for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators for patient care; intensive care
and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry
sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, intravenous flushing sets,
anesthesia masks, carbon dioxide absorbers, temperature probes and nebulizers; central nervous system monitors;
gastrointestinal tonometers; gradient coils, namely, magnetic gradient coils used in magnetic resonance imaging; medical
diagnostic devices, namely, bone densitometers; fetal monitoring apparatus, namely, fetal pulse and vital signs monitors;
patient monitoring apparatus, namely, heart and vital signs monitors; medical imaging systems, namely, ultrasounds, medical
diagnostic imaging machines, imaging devices for screening and diagnostic applications for use in planning intervention and
surgery, and parts thereof and attachments thereto; medical diagnostic apparatus for displaying diagnostic images, namely, spot
film apparatus, x-ray image intensifiers, x-ray fluoroscopes, mobile x-ray units, radiographic film viewers, computerized
tomography scanners, nuclear resonance scanners, ultra sound scanners, magnetic resonance scanners, positron emission
tomography (pet) scanners; and parts thereof and attachments thereto including tables and pads; electronic blood pressure
meters, laser medical treatment devices, namely, lasers for medical use, ultrasonic medical diagnostic apparatus, hearing aids,
laser scalpels, electric massagers, hand-held vibrators for medical use, low frequency electronic muscle stimulator for medical
use, high frequency electromagnetic therapy apparatus for medical use, air mattresses for medical use, namely, electric air mats
for bedsores, electric inhalers for therapeutic use sold empty, electric heating pads for medical purposes, medical bone
densitometers for use in the diagnosis of osteoporosis; radiation dosimeters for assessing therapeutic doses of radiation
delivered to patients; body fat monitors

For Bleaching preparations and other detergent substances for laundry use, namely, laundry bleach, laundry blueing, laundry
detergent, laundry pre-soak, laundry sizing, laundry soap, laundry starch for laundry use; general purpose cleaning, polishing,
scouring and abrasive preparations; non-medicated soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices;
cleaning preparations containing chemicals and chemical compositions for use in cleaning steel, aluminum, galvanized and
mixed metal surfaces for general industrial use in the manufacture of metal products; cleaning agents containing chemicals and
chemical compositions for use in industry to remove contaminants from industrial process systems; paint strippers containing
chemicals and chemical compositions to remove paint from equipment surfaces in paint spray booth operations

