**For** Machines, namely, machines for washing laboratory apparatus, die-cutting machines, machines for sealing containers, machines for filling containers, drain cocks, compressors for gases, air condensers being parts of machines, water-cooled condensers being parts of machines, evaporative condensers being parts of machines, separators in the nature of separating machines for chemical processing, waste compactors, stacking apparatus, namely, stacking machines, vibrating screen separators in the nature of vibratory screen separators, blowing machines for the compression, exhaustion and transport of gases; motors and engines except for land vehicles, and excluding marine engines, boat motors and jet propulsion engines; machine coupling and transmission components except for land vehicles; compressors, namely, compressors for machines and air compressors; robotic filling machines; pumps for machines; pumps being parts of motors and engines; valves as machine components in the nature of valves operated by changes in pressure; valves as machine components in the nature of valves operated automatically by hydraulic control; valves as machine components in the nature of power operated valves; valves as machine components in the nature of mechanical valves for regulating fluid flow; valves as machine parts in the nature of clack valves, valves as machine components in the nature of valves operated automatically by pneumatic control; valves for pumps; valve positioners being parts of machines; valve position adjusters being parts of machines; valve manifolds being parts of machines; clamp connectors for piping being parts of machines; blowing machines for the compression, exhaustion and transport of gases; cleaning-in-place (CIP) and sterilization-in-place cleaning installations for in-situ and automated
cleaning and sterilization of process engineering installations and production installations namely, clean-in-place (CIP) and sterilization-in-place (SIP) cleaning machines for cleaning and sterilization of the interior of pipes, valves, vessels and filters for use in chemical processing and for use in laboratory equipment instruments; parts for all the aforesaid goods

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

**For** Advertising, marketing and promotional services in the fields of medical respiration and laboratory automation; business management; business administration; business management consulting in the fields of medical respiration and laboratory automation; advice relating to the organization and management of business in the fields of medical respiration and laboratory automation; business consultancy services relating to manufacturing in the fields of medical respiration and laboratory automation; business analysis, namely, business management analysis and statistical analysis and reporting services for business purposes in the fields of medical respiration and laboratory automation, business research and providing business information in the fields of medical respiration and laboratory automation; organization of exhibitions and trade fairs for business and promotional purposes in the fields of medical respiration and laboratory automation; product demonstrations and presentations, including via the internet; commercial services and consumer information, namely, organizing business contacts in the nature of negotiation of business contacts for others in the fields of medical respiration and laboratory automation, procuring of contracts for the purchase and sale of goods, negotiation and conclusion of commercial transactions for third parties; compilation and systemization of data and information into electronic databases, all of the foregoing in the fields of medical respiration and laboratory automation; business project management; customer relationship management in the fields of medical respiration and laboratory automation, namely, receiving, recording and forwarding customer queries or customer complaints, electronically or by telephone; business planning for organization in the field of operating times and locations for goods in the field of laboratory automation, cryopreservation services, process analytics and computerized warehouse management; retail and wholesale store services, on-line retail and wholesale store services and mail order services featuring chemicals used in industry and science, active ingredients for chemical analyses, laboratory chemicals for scientific purposes, chemical solutions for process analytics, electrolyte solutions, not for medical purposes, buffers being chemicals, acids, bases, proteins for scientific purposes, genetic identity tests, consisting of reagents, media for cell cultures for non-medical research laboratories, media for cell cultures for the biotechnological industry, culture media for microbiology, diagnostic reagents for in-vitro applications in biochemistry, clinical chemistry and microbiology, biochemicals for scientific in-vitro and in-vivo applications, biochemical substances, namely, base materials for in-vitro gene technology, chemicals for use in the purification of proteins for in-vitro applications, reagents for use in an in-vitro laboratory, not for medical or veterinary purposes, chemical solutions for conducting nucleic acid tests, chemical solutions for purification of nucleic acids, not for medical purposes, reagents for reproduction of nucleic acids, not for medical purposes, chemicals for use in performing nucleic acid