ROUNDABOUT

With structure for causing reciprocal translation of roundabout along vertical path (e.g., elevator, etc.)

Having feature for facilitating transport by vehicle structure

And occupant propelled seesaw

...Seesaw operated drive structure helps maintain roundabout motion

Powered toy type

...Having article completely supported by rotating tether, arm, or suspending structure

...Article carried propulsion means

....Having altitude control structure

....Electric motor

...Having altitude control structure

...Article travels over stationary track or platform

Marine

...Occupant propelled

...Trainer for foot travel (e.g., for walking, skating, etc.)

...Having carrier rotating about horizontal axis

...And orthogonal axis intersecting therewith

...Having carrier rotating about stationary inclined axis

...By roundabout mounted drive structure used to maintain motion

...Occupant support pivotally suspended from above

...Occupant bearing travel wheel driven by crank structure (e.g., pedaled cycle, etc.)

...Endless belt or chain

...Ratchet

...Cooperating gears

...Having hemispherically shaped base

...Having traveling wheel or roll

...Having occupant or article carriage mounted propulsion means

. Having freely moving occupant or article carriage on turning platform

. Having carrier rotating about vertical axis (e.g., merry-go-round, etc.)

..And about horizontal axis (e.g., turntable supported ferris wheel, etc.)

..About plural discrete, vertical axes

..Suspended occupant or article carriage type

...Circularly traveling, centrifugal swing

...Carriage moves repeatedly up and down

...Rotating platform

..Using individual occupant or article carriage to ride on stationary track or platform

...Vertically undulating track or platform

...Outwardly varying path

..Using cantilevered arm arrangement to repeatedly move occupant or article up and down

..Disk, ring, or bowl

...Concentric arrangement

...Employing occupant or article carriage moving repeatedly up and down

..Occupant or article carriage follows stationary, horizontally winding, track or platform

. Having carrier rotating about horizontal axis

. Having suspended occupant or article carriage (e.g., ferris wheel, etc.)

...About plural discrete, horizontal axes

. Having carrier rotating about an axis having varying angular orientation

WALKWAY HAVING MOVABLE FLOOR OR STAIR STEP

PARACHUTE-DROP SIMULATOR

HAVING TRIP-RELEASE SUPPORTING PERSON AGAINST GRAVITY

FOR PERPETRATING PRACTICAL JOKE OR INITIATION CEREMONY

July 2005
52. Unexpectedly expels fluid or powder (e.g., into face of victim, etc.)
53. And produces unexpected noise
54. Unexpectedly falls apart or projects movable or free part
55. User contacted by attached projected part
56. Produces unexpected noise, vibration, or electric shock
57. ILLUSION OR STAGE DEVICE
58. Alternative scenes provided by reflection from and transmission through transparent mirror
59. Person experiences illusion of being in motion (e.g., travel simulation, etc.)
60. By use of video or projected picture
61. Illusion caused by video, projected picture, or special light effect
62. Maze or labyrinth
63. Illusion caused by mirror
64. Illusion caused by sound imitation or effect
65. Illusion caused by visual imitation of event occurring in nature (e.g., rain, snow, fire, etc.)
66. Pyrotechnic display
67. Simulation of self-propelled object in liquid filled container (e.g., Cartesian diver)
68. Illusion caused by apparent levitation
69. Illusion caused by apparent penetration or severance
70. Illusion caused by simulation of or attachment to human body part
71. Illusion caused by apparent appearance or disappearance
72. Illusion caused by apparent change in color, printed matter, surface texture, or rigidity
73. Card trick illusion
74. Illusion caused by abnormal interior building structure appearing normal
75. Stage apparatus or setting

76. Having rapid movement
77. Shifting scenery or curtain
78. Hoisting apparatus
79. Guide, brace, or clip
80. Aerial suspension device
81. Prop
82. Tank
83. Simulates vehicle
84. Simulates animal

ILLUSION OR STAGE DEVICE
85. For nonhuman animal (e.g., horse racetrack, etc.)
86. For dog

RACETRACK
87. For wheeled vehicle (e.g., for bicycle, roller skate, etc.)
88. For foot-attached gliding vehicle (e.g., ski slide, ice skating surface, etc.)
89. Surface moves as a whole or comprises rotatable or rollable elements
90. Surface or enclosure for athletic or exhibition event (e.g., arena, track, court, playing field, etc.)
91. Fight ring
92. Walled enclosure (e.g., racquetball or paddle tennis court, etc.)
93. Rockable animal simulation having rider seat means (e.g., rocking horse, etc.)
94. With power or externally operated rocking means
95. Motor operated (e.g., mechanical bull, etc.)
96. Having animal sound simulation
97. Having relatively movable animal part
98. Having safety feature
99. Combined with disparate device
100. Having arcuate rocking base
101. Having spring support
102. Coiled type
103. Plural coiled springs
104. Seesaw
105. Motor operated
106. Foot, hand, or seat operated
107. Having safety feature
108. One person type

July 2005
CLASS 472 AMUSEMENT DEVICES

111 .Having horizontally maintained seat
112 .Having counterbalance means
113 .Spring assisted
114 .Having arcuate base
115 .Collapsible

BODY SLIDE
117 .Water slide

SWING
119 .Motor operated
120 .Having hand and foot operator
121 .Having hand operator
122 .Cable grasp
123 .Pulley mounted
124 .Having foot operator with separate suspender
125 .For plural occupants

SANDBOX TYPE
127 BODY-SUPPORTING SIMULATED LOG-ROLLING DEVICE (I.E., BIRLING DEVICE)

AQUATIC
129 .Body-supporting buoyant device

SIMULATES AIRCRAFT OR SPACE VEHICLE OR SIMULATES THE MOVEMENT THEREOF

OCCUPANT SUPPORT TRANSLATABLE ALONG VERTICAL PATH

OPERATED BY OR USING LIVE ANIMAL

BODY ATTACHED, WORN, OR CARRIED

INFLATABLE OR PNEUMATIC

OCCUPANT OPERATED ROCKING, OSCILLATING, OR BOUNCING DEVICE

BUILDING OR PART THEREOF
