

## G01W

**METEOROLOGY (influencing weather conditions A01G15/00; dispersing fog E01H13/00; instruments for measuring single variable in general, see the appropriate subclass of G01, e.g. G01K, G01L; obtaining meteorological information by radar G01S13/95)**

### Definition statement

*This subclass/group covers:*

Measurement of certain ambient atmospheric conditions.

Adaptations of balloons, missiles, or aircrafts for meteorological purposes.

Radiosondes.

Devices for predicting weather conditions.

Weather houses or similar ornamental devices for indicating humidity.

Sunshine-duration recorders.

Rainfall or precipitation gauges.

Measuring atmospheric potential differences, e.g. due to electrical charges in clouds.

Catathermometers for measuring "cooling value" related either to weather conditions or to comfort of other human environment.

Testing or calibrating meteorological apparatus.

### Relationship between large subject matter areas

Instruments for measuring single physical variables, e.g. temperature, pressure or wind speed, should be classified in the appropriate subclasses of class G01, e.g. [G01K](#), [G01L](#) or [G01P](#) whereas [G01W](#) should be used for the classification of instruments specializing or combining those measurements for the purpose of deducing, indicating or forecasting weather conditions or meteorological information.

### References relevant to classification in this subclass

*This subclass/group does not cover:*

Radar, sonar, lidar or analogous systems, designed for meteorological use	<a href="#">G01S 13/95</a> , <a href="#">G01S 15/88</a> , <a href="#">G01S 17/95</a>

Alarms responsive to formation or anticipated formation of ice	<a href="#">G08B 19/02</a>
Alarms responsive to calamitous events, e.g. tornados	<a href="#">G08B 21/10</a>
Transmission systems for measured values	<a href="#">G08C</a>
Systems involving transmission of highway information, e.g. weather	<a href="#">G08G 1/0967</a>
Traffic control systems for aircraft with surveillance aids for monitoring atmospheric conditions	<a href="#">G08G 5/0091</a>
Arrangements in telecontrol or telemetry systems for selectively calling a substation from a main station	<a href="#">H04Q 9/00</a>

### Special rules of classification within this subclass

The following elements are classified in the appropriate subgroup of [G01W](#), and are given the following Indexing Codes as additional information:

Weather detection, monitoring and forecasting for establishing global warming	<a href="#">G01W 2201/00</a>
Real-time site-specific personalized weather information, e.g. nowcasting	<a href="#">G01W 2203/00</a>

### Glossary of terms

*In this subclass/group, the following terms (or expressions) are used with the meaning indicated:*

Meteorology	includes measurement of certain ambient atmospheric conditions
-------------	--

### Synonyms and Keywords

CAT	Clear Air Turbulence
-----	----------------------

## G01W 1/00

### Meteorology

#### Special rules of classification within this main group

This group also contains the following elements, in which case the indicated Indexing Code needs to be given as additional information:

Clear air turbulence (CAT) detection and/or forecasting, e.g. for aircrafts	<a href="#">G01W 2001/003</a>
Main server receiving weather information from several sub-stations	<a href="#">G01W 2001/006</a>

## G01W 1/02

**Instruments for indicating weather conditions by measuring two or more variables, e.g. humidity, pressure, temperature, cloud cover, wind speed (G01W1/10 takes precedence)**

#### References relevant to classification in this subgroup

*This subclass/group does not cover:*

Devices for predicting weather conditions	<a href="#">G01W/10</a>
---	-------------------------

## G01W 1/06

**giving a combined indication of weather conditions (catathermometers for measuring "cooling value" related either to weather conditions or to comfort of other human**

environment G01W1/17; computers per se G06)

### References relevant to classification in this subgroup

*This subclass/group does not cover:*

Catathermometers for measuring "cooling value" related to either weather conditions or to comfort of other human environment	<a href="#">G01W/17</a>
--	-------------------------

### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

Computers per se	<a href="#">G06F</a>
------------------	----------------------

## G01W 1/08

**Adaptations of balloons, missiles or aircraft for meteorological purposes; Radiosondes (transmission of measurements G01D; transmitting circuits H04B; [N: balloons in general B64B; aeroplanes in general B64D; missiles in general F42B15/00])**

### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

Transmission systems for measured values	<a href="#">G08C</a>
Self-propelled projectiles or missiles for carrying measuring instruments	<a href="#">F42B 15/08</a>

## G01W 1/12

**Sunshine duration recorders (measuring intensity of sunshine G01J)**

### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

Measuring intensity of sunshine	<a href="#">G01J 1/00</a> , <a href="#">G01J 5/00</a>
Solar radiation detection for vehicle heating, cooling or ventilation	<a href="#">B60H 1/0075</a>

## G01W 1/14

**Rainfall or precipitation gauges (measuring intensity of sunshine G01J)**

### References relevant to classification in this subgroup

*This subclass/group does not cover:*

Rain sensors for cleaning of vehicles, e.g. window wiper control	<a href="#">B60S 1/0818</a>
--	-----------------------------

### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

Measuring volume in general	<a href="#">G01F</a>
-----------------------------	----------------------

## G01W 1/16

**Measuring atmospheric potential differences, e.g. due to electrical charges in clouds (measuring potentiels in general G01R)**

### Informative references

*Attention is drawn to the following places, which may be of interest for search:*

Measuring potential differences in general	<a href="#">G01R 19/00</a> , <a href="#">G01R 29/00</a> , <a href="#">G01R 29/0842</a>
Installations of lightning conductors	<a href="#">H02G 13/00</a>

## G01W 1/17

**Catathometers for measuring "cooling value" related to either**

**weather conditions or to comfort of other human environment**

**Informative references**

*Attention is drawn to the following places, which may be of interest for search:*

Electric circuits for transmission of signals between vehicle parts or subsystems concerning the atmospheric environment	<a href="#">B60R 16/0237</a>
--	------------------------------