polymerase chain reactions, not for medical purposes, nucleic acids for scientific purposes, chemical solutions for conducting ELISA tests, not for medical purposes, chemical solutions for conducting analyses of blood and urine of human or animal origin, not for medical purposes, chemical solutions for DNA and RNA preparation and isolation, not for medical purposes, chemical solutions for isolation of nucleic acids, not for medical purposes, chemical solutions for cell screening, not for medical purposes, chemical solutions for biomarker analysis and protein analysis, the analysis of protein sequences and glycan structures, not for medical purposes, chemical solutions for immunoassays, not for medical purposes, chemical compounds for production of synthetic resins, eluents, not for medical purposes, unprocessed resins, unprocessed polymer resins, chemical
digestion solutions used in industry and science, chemical water treatment preparations, chemical water purification preparations, chemicals for waste water treatment, ion exchangers, ion exchange resins, laboratory gases, chemically treated test strips, other than for medical purposes, filter materials of chemicals and non-chemical substances, pharmaceutical grade water, ultra-pure water, distilled water, diagnostics, pharmaceutical preparations, chemical preparations for medical or pharmaceutical purposes, reagents for providing diagnosis in medicine or veterinary medicine, medical diagnostic test strips, genetic identity tests, consisting of reagents, for medical purposes, medical diagnostic reagents and tests for examining bodily fluids, active ingredients for in-vitro diagnosis in biochemistry, clinical chemistry and microbiology, reagents for in-vitro laboratory tests for medical and veterinary purposes, in-vitro diagnostic preparations for medical purposes, in-vitro gender prediction test kits, electrolyte solutions for medical purposes, sterile solutions for medical purposes, goods of metal, fasteners of metal, pipes and tubes of metal, connectors of metal for pipes, containers of metal, closures of metal for containers, containers of metal for storage, transport and management of biological, clinical, chemical, forensic and biopharmaceutical substances, fittings of metal for measuring devices and sensors, valves of metal, hand-operated valves of metal, valves of metal for regulating fluid flow, dispensers of metal, machines and machine tools, motors and engines, other than for land vehicles and excluding marine engines, boat motors and jet propulsion engines, machine coupling and transmission components except for land vehicles, machines for punching, compressors, robotic apparatus, robotic filling machines, vacuum controllers, pumps, pumps being machine parts, pumps being engine parts, machines, namely, automatic distribution machines, valves operated by changes in pressure, hydraulically controlled automatic valves, power-operated valves, mechanical valves for regulating fluid flow, motorized valves, pneumatically controlled automatic valves, valves for pumps, valve positioners, valve position adjusters, valve manifolds, parts of machines, namely, flange connectors for pipes, compression fittings for pipes of metal, blowing machines for the compression, exhaustion and transport of gases, self-regulating pumps, other than for dispensing of fuel at petrol stations, CIP and SIP cleaning installations for in-situ and automated cleaning and sterilization of process engineering installations and production installations, apparatus, instruments and cables for electricity, analysis and diagnosis apparatus, not for medical purposes, measuring, detection and surveillance instruments, devices and regulators, electrical controllers, electrical controllers for robots, electronic controllers, control units and control systems, apparatus for scientific research and laboratories, valve positioners for laboratory use, valve position adjusters for laboratory use, valve manifolds for scientific research and laboratories, scientific, optical, analysis apparatus, measuring apparatus, dosage dispensing apparatus, diagnostic apparatus and checking apparatus and analysis instruments, measuring instruments, dosage dispensing instruments, diagnostic instruments and checking instruments, scientific, optical, analysis apparatus, measuring apparatus, dosage dispensing apparatus, diagnostic apparatus and checking apparatus and analysis instruments, measuring instruments, dosage dispensing instruments, diagnostic instruments and checking instruments for use in laboratories, cables, pipe, tubes, fittings, bushings, flanges, connectors, fittings and adapters for laboratory apparatus and laboratory instruments, fans for laboratory apparatus and laboratory instruments, spouts for air supply for laboratory apparatus and laboratory instruments, automatic pipetting work stations, liquid handling workstations for scientific research and laboratories, laboratory equipment systems consisting of automatic pipetting workstations connected to one another and scientific laboratory apparatus for storage and management of biological, clinical, chemical, forensic and biopharmaceutical substances and samples, laboratory apparatus and laboratory instruments, namely, sensors for measuring pH, dissolved oxygen, oxidation reduction potential, ozone, organic carbon and conductivity, at the same time being provided with an integrated device for enhancing and wired and wireless transmission of sensor signals, for monitoring sensor functions and for controlling and setting sensor calibration, laboratory apparatus and instruments for removal of biological, clinical, chemical, forensic and biopharmaceutical substances and