International Classes

For Chemicals for use in industry and science, namely, chemical additives for use in the pharmaceutical industry and the
food industry; unprocessed artificial resins for use in manufacturing plastics, unprocessed plastics; manures; fire extinguishing
compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; adhesives used in industry
for the binding of books, for the manufacture of surgical bandages, and adhesives used in construction; unprocessed synthetic
resins; thermoplastic and thermosetting unprocessed synthetic resins organic molding compositions, for general use in the
industrial arts; chemical intermediates; organosilicone compounds, namely, polysiloxanes and silanes in the form of
unprocessed artificial resins, pastes, fluids, elastomers, vulcanizing preparations and accelerators; antifoaming agents;
chemical catalysts for paints; chemicals for developing and fixing x-ray films and other chemicals associated with the
development of said films; phosphors; chemical substances for use as nuclear fissionable material; fuel for nuclear reactors;
adhesive substances used in industry; polycrystalline alumina ceramic, for general use in the industry; soldering fluxes and
preparations; thermoplastic and thermosetting adhesives; chemicals, biochemicals and reagents for use in industry, science and
research for non-medical purposes; chemical preparations, test kits and reagents for analysis or diagnosis used for scientific
purposes, namely, chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, fluorescent
nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules, and markers for DNA/RNA synthesis;
substances for scientific or medical research use, namely, reagents for luminescence, reagents for gene expression
quantification, reagents for use with the polymerase chain reaction process, reagents for use with the rolling circle
amplification process, reagents for DNA cloning and vectors, modifying and restriction enzymes, reagents for labeling,
sequencing and fragment analysis of nucleic acids, proteins and custom synthesis, reagents for recombinant protein expression
purification; chromatography chemicals; substances for scientific or medical research use, namely, reagents for
electrophoresis, bioinformatics, spectrophotometry and fluorometry; radiochemicals for scientific research use; substances for
scientific or medical research use, namely, reagents for scintillating proximity assays, high through put screening assays for
drug development, reagents for high resolution laser fluorescence confocal microscopy; specialty chemicals for use in industry,
science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and
additives for use in the manufacture of pharmaceutical products, and diagnostic preparations and substances; chemical test
reagents, saline solution and reagent-coated paper all for scientific and laboratory use; fissionable chemical elements for
scientific research use; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources
and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification and
sterilizing techniques; radionuclides for scientific research use; chemicals and chemical compositions for use in the treatment
of water systems, waste water treatment systems, cooling water systems, boiler water and steam generating systems, boiler
condensate systems, fluid separation systems, water clarification and dewatering in aqueous systems, conditioning systems, gas cleaning systems, industrial process systems, fuels and fuel processing systems, hydrocarbon and gas processing systems, oil and gas processing and petrochemical systems, pulp and papermaking systems, metal and plastic coating systems, metal processing systems; chemical products, namely, chemical gasoline additives, distillate chemical and detergent fuel additives and performance additives for fuels used in turbine engines; bags of chemically-treated water-absorbing granular materials for placement into fuel tanks; test kit consisting of reagents used for determining the presence of algae and active organic organisms in diesel fuel; bacteria cultures and nutrients for waste water and sludge treatment; polymeric chemicals used to disperse particulate matter in steam generating equipment; chemicals and chemical compositions as antifoulants and demulsifiers in coke-making and by-product operations of iron and steel industries; chemicals, catalysts, and unworked plastics for use as filtering material, acid gas eliminating filters, and zinc oxide whisker crystals filters; unprocessed plastics, none of the above covering photographic, cinematographic or optical goods; etching fluids for dissolving unwanted materials, namely, metals, semiconductor material and glass

