**For** Apparatus and instruments for accumulating and storing electricity; structural parts for apparatus and instruments for
accumulating and storing electricity; components, namely, accumulators and batteries for electricity storage systems; parts,
namely, accumulators and batteries for electricity storage devices; parts, namely, power adapters and electrical storage
batteries and accumulators for charging devices; batteries for electric and hybrid vehicles; fuel cells for electric and hybrid
vehicles; inductive charging systems for electric and hybrid vehicles composed of magnetic coils, batteries, charging stations;
measuring instruments in the nature of instruments for measuring length, weight, temperature, time, power, current intensity,
chemical amount and light intensity, tool measuring instruments, radiation measuring instruments; counting instruments,
namely, money counting machines; alignment instruments, namely, vehicle wheel alignment machines; calibrating
instruments, namely, calibration devices for ultrasonic testers; pipettes for diagnostics for laboratory use; measuring spoons;
measuring jugs; structural parts of scales for scientific research and laboratory use; laboratory apparatus, namely, dispensers
for dispensing pre-determined quantities of reagents for laboratory use; solid pressed wood parts and synthetic resin pressed
wood parts as structural parts of power transformers; insulators for electrical transformers; plastic structural parts of
transformers and thermometers, test tubes, spectrosopes being chemical laboratory apparatus; plastic goods, namely, parts in
the nature of housings for scientific, nautical, measuring, electric, weighing, signalling, controlling, rescuing or teaching
apparatuses and instruments, as well as for coined operated mechanisms for vending machines and fire extinguishers; plastic parts
in the nature of housings for switchgears, measuring apparatus, high-frequency plants, electrical and signal apparatus for traffic
engineering, cable runs

**Claimed Ownership of US Registrations** 3251910, 3512790, 4799199 and others

**GOODS AND SERVICES INFORMATION**

For Plastic plates for floors and treads for use in building and construction, all in the nature of building panels, not of metal, floor panels not of metal; building materials, namely, plastic sheets in the nature of non-metal coverings for ceilings and roofs, non-luminous, non-mechanical and non-metal covers for fences, barriers and/or facades for use around the wet areas of swimming pools and sanitary areas; plastic building materials for ice rinks in the nature of slidable plastic sheets for use as building materials for floors of skating rinks; plastic sheets for interior design in the nature of interior decorative panels for building; plastic sheets in the nature of non-metal coverings for ceilings and roofs, non-luminous, non-mechanical and non-metal covers for fences, barriers and/or facades for steps, surfaces and to serve as covers for swimming pools; plastic claddings for building; laminated chipboard; building and construction materials, namely, plates, rings, bars, beams, connectors and supports made of laminated chipboard being parts for construction purposes; synthetic resin pressed wood boards, namely, building panels, not of metal; blocks in the nature of plastic building blocks being building materials not of metal; sliding blocks in the nature of plastic building sliding blocks being building materials not of metal; armour-plating, not of metal, for building being wall panels incorporating impact protection elements, not made of metal

**International Classes** 19 - Primary Classes

**US Classes** 1, 12, 33, 50

**International Class Title** Non-metallic Building Materials
For cutting boards

**International Classes** 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

*For* Physical therapy equipment in the nature of foam rollers, manually-operated resistance tubing, weighted balls; hearing protection devices without the ability to reproduce or transmit sound; feeding aids in the nature of intravenous feeding tubes, cups adapted for feeding babies, feeding bottle teats, external feeding pumps; pacifiers for babies; medical and veterinary apparatuses and instruments, namely, ultrasound and x-ray apparatus for medical and veterinary use; prosthetic in the nature of prosthetic limbs in the nature of arms, feet and legs and artificial implants in the nature of artificial implants, artificial bones for implantation; orthopedic implants made of artificial materials; orthopedic prosthetics, namely, prosthetic arms, prosthetic feet, prosthetic legs; orthopedic and mobility aids, namely, orthopedic walkers and crutches; surgical instruments; fluid injectors for medical purposes; needles for medical purposes; packaging for pharmacy and medical technology, namely, containers for the administration of medicaments in the nature of drug delivery systems, sold empty, drug delivery patches sold without medication, drug delivery devices sold empty, namely, syringes, infusion sets; packaging for pharmacy and medical technology, namely, containers specially adapted for holding surgical instruments, for medical purposes; packaging for pharmacy and medical technology, namely, medical sample container for collecting, preparing, and holding specimens for histological purposes; packaging for diagnostics, namely, medical sample container for collecting, preparing, and holding specimens for histological purposes; drug delivery apparatuses, namely, medical apparatus and units for dosage, measuring and monitoring, namely, drug delivery devices; measuring spoons for administering medicine; medical dosing syringes; syringes for medical purposes; medical apparatus for administering drugs by inhalation, sold empty; applicators for pharmaceutical preparations, namely, medical apparatus for introducing pharmaceutical preparations into the human body; plastic structural parts for medical inhalers; dose counters for use as medical devices, namely, automatic pill counters; droppers for administering medication, sold empty; dropping pipette sets for medical use; plastic structural components for medical spray systems and pump systems in the nature of nose spray and inhalers for medical use; pill distributor and organizer boxes specially adapted for medical use in dispensing medication; closures being structural parts of pill distributor and organizer boxes specially adapted for medical use in dispensing medication; dropping pipettes for medical diagnostics

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

*For* fitted vehicle covers; air bags; covers for vehicle steering wheels; anti-dazzle devices for vehicles, namely, automobile windshield sunshades; brake linings for vehicles; brake boosters in the nature of a brake power amplifier for vehicles; brake discs for vehicles; brake hoses for vehicles; brake shoes for vehicles; brake drums for vehicles; chassis of vehicles; automobile chassis; bodies for vehicles; vehicle seats; doors for vehicles; hoods for vehicles; upholstery for vehicles; centre consoles for vehicles, namely, center console dashboards for vehicles; cockpit components for vehicles, namely, steering wheels, turn signal levers, gear shift covers, automotive windshield shade screens, push buttons; gear lever knobs for vehicles; plastic parts for vehicles in the nature of automotive interior and exterior plastic extruded decorative and protective trim; fitted covers for land vehicles, air vehicles and water vehicles; partition walls and parts that divide engine compartment to form a firewall; aerodynamic fairings for land vehicles, air vehicles and water vehicles, other than parts of machines; door side panels for land vehicles; trunk frame and seat panels being structural parts of land vehicles; automotive interior trim in the nature of frame linings for vehicles; radiator grilles for vehicles, namely, active grill shutters, namely, vehicle vents and radiator shrouds and vehicle custom grills; air flap systems for vehicles, namely, air conditioning ducts as structural parts of vehicles; body parts for...
vehicles, namely, fitted vehicle covers for engines and vehicles parts to protect against falling rocks and corrosion and to improve aerodynamics and sound absorption; water lines, namely, water lines for windscreens washer water for land vehicles, air vehicles, and water vehicles; hydraulic lines, namely, hydraulic circuits for land vehicles, air vehicles, and water vehicles; fuel line hoses for land vehicles, air vehicles, and water vehicles; oil lines, namely, automotive structural parts in the nature of oil storage for land vehicles, air vehicles, and water vehicles; air lines, namely, truck air brake hoses, and air conditioning ducts as structural parts of vehicles for land vehicles, air vehicles, and water vehicles and coolant lines, namely, automotive structural parts in the nature of coolant storage for land vehicles, air vehicles, and water vehicles; parts of land vehicles, air vehicles and water vehicles, namely, tanks for water, hydraulic fluid, fuel, oil, air and coolants; plastic components being structural parts of ship floors; plastic components for rail vehicle construction, namely, rail vehicle exterior and interior plastic extruded decorative and protective trim; parts of vehicles and motorcycles, namely, front dash panels; solid pressed wood parts and synthetic resin pressed wood parts all in the nature of structural parts for land, air and water vehicles; armoured bodies for vehicles, not of metal