samples using excess pressure, decappers, cappers and cap removers for sample containers, automated decappers, cappers and cap removers for sample containers, cappers and decappers for capping and uncapping of sample receptacles with push-in stoppers and screwing and unscrewing of screw caps for sample receptacles for scientific research and laboratories, cappers and decappers for automated capping and uncapping of sample receptacles with push-in stoppers and automated screwing and unscrewing of screw caps for sample receptacles for scientific research and laboratories, laboratory apparatus and laboratory instruments for process analytics, not for medical purposes, laboratory apparatus and laboratory instruments for biopharmaceutical process applications, not for medical purposes, laboratory apparatus and laboratory instruments for biopharmaceutical process installations, not for medical purposes, storage installations and distribution installations for pharmaceutical grade water, in particular with purity degrees WFI, PW, HPW and UPW, not for medical purposes, laboratory apparatus and laboratory instruments for media preparation and buffer preparation, not for medical purposes, laboratory apparatus, namely, apparatus for fermentation, fermentation tanks for scientific research and laboratories, collection tanks for scientific research and laboratories, laboratory apparatus and instruments for analysis of feed water for steam generators, condensers, laboratory apparatus and instruments for clinical chemistry, not for medical purposes, laboratory apparatus and laboratory instruments for sample preparation and processing in analytical laboratories, laboratory apparatus and laboratory instruments, namely, sample cutters for processing of biological, clinical, chemical, forensic and biopharmaceutical substances and samples for scientific research, diluters for sample preparation and sample processing in analytical laboratories, dispensers for sample preparation and sample processing in analytical laboratories, diluter and dispenser systems for sample preparation in analytical laboratories, laboratory apparatus and laboratory instruments for blood separation, not for medical purposes, apparatus for scientific research and laboratories for the storage transport and management of biological, clinical, chemical, forensic and biopharmaceutical substances and samples, chromatographic apparatus for scientific or laboratory purposes, automated ion-exchange chromatography apparatus for laboratory use, automated ion-exclusion chromatography apparatus for laboratory use, automated reversed-phase chromatography apparatus for laboratory use, separation cartridges for chromatography for scientific or laboratory use, separation columns for ion exclusion, ion exchange and reversed phase chromatography for scientific or laboratory purposes, bioreactors for cell cultures, cell culture apparatus for laboratory use, incubators for laboratory use, cell banks, laboratory apparatus and instruments for processing, reproduction, purification and isolation of nucleic acids, not for medical purposes, laboratory apparatus and laboratory instruments for conducting of nucleic acid polymerase chain reactions, not for medical purposes, laboratory apparatus for analysis of genetic material, laboratory apparatus and laboratory instruments for DNA preparation, RNA preparation, DNA isolation and RNA isolation, not for medical purposes, laboratory apparatus and laboratory instruments for genome sequencing, not for medical purposes, laboratory apparatus and laboratory instruments for transfection, not for medical purposes, laboratory apparatus and laboratory instruments for transformation, namely, for non-viral transmission of free DNA into competent bacterial cells, fungi, algae, yeast and plants, not for medical purposes, laboratory apparatus and laboratory instruments for cell screening, not for medical purposes, equilibrium dialyzers for determining the binding effect of molecules and ions on proteins, not for medical purposes, laboratory apparatus and instruments for examining and determining of ADMET parameters, not for medical purposes, laboratory apparatus and laboratory instruments for examining the absorption, reabsorption and distribution of pharmaceutical active ingredients in an organism, not for medical purposes, laboratory apparatus and instruments for protein crystallography, not for medical purposes, laboratory apparatus and laboratory instruments for examining and analyzing the crystallization process of chemical substances and pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and