**For** Blank recording discs, namely, compact discs; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports glasses, namely, sports goggles for use in skiing, racquetball, swimming; downloadable or recorded computer software for individual and multi-player network games and interactive evolutive scenario games; fuel distribution equipment, namely, metered fuel pumps, electrical fuel level gauges, control valves for regulating the flow of gases and fuel lines; automated fuel station management systems, comprised of downloadable or recorded computer operating software, metered fuel pumps, rate control panels, fuel lines and dispensing nozzles for fueling land and marine vehicles and aircraft; gas meters; automated railway track switch machines; Global Position System (GPS) based tracking and monitoring systems for the railroad and transit industries; electrical devices and electrical power distribution products, namely, capacitors, circuit breakers, circuit breaker load centers, circuit closers, circuit interrupters, commutators, contacts, current rectifiers, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles, electricity switchboards and switchboxes; downloadable or recorded computer software for troubleshooting and maintaining programmable controllers, for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels, for use with medical patient monitoring equipment, for receiving, processing, transmitting and displaying data, for use in developing personalized asset allocation programs, for use on-line to enable office equipment dealers to submit applications, manage portfolios and communicate with the company, for use in accessing mortgage and insurance information, for collecting data involving vital medical signs, for use with electrical power systems analyses and instructional manual sold as a unit therewith, for use by employees for financial institutions for determining financial investments for clients and in processing the sale of the identified investments, for obtaining information on the flood-hazard status of real property, for the development of graphical user interfaces and data visualization, for use to calculate mortgage payments, for regulating and managing vehicle fleet maintenance services, for use in connection with accessing and utilizing commercial computer services, for use by customers to obtain lease portfolio information, for a radiology information system for use by radiologists and radiology department in the database management of employee and patient information, for patient monitoring and archival purposes, installed on and used in connection with PCs and medical monitoring equipment, for graphical user interface, for use in sending encrypted and compressed data over paging carrier systems, for providing access to websites where buyers and sellers can conduct business electronically, and for underground navigation, namely, for navigation of down hole probe assembly for oil drilling and
drilling assemblies for routing underground utilities; electrical goods, electrical power generation and distribution products and electrical voltage and overvoltage surge products, namely, arresters, busways, capacitors, lighting contactors, controllers and input/output devices in the nature of keyboards and monitors, fuses, lighting controllers, switch boxes, LEDs, namely, light emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge suppressors, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, full-voltage manual starters, reduced voltage starters, electrical switches and disconnects, circuit board terminal blocks and pumping panels, circuit breakers and disconnects, transformers, electrical lighting and power circuit boards, electrical wires, cables, cords, and conductors, electrical wiring, lightning arresters, electricity meters, power meters, grounding resistors, humidity and temperature sensors; building and wood sensors, specifically sound wave and vibration sensors; industrial calibration sensors, specifically, proximity sensors; push buttons, motor control centers comprised primarily of physical groupings of combination starters in one assembly; electrical resistance heating wires and electrical controllers therefor and voltage regulators; downloadable or recorded software and software programs for data collection, data management and data analysis for use in industrial, research, and medical use; apparatus for electrophoresis not for medical use; chromatography columns and pumps; apparatus for bioinformatics systems, namely, computer hardware and software for processing biological information; apparatus for scintillation, namely, scintillation counter to measure beta-emitting nuclides; imaging apparatus for radioactive and luminescent emissions, namely, cameras and scanners; synthesis and purification integrated systems, namely, chromatography columns, cartridges, fraction collectors, mixers, monitors, pumps, recorders and downloadable or recorded analysis software; apparatus for microarrays, namely, probes, slides, buffers, bacterial controls, racks and trays; laser based optical apparatus for digital imaging not for medical use; laboratory articles, namely, microarray slides; laboratory glassware, vials and microvials and microtitre plates; downloadable or recorded computer software for hospital operating room management; downloadable or recorded computer software for critical care information management; downloadable or recorded industrial process control software; downloadable or recorded computer software programs and program manuals sold as a unit for use in factory management; downloadable or recorded graphical user interface based computer programs for controlling machines in industrial automation applications; downloadable or recorded software for creating graphics displays and editing dynamic data interfaces for real time graphics applications for industrial and business applications; downloadable or recorded communications software for connecting computer network users; downloadable or recorded industrial process software for plastic injection molding; downloadable or recorded software for control, monitoring, simulation, communications, data logging and collection, and factory automation; downloadable or recorded software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged downloadable or recorded software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer peripherals, displays and terminals; computer whiteboards; system boards and processors; industrial process controllers featuring call control, operator interface, gage interfaces and data collectors; downloadable or recorded computer software for control and manufacturing applications, namely, statistical process control, data collection, and distributed numerical control, manufacturing execution systems and downloadable or recorded document management software; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output computer hardware devices, input/output modules, interface modules, power supplies and
