

CLASS D13, EQUIPMENT FOR PRODUCTION, DISTRIBUTION, OR TRANSFORMATION OF ENERGY

SECTION I - CLASS DEFINITION

This class provides for design patents claiming ornamental designs for:

1. Solid Fuel
2. Energy Conservation or Transformation
3. Distribution, Modification, or Control
4. Magnet
5. Casing or Enclosure Not Elsewhere Specified
6. Miscellaneous

- (1) Note. Design patents in this class are classified by what is claimed and shown in full and broken line disclosure.

SECTION II - REFERENCES TO OTHER CLASSES

SEE OR SEARCH CLASS:

- D7, Equipment for Preparing or Serving Food or Drink Not Elsewhere Specified, subclass 324 for solar collector-type cooking oven.
- D8, Tools and Hardware, subclasses 307 through 312 for switch knob; subclasses 350-353 for cover plate for receptacle, junction box, or wall switch; subclasses 354-360.1 for cable support, or mounting for conduit; subclass 364 for standoff support for electric line insulator.
- D10, Measuring, Testing, or Signalling Instruments, subclasses 30 through 39 for electrically driven apparatus, such as electric watches; subclass 40 for timer; subclasses 46-103 for housing for measuring or testing instruments; subclass 70 for radar; subclasses 75-80 for apparatus for regulating or indicating electrical property; subclass 77 for battery tester; subclass 105 for lightening conductor or arrestor; subclass 106.1 for remote controls specific to security systems.
- D14, Recording, Communication, or Information Retrieval Equipment, subclass 218 for remote control unit for audio or video component; subclass 230 for impedance matching transformer;

subclasses 240-256 for element or attachment for telephone equipment; subclass 256 for telephone connector; subclasses 388-420 for computer interface or control; subclasses 402-410 for computer mouse; subclasses 412-416 for computer joystick; subclass 433 for computer connector or coupler; subclasses 435-438 for cartridge, chip, or card.

- D15, Machines Not Elsewhere Specified, subclasses 1 through 5 for internal combustion engine or steam engine; subclass 144 for electric welding apparatus; subclass 199 for motor unit for garage door opener.
- D18, Printing and Office Machinery, subclass 26 for light emitting gas discharge matrix display unit.
- D21, Games, Toys, and Sports Goods, subclass 404 for magnetic-type toy; subclass 332 for console for video game; subclass 556 for toy remote control or transformer for toy vehicle.
- D22, Arms, Pyrotechnics, Hunting and Fishing Equipment, subclass 112 for blasting equipment.
- D23, Environmental Heating and Cooling; Fluid Handling and Sanitary Equipment, subclass 417 for electric heating element.
- D25, Building Units and Construction Elements, subclasses 126 through 135 for post or transmission tower.
- D26, Lighting, subclass 119 for lamp guard or protector; subclasses 68-69 for post combined with lamp or light.

SUBCLASSES

100 SOLID FUEL:

This subclass is indented under the class definition. Design for material for burning or consumption for the production of energy.

- (1) Note. Includes ceramic briquette.

SEE OR SEARCH THIS CLASS, SUBCLASS:

103 through 106, for battery.

SEE OR SEARCH CLASS:

- 44, Fuel and Related Compositions, subclasses 530 through 535 for fuel product or defined shape or structure.

- D7, Equipment for Preparing or Serving Food or Drink Not Elsewhere Specified, subclass 324 for solar collection-type cooking oven.
- D23, Environmental Heating and Cooling; Fluid Handling and Sanitary Equipment, subclass 417 for electric heating element.

101 ENERGY CONVERSION OR TRANSFORMATION:

This subclass is indented under the class definition. Design for power source or device that alters the form or quality of power.

- (1) Note. Includes maser or laser.
- (2) Note. Includes transducer.

SEE OR SEARCH CLASS:

- D7, Equipment for Preparing or Serving Food or Drink Not Elsewhere Specified, subclass 324 for solar warming or cooking oven.
- D10, Measuring, Testing, or Signalling Instruments, subclass 77 for battery tester; subclass 105 for lightening conductor or arrestor.
- D15, Machines Not Elsewhere Specified, subclasses 1 through 5 for internal combustion engine or steam engine.
- D23, Environmental Heating and Cooling; Fluid Handling and Sanitary Equipment, subclass 417 for electric heating element.
- D25, Building Units and Construction Elements, subclasses 126 through 135 for post or transmission tower.

123 DISTRIBUTION MODIFICATION OR CONTROL:

This subclass is indented under the class definition. Design for means of transmitting or distributing energy from one point to another.

SEE OR SEARCH THIS CLASS, SUBCLASS:

- 162, for control panel or console with specific manual control element.
- 162 through 164, for programmable controller.

SEE OR SEARCH CLASS:

- D8, Tools and Hardware, subclasses 350 through 353 for cover plate for receptacle, junction box or wall switch; subclasses 354-360.1 for cable support or mounting for conduit; subclass 364 for standoff support for electric line insulator.
- D10, Measuring, Testing, or Signalling Instruments, subclass 77 for battery tester; subclass 105 for lightening conductor or arrestor; subclass 106 for remote controls specific to security systems.
- D14, Recording, Communication, or Information Retrieval Equipment, subclass 218 for remote control unit for audio or video component; subclasses 240-256 for element or attachment for telephone equipment; subclass 256 for telephone connector; subclasses 388-420 for computer interface or control; subclass 433 for computer connector or coupler; subclasses 435-438 for cartridge, chip, or card.
- D21, Games, Toys, and Sports Goods, subclass 332 for console for video game; subclass 556 for toy remote control or transformer for toy vehicle.

183 MAGNET:

This subclass is indented under the class definition. Design for object that attracts or repels metal by force of a magnetic field.

- (1) Note. Includes magnetizer or demagnetizer.

SEE OR SEARCH CLASS:

- D8, Tools and Hardware, subclasses 382 through 399 for fastener or coupling.
- D21, Games, Toys, and Sports Goods, subclass 404 for magnetic-type toy.
- D34, Material or Article Handling Equipment, subclass 35 for lifting magnet specific to crane or hoist.

184 CASING OR ENCLOSURE NOT ELSEWHERE SPECIFIED:

This subclass is indented under the class definition. Design for housing or covering not elsewhere specified.

SEE OR SEARCH CLASS:

D8, Tools and Hardware, subclasses 350 through 353 for cover plate for receptacle, junction box, or wall switch.

199 MISCELLANEOUS:

This subclass is indented under the class definition. Design relating to the production, distribution, or transformation of energy not elsewhere provided for.

- (1) Note. Includes electrode not elsewhere specified

END