instruments for X-ray structural analysis, not for medical purposes, laboratory apparatus and instruments for X-ray diffraction analysis, not for medical purposes, differential scanning calorimeters for scientific research and laboratories, laboratory apparatus and laboratory instruments for conducting of polymorphism screenings of chemical substances and pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and instruments for verifying the storage stability of chemical substances and pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and laboratory instruments for verification and analysis of the compatibility of mixtures and combinations of different chemical substances and pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and laboratory instruments for verification and analysis of the suspensibility of solid or lyophilized chemical substances and pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and laboratory instruments for magnetic separation of cells, not for medical purposes, laboratory apparatus and laboratory instruments for fluorescence-activated cell sorting, not for medical purposes, laboratory apparatus and laboratory instruments for cryopreservation services, not for medical purposes, laboratory apparatus and laboratory instruments for cultivation and fermentation of microorganisms, not for medical purposes, laboratory apparatus and laboratory instruments for generating of cell lines, not for medical purposes, laboratory apparatus and laboratory instruments for cloning of cells, not for medical purposes, laboratory apparatus and laboratory instruments for determination and analysis of the alcohol, drug, heavy metal and toxin content in human and animal blood or urine, not for medical purposes, laboratory apparatus and laboratory instruments for determination and analysis of the arsenic content and arsenic speciation in water and in human and animal foodstuffs, not for medical purposes, laboratory apparatus and laboratory instruments for determination and analysis of the chromium content and chromium speciation in water and in human and animal foodstuffs, not for medical purposes, laboratory apparatus and laboratory instruments for determination and analysis of pesticide, herbicide, petroleum, toxin, pathogen and heavy metal content in soil and water samples, not for medical purposes, laboratory apparatus and laboratory instruments for determination and analysis of the proportion of fat, sugar, glucose, fructose, sucrose and water-soluble vitamins in human and animal foodstuffs, not for medical purposes, laboratory apparatus and laboratory instruments for conducting of allergy tests, not for medical purposes, laboratory apparatus and laboratory instruments for conducting nucleic acid tests, not for medical purposes, laboratory apparatus and laboratory instruments for conducting ELISA tests, not for medical purposes, laboratory apparatus and instruments for determining the water content in oil products, laboratory apparatus and instruments for purification of oligonucleotides, not for medical purposes, laboratory apparatus and instruments for purification of pharmaceutical active ingredients, not for medical purposes, laboratory apparatus and instruments for proteomics, not for medical purposes, laboratory apparatus and instruments for atomic absorption spectrometry, not for medical purposes,
laboratory apparatus and instruments for inductively coupled plasma spectroscopy, not for medical purposes, laboratory apparatus and instruments for electrophoresis, not for medical purposes, laboratory apparatus and instruments for conducting of water solubility tests, not for medical purposes, laboratory apparatus and instruments for quantitative analysis of xenobiotic and biotic substances in biological systems, not for medical purposes, laboratory apparatus and instruments for wet and dry grinding of particles of pharmaceutical substances, not for medical purposes, laboratory apparatus and instruments for measuring of particle size, pharmaceutical substances, not for medical purposes, apparatus for taking oil samples for scientific research and laboratories, apparatus and installations for disposal and removal of biomedical and biohazardous waste by means of conversion into non-infectious solid waste, for scientific and laboratory purposes, receiving tanks for scientific and laboratory purposes, collection containers for scientific and laboratory purposes, degassers for scientific and laboratory purposes, instruments for regulating and monitoring temperature, temperature display apparatus, temperature regulating apparatus, temperature recording apparatus, temperature measuring apparatus for scientific purposes, temperature feedback units, digital cameras, electrical interface cables, interfaces for sensors for measuring pH, dissolved oxygen, oxidation reduction potential, ozone, organic carbon and conductivity, laboratory apparatus and instruments for clinical, analytical and biopharmaceutical applications, mass spectrometers, cytometers, laboratory shakers, heated laboratory shakers, incubators for laboratory purposes, incubation plates for scientific or laboratory purposes, incubator shakers for laboratory use, heated incubator shakers for laboratory use, laboratory stirrers, laboratory mixers, apparatus for heating and refrigerating for laboratory use, evaporators for laboratory use, heat exchange crucibles for scientific purposes, sampling devices for laboratory use and scientific purposes, automated sampling devices for laboratory use and scientific purposes, manual probe heads for laboratory use and scientific purposes, tactile switches for laboratory use and scientific purposes, foot switches for laboratory use and scientific purposes, HPLC columns for laboratory use and scientific purposes, septa for laboratory use and scientific purposes, high-temperature resistant septa for laboratory use and scientific purposes, petri dishes, petri dishes for use in laboratory research, life-saving apparatus, life-saving devices, calculating machines, data recording and data processing equipment, printers, computers, tablet computers, mobile