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Articles made of plastics for packaging, wrapping and storage, all in the nature of plastic packaging wrap for commercial or industrial use, plastic film roll stock for packaging, plastic bubble packs for wrapping or packaging, and plastic bags for packaging, boxes, containers, and cartons of paperboard or cardboard for commercial or industrial packaging

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Goods and articles made of plastic, namely, cranks, regulators, sieves, bellows, graders, arbours, mandrels, chucks, mufflers, pulleys, brushes, knives, hoods, aprons, cowlings, guards, chain guards, dampers, springs, housings, hammers, grindstones, hangers, bushings, journals, lubricators, shuttles, grabs, bearings, cutterheads, blades, reamers, valves, manifolds, feeders, reels, tools, drums, stators, hay gridders, grinding tools, crimping tools, impact drills, impact crushers, mowing buckets, regulating valves, cylinders, cutter bars, cutters, control valves, pressure valves, machine guides, splines, press tools, rotary dies, rock drills, rotating centres, cutting rollers, cutting strips, cutting inserts, jets, combs, turbine shafts, linking mechanisms, expansion tanks, power chucks, wheels, drilling heads, grease filters, splash preventers, grease rings, slide valves, spindle shafts, cutting tips, rocker arms, screening rollers, core chucks, journal boxes, splash guards, dashpot plungers, slide rests, cylinder blocks, flat dies, taps, printing frames, sealing joints, pressure reducers, linking devices, reducing gears, plug cocks, press rollers, cutting shoes, knitting bobbins, collets, sharpening wheels, saw benches, lubricating installations, grease boxes, spur wheels, elevator chains, shaft bearings, deburring tools, heat exchangers, shoe lasts, tube reamers, tamping rollers, flexible couplings, stuffing boxes, disc screens, planing tools, angle joints, workpiece carriers, lockable valves, rotary shoes, rolls, pressure regulators, reciprocating feeders, polishing buffs, polishing discs, spreader beams, workpiece locators, clack valves, blade holders, spray fittings, spray heads, seed drills, steam condensers, pipes, cylinder covers, drill chucks, dosing valves, wire brushes, grinding tools, mechanical seals, permanent chucks, filters, overload couplings, rotary drills, safety valves, hydraulic valves, casing rings, spring bushes, drilling bits, tool holders, spray valves, fans, cable cylinders, soundproof hoods, saw blades, printing masks, moulding dies, cam rollers, cams, speed reducers, and water heaters, all being parts of machines, motors other than for land vehicles, air vehicles and water vehicles, clutches for machines, transmissions for machines, cultivators, harvesters, disk harrows, seeders being agricultural machines and conveyors being machines; intake manifolds for vehicles; air filters for engines; hoses for use as parts of machines in hydraulic systems; plastic components,
namely, cranks, regulators, sieves, bellows, graders, arbours, mandrels, chucks, mufflers, pulleys, brushes, knives, hoods, aprons, cowlings, guards, chain guards, dampers, springs, housings, hammers, grindstones, hangers, bushings, journals, lubricators, shuttles, grabs, bearings, cutterheads, blades, reamers, valves, manifolds, feeders, reels, tools, drums, stators, hay grippers, grinding tools, crimping tools, impact drills, impact crushers, mowing buckets, regulating valves, cylinders, cutter bars, cutters, control valves, pressure valves, machine guides, splines, press tools, rotary dies, rock drills, rotating centres, cutting rollers, cutting strips, cutting inserts, jets, combs, turbine shafts, linking mechanisms, expansion tanks, power chucks, wheels, drilling heads, grease filters, splash preventers, grease rings, slide valves, spindle shafts, cutting tips, rocker arms, screening rollers, core chucks, journal boxes, splash guards, dashpot plungers, slide rests, cylinder blocks, flat dies, taps, printing frames, sealing joints, pressure reducers, linking devices, reducing gears, plug cocks, press rollers, cutting shoes, knitting bobbins, collets, sharpening wheels, saw benches, lubricating installations, grease boxes, spur wheels, elevator chains, shaft bearings, deburring tools, heat exchangers, shoe lasts, tube reamers, tamping rollers, flexible couplings, stuffing boxes, disc screens, planing tools, angle joints, workpiece carriers, lockable valves, rotary shoes, rolls, pressure regulators, reciprocating feeders, polishing buffs, polishing discs, spreader beams, workpiece locators, clack valves, blade holders, spray fittings, spray heads, seed drills, steam condensers, pipes, cylinder covers, drill chucks, dosing valves, wire brushes, grinding tools, mechanical seals, permanent chucks, filters, overload couplings, rotary drills, safety valves, hydraulic valves, casing rings, spring bushes, drilling bits, tool holders, spray valves, fans, cable cylinders, soundproof hoods, saw blades, printing masks, moulding dies, cam rollers, cams, speed reducers, and water heaters, all being parts of machines for plant construction in the chemical industry, in the beverage and food industry, in the packaging industry, in the paper industry, for flue gas desulfurization plants, for onshore/offshore technology, for electrostatic powder coating systems, for galvanizing plants, for pumps as parts of machines; chain guides and curve guides being parts of machines; plastic components in the nature of chain conveyors, hydraulic conveyors, pneumatic conveyors, screw conveyors for drive and conveyor systems; gear wheels and pump impellers, roller bearings and guide rollers all being parts of machines; sliding and bearing elements, namely, sliding bearings being parts of machines; mechanical slide seals being parts of machines; control disks in the nature of hydraulic controls for machines and pneumatic controls for machines being parts of machines; pump casings being parts of electrical, pneumatic and hydraulic pumps; winding components made of plastic as parts of machines, namely, mechanical winders and machines for forming coils with pipes made of plastic materials; slot wedges being machine parts made of plastic in the nature of glass fibre reinforced insulating material based on an epoxy resin matrix and a high-grade magnetisable soft magnetic iron powder; outriggers made of plastic in the nature of load bearing supports manufactured from synthetic resins in combination with high-strength glass reinforcements; solid pressed wood parts and synthetic resin pressed wood parts, namely, panels, sheets, rings, beams, threaded rods and nuts as parts of machines and apparatuses for the electrical, textile, foundry, construction, conveyor, glass, paper, ceramic, steel, metal, wood, plastic, packaging, food, luxury food industry, for agriculture and for mining industry; cutting pads being parts of cutting machines; soldering masks being parts of electric or gas-operated soldering machines; belt guides being parts of machines; sliding and conveying elements being parts of machines, namely, slides in the nature of powered ramps, sliding bearings for machines, joints and joint parts for connecting sliding strips, plates and guides

