Mark Literal(s) PRIMARY ARMS

CASE IDENTIFIERS
Serial Number 90089538 Application Filing Date Aug. 03, 2020 Register Principal Mark Type Trademark
Publication Date Dec. 01, 2020

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 5 - AN ILLUSTRATION DRAWING WITH WORD(S) /LETTER(S)/ NUMBER(S) IN Description of the Mark The mark consists of the stylized term "PRIMARY ARMS". The word mark consists of the words "PRIMARY ARMS" appearing in a custom-made, upper-case, letterforms. The letterforms have unique crossbars that terminate at an angle. Particularly unique to this word mark is the removal of some parts of the letterforms that give the illusion of one letterform dropping behind another. This happens with the "M-A-R" letterforms in "PRIMARY" and with the "ARM" in "ARMS".

Mark Literal(s) PA

The mark consists of the stylized term "PA" underneath a semicircle. The mark consists of a circular outer ring that terminates in the bottom 25% of the ring. Inside this ring are custom-built "P" and "A" letterforms that are situated on the same baseline sitting side by side. The crossbars of the letterforms terminate at an angle. There is a notched corner in the upper left corner of the "P" and another notched corner in the right leg of the "A" giving the illusion those part of the letters pass behind the outer ring. Similarly, there is an area removed from the "A" that creates the illusion that the "A" is behind the "P".

