Publication Date Nov. 17, 2020

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S)
Description of the Mark The mark consists of a three-dimensional product packaging design comprised of a clear bottle that has a circular, platform-like disc at its bottom, from which extends a larger, rounded bottom that gradually tapers upwards to a thin neck. The bottle's rounded bottom portion, above the platform-like disc, has multiple protruding/raised lines spaced equidistantly that curve up and to the left and continue around the entire rounded bottom portion of the bottle. Above these lines is the gold, stylized, and vertically stacked wording "BRANSON COGNAC V.S.O.P. COGNAC GRANDE CHAMPAGNE APPELLATION COGNAC CONTRÔLÉE ALC. 40% BY VOL". In turn, above this gold wording is a dodecagon that protrudes slightly from the bottle's surface, just before the neck of the bottle completes its tapering, which has a circular depression within it containing a gold circle, and within that gold circle is a gold, stylized letter "B". The matter shown in dotted lines is not claimed as a feature of the mark, but serves only to show the position of the mark with respect to the bottle as a whole. Likewise, the brown liquid shown inside the bottle is not claimed as a feature of the mark and serves only to show the placement of the mark on the goods. Color Drawing Yes Color Claimed The color(s) gold is/are claimed as a feature of the mark. Disclaimer "COGNAC" AND "V.S.O.P." AND "COGNAC GRANDE CHAMPAGNE" AND "APPELLATION COGNAC CONTRÔLÉE" AND "ALC. 40% BY VOL." Translation The English translation of "CONTRÔLÉE" in the mark is "controlled".

GOODS AND SERVICES INFORMATION
For Building and construction materials and elements, not of metal, namely, flooring materials, piles, fiberglass panels and
polymer concrete elements; buildings and structures not of metal, namely, non-metallic transportable buildings, portable
skating rink structures, not of metal, non-metal structures for mounting solar panels; concrete rings and plates; polymer
concrete building structures and structural supports, namely, pads, walls, posts, concrete flooring; non-metallic drainage
installations; non-metallic building products, namely, concrete rings and plates, utility vaults and utility enclosures, bases,
baffles and tamper shields, pop caps and cover plates for utility vaults, splice boxes and bases, extensions and lids for
underground splice boxes, support pads for transformers and telephone equipment, cable trenches and roadway service boxes
for traffic control all made from reinforced polymer concrete or plastic; fiberglass structures and materials, namely, fiberglass
panels, fiberglass board, fiberglass utility enclosures; plastic or polymer trench system for use in water drainage systems;
polymer concrete products, namely, hydraulic drop structures, flooring tiles and blocks and grout therefor, structural beams
and slabs and support stands, and drainage systems consisting of channels and drain outlets; non-metallic products, namely,
channel supports, drain outlets, frames, catch basins and grates, all used for drainage and retention systems; underground
structures made of polymer concrete, namely, bases for telephone equipment and transformers; fiberglass composite plates and
beams for use in construction and as road hole covers and trench covers; fiberglass composite panels for trench shoring;
fiberglass composite compression pads for outriggers; fiberglass composite panels for protecting shallow gas mains; fiberglass
composite covers for manholes and vaults; concrete pipes and concrete piers for use in providing foundation support and
stabilization

**For** Maintenance, repair, updating and installation services for electronic equipment, utility products, telecommunications equipment, industrial lighting, high voltage equipment, marine electrical products, indoor and outdoor lighting; providing technical consultation in the field of lighting installations; providing a premium service program for repair and maintenance of utility products, electric distribution, telecommunications, lighting equipment

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

**For** Electrical and electronic connectors and parts thereof, electrical conductor cable hangers and ties; electrical components, namely, wiring, vacuum tube testers and fittings therefor; instruments, indicators and controllers, namely, for measuring, detecting and monitoring occupancy, and electrical and physical parameters; apparatus and equipment for measurements of high voltage networks, namely, digital multimeters; voltage dividers; measuring shunts, namely, ammeter shunts for measuring electrical current; generator controllers; generator PC controls; chopping gaps used to chop lightning impulses; sphere gaps for voltage calibration; voltage impulse measuring systems consisting primarily of a central processing unit, control computer, power supplies, interface calibrator and digitizer, and software for controlling RFID readers, performing data center monitoring, and controlling electrical components; capacitive divider ratiometers; current resistance meters; electric transformer testers; transformer measurers; current boosters for inductance testing; electrical inductors; voltage