This Class 601 is considered to be an integral part of Class 128 (see the Class 128 schedule for the position of this Class in schedule hierarchy). This Class retains all pertinent definitions and class lines of Class 128.

KINESITHERAPY

1. Ultrasonic
2. Hyperthermia
3. Contact-free comminution of concretion
4. Means for passive movement of disabled extremity to return natural range of motion
5. Vacuum
6. With means for attaching diverse devices to vacuum
7. With spring-actuating means
8. Alternating positive and negative pressure
9. Negative pressure interrupted
10. Body member enclosing blood circulation stimulation of the head
11. Applied to eye
12. Applied to bust
13. With light, thermal, magnetic, or electrical application
14. Thermal medium is a continuous stream of heated air
15. Comprising means for applying fluid, medicament, cosmetic, or cream to the skin
16. Applicator having specific movement
17. Rollers applied to the body
18. Electrical application
19. Electrical application
20. Foot
21. Exercising appliance
22. Chair, couch, bed, or table
23. Including means to rotate head about a longitudinal axis of body
24. With drive means
25. Foot
26. Foot support having protuberances
27. Reciprocating foot support
28. Vibrant foot support
29. Oscillating foot support
30. Rotating foot support
31. Joint or limb (e.g., wrist, arm, leg, etc.)
32. Leg
33. Pair of legs
34. Bicycle
35. Eye
36. Jaw
37. Neck
38. Hand and finger
39. Artificial respiration
40. Seesaw
41. Produced by vacuum and compression
42. Conforms to shape of torso portion
43. Obstetric
44. Vibrator
45. Audio
46. Pulse generator
47. Couch, chair, or body support
48. Gyratory motion
49. Reciprocatory motion
50. Roller
51. Oscillatory motion
52. Specific component
53. Fluid
54. Having vibrator contained therein
55. Drive means directly attached or extending into cushion
56. Vibrator support for cushion structure (e.g., spring)
57. Unbalanced weight having drive means
58. Movable membrane
59. Spring activated
60. Roller applied to the body
61. With heating means
62. Unbalanced weight having drive means
63. Support with vibrant armature
64. Unbalanced weight
65. Manually operated
66. With drive means
67. Electric drive
68. Belt retained on body trunk
69. Hand supported
70. Transverse handle
71. Belt retained on hand

October 2002
75 ...Fluid drive means
76 ...Fluid pressure causes aural vibration
77 ...Diaphragm actuated
78 ...Vibrant armature (e.g., electromagnetic)
79 ...Secured to user's body
80 ...Handheld
81 ...Extended or attached body-contacting member
82 ...Reciprocating weight
83 ...Vibrant slide
84 Device with applicator having specific movement
85 ...Gyratory
86 ...Couch, chair, or other body support
87 ...Electric drive means
88 ...Fluid drive means
89 ...Oscillatory
90 ...Couch, chair, or other body support
91 ...Seat
92 ...Specific component
93 ...Electric drive means
94 ...Including a plurality of massaging balls, rollers, or wheels
95 ...Including a plurality of massaging teeth, projections, or filaments
96 ...Fluid drive means
97 ...Reciprocating
98 ...Couch, chair, or other body support
99 ...Roller
100 ...Vertically reciprocating platform
101 ...Electric drive means
102 ...Roller contacting intermediate surface
103 ...Multiple applicators
104 ...Foot
105 ...Fluid drive means
106 ...To restore heart beat
107 ...Percussing
108 ...Having drive means
109 ...Brush
110 ...Ball
111 ...Multiple applicators
112 ...Rotary
113 ...Ball
114 ...Brush
115 ...Rolling utilizing couch, chair, or other support
116 ...Reciprocating
117 ...Including bodies disposed above user
118 ...Rolling with body or bodies disposed on single axis
119 ...Rolling with elongated handle means carrying tubular or disklike bodies
120 ...With handle means at ends of axis (e.g., rolling pin type)
121 ...Consisting solely of a tubular body
122 ...Rolling with tubular or disklike bodies disposed on multiple axes
123 ...With elongated handle means
124 ...Belt-supported elements
125 ...Hand manipulated
126 ...With drive means
127 ...Including bodies mounted on rotated cylindrical structure
128 ...Rolling with spherical bodies disposed on multiple axes
129 ...Rolling with elongated handle carrying spherical bodies
130 ...With drive means
131 ...Rolling comprising freely rotating spherical bodies
132 ...Belt support carrying spherical bodies
133 ...Pinching
134 ...Kneading or deep pressure
135 ...With hand-manipulating means
136 ...Frictioning
137 ...Hand manipulated
138 ...Frictioning surface configured as padlike member
139 ...Gum massager
140 ...With dual arms hinged at base
141 ...With elongate handle means (e.g., toothbrush)
142 ...With drive means
143 ...Belt supported
144 ...With drive means
145 ...With means for mounting upon floor
146 ...Couch, chair, or other support
147 ...Multiple belts
148 ...Flexible membrane caused to move by fluid pressure
...For applying pulsating or sequential pressure
150 ...Control means for causing pulsation
151 ...Body member enclosing or encircling
152 ....Pulsating pressure or sequentially inflatable
153 .....Means for enclosing internal body organ (e.g., heart)
154 ..Lavative
155 ...With means for connection to outside source
156 ....Couch, chair, or bath with air spray means
157 ....Couch, chair, or bath with means to create a whirlpool
158 ...Couch, chair, bath, or other support
159 ...With control of fluid dispersion (e.g., shampoo device)
160 ...Fluid current propelled onto user
161 ....Gun type
162 ....Dental (e.g., Waterpick®)
163 .....With multiple jets
164 ......With arcuate band to conform to teeth (e.g., mouthguard)
165 .....With means for connection to fluid source
166 ....Enclosing part of body
167 ...Portable or detachable device to create whirlpool in bath
168 ....Mat or ring-type aerator
169 ...Nozzle head
