computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection of data; downloadable and recorded data mining software; apparatus for recording, transmission, processing and reproduction of sound, images or data; backup drives for computers; blank flash memory cards; CD-ROM drives; blank USB cards; blank USB flash drives; cases for data storage devices, namely, cases for computer hard disks, optical discs, and mobile computers; downloadable and recorded communications software for connecting global computer networks; downloadable and recorded computer graphics software; computer hardware; computer hardware downloadable and recorded software for providing secure remote access to computer and communication networks; downloadable computer networking software; downloadable and recorded computer programs for database management; downloadable computer programs for data processing; downloadable and recorded computer programs for document management; downloadable and recorded computer software for application and database integration; downloadable and recorded computer software for creating searchable databases; downloadable and recorded computer software for data and document capture, transmission, storage and indexing; downloadable and recorded computer software for database management; downloadable and recorded computer software for data processing; downloadable and recorded computer utility programs for data compression; downloadable and recorded computer utility programs for computer maintenance; data communication apparatus and instruments, namely, wireless communication devices for voice, data or image transmission, electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points, optical data links; data loggers, namely, web-based data logging systems comprised of electric data loggers, computer hardware, and recorded software for collecting and logging digital information; data processing equipment; data storage devices, namely, computer storage devices in the nature of high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, blank hard drives for computers, blank USB flash drives; data synchronization cables; data transmission cables; downloadable digital books in relation to business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; digital video players; downloadable electronic data files featuring information regarding business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; downloadable electronic books in relation to business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; downloadable multimedia files featuring information regarding business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; downloadable podcasts in relation to business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; electronic apparatus for wireless reception, storage and transmission of data and messages; encoders; e-readers, namely, electronic card readers, electronic book readers, electronic memory card readers; downloadable instant messaging software; downloadable interactive computer software in relation to business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; interface cards for data processing apparatus in the form of printed circuits or electronic chips; blank and prerecorded magnetic and optical data carriers, featuring data regarding business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; mobile data receivers; multimedia projectors; downloadable and recorded software for processing images, graphics and text; downloadable and recorded software for the analysis of business data; downloadable and recorded software for the analysis of research data; wireless adapters for computers; wireless receivers; wireless transmitters; downloadable database server software; downloadable and recorded database synchronization software; downloadable and recorded computer software for accessing, browsing and searching databases; intelligent gateways in the nature of routers for the purpose of real-time data analysis; downloadable software
applications for the management and transmission of data; downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments; analytics and intelligent research management downloadable and recorded software tools; downloadable and recorded analysis software in relation to identifying research performance; downloadable, electronic databases, namely, in relation to financial, scientific and technological research and business development; downloadable, electronic databases and downloadable computer software algorithms for analysing, monitoring and interconnecting data across grants, researchers, patents, and publications; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection from worldwide published academic materials, publication citations, research materials and the Internet; computer hardware and downloadable and recorded software for database management, namely, in relation to publication metrics, research analytics and development, and global research forecasting; computer hardware and downloadable and recorded software for analysing, monitoring and interconnecting data across grants, researchers, patents, and publications; downloadable electronic publications, namely, data based reports, graphs, charts and infographics in relation to business development analysis, academic publishing material, academic research, patents, clinical trials and funding data; downloadable and recorded computer software for accessing, browsing and searching databases, namely, in relation to academic publishing material, research and business development; downloadable, electronic databases in relation to academic publishing material and academic research; downloadable, electronic databases for business development purposes; downloadable, electronic databases in relation to patents, clinical trials and funding data; downloadable, electronic databases in relation to academic publishing material and academic research in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; downloadable, electronic databases for business development purposes in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, it, media, legal matters and services, tax matters, accounting, transport, logistics; databases in relation to patents, clinical trials and funding data in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; databases in relation to patents, clinical trials and funding data; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection in relation to academic publishing material and academic research; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection for business development purposes; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection in relation to academic publishing material and academic research in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection for business development purposes in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection in relation to academic publishing material and academic research in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal matters and services, tax matters, accounting, transport, logistics; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection for business development purposes in relation to commodities, energy, utilities, construction, infrastructure, real estate, retail consumers, leisure, education, the public sector, finance, financial services, general management, healthcare, life sciences, IT, media, legal