**International Classes**  7 - Primary Classes **US Classes**  13, 19, 21, 23, 31, 34, 35 **International Class Title**  
Machinery
Non-metallic fasteners in the nature of bolts, nails, rivets, screws and non-metal clamps for cables and pipes; non-metallic fasteners in the nature of bolts, nails, rivets, screws and non-metal clamps for flexible tubes; fasteners made of plastic for bolts, nails, rivets, screws, non-metal clamps; threaded fasteners, non-metallic; non-metallic containers in the nature of plastic boxes, and non-metallic and non-paper closures and holders for such containers being fasteners; non-metallic and non-paper caps and closures for bottles and for containers; reservoirs, not of metal nor of masonry, in the nature of containers for liquid fuel and water; non-metallic closures for containers; containers, not of metal, for transport, commercial use, liquid fuel and water; cans and boxes made of plastic, namely, plastic shipping and storage boxes and cases made of plastic; non-metallic bottle caps; non-metallic bottle cork plugs in the nature of non-metal and non-paper closures for bottles; non-metallic containers for liquid fuel; packaging containers made of plastic; jerrycans not of metal; decorative caps, in the nature of non-metallic bottle caps, non-metallic sealing caps, non-metallic and non-paper caps for cartons, containers and bottles; bag closures not of metal; non-metallic locks for vehicles; furniture and non-metallic furniture fittings in the nature of non-metal furniture casters, non-metal furniture supports in the nature of coasters and pedestals for protecting carpets from furniture damage, non-metal furniture sliders, non-metal handles comprised of wood for furniture, non-metal knobs comprised of wood for furniture; non-metallic bottle racks; corner protectors made of plastic, namely, plastic signboards; plastic signboards; threaded rods and nuts, namely, plastic rods for sealing bags, plastic welding rods; plastic fasteners, namely, non-metal threaded fasteners made of plastic; nuts made of plastic; fasteners made of plastic, namely, non-metal fastening anchors, non-metal sash fasteners for windows; plastic wheel chocks; non-metallic cable straps, namely, non-metal cable clamps

**International Classes** 20 - Primary Classes US Classes 2, 13, 22, 25, 32, 50

**International Class Title** Furniture and Articles Not Otherwise Classified

Goods and articles of plastic, namely, structural parts of lighting, heating, and steam generating installations; Goods and articles of plastic, namely, structural parts of baking ovens, freezers, HVAC units, water filtration and purification units and replacement cartridges and filters therefor; plastic structural components of water conditioning installations, namely, water conditioning units; plastic components for water supply installations, waste water treatment installations, sea water desalination plants as well as refrigeration and air conditioning equipment, namely, chlorinating units for water treatment and plumbing valves; plastic structural components for electric fans and ventilators, namely, ventilation hoods; taps being faucets; plastic components for ventilators, namely, ventilating louvers

**International Classes** 11 - Primary Classes US Classes 13, 21, 23, 31, 34

**International Class Title** Construction and Repair
For Apparatus and instruments for accumulating and storing electricity; structural parts for apparatus and instruments for accumulating and storing electricity; components, namely, accumulators and batteries for electricity storage systems; parts, namely, accumulators and batteries for electricity storage devices; parts, namely, power adapters and electrical storage batteries and accumulators for charging devices; batteries for electric and hybrid vehicles; fuel cells for electric and hybrid vehicles; inductive charging systems for electric and hybrid vehicles composed of magnetic coils, batteries, charging stations; measuring instruments in the nature of instruments for measuring length, weight, temperature, time, power, current intensity, chemical amount and light intensity, tool measuring instruments, radiation measuring instruments; counting instruments, namely, money counting machines; alignment instruments, namely, vehicle wheel alignment machines; calibrating instruments, namely, calibration devices for ultrasonic testers; pipettes for diagnostics for laboratory use; measuring spoons; measuring jugs; structural parts of scales for scientific research and laboratory use; laboratory apparatus, namely, dispensers for dispensing pre-determined quantities of reagents for laboratory use; solid pressed wood parts and synthetic resin pressed wood parts as structural parts of power transformers; insulators for electrical transformers; plastic structural parts of transformers and thermometers, test tubes, spectrosopes being chemical laboratory apparatus; plastic goods, namely, parts in the nature of housings for scientific, nautical, measuring, electric, weighing, signalling, controlling, rescuing or teaching apparatuses and instruments, as well as for coinoperated mechanisms for vending machines and fire extinguishers; plastic parts in the nature of housings for switchgears, measuring apparatus, high-frequency plants, electrical and signal apparatus for traffic engineering, cable runs

International Classes 9 - Primary Classes US Classes 21, 23, 26, 36, 38 International Class Title Electrical and Scientific Apparatus

For Custom manufacturing services, namely, 3D printing, cutting plastics to size, machining of plastic parts; material processing and conversion, namely 3D printing for others, cutting of plastics to size, machining of plastics, namely, machining parts for others

International Classes 40 - Primary Classes US Classes 100, 103, 106 International Class Title Material Treatment

For Flexible pipes, tubes, hoses and fittings therefore, and fittings for rigid pipes, all non-metallic; plastic valves being fittings for flexible pipes, tubes, and hoses, not for plumbing purposes; insulating splice covers for electrical cables, not of metal; hoses of textile material; flexible hoses, not of metal; connecting hoses for vehicle radiators and/or fuel injectors; seals, namely, sealing plugs made primarily from rubber, packing material for forming seals, rubber seals for jars, sealing materials; sealants, namely, silicone sealants, sealants for buildings, adhesive sealants for general use; expansion joint fillers; cylinder jointings; caulking and insulating materials; packaging materials, namely, industrial packaging containers of rubber, rubber stoppers for industrial packaging containers, plastic sheets for use in the manufacture of displays, signs and packaging, expanded plastic pellets, rubber lids and caps for industrial packaging containers; insulating and barrier materials, namely, laminated vapor barrier, acoustical insulation barrier panels, sheets of plastic fabric used as an insulating barrier in building construction; insulating lining materials; acoustic insulation articles and materials; insulating materials; acoustical insulation materials; electric, thermal, and acoustic insulators and insulating materials; foils of metal for insulation; partially processed materials, for further manufacturing but not adapted for a specific use, namely, polyester resins, mineral fibers, elastomers, cellulose acetate, carbon fibers impregnated with synthetic resins and not for textile use; partially processed synthetic and composite materials, namely, carbon fibers not for textile use, cellulose acetates, glass fibers and glass wool for insulation, cast
nylon for use in further manufacture but not for textiles, chemical fibers not for textile use; partially processed synthetic and composite materials, namely, microporous synthetic plastic films for the manufacture of protective clothing, work protective clothing, rain protective clothing and for use in further manufacture in a variety of industries, microporous synthetic plastic strips for the manufacture of protective clothing; partially processed synthetic and composite materials, namely, synthetic fibers other than for textile purposes, semi-finished viscose sheets for use in manufacturing in a variety of industries; resins in extruded form for general industrial use; semi-worked plastic substances in the form of pellets, rods, foils, foams, fibers, films, and sheets; films, sheets and rods made of plastics being semi-finished products for use in manufacturing; semi-finished plastic products in the form of rods, profiles, and rolls; spools and rollers made of plastic being semi-finished products for use in manufacturing; rubber bars and rods being semi-finished products for use in manufacturing; rods and bars made of plastic being semi-finished products for use in manufacturing; plastics in the form of sheets, films, blocks, rods and tubes for use in manufacturing; finished and semi-finished products adapted for a specific use, namely, semi-finished injection-molded products of plastic for use in a variety of industries, plastic filaments for 3D printing, shock-absorbing, namely, padding material in sheet form for use in further manufacturing, rubber buffers for industrial machinery, packing materials of rubber or plastics, pipe and valve gaskets, sealing sheets in the nature of sheets of graphite-based material for use as seals, and semi-finished synthetic filter materials in the nature of semi-processed plastics in the nature of filtering materials in water or oil filtering process; sealing material; packing materials of rubber or plastics; semi-processed filtering materials made of plastic or foam for water or oil filtering process; rubber sleeves for protecting parts of machines; door stops of rubber, rubber stops for industrial packaging containers, and shock-absorbing protection buffer shields made of rubber for industrial machinery and for buildings; rubber lids, caps and sealing plugs for industrial packaging; punching plates made of plastic being semi-finished products for use in manufacturing; perforated plates made of plastic being semi-finished products for use in manufacturing; welding rods made of plastic; moulded parts made of plastic being semi-finished products for use in manufacturing; semi-processed wood fibre reinforced synthetic resin in form of panels; semi-processed wood fibre reinforced synthetic resin in form of fasteners; semi-finished plates and rings made of wood fibre reinforced synthetic resin; hoses for air inlets for vehicle air conditioning systems; insulating frames being insulating materials; temperature and vibration insulating materials for tanks; non-metallic sealing strips in the nature of sealing and insulating materials