discharge detectors; voltage discharge measurement instruments, namely, surge and cable fault locators, partial discharge detectors, electrostatic voltmeters; current comparators; voltage burden instruments used as artificial loads for current and voltage transformer measurements; voltage measurement and analysis instruments, namely, electrostatic voltmeters; voltage coupling capacitors; voltage cable test terminations; power loss measurement instruments, namely, transformer measurement systems, motor test systems; transformer turns ratio meters; heat run testers; capacitor dissipator measurement bridges; winding resistance meters; electromagnetic compatibility testers; measuring, counting, alignment and calibrating instruments, namely, instruments for calibration devices for calibrating High voltage test and measurement equipment, transformers and cabling; electricity measuring instruments, namely, surge generators, voltmete, ammeter, clamp meters for measuring electricity; high voltage power supplies and power packs, direct current wire sparkers and parts therefor; high voltage test equipment, namely, megohmmeters, DC insulation testers, dielectric and corona test equipment, load cycle testers, high voltage fault locating bridges and impulse-type fault locators; high voltage test equipment, namely, pulse pick-up devices for fault locating, automatic cable testers, alternating current dielectric test equipment for testing the dielectric on wires and cables, electrical wire insulation pin hole counters; high voltage test equipment, namely, multiple wire insulation testers, non-destructive insulation testers, discontinuity enamel wire defect testers, electrical test and fault locating equipment; surge generators for testing high voltage cables, switchgear and capacitors; electrical impulse measurement equipment, namely, cable fault locators,
surge testers, magnetic measuring equipment, ammeter; current shunts; voltage stepwave generator; high voltage power supplies, cable and transmission line fault locators; cable and wire test sets; circuit breaker test sets; electric switches; electrical control panels and controllers for controlling the operation of electric motors; electric controllers, magnets, namely, magnets for industrial purposes, electrical switch components, electric switch frames, electrical switch-arms, electrical switch-contacts, electrical switch-magnets, electrical switch blow-outs, electrical switch blow-out ears, electrical resistance-grids, electrical relays, electrical overload-relays, electrical acceleration relays, electrical limit-switches, electrical master-switches, electrical alternating-current relays, electrical push-button switches, and spare parts for the above-named electrical apparatus; fire pump products, namely, fire pump control valves, electric motor fire pump controllers, fire pump controllers with transfer switches, battery chargers for fire pumps, alarm panels for fire pump controller status; electrical transmission apparatus and equipment, namely, cables and wires for electrical transmission, transformers, fuses, lightning arresters, relays, electric switches, conductors, connectors, distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards, electrical grounding apparatus and equipment, namely, for detecting and removing hazardous voltage conditions, and parts and accessories therefor; fastening glands for electrical cables, cable junctions for electric cables, electric cable junction sleeves, and parts and fittings for the aforesaid goods; electrical terminals; electrical cable connectors; electrical cable and wires; termination blocks and earthing terminals; electrical switches and junction boxes and parts and fittings therefor; electric switches and connectors, electrical wiring devices, namely, electrical power outlets; electrical wiring products, namely, electrical plugs and connectors; electric flush receptacles, wall switches and outlets; cover plates; attachment plug caps, electric cord-coupling caps, electric couplings, attachment plugs, and motor plugs, straight blade electrical plugs; electrical and hydraulic cord, cable and hose routing system comprising raceways, namely, polymeric composition carriers for containing and protecting electrical and hydraulic cord, cable and hose; electrically conductive ground enhancement material, namely, electrically conductive carbon; cables for electricity; electrical apparatus, namely, conduit boxes; electric switch housings; electrical conduit fittings, namely, entrance fittings; electrical enclosures in the nature of motor control housings; flexible electric couplings; junction boxes, electrical plugs and receptacles; explosion-proof switches for power, light, industrial control, electric motion sensors; explosion-proof control stations for electrical voice intracommunications systems, industrial control; electrical control centers in the nature of switch racks; reducers for electrical systems; electrical close-up plugs; conduit sealing fittings; electric unions, couplings and connectors; cast outlet boxes; cord and cable connectors; electrical boxes, namely, switch, outlet, ceiling, cable, conduit, utility, junction, cutout, pull and receptacle, concrete rings, covers and plates for electrical