mounting hardware therefor; intrusion and burglar alarm systems, security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glass-break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hard-wire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and downloadable or recorded software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely, keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices, fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro-mechanical locks; magnetic locks; electric keys; hand held electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; electronic key fobs and readers and encoders therefore; bar code access cards and readers, encoders; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and downloadable or recorded software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring, digital hard drive recording, network transmission and remote access; networked digital video storage servers for access control and surveillance applications, alarm monitoring and security; downloadable or recorded computer software and computer hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of electronic boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, electronic display interfaces for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switchers, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; downloadable or recorded computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks, electronic key fobs, readers and encoders;
downloadable or recorded data processing software and computer hardware; power supplies, namely, batteries, voltage and current regulators and transformers; control panels, namely, electronic apparatuses adapted to electrically monitor a predetermined activity and activate a burglar alarm; siren speakers; and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; downloadable or recorded computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus, namely, detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus, namely, detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; bioreactors for culturing cells; portable analytical instruments, namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; downloadable or recorded computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control pH and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment, namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure pH, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; electronic and electrochemical products, namely, fuel cells; photovoltaic solar cells and cell modules, photovoltaic solar hybrid modules, electronical sensors for measuring solar radiation, solar cells; apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar modules and parts therefor; document and photo printers, namely, laser printers, ink jet printers, multifunction and all in one printers; electronic hand-held units for the wireless receipt and transmission of data that enables the user to keep track of or manage personal information and has the capacity to transmit and receive voice, image and video communication; downloadable or recorded software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and downloadable or recorded software which enables and provides one-way and two-way wireless connectivity to data; portable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files and downloadable or recorded operating software therefor; hand-held electronic devices for the wireless receipt and transmission of data; downloadable or recorded software for the redirection of messages, e-mail, and other data from a personal computer or a server to one or more hand-held electronic devices; downloadable or recorded computer software and...
programs for management and operation of wireless communication devices; portable telecommunication instant messaging devices; downloadable or recorded computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; downloadable or recorded computer game software for mobile handsets; downloadable or recorded electronic game software for mobile handsets; batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells, carbon rods for use as fuel cells in dry batteries, wiring apparatus, namely, electrical connectors, electric cables, electrical conduits, floor ducting especially for housing electric cables, ballast for discharge lamps, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, electrical plugs, insulating materials in the nature of insulated electrical connectors, wires and cables, electric time switches; video entry phones, intercom systems, electric door chimes, electric buzzers, fire alarms, gas leakage alarms, burglar alarms, portable emergency buzzers; acoustic machines and apparatus, namely, radios, cassette tape players and recorders, radio cassette recorders, portable cassette tape players, compact disc players and recorders, mini disc players and recorders, mini disc decks, DVD (digital versatile disc) audio players and recorders, secure digital players and recorders, secure digital card, audio speakers, stereo tuners, amplifiers, stereo component system comprised of tuners, amplifiers, audio speakers, record players, graphic equalizers, radios incorporating clocks, IC (integrated circuit) recorders, digital sound processors, headphones, earphones, microphones, sing-along cassette players and recorders in the nature of karaoke players, pre-recorded compact disc featuring sports, electric megaphones, audio and video recorders and players for language laboratories, car audio systems comprised of stereos, speakers, amplifiers, equalizers, crossovers and speaker housings, public address systems, audio mixers, audio equipment cleaners, namely, magnetic head cleaners, audio cables, video cables, audio-visual machines and apparatus, namely, television receivers, cathode ray tube displays, cathode ray tubes, television signal image pick up tubes, plasma television receivers, plasma displays, LCD (liquid crystal display) television receivers, liquid crystal displays, combined television receiver with video tape recorder, combined television receiver with audio and video disc player, antennas, tuners for satellite broadcasting, tuners for television, Internet display terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, video CDs (compact disc) featuring sports, DVD (digital versatile disc) video players and recorders, color video systems for large-scale display, comprised of video projector, audio speakers, cable television systems, namely, converters and transmitters, hard disk drivers, video imagers, electric optical display boards, multi-purpose electric display systems, comprised of LED (light emitting diodes) monitors and screens, closed circuit video equipment systems, comprised of cameras and monitors for video surveillance, DVDs (digital versatile disc) featuring sports, television cameras, video switches, electronic editing controller, light emitting diode display; optical-disc machines and apparatus, namely, optical disc drives, optical disc recorders, optical disc players, optical disc changers, blank optical discs; communication machines and apparatus, namely, facsimile transceivers, transceivers, telephones, cellular mobile telephones, carry case for cellular mobile telephone, telephone answering machines, private automatic branch telephone switching apparatus, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communication systems and multi-channel access radio systems, comprised of radio emitters, radio receivers, radio emitters/receivers, radio repeaters, radio signal amplifiers, radio antennas, radio-telephones; electronic traffic information boards, video teleconferencing systems, comprised of cameras, transmitters, receivers