For Add-in cards for micro computers, namely, blank smart cards; aerials for the reception of signals; apparatus for processing digital data; apparatus for processing information, namely, computers and computer hardware; apparatus for programming data, namely, computers and computer hardware; apparatus for programming electronic control apparatus, namely, computers and computer hardware; apparatus for reading data, namely, optical readers, electronic card readers, bar code readers; apparatus for reading information, namely, optical character readers, smart card readers; apparatus for receiving data, namely, wireless receivers; apparatus for recording digital information, namely, video recorders; apparatus for recording electrical information, namely, event recorders; apparatus for recording humidity, namely, event recorders; aerials for the transmission of signals; apparatus for recording radiation, namely, event recorders; apparatus for remote data transmission, namely, wireless transmitters; apparatus for remote meter reading, namely, wireless transmitters and receivers; apparatus for retrieving data, namely, wireless receivers; apparatus for sending data, namely, wireless transmitters; apparatus for sending messages, namely, wireless transmitters; apparatus for sensing movement, namely, motion sensors; apparatus for surface measurements, namely, distance measuring apparatus; apparatus for the acquisition of data, namely, event recorders; apparatus for the acquisition of information, namely, event recorders; air analysis apparatus; apparatus for the acquisition of signals, namely, signal processors; apparatus for the analysis of air; apparatus for the analysis of gas, namely, residual gas analyzers; apparatus for the communication of data, namely, network routers; apparatus for the control of power supply to electrically driven motors, namely, electronic power supplies for driving electric motors; apparatus for the conversion of data, namely, data processors; apparatus for the conversion of information, namely, data processors; apparatus for the detection of moisture, namely, moisture sensors; apparatus for the detection of radiation, namely, radiation sensors; apparatus for the measurement of moisture levels; air temperature sensors; apparatus for the monitoring of personnel, namely, electronic devices for locating
and tracking people using global positioning systems; apparatus for the processing of data; apparatus for the processing of digital information, namely, data processors; apparatus for the processing of information, namely, data processors; apparatus for the remote control of industrial operations; apparatus for the storage of data, namely, blank electronic storage media; apparatus for the storage of information, namely, blank electronic storage media; apparatus for the storage of physical measurements, namely, blank electronic storage media; apparatus for the supply of electricity, namely, electricity distribution consoles; apparatus for the testing of air, namely, air analysis apparatus; alarm management apparatus, namely, alarm central units; apparatus for the testing of electrical circuits, namely, circuit testers; apparatus for the testing of gas; apparatus for the transmission of data, namely, wireless transmitters; apparatus for the volumetric measurement of liquids; apparatus for the volumetric transfer of liquids, namely, mechanical devices in the nature of dispensers of preset portions of fluids for dosing purposes, not for medical use; apparatus for transmission via satellites, namely, satellite receivers and satellite dishes; apparatus for transmitting data, namely, satellite transceivers; apparatus for transmitting data by the telephone network, namely, mobile telephones; apparatus for transmitting electronic signals, namely, wireless signal transmitters; apparatus for transmitting information, namely, networking routers; alarm management installations, namely, central alarm units; apparatus for use in access control, namely, electronic access control systems for interlocking doors; apparatus for use in data logging, namely, electronic data loggers; apparatus for use in digital communication transmission, namely, wireless transmitters; apparatus for use in fuel measurement, namely, fuel gauges; apparatus for use in high-frequency reception, namely, wireless receivers; apparatus for use in high-frequency transmission, namely, high frequency antennas; automatic analysers other than for medical diagnosis, namely, automatic air analysis apparatus; automatic control apparatus, namely, electric controls panels; automatic control instruments, namely, electric control panels; automatic control operating apparatus, namely, electric control panels; alarm sensors; circuit board assemblies; boiler control apparatus; bore checking gauges, namely, water level meters; bore testing instruments, namely, water level meters; cases adapted for batteries; cases adapted for electronic circuits; cases adapted for electronic components, namely, electronic diaries; cases adapted for electronic equipment, namely, document printers, computers; cases adapted for microcircuits; cases for electronic devices, namely, mobile phones; alarm signalling apparatus, namely, burglar alarms; communication apparatus, namely, mobile phones; communication devices, namely, cell phones; communication instruments, namely, telephones; communication interface units, namely, computers; communication modems; downloadable and recorded communication software for connecting users to a global computer network; communications antennae; communications apparatus, namely, networking routers and modems; downloadable and recorded communications processing computer software for transmitting and receiving data over a global computer network; alarm signalling receivers; communications processors being data processing apparatus; downloadable and recorded communications computer programmes for connecting users to a global computer network; communications systems comprised of computers, modems, and network routers; computer apparatus for process control, namely, data processing apparatus; computer apparatus for processing data; computer apparatus for the storage of data, namely, blank electronic storage media; computer apparatus for transmitting data, namely, wireless transmitters; computer circuit boards; computer circuits; computer communication apparatus, namely, computer modems; alarm signalling transmitters; computer communications modems; computer components, namely, computer hardware and computer peripherals; computer control apparatus, namely, computer hardware; computer control devices, namely, computer mouse; computer control units, namely, computer hardware; computer controls, namely, computer hardware; computer controls for lighting apparatus; computer data in recorded form, namely, CD-ROMs featuring telecommunication data; computer data input apparatus, namely, computer hardware; computer data input devices, namely, computer hardware; aerial boosters, namely, masts for wireless aerials; ancillary input and output controllers, namely,
digital input and output scanners; computer data interchange apparatus, namely, computer hardware; computer design hardware; computer documentation in electronic form, namely, downloadable manuals featuring operating instructions for computers; downloadable and recorded computer firmware for connecting users to a global computer network; computer modems; computer memory modules; computer monitoring apparatus, namely, computer hardware for monitoring computer operating status; computer monitoring instruments, namely, computer hardware for monitoring computer operating status; computer operated control apparatus, namely, computer-operated lighting control apparatus; downloadable and recorded computer operating programs; ancillary input and output devices, namely, digital input and output scanners; downloadable and recorded computer programs for data processing for enabling the processing of financial transactions over a global computer network; downloadable and recorded computer programs for establishing sump pump operating schedules; downloadable and recorded computer programs for processing data for enabling the processing of financial transactions over a global computer network; downloadable and recorded computer programs for processing information for enabling the processing of financial transactions over a global computer network; downloadable and recorded computer programs for providing a graphical presentation of data; downloadable and recorded computer programs for sales purposes, namely, for performing point-of-sale transactions via a global computer network; downloadable and recorded computer programs for scientific data analysis in the field of chemistry; downloadable and recorded computer programs for testing computer hardware; downloadable and recorded computer programs for the analysis of data processing performance of computers; downloadable and recorded computer programs for the analysis of data processing procedures; antennas; downloadable and recorded computer programs for the control of telecommunication instruments; downloadable and recorded computer programs for use in communications for connecting users to a global computer network; downloadable and recorded computer programs for use in farming for crop forecasting; downloadable and recorded computer programs for use in fluid flow analysis; downloadable and recorded computer programs for use in telecommunications for connecting users to a global computer network; computer related data communication apparatus, namely, modems; computer related voice communication apparatus, namely, smart phones; downloadable and recorded computer software for database management; downloadable and recorded computer software for database management; recorded computer software for database management; antennas for the reception of electromagnetic waves; downloadable and recorded computer software adapted for use in the operation of computers, namely, downloadable and recorded