computers, automated pipettes, pipettes, pipette tips, pipetting devices, pipetting channels, pipetting arms, pipette modules, pipette end cutters, feeders for pipettes, thermal cyclers, vacuum apparatus for laboratory use, vacuum pumps for laboratory use, vacuum probes for laboratory use, vacuum stations for laboratory use, laboratory apparatus and instruments for automated refilling of reagents, reagent containers, centrifuges for laboratory purposes, filter systems for laboratory purposes, filters for pipettes and for pipette tips, probes and pipettes for scientific purposes, micropumps, analysis apparatus for liquids, scientific dispensing apparatus, scientific apparatus and instruments, namely, dispensing apparatus attached to bottles, scientific syringes and syringes for laboratory use, syringes with threaded plungers for laboratory use, multi-channel syringes with interchangeable needles for gel loading for laboratory purposes, syringe needles for laboratory use, syringe needles of glass for laboratory use, syringe guides for laboratory use, wire for cleaning syringe needles for laboratory use, tungsten wire for cleaning syringe needles for laboratory use, syringe racks for laboratory use, pipette accessories, namely, pipette holders, pipette carriers and pipette stands, pipette racks for laboratory use, holders for pipette carriers for laboratory use, reusable dispensing syringes for laboratory use, disposable dispensing syringes for laboratory use, syringe pumps for laboratory use, sample carrier plates for laboratory use, bar code readers, liquid containers for use in laboratories, holders for filling pipettes, containers for active ingredients, microplates fitted with microstrips, laboratory installations, equipment and holders for storage of biological, clinical, chemical,
forensic and biopharmaceutical substances and samples, electrodes, electrodes for sensors, cathodes, sensors and detectors, sensors for measuring instruments, sensors for touchscreens, optical sensors, electro-optical sensors, fibre optic sensors, optical sensors for water level detection, water level detectors, devices for measuring water level, water level indicators, electronic sensors, sensors for monitoring of CIP and SIP purification installations and processes, sensors for analysis of feed water for steam generators, sensors for monitoring of ion exchangers, controllers for sensors, housings for measuring devices and sensors, holders for measuring devices and sensors, protective sleeves and protective films for measuring devices and sensors, protective sleeves and protective films for electric wires, protective sleeves and protective films for electric touchpads electric, electronic touchpads, computer touchpads, touchscreens for computers, visual display screens, displays, computer monitors, touchscreen monitors, diaphragms for scientific apparatus, glassware for laboratory purposes, hollow glass containers for measuring, specially adapted glassware for scientific use, sealing machines for laboratory purposes, washing apparatus for needles of precious metals for laboratory use, programs, computer software for medical purposes, data processing hardware for medical purposes, electronic controls for automatic valves, laboratory apparatus for collecting, distributing, transporting, positioning of objects and of solid, liquid and gaseous substances, checking apparatus and instruments for breathing apparatus for artificial respiration, analysis robots, not for medical purposes, digital electronic pocket devices for data processing, information processing, storage and displaying of data, transmission and receiving of data, transmission of data between computers and related software, blank computer storage media, USB sticks, USB cables, USB card readers, readers for memory cards, adapters for memory cards, memory card readers, optical memory cards, flash memory cards, secure digital memory cards, recorded data, it and audiovisual apparatus, electronic devices for data processing, information processing, for storage and displaying of data, for transmission and receiving of data and transmission of data between computers, electronic interactive apparatus for monitoring sensor functions and for controlling and adjusting sensor calibration of sensors used for measuring pH, dissolved oxygen, oxidation reduction potential, ozone, organic carbon and conductivity, electric control panels, power supply units, electricity mains equipment, cables for data synchronization, cables for data transmission, cables for electrical signal transmission, threaded cable connectors of metal, connecting parts for electric cables, medical technology apparatus for electronic recording, electronic conversion, electronic representation, electronic storage, electronic processing and for electronic printing of data, in particular customer data, computer software, software for monitoring and controlling respiratory apparatus and respiratory support apparatus, computer software for determination of the undissolved proportion of pharmaceutical active ingredients in chemical solutions, computer software for conducting, analysis and representation of X-ray structural and X-ray diffraction examinations, computer software for conducting, analysis and representation of differential scanning calorimetry, computer software for conducting, analysis and representation of polymorphism screenings of chemical substances and pharmaceutical active ingredients, computer software