and players, personal handy-phone systems, comprised of mobile telephones, pagers, local area network (LAN) hardware and downloadable or recorded operating software, AV (audio/visual) encoders and decoders, in-car navigation apparatus, electronic apparatus for the collection of road tolls, GPS (global positioning system) antenna; checking and supervising apparatus and instruments, namely, electric door openers, communication and monitoring system for apartment buildings comprised of video cameras, computer monitors, intercoms, intruder detection systems, comprised of burglar alarms, video monitors, automated control system comprised of hardware and downloadable or recorded software for monitoring and controlling functions within buildings and electric multi-layer security appliances; automatic controlling machines and instruments, namely, electric notice boards, traffic management equipment, namely, display monitors, computers, auto compasses, downloadable or recorded software to manage traffic, automated traffic-signal control apparatus, bus location system, and ultrasonic vehicle detectors, electric light dimmers, electric daylight switches, inverters, programmable logic controllers, transformers, power capacitors; data processing equipment, namely, computers and computer peripheral devices, computers, word processors, image scanners for personal computer, document and photo printers, PC (personal computer) cards, computer keyboards, computer mouse, CD-ROM (compact disc-read only memory) drives, floppy disk drives, electronic and magnetic card reader and writers, bar code readers, time recorders, mobile data terminal, electronic cash registers, electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and downloadable or recorded computer operating software, data collection terminals in the nature of computer terminals, PDA (personal digital assistants), DVD-RAM/ROM (digital versatile disc-random access memory/read only memory) drive, CAD/CAM (computer aided design/computer aided manufacturing) drives, hard disc drives, electronic calculators, uninterrupted power supplies for computers and communication and broadcasting equipment; head cleaning tapes for audio and video recorders, IC (integrated circuit) memory cards; weighing and measuring apparatus and instruments, namely, thermoluminescence dosimeters, electronic counters, ammeters, power consumption meters, clamp meters, electric leakage meters, electric insulation meters, thermometers, measurement system processors, multi-circuit type electric power monitor, electronic micro-precision measurements, step counter, namely, pedometers, audio and video signal analyzers, oscilloscopes, modulators, voltmeters, audio and video signal distortion meters; electronic sensors, namely, photoelectric sensor, temperature sensors, position sensors, angular speed sensors, rotation sensors, angle sensors, dew sensors; electric components, namely, light emitting diodes, liquid crystals displays, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, LSI (large scale integration) circuits, semiconductor memory devices, one-chip microcomputers, electric condenser microphone, half tone image processors, thermal printing heads for printers, magnetic heads for audio cassette players, permanent magnets, electrical connectors, electric relays, lasers for use in manufacturing semiconductors, image sensors for CCDs (charge coupled devices), film capacitor, electric tuner units, electric high frequency units, electric coin validating units, electric monetary bill validating units, voltage controlled oscillators, PLL (phase-locked loop) synthesizer modules, electronic wireless communication module unit, optical transmission components, namely, connectors for optical fiber, printed wiring boards in the nature of circuit boards, speaker components, namely, speaker enclosures, speaker drivers, power supplies, AC (alternating current) adapters, convergence magnets, and electrical coil inductors, capacitors for electrical appliances, filters of electric signals, transformers, deflection yoke thermistors, varistors, acousto-optic devices, namely, resistors, potentiometers, encoders, printer units, hybrid IC (integrated circuit) cards, electronic components, namely, piezoelectric switches, heat sink wiring boards, transparent touch panels, electro-luminescent display units, electro-magnetic resistors, thermomagnetic cut-offs devices; data processors in particular for financial applications; downloadable or recorded
computer operating programs; computer hardware and downloadable or recorded software for the development, maintenance and use of local and wide area computer networks; systems for reading memory cards and systems for reading data in memories in the nature of memory readers for reading integrated circuit memories and banking card memories; cash dispensers; automated billing machines for processing accounting information; magnetically encoded cards, namely, magnetic cards and cards with integrated circuits, in particular, for financial debit and credit applications; electronic card reader, printers for use with data processing systems and financial transaction systems; encoders and decoders; modems; electronic data carrier cards, namely, blank smart cards, magnetic coded card readers, electronic data carrier card readers, namely, smart card readers, electronic encryption units, computer hardware, computer terminals, downloadable or recorded computer software for data collection, database management and data analysis for use in connection with providing financial, banking and telecommunications services; electrical and electronic goods, namely, calculating machines, electronic day planners; banking cards, namely, credit cards and debit cards using magnetic memories and integrated circuit memories; banking cards, namely, credit cards and debit cards having integrated circuits and microprocessors; memory cards; automatic cash dispensers; equipment for data processors and computers, namely, cards equipped with microprocessors and integrated circuits; computer hardware in the nature of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads; fluid control devices, namely, expansion valves, flow meters, pressure switches, sequence timers, regulators, levelers, ejectors, and electrical controls and switches, electrical inductors, electrical transformers, electric regulating and controlling devices, electric measuring instruments, switchboards; electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications; electronic notice boards