computer operating programs; downloadable and recorded computer software designed to estimate resource requirements in the field of agriculture; downloadable and recorded computer software for authorising access to data bases; downloadable and recorded computer software for business purposes for performing electronic business transactions over a global computer network; downloadable and recorded computer software for communicating purposes between microcomputers; downloadable and recorded computer software for communication between computer processes; computer software packages comprised of downloadable and recorded computer software for database management; computer software products, namely, downloadable and recorded computer software for database management; downloadable and recorded computer software programs for database management; control apparatus, namely, thermostats; antennas for the transmission of electromagnetic waves; control apparatus, namely, time clocks; control apparatus for computers, namely, microcontrollers; control apparatus for determining position, namely, LED position sensors; control apparatus for use in refrigeration, namely, thermostats; control circuits, namely, electronic circuits; control devices, namely, thermostats for heating installations; control devices, namely, timers for heating installations; control units, namely, thermostats for heating installations; control units, namely, thermostats for use in electric immersion heaters; control units, namely, timers for heating installations; antennas for
wireless communication apparatus; control units, namely, timers for use in electric immersion heaters; controller circuit boards; controller interface modules for computers; data communications apparatus, namely, modems; data communications hardware; data communications installations comprised of computer hardware and modems; data communications instruments, namely, modems; wireless data communications receivers; downloadable and recorded data communications software for transmitting data over a global computer network; data compilations, namely, downloadable and recorded electronic data files in the field of electronics; apparatus and instruments for switching electricity, namely, electric switches; data compressors being audio processing equipment; data conversion apparatus, namely, computer hardware; data display apparatus, namely, video monitors; data display instruments, namely, computer monitors; data encoding apparatus; data encryption apparatus being encoding and decoding apparatus; data handling apparatus, namely, computer hardware; data handling installations, namely, computer hardware; data in machine readable form, namely, CD-ROMS featuring information in the field of telecommunications; data information processing apparatus, namely, data processors; apparatus for climatic technology, namely, climate control digital thermostats; data information processing units, namely, data processors; data input apparatus for use with computers, namely, computer hardware; data interconnecting computer installations, namely, computer hardware and computer cables; data logging apparatus, namely, electronic data loggers; data processing apparatus for use in information storage; data processing apparatus for use with computers; data processing components, namely, computer hardware; data processing devices; data processing equipment; data processing information carriers, namely, CD-ROMS featuring recorded computer software for database management; apparatus for collecting by radio frequency, namely, radio transmitters; data processing installations comprised of computer hardware; data processing installations incorporating expandable architecture comprised of computer hardware; data processing instruments; data processing machines; data processing materials, namely, data processors; downloadable and recorded computer data processing programmes for vehicle driving simulations; downloadable and recorded computer data processing programmes for simulating vehicle driver's behaviour; downloadable and recorded computer data processing programs for vehicle driving simulations; data processing programs recorded on data carriers for database management; recorded data processing programs stored on data carriers for database management; apparatus for collecting encoded data for supply to computers, namely, wireless receivers; downloadable and recorded computer data processing software for creating graphic representations; data processing systems comprised of data processing apparatus; data processing units, namely, data processors; data processors; downloadable and recorded computer data programmes for database management; data readers being acoustic devices for data processing apparatus, namely, electronic voice recognition readers; data readers being optical devices for data processing apparatus, namely, optical readers; wireless data receivers; data receiving apparatus, namely, wireless receivers; aerial combiners, namely, antennas; apparatus for communication, namely, cell phones; data recorded electronically, namely, downloadable electronic data files featuring information in the field of telecommunications; data recorded electronically from the internet downloadable electronic data files featuring information in the field of telecommunications; data recorded in computer accessible form downloadable electronic data files featuring information in the field of telecommunications; data recorded in electronic form downloadable electronic data files featuring information in the field of telecommunications; data recorded in machine-readable form compact discs featuring information in the field of telecommunications; data recorded in magnetic readable form prerecorded magnetic data carriers featuring information in the field of telecommunications; data recorded on magnetic materials prerecorded magnetic data carriers featuring information in the field of telecommunications; data recorded on optical materials optical discs featuring information in the field of telecommunications; data recording apparatus, namely, video recorders; data recording machines, namely, video recorders;
apparatus for computation, namely, calculators; data recording materials, namely, blank optical discs; data recording materials for use with computers, namely, blank optical discs; data retrieval apparatus, namely, wireless receivers; data security apparatus, namely, encoding and decoding apparatus; data security instruments, namely, electronic encryption units; data sorting apparatus, namely, data processors; data storage apparatus, namely, blank electronic storage media; data storage apparatus for computers, namely, blank electronic storage media; data storage apparatus for use with data processing apparatus, namely, blank electronic storage media; data storage cartridges being blank electronic storage media; apparatus for connecting electrical circuit components, namely, electric wires; blank data storage cassettes; data storage devices, namely, blank electronic storage media; data storage devices bearing data, namely, electronic storage device in the nature of memory media for storing information collected from medical ventilators; electronic data storage devices containing photographs in the field of telecommunications equipment; data storage discs, namely, blank optical storage discs; data storage installations, namely, blank electronic storage media; data storage machines, namely, memory modules; apparatus for connecting electronics, namely, computer cables; data stored for access by computer programs, namely, downloadable electronic data files featuring telecommunication information; data switches being computer switches; data switching apparatus, namely, computer switches; mobile data terminals; mobile data terminals for the communication of data to a central computer system; mobile data terminals for the entry of data to a central computer system; mobile data terminals for the validation of data; data transfer apparatus, namely, computer hardware; data transfer instruments, namely, computer hardware; apparatus for controlling lighting; data transmission apparatus, namely, computer hardware; data transmission computer cables; data transmission installations comprised of computer hardware and modems; wireless data transmitters; data transmitting apparatus, namely, wireless transmitters; data transmitting instruments, namely, wireless transmitters; downloadable and recorded computer database programs for database management; downloadable electronic databases in the field of telecommunications technology; electronic databases featuring electronic publications in the nature of newsletters and manuals in the field of telecommunications technology, recorded in computer media; development apparatus for data processing apparatus, namely, computer hardware; apparatus for controlling the input of data, namely, input devices for computers; devices for detecting exposure to radiation; devices for measuring electric quantities, namely, electric meters; devices for measuring energy, namely, voltmeters; devices for measuring exposure to radiation, namely, radiation detectors; devices for measuring water depth; devices for measuring water temperature; devices for measuring wind direction; devices for measuring wind speed; devices for storing measured values, namely, blank electronic storage media; digital telecommunications apparatus, namely, mobile phones; apparatus for controlling the operation of machines, namely, computers; digital telecommunications instruments, namely, smart phones; electric apparatus relating to telecommunications, namely, electric control panels for telecommunications equipment; electric communication apparatus, namely, modems; electric monitoring apparatus, namely, battery monitors; electrical apparatus for monitoring, namely, battery monitors; electrical communications apparatus adapted for use on vehicles, namely, telephones; electrical instruments for telecommunications purposes, namely, electric control panels for telecommunications equipment; electrical transmitters; electronic amplifiers; electronic analysers, other than for medical purposes, namely, liquid analyzers; electric apparatus for controlling the operation of machines, namely, electric control panels for telecommunications equipment; electronic multimedia publications in the nature of magazines in the field of telecommunications, recorded on computer media; electronic anti-theft bollard sensors to prevent shoplifting; electronic apparatus for controlling access, namely, electronic readers and controllers for controlling access to a premises; electronic apparatus for controlling toll points, namely, electronic terminals for...