for analysis and representation of the storage stability of chemical substances and pharmaceutical active ingredients, computer software for analysis and representation of the compatibility of mixtures and combinations of different chemical substances and pharmaceutical active ingredients, computer software for development and determination of the composition of active ingredients in pharmaceuticals, not for medical purposes, computer software for analysis and representation of suspensibility of solid or lyophilized chemical substances and pharmaceutical active ingredients, computer software for mass spectrometry, computer software for atomic absorption spectrometry, computer software for inductively coupled plasma spectrometry, computer software and computer firmware, namely, operating system programs and data synchronization programs, computer software for synchronization of databases, computer software for the synchronization of data between a remote station and a remote unit and a fixed or remote data station or such a device, universal serial bus operating software, computer software and hardware for telephone-based
information queries, application software, application software for mobile telephones, application software for wired and wireless apparatus, downloadable software applications for use with mobile and wired apparatus, data processing equipment, computer peripherals, wired and wireless computer peripherals, touchpads (electric), electronic touchpads, computer touchpads, touchscreens for computers, visual display screens, displays, computer monitors, touchscreen monitors, medical, dental, veterinary, electromedical and surgical apparatus and instruments, medical respiratory apparatus, anaesthetic apparatus, respirators for artificial respiration, respiratory apparatus for patients, respiratory apparatus for intensive care units, respiratory apparatus for newborns for prevention of asphyxiation, humidifiers for respiration, humidification chambers for respiratory apparatus, connectors for humidifiers, humidification chambers and nebulizers, being parts of medical apparatus, fasteners for humidifiers and nebulizers being part of medical apparatus, humidifiers for medical purposes and medical treatments, humidifiers for use with respiratory apparatus, humidifiers for medical treatments, humidifiers for use with respiratory treatment apparatus, water refill tubes for humidification chambers for medical purposes and medical treatments, water refill tubes for humidifiers for use with respiratory treatment apparatus, artificial noses for medical purposes, protective nose masks for medical purposes, nose masks for artificial respiration for medical purposes, respiratory masks for artificial respiration, respiratory masks for respiratory assistance for medical purposes, masks for non-invasive respiration, anaesthesia face masks, nasal prongs for newborns and adults, face masks for medical purposes, sets of respiratory tubes for respiratory apparatus, single-use sets of respiratory tubes for respiratory apparatus, autoclavable sets of respiratory tubes, breathing tubes, in particular tubes being accessories for respiration and anaesthesia, respiratory tubes, surface-heated respiratory tubes, endotracheal tube cuffs for medical purposes, inflatable endotracheal tube cuffs for artificial respiration for medical purposes, cuff pressure monitors, apparatus and equipment for measuring, monitoring and adjustment of pressure in endotracheal tube cuffs for medical purposes, soda lime cartridges, heat and moisture filters for respiratory apparatus, valves for respiratory apparatus, expiration valves being parts of medical apparatus, expiration valves for maintaining lung pressure, PEEP activators, being parts for respiratory apparatus for maintaining pressure, pressure reducers for medical purposes, pressure reducers for medical respirators, measuring cuvettes for medical purposes for determining the carbon dioxide content of the air exhaled by a human, and for analysis of the air flow, sensors for medical purposes, sensors for measuring respiratory flow and breath pressure, sensors for measuring oxygen saturation in the blood, CO2 sensors for medical purposes, FiO2 sensors, SpO2 sensors for medical purposes, flow sensors for medical purposes, NMT sensors for medical purposes, chromatographic apparatus for medical purposes, separation cartridges for chromatography for clinical laboratory purposes, sensors for respiratory mechanisms, sensors for measuring the pressure in inflatable endotracheal tube cuffs for artificial respiration for medical purposes, temperature display apparatus for medical purposes, temperature measuring apparatus for medical purposes, temperature scanners for medical purposes, temperature monitors for medical purposes, electronic temperature monitors for medical purposes, electronic temperature recorders for medical purposes, temperature regulation instruments for medical purposes, temperature sensors for medical purposes, medical skin sensors and disposable sensors for temperature measurement, sensors for measuring the temperature of breathing air for use in medical respiratory apparatus, temperature probes for medical purposes, sensors for measuring the humidity of breathing air for use in medical respiratory apparatus, optical temperature measuring instruments for medical inspection purposes, fibre optic temperature probes for medical-diagnostic use, temperature-sensitive test instruments and test apparatus for medical purposes, optical scanners for medical inspection purposes, optical sensors for water level detection in humidification chambers for medical respiratory apparatus, electrodes for medical apparatus, electrodes for medical purposes, electrodes for recording biological parameters, non-selective