**For** Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions; television broadcasting; communications by mobile telephones; communications by electronic computer terminals; providing access to databases and Internet related telecommunications networks; communications by a communications system consisting of teletypewriters connected to a telephonic network to send and receive signals; communications by telegraph; communications by telephone; communications by facsimile; paging by radio; communications by teleconferencing; cable television broadcasting; radio broadcasting; press and information agency services, specifically, transmission of news including sports results and entertainment; other message transmission services, specifically, delivery of messages by electronic means; broadcasting of a commercial site on the Internet; streaming of radio and television programming and broadcasting services provided via the Internet; electronic messaging; providing access to computer bulletin boards, and real-time chat forums for transmission of messages among users concerning sports and entertainment; transmission of messages and images via computer; providing access to telecommunications channels for home and office tele-shopping services via computer and/or interactive communications technologies; telecommunication of information including web pages, computer programs and any other data, specifically, data transmitted by electronic communications network; electronic mail services; providing user access to the Internet; providing telecommunications connections to the Internet or databases; providing access to digital music web sites on the Internet; providing access to MP3 web sites on the Internet; delivery of digital music by telecommunications; rental of access time to a central database available on the Internet providing access to search engine databases; management of chat forums on the Internet for transmission of messages among computer users concerning sports and entertainment; rental of telecommunication lines for access time to a
central server database; rental of telecommunication lines for access time to a computer database; simultaneous broadcasting of films and of video and sounds recordings via electronic communications networks; providing e-mail services; wireless data messaging service, particularly service that enable a user to send and/or receive message through a wireless data work; one-way and two-way paging services; electronic transmission of data, images, audio, video and documents, including text, cards, letters, messages, mail, animations and electronic mail, over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks; electronic transmission of computer software over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular, and satellite networks; providing access to databases and local or global communications networks, namely, the Internet, intranets, extranets, television, mobile communication, cellular, and satellite networks; message transmission and relay services, namely, electronic transmission of messages; telecommunication services for the dissemination of information by mobile telephone, namely, the transmission of data to mobile telephones; mobile telephone communication services; electronic transmission and reception of voice communication; communication services, namely, transmission of data by telecommunications networks, and multimedia communications networks; rental of access time to global computer networks. transmission of data, images, audio, video and documents, including text, electronic cards, letters, messages, e-mail, animations and electronic mail, over local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks

**International Classes** 38 - Primary Classes US Classes 100, 101, 104

**International Class Title** Communication

**For** Courier and air transportation services; travel arrangement; transmission of oil or gas through pipelines; automobile, aircraft, railcar and marine vessel leasing; chemical delivery and storage services in the field of water treatment and pulp and paper making systems; leasing of shipping containers; boat transport; vehicles reservation services; travel services, namely, travel information services, reservation services and organization of travel in the nature of pre-trip planning assistance services; travel ticket reservation services; information services in the tourist field, namely, transportation information services; information services in the tourist field, namely, ticket reservation information services for transportation, travel and transportation for sightseeing; information services in the tourist field, namely, activity scheduling information services for transportation for sightseeing; travel services in the nature of arranging transportation for the assistance of tourists; tourist reservation services, namely, travel ticket reservation and transportation reservation services; providing travel information to travelers regarding fares, timetables and methods of transport; tourist assistance services, namely, ticket reservations for transport, travel and transportation for sightseeing; tourist assistance services, namely, activity scheduling for transportation for sightseeing; tourist reservation services, namely, ticket reservation services for transport, travel and transportation for sightseeing; providing travel timetables and modes of transport

**International Classes** 39 - Primary Classes US Classes 100, 105

**International Class Title** Transportation and Storage

**For** Medical services; medical and pharmaco-toxicological controls, namely, drug use testing services in the nature of anti-doping testing; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services, namely, pest control services for agriculture, horticulture or forestry; consultancy services relating to medical and diagnostic imaging; consultancy services relating to diagnostic, prophylactic and therapeutic properties of pharmaceuticals; medical information services; medical imaging services; medical diagnostic testing, monitoring and reporting services; and medical advisory services related to all the aforesaid; leasing of medical equipment

International Classes  44 - Primary Classes  US Classes  100, 101  International Class Title  Medical, beauty and agricultural services
For  Developing of films for movies; enlarging of photographs, printing of photographs, developing of films for photographs; leasing or rental of machines and instruments for developing, printing, enlarging or finishing for photography; oil production services; gas production services; oil and gas well treatment services; oil and gas refining services; wastewater treatment services; water treatment services, namely, desalination, purification, conditioning, identifying and controlling microbiological organisms, cleaning of ion exchange resins; membrane regeneration services; providing information to others, over a global computer network, relating to industrial water purification

International Classes  40 - Primary Classes  US Classes  100, 103, 106  International Class Title  Material Treatment
For  Diesel fuel and gasoline

International Classes  4 - Primary Classes  US Classes  1, 6, 15  International Class Title  Lubricants and Fuels
For  Rubber, gutta-percha, asbestos, mica and goods made from these materials and not included in other classes, namely, rubber bands for commercial and industrial uses, rubber bars and rods, rubber bottle stoppers, rubber chips or granules for use as a playground ground cover, rubber cords and laces, rubber sealant for caulking and adhesive purposes, rubber sheets, rubber sleeves for protecting parts of machinery, rubber thread and covered rubber yarn not for textile use, electrical insulating rubber products, foam rubber, rings of rubber for use as pipe connection seals, asbestos fabrics, asbestos fire curtains, asbestos nets, asbestos paper, asbestos powder, asbestos yarn, mica for use in the manufacture of electronic instruments; plastics in extruded form for use in manufacture; packing and insulating materials; flexible pipes, not of metal; silicone sealants for a variety of uses such as for bath tub caulking, sealing boats and automobiles; silicone based sealants and adhesives for road and weather topping, silicone rubber roof coating; plastic panels for building construction purposes; plastic glazing compounds; plastic in the form of sheets, plates, foils, blocks, all for use in manufactures; electrical insulation material, electric insulators, namely, insulating varnish, silicone rubber compounds; thermal insulating material, thermoplastic insulation materials used as building materials for insulating, roofing and glazing; plastic material in the form of sheets, rods or foils, molding materials, PVC (polyvinyl chloride) lined flexible water pipes; soundproofing materials for buildings