highway toll collection; electronic apparatus for counter-jamming weapon systems, namely, radar jamming apparatus; electronic apparatus for data processing; electronic apparatus for detecting leaks; electronic apparatus for developing communication links, namely, telecommunications cables; electronic apparatus for information delivery, namely, computer servers; electronic apparatus for information exchange, namely, computer servers; electronic apparatus for controlling the operation of machines, namely, industrial automation controls; electronic apparatus for manipulating data, namely, computer hardware; electronic apparatus for measuring environmental conditions, namely, moisture sensors; electronic apparatus for monitoring machines, namely, optical inspection apparatus; electronic apparatus for providing communication links, namely, computer servers; electronic apparatus for reading information, namely, bar code readers; electronic apparatus for relaying data, namely, computer servers; electronic apparatus for telemetry, namely, wireless transmitters and receivers; electronic apparatus for testing communication links, namely, computer hardware; electronic apparatus for the measurement of toxic gases; electronic apparatus for the transmission of data, namely, computer servers; apparatus for controlling the remote operation of machines, namely, automated digital controls for commercial and industrial food service equipment; electronic apparatus for transmitting information, namely, wireless transmitters; electronic assemblies comprised of electric wires and electric switches; electronic chips in the nature of semi-conductors for the manufacture of integrated circuits; electronic circuit boards; electronic circuit substrate, namely, quantum dots being crystalline semiconductor material; electronic circuits; electronic circuits for data processing apparatus; electronic circuits for use with computers; electronic coding apparatus; electronic colour analysers; electric aerial converters; apparatus for controlling the output of data, namely, computer hardware; electronic colour analysis apparatus; electronic communication apparatus, namely, smart phones; electronic communication installations comprised of computer servers and modems; electronic component carriers, namely, electronic circuits; electronic components, namely, semiconductor power elements; electronic components in the nature of microchips; electronic computer apparatus, namely, computers; electronic connectors for electronic circuits; electronic control apparatus, namely, computer hardware; electronic control apparatus for agricultural machines, namely, flow regulators for agriculture use; apparatus for controlling the processing of data, namely, microcontrollers; electronic control apparatus for automatic machines, namely, optical inspection apparatus; electronic control apparatus for computer programmes, namely, computer hardware; electronic control apparatus for controlling the remote control of industrial machines; electronic control apparatus for controlling the remote control of industrial machines, namely, flow regulators for agriculture use; electronic control apparatus for the remote control of machine tools; electronic control apparatus for the remote control of industrial machines; electronic control apparatus for the remote control of motors; apparatus for controlling the storage of data, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electronic control apparatus for use with the remote control of vacuum pumps; electronic control apparatus for the remote control of valves; electronic control circuits; electronic control devices for the remote control of industrial rotary machines; electronic control devices for the remote control of turbines; electronic control installations for the remote control of industrial operations; electronic control installations for the remote control of industrial operations; electronic control installations for the remote control of sensors used in industrial operations; electronic control operating apparatus, namely, electric switches and electric control panels; electronic control systems comprised of electric switches and electric control panels; electronic control units comprised of electric switches and electric control panels; apparatus for data collection, namely, wireless receivers; electronic speed controllers; electronic controls for the remote control of industrial machines; electronic counting apparatus, namely, currency counting machines; electronic damper control apparatus; electronic data apparatus for use with computers, namely, data processors; electronic data carriers, namely, optical data carriers featuring telecommunications equipment
operating instructions; electronic data carriers, namely, CD-ROMs with computer operating programs; electronic data collection apparatus, namely, wireless receivers; electronic data communications apparatus, namely, modems; electronic data communications installations, namely, computer servers; apparatus for data input, namely, input devices for computers; electronic data input apparatus, namely, input devices for computers; electronic data interchange apparatus, namely, computer network switches; electronic data output apparatus, namely, computer hardware; electronic data processing apparatus; electronic data processing devices; electronic data processing equipment; electronic data processing installations comprised of data processors; electronic data processing machines; electronic decoders; electronic design analysis apparatus, namely, computer hardware; apparatus for data output, namely, computer hardware; electronic devices for indicating the interaction of fields, namely, computer hardware; electronic devices for information processing, namely, computer hardware; electronic devices for the transmission of data between computers, namely, computer servers; electronic devices for the transmission of data between microprocessors, namely, computer servers; electronic devices for transmitting data, namely, computer servers; electronic measuring apparatus, namely, lasers for measuring; electronic measuring instruments, namely, lasers for measuring; electronic metering apparatus, namely, water meters; electronic metronomes; apparatus for data processing; electronic microprocessors; electronic miniature electric relays; electronic monitoring apparatus, other than for medical use, namely, battery monitors; electronic monitoring instruments, other than for medical use, namely, battery monitors; electronic plug-in cards, namely, blank smart cards; electronic point of sale transaction terminals; electronic pressure sensors; electronic process apparatus, namely, data processing apparatus; electronic programmable logic controllers; electronic programming units, namely, programmable logic controllers; apparatus for data storage, namely, blank data storage media; electronic rain gauges; electronic receiving apparatus, namely, wireless receivers; electronic data relays for sensors; electronic sensors, namely, temperature sensors; electronic signal generating apparatus, namely, signal generators; electronic signal processing apparatus; electronic signal processing apparatus for musical instruments; electronic signal transmission apparatus, namely, emergency signal transmitters; electronic signal transmitters for emergencies; electronic computer switches; apparatus for data transmitting, namely, radio transmitters; electronic switching amplifiers; electronic switching apparatus, namely, computer switches; electronic system control apparatus, namely, thermostats; electronic temperature monitors, other than for medical use, namely, thermometers; electronic temperature recorders, other than for medical use; electronic test apparatus for testing bonds between metals; electronic test apparatus for testing welds; electronic testing instruments for testing electrical systems, namely, voltmeters; electronic theft prevention apparatus, other than for vehicles, namely, burglar alarms; electronic theft prevention installations, other than for vehicles, namely, central alarm units; apparatus for decoding encoded signals; electronic thermometers, other than for medical use; electronic time recording apparatus; electronic timers; electronic timers for lubricating installations; electronic timing apparatus, namely, timers; electronic timing control apparatus, namely, timers; electronic timing control instruments, namely, timers; evaluation apparatus, namely, moisture sensors; fixed multi-channel communication apparatus, namely, radios; fixed radio apparatus for voice transceivers; aerial filters; apparatus for detecting fire, namely, smoke detectors; fixed radio apparatus for voice transmission; fixed radio instruments for data transceivers; fixed radio instruments for data transmission; fixed single channel communication apparatus, namely, radios; housings for computers; housings for electrical apparatus, namely, electrical junction box housings; housings for electrical instruments, namely, electrical junction box housings; housings for electrical sub-assemblies, namely, electrical switch housings; housings for electronic instruments, namely, electrical switch housings; apparatus for detecting...