electrodes in the form of chemically sensitive probes for medical purposes, ECG electrodes, disposable and reusable ECG cables, NMT adapters for medical purposes, NMT electrode cables for medical purposes, nasal cannulae, nebulizers for medical purposes, portable nebulizers for medical purposes, pumps for medical purposes, compressors for medical purposes, filters for medical purposes for purifying breathing air, medical membranes for filtration, bacteria strains, water traps being parts and/or fittings for medical apparatus, mechanical filters for respiratory apparatus, airway adapters, filters for respiration systems, connectors for filters for respiration systems, tube extensions for breathing tubes, breathing bags, test lungs, manual respiration bags, humidification chambers for breathing tube systems, tube heaters being part of medical apparatus, adapters for tube heaters being parts of medical apparatus, tube clips being parts of medical apparatus, tube connectors being parts of medical apparatus, compressed air installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing medical compressed air, gas supply installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing of gases for medical purposes, vacuum regulators for medical purposes, medical apparatus, namely, spirometers, spirometry apparatus, tubes for medical purposes, medical compressed air tubes, tube systems, consisting of tubes for medical purposes, in particular tubes for anaesthesia, respiratory tubes and tubes for medical suction, tube adapters, valves, connections and accessories, surface-heated respiratory tube systems, filters for medical purposes, pipettes for medical purposes, syringes for medical purposes, medical syringe needles, syringe pumps for medical purposes, septa for medical purposes, high-temperature resistant septa for medical purposes, apparatus for use in medical analysis, apparatus for use in medical or veterinary analysis for conducting analyses of blood and urine of human or animal origin, analysis apparatus for conducting of immunoassays for medical purposes, spirometers, measuring devices for medical purposes, measuring instruments for medical purposes, devices for measuring heart, circulation, respiration and lung function, testing instruments for medical purposes, manual probe heads for medical purposes, automated apparatus and instruments for blood separation, medical apparatus and instruments for primary care and stabilization of newborns, air temperature sensors for incubators, air inlet filters for incubators, O2 distributors for incubators, dispensing apparatus for recording and selecting active substance carriers for medical purposes, apparatus for measuring of body signals in connection with patient analytics, patient monitoring alarms, apparatus and instruments for monitoring patients, namely, medical alarm management systems for patient monitoring used in connection with medical ventilators, consisting of medical apparatus for monitoring vital signs of patients, patient monitoring alarms and operational software for patient monitoring apparatus and patient monitoring alarms, test systems, consisting of test equipment for testing the function of medical apparatus and analysis or diagnosis apparatus for medical apparatus, medical analysis apparatus for laboratories, apparatus for medical imaging, monitor holders being accessories for medical apparatus and medical furniture, precision instruments for medical purposes, medical instruments for testing for drug abuse, cell culture apparatus for medical purposes, analysis robots for medical purposes, containers for medical waste, specially adapted containers for disposal of medical instruments, syringes and other contaminated medical waste, heating plates for humidifiers for use with medical respiratory apparatus, probes for medical purposes, freezing installations for medical purposes, installations for refrigerating, freezing installations, freezing apparatus, installations for air conditioning, installations for cooling air, cryorefrigerators, apparatus for heating laboratory containers, water treatment installations, water treatment apparatus, water treatment filters, apparatus for water treatment, namely, ultraviolet sterilization apparatus, reverse osmosis water purification units, apparatus for wastewater purification, air filters, air filter installations, air filter apparatus, sterilizers for laboratory purposes, steam sterilizers for laboratory purposes, sterilizers for industrial purposes, sterilizers for medical purposes, printed matter, stationery, magazines, books, calendars, pads being stationery, note books, writing paper, note pads, prospectuses, operating manuals and technical