International Classes  17 - Primary Classes  US Classes  1, 5, 12, 13, 35, 50  International Class Title  Rubber Goods
For  Belts, neckties; suspenders; bandannas; beach sandals; infant and toddler sleep wear; bathrobes, nightshirts, pajamas and lounge wear; beach cover-up dresses; toddler short and top sets; girls knit dresses with pants sets; boys shorts and top sets; girls skirt/panty combinations; socks; play suits; coveralls; union suits; collarless shirts; shorts; pants and slacks; shirts; jackets; judges, team, referee and umpire uniforms; sweaters; parkas; turtlenecks; mittens; gloves; underwear; rompers; jerseys; maternity tops; bow ties; head wear and scarves; ear muffs, ear bands and headbands; hosiery; rain wear, namely, rain ponchos and jackets; footwear, namely, shoes, boots and slippers; bath thongs; hats; caps being headwear; visors being headwear; aprons; ski and cloth bibs; team uniform reproductions, comprising of jerseys featuring reproductions of professional athletic team logos; canvas footwear; knickers; wind-resistant jackets; T-shirts; sweatshirts; sweat pants; baseball caps; coats; pullovers; one-piece ski suits; golf shirts and hats; blazers; leg warmers; sequined evening tops; jeans; leotards; workout and sports apparel, namely, shorts, jackets, slacks and skirts; ski masks and ski gloves; sailing gloves
For Scientific and technological services, namely, scientific research, analysis, testing and new product design in the field of medical and pharmaco-toxicological science and testing; industrial analysis and research services in the field of medical and pharmaco-toxicological science and testing; laboratory analysis in the field of medical and pharmaco-toxicological science and testing; design and development of computer hardware and software; services relating to wind and wind power, namely, professional engineering and design consulting services and engineering services; design of new products for others in the field of wind power; industrial design services; design of power, wind power and electric power generating equipment and installations; engineering services, technical consultation and scientific research services in the oil and gas exploration industries; oil and gas exploration services; geophysical exploration for the oil and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely, well logging and testing; oil and gas well testing; oil and gas pipeline inspection; remote monitoring and diagnostic services for compressors, pumps, turboexpanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air cooled heat exchangers, steam condensers, heavy wall reactors and tubular reactors; planning, design and management of information technology systems in the field of global railroad and transit industries; leasing of computer equipment; consultation, and advisory services relating to engineering, design and development problems encountered by utility, industrial, and commercial companies, governments, and individuals; computer programming services for others; computer software design and analysis services for others; computer programming, software and security consultation services, maintenance and updating of computer software and computer programs for others; installation of computer software; computer systems analysis and design services for others; consultancy services relating to chemical research; consultancy services relating to the discovery and evaluation of drugs and compounds having diagnostic, prophylactic and/or therapeutic properties; medical and scientific research consultancy services relating to methods for diagnosis using laser based optical systems; development and design of high through put screening assays for drug development services; research and development in the biotechnology field; technical support services for factory automation software, namely, providing maintenance of computer software and providing periodic upgrades of software; custom design of security access systems; design and consulting services in connection with the configuration of systems used in applications supporting fiber optic technology; technical support, namely, monitoring of network systems; technical consultation concerning the design and development of security and access systems; laboratory and testing services for fluid separation and membrane testing; engineering and consulting services for the detection of contaminants in water treatment systems, aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, industrial fuel processing systems, pulp and paper making systems, and metal and plastic processing systems; engineering services and technical support services, namely, design and configuration of computer software and hardware systems to be used in the treatment of aqueous system and in the treatment of pulp and paper making systems, petroleum and petrochemical processing systems, and metal and plastic finishing operations. programming for data processing machines, namely, programming of electronic money machines; providing on-line non-downloadable computer programs for assuring security of data transfers; research and industrial development in the field of computers; computer technology consultation; creation and maintenance of computer data bases and computer programs; hosting the web sites of others on a computer server for a global computer network; installation of computer software; maintenance of computer software; providing search engines for the Internet; quality control for others; recovery of computer data; product research and development for others; surveying; updating of computer software; maintenance of computer software; engineering, testing and research relating to electric machines,
apparatus and instruments, computer rental; rental of computer software and programs; recovery of computer data, namely, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms; computer technology consultation in the field of value-added data computer servers, namely, multimedia systems, interactive videography, and global computer networks for telecommunications; consultancy regarding information technology management; industrial product research, development and testing in the field of sport; scientific research in the field of sports; hosting weblogs; providing web hosting electronic platforms for sharing and transmitting data; providing an on-line, non-downloadable, Internet-based interactive computer application featuring technology enabling users to note personal evaluations of the performance of an athlete, to vote for an athlete, as well as record their comments, and also enabling them to consult ratings, votes and comments from other users; providing an on-line, non-downloadable, Internet-based interactive computer application featuring technology enabling users to identify and vote for athletes participating in an international athletic competition, as well as to monitor the performance of these athletes; digital storage services for carriers containing immobile and mobile images, namely, storage of electronic media, namely, images, text and audio data

**International Classes**  42 - Primary Classes  US Classes  100, 101