gases; housings for measuring apparatus, namely, housings for moisture sensors; integrated circuit boards; integrated circuit cards; integrated circuit cards for bearing stored data in the field of telecommunication equipment; integrated circuit cards for storing data; integrated circuits; integrated circuit test clips being computer hardware; integrated circuits; integrated circuits for networks for use in identification; interface network modems; apparatus for detecting light obscuring substances; logging apparatus, namely, electronic data loggers; logic circuits; measuring instrument, namely, electronic data loggers; mobile telecommunications apparatus, namely, mobile phones; modems; modems for communications networks; modular instrumentation apparatus, namely, computer hardware; monitoring apparatus, other than for medical purposes, namely, battery monitors; monitoring control apparatus, electric control panels; electronic monitoring installations for the remote control of industrial operations; apparatus for detecting smoke; electronic monitoring instruments, namely, battery monitors; monitoring units, namely, battery monitors; downloadable and recorded computer programs for the remote monitoring of industrial operations; portable apparatus for receiving satellite transmissions, namely, satellite telephones; portable telecommunications apparatus, namely, satellite telephones; pressure measurement apparatus, namely, pressure sensors; pressure measurement tools, namely, pressure indicators; pressure measuring apparatus, namely, pressure indicators; pressure meters; pressure monitors, other than for medical use, namely, pressure sensors; apparatus for detecting vapours, namely, smoke detectors; primary cells being photovoltaic cells; printed circuit boards; printed circuit boards for computers; printed circuit boards for mounting in computers; printed circuit boards for remote data transmission; printed circuit cards; printed circuit expansion boards; printed circuits; printed circuits for use with timing mechanisms; printed circuits on substrates of flexible film; apparatus for digital signal processing; printed circuits on substrates of plastics material; printed electronic circuits; printed electronic circuits for apparatus; printed electronic circuits for machines; process computers; electronic process control apparatus for the remote control of industrial operations; process control computers; process control digital controllers for the remote control of industrial operations; electric process control instruments for the remote control of industrial operations; electronic process control instruments for the remote control of industrial operations; apparatus for electronic digital signal processing; process control operator consoles, namely, electronic apparatus for the remote control of industrial operations; process control operator interface units; process control units, namely, electronic apparatus for the remote control of industrial operations; process control units being controller modules, namely, electronic apparatus for the remote control of industrial operations; process control units using process control computers, namely, electronic apparatus for the remote control of industrial operations; electric process controllers, namely, electric installations for the remote control of industrial operations; electronic process controllers, namely, electric installations for the remote control of industrial operations; electronic process controlling apparatus, namely, electric installations for the remote control of industrial operation; electronic process controlling apparatus, namely, electronic apparatus for the remote control of industrial operations; downloadable and recorded process controlling computer software for remote control of industrial operations; apparatus for electronic information processing, namely, data processors; processing circuit boards; processing computers; programmable computers; programmable control apparatus, namely, lighting control apparatus; programmable electronic controllers for computers; programmable controls, namely, lighting control apparatus; programmable controls for lighting installations; programmable digital read-out units, namely, electronic display interfaces; programmable electronic apparatus, namely, lighting control apparatus; programmable electronic apparatus for use with machines, namely, programmable logic controllers; apparatus for fault detection, namely, fault circuit indicators; programmable logic arrays; programmable telecommunication apparatus, namely, modems; programmable timers; programming apparatus, namely, computer hardware; programming apparatus for use with computers, namely, programmable logic controllers; recorded optical discs featuring programming instructions for data processing
apparatus; recorded computer programs for controlling lighting installations; downloadable and recorded computer programs bearing encoded information for controlling lighting installations; downloadable and recorded programs for computers for controlling lighting installations; recorded programs for computers for controlling lighting installations; apparatus for gathering information, namely, wireless receivers; recorded computer programs for operating data processing apparatus; computer programs for operating data processing apparatus, recorded on tapes; downloadable and recorded computer programs for operating data-processing apparatus; downloadable and recorded computer programs for operating microcomputers; downloadable and recorded computer programs for operating personal computers; downloadable and recorded computer programs for processing data on computers; downloadable and recorded computer programs for use in communications for connecting users to a global computer network; digital signal transmitters, namely, pulse code modulation apparatus for transmission via cable; digital signal transmitters, namely, pulse code modulation apparatus for transmission via microwave; aerial electric sockets; apparatus for handling information, namely, data processing apparatus; digital signal transmitters, namely, pulse code modulation apparatus for transmission via radio; digital signal transmitters, namely, pulse code modulation apparatus for transmission via satellite; digital signal transmitters, namely, pulse code modulation instruments for transmission via cable; digital signal transmitters, namely, pulse code modulation instruments for transmission via microwave; digital signal transmitters, namely, pulse code modulation instruments for transmission via optical fibres; digital signal transmitters, namely, pulse code modulation instruments for transmission via radio; digital signal transmitters, namely, pulse code modulation instruments for transmission via satellite; pulse code modulation multiplexing instruments; pulse counters not for medical use; radio sets; apparatus for identifying cows, namely, radio frequency identification tags; radio signal antennae; radio signal transmission apparatus; radio transceivers; radio transmission apparatus; radio-frequency antennas; radio-frequency components, namely, antennas; radio-frequency filters; radio-frequency modulators; radio-frequency power meters; radio-frequency receivers; radio-frequency transmitter; real-time data processing apparatus; receiving antennas for satellite broadcast; receiving devices for connection to communication networks, namely, wireless receivers; electric relay sockets; electric relays with name bearing tags; relays, electric; remote control apparatus connected by modems to computers; remote data gathering apparatus, namely, global positioning systems; remote data processing apparatus; apparatus for information teleprocessing, namely, data processors; remote monitoring apparatus, namely, video recorders; research apparatus for scientific use, namely, laboratory pipettes; research instruments for scientific use, namely, laboratory pipettes; satellite communication apparatus, namely, satellite dishes; satellite communications equipment, namely, satellite receivers and transmitters; satellite communications instruments, namely, satellite aerials; satellite navigational apparatus; satellite receivers; satellite receiving aerials; satellite receiving apparatus; apparatus for information transmission, namely, network routers; satellite signal receiving antennae; satellite transceivers; satellite transmitting aerials; sensing apparatus not for medical use, namely, pressure sensors; sensing apparatus being parts of anti-theft apparatus, namely, motion sensors; sensing apparatus being parts of intruder detection apparatus, namely, motion sensors; sensing apparatus being parts of outside lighting apparatus, namely, motion sensors; light sensors; sensing apparatus for use with windows, namely, motion sensors; glass break sensors; sensing devices, namely, motion sensors; sensing devices for the automatic control of machines, namely, pressure sensors; apparatus for interconnecting data processing equipment, namely, computer cables; sensing devices for the control of air currents, namely, wind speed sensors; sensing devices for the control of liquid levels not for medical use, namely, liquid level sensors; sensing devices for the control of temperatures, namely, temperature sensors; digital signal convertors; digital signal processors; signal
