MEANS RESPONSIVE TO A SENSED CONDITION

Foreign material
Drive interrupt
Grain loss
By detector at sieve or screen or grain pan
Machine load
Moisture

HAVING MEANS TO DISTRIBUTE OR LEVEL CROP MATERIAL

In association with shaking table
And baffle for grain

WITH RECYCLING OF PROCESSED MATERIAL

With means to recycle processed material from sieve, grate, or screen
Rethreshing
By separate diverse threshing means

CLOVER HULLER WITH FEEDER

Having grasping system for shelling or cutting
Feeder for husker (e.g., feeder table)
With band cutter
And cooperating means for feeder

CONVERTIBLE COMBINED WITH DIVERSE ART DEVICE (E.G., HOISTING, DIGGING) WITH HOPPER

FLAX THRESHER CORN PROCESSING APPARATUS

With corn snapping or husking means
Compound roll having snapping and husking surface
Diverse functioning multiple roll pairs
Including a husking or snapping roll
Including roll mounting means
Including particular roll construction
With rib or bar
With teeth
With abrasive surface, e.g., rubber surface
With cooperating member
Including roll adjusting means

By suction means (e.g., husking by suction, per se)
With cutting
Shredding
Debutting
Slitting
With separating system (e.g., removing husked trash)
With trash container
With blower means
With shelling
Concave and cylinder
Disk
Knife
Slitter
Tipper
Reciprocating knife
Stationary knife
Rotary knife
Pivotal mount
Longitudinally of cob axis
Radially mounted
Having adjustment means
Peripheral action

THRESHING
With relief valve in rotor section
Flail machine
With adjusting means for threshing cylinder
With prethreshing cylinder
Vertical axle type
Centrifugal
Axial flow through threshing section
Flared cylinder
Rotor formed with integral feed section
With axial flow separator
With feed means for threshing section
With bar (e.g., rasp bar, inclined blade)
Adjustable
With beater
With accelerator roll
Transverse threshing section
Multiple threshing cylinders
With axial flow to opposed ends
With cutting

SEPARATOR

Axial
Separating cylinder

December 2000
.Foraminous periphery without associated concave
.Multiple cylinders
.Including deflector means
.Straw walker
.Endless apron
.Overhung rake
.Rotary rake
...Mounted on crank shaft
.Shaking table
.Oscillating
...And reciprocating
.Reciprocating
...Mounting of
...Suspended
...With material vibrator
.CLEANER
.Rotary cleaner
.Air control affecting air flow
.With fan feature
.Sieve or grate
.Screen
.WITH MEANS TO CLEAN MACHINE
.Concave cleaner
.WITH STONE TRAP
.Pivoting trap
.Screen
.WITH CONCAVE
.Grid or grate
.Adjustable
...Teeth, bars, blades, etc.
.STRAW CHAFF SPREADER OR HANDLING
.(DISCHARGE)
.With chopper
.BEATER
.TRANSPORT CONVEYOR
.Pneumatic
.DRIVE RELATED FEATURES
.DUST HANDLING
.DRIER
.MACHINE COMPONENT ARRANGEMENT AND STRUCTURE, E.G., ENGINE PLACEMENT, GRAIN BIN
.RACK, GRATE BAR EXTENSION
.TOOTH STRUCTURE
.Mounting means
.FRUIT OR VEGETABLE PROCESSING APPARATUS
.Pre-stripper
.Declustering
...Including picking or plucking (peanuts, hops or similar material)
.Spike tooth

Cross-reference art collections
.MATERIAL DISTRIBUTOR
.GRAIN CLEANER
.GRAIN SAVER
.POTATO DIGGER
.STRAW OR CHAFF STACKER

Foreign art collections
IFORM CLASS-RELATED FOREIGN DOCUMENTS