**For** Simulators, namely, simulators for driving or control of vehicles, simulators for the steering and control of vehicles, vehicle drive training simulators, flight instrumentation simulators, flight simulators for training personnel in the flying of aircraft; electronically recorded data, namely, electronic database in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models recorded on computer media; information technology devices, namely, transparent electronic displays fixed at head-level or head-down positions for use in military and commercial aircrafts, vehicles and vessels for providing crew members with navigational and operational information, computers; mobile hotspot devices, data storage devices in the nature of external computer hard drives, computer memory devices, computer peripheral devices, input devices for computers, computer network interface devices; audio-visual,
multimedia devices, namely, audiovisual teaching apparatus in the nature of electronic interactive whiteboards; virtual reality glasses, virtual reality headsets, digital media streaming devices, apparatus for recording and reproduction of sound and images for use in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, transportation, electric vehicles, automated driving, vehicle development; magnets, magnetizers and demagnetizers; measuring instruments, namely, height measuring instruments, resistance measuring instruments, conductivity meters, speed indicators, wind indicators in the nature of wind sleeves, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; detecting and monitoring instruments, namely, automated drone detection systems in the nature of infrared detectors, vehicle tracking devices in the nature of GPS tracking devices, vehicle safety equipment in the nature of electronic tire pressure monitors; indicators, namely, electronic indicator panels, electronic indicator boards, speed indicators, wind indicators in the nature of wind sleeves, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely, electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for motor vehicles and motorcycles, electrical integrated control systems for use in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; navigation, guidance, tracking, targeting and map making devices namely, electronic navigational and positioning apparatus and instruments, GPS tracking devices, GPS navigation devices, car navigation computers, satellite-aided navigation systems, navigation apparatus for vehicles in the nature of on-board computers, navigational apparatus for automobiles, heads-up displays (HUDs) in the nature of transparent electronic displays for the projection of data from a mobile device onto a vehicle windshield and for providing vehicles with navigational and operational information; optical devices and equipment, enhancers and correctors, namely, telescopic aiming sights, apparatus for amplifying images in the nature of a magnifying glass, apparatus providing night vision in the nature of night vision goggles, distance measuring apparatus, fibre optic periscopes, image amplifiers in the nature of magnifying glasses, image intensifiers, instruments for amplifying images in the nature of magnifying glasses, telescopic sights, three dimensional viewers in the nature of 3D spectacles; safety, security, protection and signaling devices and equipment, namely, security control apparatus in the nature of security alarm controllers, holographic security apparatus in the nature of security alarm controllers, security surveillance apparatus in the nature of security alarm controllers, electronic security tags, security surveillance robots, cards encoded with security features for identification purposes, wireless controllers to remotely monitor and control the function and status of security systems, security tokens in the nature of encryption devices, namely, electronic security tokens in the nature of fob-like devices used by an authorized user of a computer system to facilitate authentication, security warning apparatus in the nature of personal security alarms; scientific and laboratory devices for measurement of physical reaction using electricity, namely, lasers for scientific use, DNA chips, sensors for scientific use to gather biometric data; computer software for use in electronic storage of data, software for use in displaying and analyzing data in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models, navigation software, namely, software for displaying maps and coordinates, interactive computer software that provides navigational information; electronic databases in the field of aviation, seafaring, drone defense, drone flight,
command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing; pre-recorded electronic media devices, namely, digital media streaming devices; audio and visual as well as photographic devices, namely, virtual reality glasses, virtual reality headsets, digital media streaming devices, apparatus for recording and reproduction of sound and images for use in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, transportation, electric vehicles, automated driving, vehicle development; data storage devices, namely, blank tapes for storage of computer data, computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electrical and mechanical data processing devices and equipment as well as accessories, namely, data processing apparatus; communications equipment, namely, electronic and optical communications instruments and components, namely, communication link testers for testing communication links, electronic and optical communications instruments and components, namely, digital transmitters, electronic and optical communications instruments and components, namely, optical transmitters, electronic and optical communications instruments and components, namely, optical receivers, communications computers, apparatus for transmission of communication; replicating apparatus, namely, digital color copiers; analytical testing apparatus not for medical use, namely, lasers for scientific use, sensors for scientific use to gather biometric data; checking and supervision apparatus and instruments, namely, apparatus for checking vehicle parameters in the nature of automatic indicators of low pressure in vehicle tires, apparatus for testing vehicle brakes, apparatus for testing vehicle transmissions; electronic monitoring instruments, other than for medical use, namely, vehicle tracking devices in the nature of GPS tracking devices, vehicle safety equipment in the nature of electronic tire pressure monitors; indicators, namely, electronic indicator panels, electronic indicator boards, speed indicators, wind indicators in the nature of wind sleeves, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely, electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for motor vehicles and motorcycles, electrical integrated control systems for use in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; measuring apparatus and instruments, namely, height measuring instruments, resistance measuring instruments, conductivity meters; speed indicators, wind indicators in the nature of wind sleeves, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; electronic transistors; electricity-based anti-interference devices, namely, filters for radio interference suppression, conductive silicone packing for electro-magnetic interference; regulators in the nature of controllers, namely, remote controllers for motors, motion controllers, electrical controllers in the nature of electric control panels, sensor controllers in the nature of electric control panels, communications controllers in the nature of electric control panels, digital electronic controllers in the nature of electric control panels, temperature controllers apparatus for use in vehicle heating systems, namely, vehicle climate controls; radio telephony sets; high-frequency apparatus, namely, high frequency mobile and sea-based communication antennas, electronic frequency converters for high velocity electro motors; electronic navigating apparatus, namely, electronic navigational and positioning apparatus and instruments, GPS tracking devices, GPS navigation devices, car navigation computers, satellite-aided navigation
systems, navigation apparatus for vehicles in the nature of on-board computers, navigational apparatus for automobiles, heads-up displays (HUDs) in the nature of transparent electronic displays for the projection of data from a mobile device onto a vehicle windshield and for providing vehicles with navigational and operational information; radar apparatus; computer software for use in electronic storage of data, downloadable virtual reality training simulation software for displaying training simulations in the field of aviation, seafaring, drone defense, drone flight, command and control systems for military tactics and strategies, computers, electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing: downloadable software for monitoring and controlling communication between computers and automated machine systems, navigation software, namely, software for displaying maps and coordinates, interactive computer software that provides navigational information; computers and computer hardware; computer programmes for data processing; computer operating systems; recorded computer operating programs; electric access and admission control devices, namely, electric locks; protective and safety equipment for vehicles, namely, electronic deer alerts, electronic tire pressure monitors, electronic vibration, shock, motion, angle, temperature and voltage monitors; sensors and detectors, namely, automated drone detection systems in the nature of infrared detectors; testing and quality control devices, namely, water testing instrumentation for monitoring and detecting contamination, apparatus for testing vehicle brakes; measuring, counting, alignment and calibrating instruments, namely, laser measuring systems, audio analyzers, tool measuring instruments, distance measuring apparatus, mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges, electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, calibration devices for calibrating optical emission spectrometers; computer application software for automotive control; computer programs for project management; artificial intelligence apparatus in the nature of computers; augmented reality software for use in mobile devices for integrating electronic data with real world environments

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

**For** Licensing services, namely, legal administration of licenses, licensing of software in the framework of software publishing, consultancy relating to computer software licensing, consultancy relating to patent licensing, legal consultancy in the nature of licensing consultation in connection with electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; legal services in the nature of licensing of computer software; licensing of intellectual property

**International Classes** 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

**For** Telecommunication services, namely, telecommunication access services, electronic exchange of data stored in databases accessible via telecommunication networks, data transmission and reception services via telecommunication means, aeronautical telecommunication services, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, communications via multinational telecommunication networks; computer communication services in the nature of communication by computer terminals; providing internet access; provision of internet access services; telecommunication access services, namely,
provision of internet access to content, websites and internet portals; digital network telecommunications services; transmission of information by electronic communications networks; telecommunication access services, namely, providing internet access to multimedia content online; e-mail data services, namely, providing electronic transmission of secure e-mail; consultancy in the field of telecommunications