transmission apparatus, namely, transmitters of electronic signals; electronic signal transmitters; downloadable and recorded computer software drivers for installation and operation of document printers; soil moisture meters; solar batteries; apparatus for lighting control; solar batteries for industrial use; solar cells for electricity generation; solar collectors for electricity generation; solar energy collectors for electricity generation; solar energy operating apparatus, namely, solar wafers; strategic telecommunication apparatus for land vehicles, namely, mobile phones; strategic telecommunication apparatus for ships, namely, radios; satellite target surveillance apparatus, namely, global positioning systems; satellite target trackers, namely, global positioning systems; telecommunications apparatus, namely, mobile phones; apparatus for localisation for vehicles via radio-electrical transmission, namely, radios; telecommunications apparatus for diagnostic purposes, namely, global positioning systems; telecommunications apparatus for transmission purposes, namely, network routers; telecommunications apparatus for transmitting data for use with computers, namely, network routers; telecommunications equipment, namely, network routers; telecommunications instruments for use in cellular radio networks, namely, antenna; temperature compensated crystal oscillators; temperature compensation controls, namely, thermostats; temperature control apparatus, namely, electric switches; apparatus for localisation for vehicles via satellites, namely, global positioning systems; temperature control apparatus, namely, electric switches for machines; temperature control apparatus, namely, thermostats; temperature control apparatus, namely, thermostats for machines; temperature control apparatus, namely, thermostats for vehicles; temperature controllers, namely, thermostats; temperature controllers apparatus for machines, namely, thermostats; temperature controlling apparatus, namely, thermostats; temperature controlling apparatus, namely, thermostats for central heating installations; temperature controlling apparatus for machines, namely, thermostats; apparatus for low power electrical engineering, namely, electric switches; temperature controlling instruments, namely, thermostats; temperature display units, namely, thermostats; temperature feedback units, namely, thermostats; temperature gauges; temperature indicating apparatus; temperature indicators; temperature limiters, namely, thermostats incorporating bi-metallic discs; temperature limiters, namely, thermostats incorporating expansion rods; temperature limiters, namely, thermostats for central heating installations; temperature limiters for machines, namely, thermostats; aerials; apparatus for mass flow measurement, namely, mass flow meters; temperature limiters for metal moulding machines, namely, thermostats; temperature limiters for use in metal moulding, namely, thermostats; temperature limiters for use in vehicle engines, namely, thermostats; temperature limiters for use in vehicle heating systems, namely, thermostats; electronic temperature logging apparatus; electronic temperature matrix regulators; temperature measurement instruments, namely, thermometers not for medical use; temperature measuring apparatus for household use, namely, thermometers not for medical use; temperature measuring apparatus for scientific use, namely, thermometers; temperature measuring instruments for household use, namely, thermometers not for medical use; apparatus for measured valve acquisition, namely, pressure sensors for valves; temperature measuring instruments for industrial use, namely, thermometers not for medical use; temperature measuring instruments for scientific use, namely, thermometers; temperature meters for household use, namely, thermometers not for medical use; temperature meters for industrial use, namely, thermometers not for medical use; temperature meters for scientific use, namely, thermometers; temperature monitors, namely, thermostats for central heating installations; temperature monitors for household use, namely, thermostats; temperature monitors for industrial use, namely, thermostats; temperature monitors for machines, namely, thermostats; temperature monitors for metal moulding machines, namely, thermostats; apparatus for measurement of gas components in air; temperature monitors for scientific use, namely, thermostats; temperature monitors for use in metal moulding, namely, thermostats;
temperature monitors for vehicle engines, namely, thermostats; temperature monitors for vehicle heating systems, namely, thermostats; temperature recorders not for medical use, namely, thermostats; temperature recorders for testing static electricity; temperature recording apparatus not for medical use, namely, thermostats; temperature regulators, namely, thermostats incorporating bimetallic discs; temperature regulators, namely, thermostats incorporating expansion rods; temperature regulators for vehicle engines, namely, thermostats; apparatus for measuring, namely, thermometers not for medical use; temperature responsive control apparatus for vehicle engines, namely, thermostats; temperature responsive control apparatus for vehicle heating systems; temperature scanners for industrial use; temperature scanners for scientific use; temperature sensing apparatus for industrial use; temperature sensing apparatus for machines; temperature sensing apparatus for metal moulding machines; temperature sensing apparatus for scientific use; temperature sensing apparatus for use in metal moulding; temperature sensing apparatus for vehicle engines; apparatus for measuring agents, namely, residual gas analyzers; temperature sensing apparatus for vehicle heating systems; temperature sensitive controls for automatically operating valves, namely, thermostats; temperature sensitive testing apparatus for scientific use, namely, temperature sensors; temperature sensitive testing instruments for industrial use, namely, temperature sensors; temperature sensitive testing instruments for scientific use, namely, temperature sensors; temperature sensors for industrial use; electric temperature switches; thermistors; thermostat control apparatus; thermostat controllers; apparatus for measuring amounts of products for filling into sacks, namely, controlled volume pumps; thermostat controllers for heating installations; electric thermostat wires; thermostats; time recorded devices, namely, time clocks; time clocks for time recording; time coding apparatus, namely, timers; time controlled feeding devices for aquatic animals, namely, timers; time correction filters, namely, timers; time data generators, namely, time clocks; time delay generators, namely, time clocks; apparatus for measuring biomagnetic signals, namely, magnetic locators; time dividers for digital communication apparatus, namely, timers; time division multiplexers; time programmers being time recording apparatus; time recording apparatus; time recording instruments; time registering apparatus, namely, time clocks; time switches, automatic; time-code generators being time recording apparatus; control devices, namely, timers; timers for automatic apparatus; apparatus for measuring board materials, namely, tape measures; timers for switching on electrical devices at pre-programmed times; measuring devices, namely, timing devices in the nature of timers; timing apparatus, namely, timers; timing devices for controlling machines, namely, timers; timing devices for industrial processing apparatus, namely, timers; training guides in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training manuals in electronic format, namely, downloadable training manuals featuring instructions for time recording devices; training manuals in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training manuals in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training manuals in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training materials, namely, vehicle drive training simulators; transceivers; apparatus for measuring distance; telecommunications transmitters; transmitters for the transmission of electric signals; transmitters for the transmission of electronic signals; telecommunications transmitters for use with computers; transmitters of electronic signals; transmitting apparatus, namely, transceivers; transmitting apparatus for satellite broadcast, namely, global positioning systems; transmitting apparatus for telecommunications, namely, telecommunications transmitters; transmitting apparatus for use in communications, namely, telecommunications transmitters; transmitting instruments, namely, telecommunications transmitters; apparatus for measuring humidity, namely, humidity sensors; transmitting sets, namely, telecommunications transmitters; electric triggering circuits; two-way wireless communication systems comprised of two-way radios; units for converting information received in machine readable format, namely, bar code readers; units for displaying information received in machine readable format, namely, video monitors; wireless
communication apparatus, namely, wireless receivers and transmitters; wireless high frequency transmission instruments, namely, wireless receivers and transmitters; wireless pulse transmitters; wireless receiving apparatus, namely, wireless receivers; wireless transmission apparatus, namely, wireless transmitters; aerials for radios; apparatus for measuring liquids, namely, liquid level sensors; apparatus for measuring noise, namely, noise level meters; apparatus for measuring overheat, namely, thermometer sensors; apparatus for measuring paper, namely, measuring rules; apparatus for measuring pressure, namely, pressure sensors; apparatus for measuring temperature, namely, thermometers not for medical purposes; apparatus for measuring the temperature of fluids, namely, thermometers not for medical purposes; apparatus for message sending, namely, modems; apparatus for meteorological monitoring, namely, rain gauges; apparatus for monitoring atmospheric conditions, namely, rain gauges and thermometers not for medical use; aerials for telecommunications; apparatus for monitoring combustion, namely, automatic combustion controls machines and instruments; apparatus for monitoring electrical components, namely, electric meters; apparatus for monitoring electrical instruments, namely, electric meters; apparatus for monitoring electronic components, namely, pressure sensors; apparatus for monitoring electronic instruments, namely, pressure sensors; apparatus for monitoring fluid pipes, namely, flowmeters; apparatus for monitoring gas in the atmosphere, namely, air analysis apparatus; apparatus for monitoring the operations of engines, namely, temperature sensors; apparatus for monitoring vacuum pumps, namely, pressure sensors; apparatus for processing data