documentation, garbage bags of paper or of plastics, flexible ducting, pipes, tubes and connectors, including valves, all not of metal, gaskets, caulking materials and filling compounds, insulating, damping and barrier materials, o-rings, fittings for measuring devices and sensors, not of metal, adhesive tapes, strips and films, semi-worked polymer resins, valves, not of metal, storage racks, containers, specimen containers, storage containers for goods, containers and boxes for storage, containers and boxes, not of metal, for preservation purposes, containers, not of metal, for storage, transport and management of biological, clinical, chemical, forensic and biopharmaceutical substances and samples, plastic closures for containers, drains of plastic, fasteners, connectors and holders for pipes, not of metal, glassware, porcelain and earthenware, parts, spare parts and accessories for all of the aforesaid goods

Goods and Services Information

For Surgical apparatus and instruments; actuators being parts of movable heads of a medical endoscope
International Classes: 10 - Primary Classes  US Classes: 26, 39, 44  International Class Title: Medical Apparatus
For Actuators for use in motor vehicles, namely, actuators for pneumatic seat contour adjusters sold as integral component of vehicle seats
International Classes: 12 - Primary Classes  US Classes: 19, 21, 23, 31, 35, 44  International Class Title: Vehicles
For Toys, namely, toy construction kit systems consisting primarily of toy construction sets; actuators being sold as integral components of dolls for eye adjustments
International Classes: 28 - Primary Classes  US Classes: 22, 23, 38, 50  International Class Title: Toys and Sporting Goods
For Drive elements, namely, linear, pneumatic valve, hydraulic valve, hydraulic linear, and pneumatic linear actuators for converting electric signals into mechanical movements and other physical parameters; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic linear actuators for dampers; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic linear actuators for mechanisms; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic linear actuators for valves; hydraulic linear and hydraulic valve actuators; linear actuators; pneumatic linear and pneumatic valve actuators for control valves; pneumatic valve actuators; rotary linear, rotary pneumatic valve, rotary hydraulic valve, rotary hydraulic linear, rotary pneumatic linear actuators; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic rotary to linear actuators; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic linear actuators for valves; power rotary hydraulic linear, rotary pneumatic linear actuators; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic rotary to linear actuators; linear, pneumatic valve, hydraulic valve, hydraulic linear, pneumatic linear actuators for valves; power...
operated valves as machine components; pneumatically operable valves as machine components; valves being parts of machines

GOODS AND SERVICES INFORMATION
For Structural parts for land vehicles, locomotives, railway carriages and tramcars, namely, metal beams and metal columns; metal profiles for use in vehicle construction in the form of vehicle chassis and structural parts of superstructure for vans and trailers, locomotives, railway carriages and tramcars and for hydraulic platforms, mobile maintenance platforms and washing installations and shipbuilding, in particular being deck fittings for superstructures for ship decks
International Classes 12 - Primary Classes US Classes 19, 21, 23, 31, 35, 44 International Class Title Vehicles

For Metalworking machine tools being parts of machines and machine tools for forming, riveting, swaging and flaring of metal, all for treatment of materials and production and for use with mechanical equipment for agriculture, earthworks, construction, oil and gas extraction, and mining, and transport apparatus; metal profiles being part of machines for use in mechanical engineering, namely, metal profiles being parts of booms for cranes and parts of guides and booms for excavators and other construction machines, crane runways, and conveyor belts
International Classes 7 - Primary Classes US Classes 13, 19, 21, 23, 31, 34, 35 International Class Title Machinery

For Round, square and rectangular hollow profiles of metal, including with corrosion protection; building and construction profiles of metal; hollow profiles of metal for use in steel construction and structural steel engineering, industrial and bridge construction, sporting facility construction, mechanical engineering, fairground rides, conveying technology, textile machines, land working and harvesting machines, the offshore wind industry, offshore structures in the oil and gas sector, road and rail vehicles, and shipbuilding; closed hollow profiles of metal in the form of semi-finished, namely, hot-rolled profiles, welded profiles, rectangular profiles, square profiles; building and construction profiles of metal for use in steel construction in the form of props, beams, frames, roof trusses and lattice girders in industrial and hall construction, in bridges, boiler supporting structures, pallet warehouses, grandstands, sports venues and exhibition structures, and for kiosks, greenhouses, mining
equipment; building and construction profiles of metal for use in architecture in the form of frames for wall elements and wall skeletons, stringers as parts of staircases and platforms, for railings, latticework, gates and gate posts; building and construction profiles of metal for use for scaffolding, containers, racks and frames, not for furniture, stackable and transport containers and pallets, frames for formwork panels, pylons and booms; all of the aforesaid goods consisting of steel; building and construction profiles of metal for containers, crossbeams, framework for moving staircases and escalators and frame structures for lifts