boxes, bar hangers for electrical boxes, and clamps for electric cable and conduit, switch boxes, outlet boxes and covers, ground clamps; splice boxes, splice connectors; enclosures for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts for underground splice boxes, namely, extensions and lids; electrical connectors; electrical connectors for electrical utilities, commercial, industrial and residential contractors, maintenance and repair companies, as well as the telecommunication and renewable energies markets; electrical outlet covers, bushings, insulators and housings for electrical equipment, namely, electrical cables, electrical switches, electrical connectors, electrical substations, and electrical load interrupter switches; and electrical cable accessories, namely, plugs, computer network interface devices, conductors, multi-point junctions, fuse mounts and terminal blocks; electrical cable assemblies; pre-wired junction boxes in the nature of power system distribution assemblies; electrical transformers in the nature of power system supply assemblies; panel mount receptacles and inlets, tees, pass thru and closure caps; cable connectors; electrical cables; connection cables; electrical wires; power transformers; electrical lighting controls and power controllers; electrical outlets; electrical receptacles; electrical sockets; electrical switches; transformers; voltage surge protectors; lighting surge
protectors; lighting transformers; heat sinks for use in electronic components; explosion-proof junction boxes, fittings for electrical cables, wires and conductors, conduit boxes, electric switch housings, motor control housings, flexible electric couplings, junction boxes, explosion-proof switches for power, light, and electric motion sensors, explosion-proof control stations for electrical voice intracommunications systems, industrial control, reducers being electronic controllers used to reduce power consumption, close-up plugs for sealing conduit and conduit entries, electrical sealing fittings, electric couplings and connectors, cast electrical outlet boxes, cord and cable connectors, explosion-proof terminal housings, drain-breathers, distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards; electric wiring and lighting devices, namely, switches, receptacles, caps, connectors, couplings, attachment plugs; electrical outlets, namely, convenience outlets; electric motor plugs and couplings; electrical adapters; current taps; switch cover plates; waterproof covers for caps, connectors and cover plates; closure plugs for sealing conduit and conduit entries; information technology devices, namely, computers; point-to-point communication equipment, namely, radio, serial bus, ethernet bridge; electrical power, telephone and data communications components, namely, adapters, plugs, jumpers, jacks and connectors; patch, jack, balun and connector panels for housing electrical connectors, electrical switches; telephone, data and furniture terminals and terminal wall plates; electrical poles and raceways made of plastic for wire and optical fiber containment; through and above-floor fittings and boxes made of plastic for electric connections; cross connect terminal blocks; patch and jumper cords; connectorized wires, cords and cables, electric, coaxial, and network data cable testers; surge protectors and parts therefor; electrical wiring devices, namely, receptacles, plugs, adapters, connectors, electric motor bases; wall mounting plates for holding computers, cable, power supplies; electric switch devices, namely, limit, locking speed responsive, explosion proof, tamperproof, centrifugal, wobble, reversing and circuit interrupters; circuit testing apparatus, namely, continuity testers, polarity testers; junction boxes; electrical grounding devices, namely, for detecting and removing hazardous voltage conditions; power supplies; cable fault detecting apparatus; electric relays; power substations; motor speed controls; motor direction controls; lifting magnet monitors; crane controls; electric transformers; conduit fitting; hot metal detectors, hot and cold object back-lighted detectors, optical scanning and position detectors, constant and variable speed non-contacting length measuring gauges; electronic equipment for monitoring and controlling lighting at different locations; equipment for producing transmitting receiving and processing telecommunications and data communication and signals, namely, transmitters, receivers, transceivers, amplifiers, convertors, repeaters, suppressors, modems, multiplexers, station selectors; telecommunications equipment, namely, terminal buffers, voice couplers, and frequency transmitters; computer networking and data communication equipment, namely, hardware, internet and computer servers; data communication system comprising transmitter and receiver hardware and software for use in connection with conveyors for collecting and measuring performance and providing control such as safety input for shutting down conveyors; traffic signal electric switches, electrical transmission and substation disconnect electric switches; electrical wiring device primarily for power supply connection for light-emitting diodes lighting and LED video displays; surge arresters