u>, and <u>F24H 15/00</u> - F24H 15/493.

All groups listed in this Warning should be considered in order to perform a complete search.

9/2078 • • • {Storage heaters} 9/45 . . for preventing galvanic corrosion, e.g. cathodic or electrolytic means WARNING WARNING Group F24H 9/2078 is impacted by reclassification into groups Group F24H 9/45 is impacted by F24H 9/25, F24H 9/28, and reclassification into groups F24H 9/40, F24H 9/455, and F24H 9/457. <u>F24H 15/00</u> - <u>F24H 15/493</u>. All groups listed in this Warning should All groups listed in this Warning should be be considered in order to perform a considered in order to perform a complete complete search. search. 9/2085 • • {using fluid fuel} 9/455 • • {for water heaters} 9/457 {for air heaters} WARNING 15/00 **Control of fluid heaters** Group F24H 9/2085 is impacted by reclassification into groups F24H 9/25, **WARNING** F24H 9/28, and F24H 15/00 - F24H 15/493. Groups <u>F24H 15/00</u> - <u>F24H 15/493</u> are incomplete All groups listed in this Warning should be pending reclassification of documents from considered in order to perform a complete groups F24D 19/10 - F24D 19/1096 and search. F24H 9/20 - F24H 9/2092. • • {using solid fuel} 9/2092 All groups listed in this Warning should be considered in order to perform a complete search. WARNING 15/10 . characterised by the purpose of the control Group F24H 9/2092 is impacted by 15/104 . . Inspection; Diagnosis; Trial operation reclassification into groups F24H 9/25, F24H 9/28, and F24H 15/00 - F24H 15/493. 15/108 . . Resuming operation, e.g. after power outages 15/112 . . Preventing or detecting blocked flues All groups listed in this Warning should be 15/116 . . . Disabling the heating means in response thereto considered in order to perform a complete search. 15/12 . . Preventing or detecting fluid leakage 15/124 . . Preventing or detecting electric faults, e.g. electric 9/25 . . of remote control devices or control-panels leakage **WARNING** 15/128 . . Preventing overheating 15/132 . . . Preventing the operation of water heaters with Groups <u>F24H 9/25</u> and <u>F24H 9/28</u> are low water levels, e.g. dry-firing incomplete pending reclassification of 15/136 . . Defrosting or de-icing; Preventing freezing documents from groups F24H 9/20, 15/14 . . Cleaning; Sterilising; Preventing contamination F24H 9/2007, F24H 9/2014, F24H 9/2021, by bacteria or microorganisms, e.g. by replacing F24H 9/2028, F24H 9/2035, F24H 9/2042, fluid in tanks or conduits F24H 9/205, F24H 9/2057, F24H 9/2064, 15/144 . . Measuring or calculating energy consumption F24H 9/2071, F24H 9/2078, F24H 9/2085, and 15/148 . . . Assessing the current energy consumption F24H 9/2092. 15/152 . . . Forecasting future energy consumption All groups listed in this Warning should be considered in order to perform a complete 15/156 . . Reducing the quantity of energy consumed; Increasing efficiency search. 15/16 . . Reducing cost using the price of energy, e.g. 9/28 . . . characterised by the graphical user interface choosing or switching between different energy [GUI] sources 9/40 . Arrangements for preventing corrosion 15/164 . . . where the price of the electric supply changes **WARNING** with time 15/168 . . Reducing the electric power demand peak Groups F24H 9/40, F24H 9/455, and F24H 9/457 Scheduling based on user demand, e.g. 15/172 are incomplete pending reclassification of determining starting point of heating documents from group F24H 9/45. Supplying heated water with desired temperature 15/174 All groups listed in this Warning should be or desired range of temperature considered in order to perform a complete 15/175 . . . where the difference between the measured search. temperature and a set temperature is kept under a predetermined value 15/176 . . Improving or maintaining comfort of users 15/18 . . . Preventing sudden or unintentional change of fluid temperature 15/184 . . Preventing harm to users from exposure to heated water, e.g. scalding 15/196 Automatically filling bathtubs or pools; Reheating the water in bathtubs or pools 15/20 . characterised by control inputs

15/40 15/407

15/414

15/421

. . using electrical switching, e.g.  $\ensuremath{\mathsf{TRIAC}}$ 

. . . using pre-stored data

. . using electronic processing, e.g. computer-based

15/204	Temperature of the air before heating	15/429	• • • for selecting operation modes
15/208	Temperature of the air after heating	15/436	• • • for selecting sleeping modes