for electric power lines and circuits; electrical connection devices with welded wire leads; indicator lights for emergency light fixtures; industrial and commercial electrical lighting control panels; lighting control apparatus, namely, communication and control devices for use with lighting fixtures; photoelectric controls and sensors; photoelectric control for varying the intensity of electric lamps; electric power switch packs; electronic sensor devices, namely, occupancy sensors for ceiling mount for use in determining whether a person is inside a room; motion sensors; motion sensors for lighting; dimmers, namely, electric light dimmers, dimmer switches; lighting dimmers; light metering systems; exposure meters for daylight harvesting; sensors for use in detecting motion and dimming or brightening
lights electric light switches; power supplies for building controls, light sensors, occupancy sensors, power sensors, lighting timers and building control timers; electric light dimmers; electrical controllers; electrical controls for use in dimming ballasts; electronic monitors and meters for use in measuring the amount of energy expended; and electric monitors and meters for use in measuring light intensity, electronic timer switches and control systems for lighting; wireless lighting control system for roadway lighting applications; inverters, cover plates for electric switches and receptacles and electric outlet boxes; enclosures, comprised in whole or in part of steel, for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts, comprised in whole or in part of steel, for underground splice boxes, namely, extensions and lids; wiring devices, namely, electrical plugs, electrical receptacles, electrical inlets, electrical pin and sleeve plugs and receptacles, all designed to withstand harsh environmental and industrial conditions; explosion-proof junction boxes; fittings for electrical enclosures, electrical conduit systems, and cable connectors, namely, electric connectors and metal threaded fasteners that have been specially adapted for electrical enclosures, electricity conduits, and cable connectors; electricity conduit boxes; electric switch housings; housings for electrical motor controllers; flexible electric couplings; explosion-proof electric switches; explosion-proof electric control panels; reducer fittings for electrical enclosures and electricity conduits, namely, small metal hardware specially adapted for electrical enclosures and electricity conduits that enables electricity conduits of different widths to be connected together; electric close-up plugs; sealing fittings for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to prevent the passage of gases, vapors, or flames from one portion of an electrical installation to another through such conduits; unions for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to connect electricity conduits together; electric couplings and connectors; cast electric outlet boxes; electric cord and cable connectors; explosion-proof electrical terminal housings; drain-breathers, namely, metal hardware specially adapted for electrical enclosures for the prevention and/or release of condensation; distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards; computer hardware for remotely controlling lighting devices within a building; downloadable and/or recorded computer application software and computer hardware for use in connection with mobile phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones and hand-held computing apparatuses; electrical raceways; apparatus and instruments for controlling lighting; lighting controls; light transforming lenses and optics in the nature of optical lenses for focused illumination of medical examination areas; programmable LED drivers for use in lighting fixtures; ground fault circuit interrupter units for indoor and outdoor electrical installations in industrial, residential, and swimming pool areas for sensing ground faults in and cutting off the electrical power supply to such installations; Downloadable home automation software app for controlling electric and ambient lighting, HVAC, climate control and monitoring, power control and monitoring, security, safety, and other home monitoring and control applications; IoT (Internet of Things) and M2M (machine to machine) downloadable and/or recorded software for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Downloadable mobile applications for monitoring, managing and controlling internet of things (IoT) enabled devices; downloadable software and software applications permitting users to remotely control electronic locks, alarm systems, lights, garage door openers, electric gates, wireless local area network enabled plug outlets, televisions, video streaming devices, digital video recorders and receivers, wireless local area network enabled cameras and other electronic devices; Thermostats that incorporate wireless connectivity; downloadable and/or recorded computer software for mobile devices, namely, software for programming and controlling the aforementioned thermostats; Electronic devices, namely, kitchen thermometers, cooking thermometers, electrical switches, digital audio players, and wireless transmitters and receivers; Wired or wireless control system, connected
to wired and wireless networks in buildings, and comprised of wired and wireless controllers, controlled devices and
downloadable and/or recorded software applications to control wired and wireless networks in buildings including lighting
components and electrical devices; wall switches and dimmers for electric lights, electrical receptacles, occupancy sensors,
motion sensors, vacancy sensors, daylight sensors, lighting control panels, room controllers for controlling light dimmers,
thermostats, control interface, namely, electric control panel, touchscreen, keyboards for electronic devices and network
modules comprising electronic components being electric cabling panels, voice and data boards, video splitters and associated
wiring; voice-activated, and remotely-activated IP (Internet protocol) cameras, smoke detectors, carbon monoxide detectors,
anti-intrusion alarms, burglar alarms, motion detectors, electronic glass break detectors, remote control units for radios,
televisions and stereos, fans, hvac, lights, appliances, keypads and control panels for security systems and home automation
devices, electronic door locks, light systems comprising light sensors and switches, lighting systems, namely, lighting controls;
Electrical and electronic circuits, computers, wireless devices and equipment, namely, mobile hotspot devices, PC tablets,
audio speakers, microphones, video cameras, wireless routers, headsets for use with telephones, mobile telephones, and audio
speakers, Internet of Things (IoT) devices, namely, computers, detectors, sensors, and wearable electrical and electronic
deVICES, namely, smartwatches, microphones, speech recognition devices; semiconductor devices and packages thereof;
Internet of things (IoT) enabled devices, namely, electrical outlets, sprinkler controllers, water leak sensors, signal, occupancy
detectors, smoke detecting and inspection mirrors, cameras, open/close sensors, computer modules, smoke and fire sensors and
smoke and fire alarms; IoT (Internet of Things) and M2M (machine to machine) hardware, namely, electronic sensor devices
for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Vehicle
locator device programmed to use GPS tracking; Navigational system, comprising electronic transmitters, receivers, circuitry,
microprocessors, mobile telephone and downloadable and/or recorded computer software for navigation; Remote video
monitoring system consisting primarily of a camera and video monitor for recording and transmitting images and videos to
remote locations; video cameras; electric and electronic sensors for motion, humidity, temperature, and light; smart home
dashboard comprised of computer hardware and downloadable and/or recorded software used to control electronics in the
home; dual independent electric socket control receptacle, namely, multimedia outlets with dual USB ports and
backlight/nightlight; wireless enabled electrical plug outlets; wireless controllers to remotely monitor and control the function
and status of other electrical, electronic, and mechanical devices or systems, namely, electronic locks, security systems,
lighting systems, garage door openers, electric gates, televisions, cameras, video streaming devices, video recording and video
receiving devices, digital video recorders and other electronic devices; electronic and wireless control panels for security and
home automation systems; Electrical wiring devices in the nature of sockets, receptacles, switches, controllers, and wire
management systems; transmission, distribution, substation, OEM and telecommunications products, namely, switch panels
and enclosures; energy savings products, namely, load analysis and control systems consisting of current sensors, battery
systems consisting of battery modules and charging stations, and Solar panels for the production of electricity; downloadable
software for use in the data communication, oil and gas, power and utilities, security, electrical, electronic and lighting fields
for creating searchable databases of information and data; providing information and resources in the data communication, oil
and gas, power and utilities, security, electrical, and electronic fields; lighting controls; smart ceiling fan controllers

Mark Literal(s)

The mark consists of the design element of a block puzzle on a grid of forty-nine grey squares with black lines between the squares, with brightly colored pieces of the puzzle in place on the left and right lower corners of the puzzle. On the lower left side there is a piece consisting of three red squares in a vertical line, four fuchsia squares forming a larger square, and four blue squares forming a z shape. On the lower right side there is a piece consisting of four red squares in a vertical line, three green squares in a L shape, and two turquoise squares in a vertical line. In the middle of the puzzle is a piece made up of four squares in the shape of an upside down L. The orange piece is surrounded by a blue line of coloring to give the impression that it is falling, and nine white four-pointed stars. Each of the squares that make up the puzzle pieces is highlighted with white to give the impression that the squares are shiny jewels, and have orange borders.
