GOODS AND SERVICES INFORMATION
For  Materials for building not of metal, namely, reinforcing materials, glass for building, cement mixes, cement aggregates, filling cement, roofing cement, concrete, and bitumen and portable, non-metallic transportable buildings for nuclear power plants, nuclear reactors, uranium mines, factories and facilities for storage, warehouse, conversion, isotopic separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service or in dismantling
International Classes  19 - Primary Classes US Classes  1, 12, 33, 50 International Class Title  Non-metallic Building Materials For  Pharmaceutical and radio-pharmaceutical products, namely, radiotracers for use in medical imaging and nuclear medicine; pharmaceutical and radio-pharmaceutical products for cancer treatment; diagnostic products for medical use, in particular diagnostic pharmaceutical and radiopharmaceutical preparations for the localization of cancerous tumors
International Classes  5 - Primary Classes US Classes  6, 18, 44, 46, 51, 52 International Class Title  Pharmaceuticals For  Non-electric machine couplings other than for land vehicles; pump machines in the nature of electric pumps, pump drives for machines; mechanical equipment in the nature of turbines other than for land vehicles, used for and in the nuclear field; machines in the nature of industrial robots, as well as all their spare parts; industrial robot arms, telescopic arms, remotely-operated arms being machines for intervention, control, measurement, collection, sampling or inspection in a contaminated environment, their components and spare parts; industrial robots for the intervention, control, measurement,
collection, sampling or inspection in a contaminated environment including industrial land robots and industrial underwater robots; hand tools being hand-held power tools, namely, power drills, rock drills, diamond or steel wire saws, circular saws, chain saws, laser cutting tools, and routers; energy production tools namely, electric generators; machines, machine tools and apparatus in the nature of drilling machines, extracting machines, processing machines used in the nuclear fuel cycle industry and in the production of radioisotopes industry, soil surveys, drilling, extraction, fabrication, handling, processing, isotopic separation, immobilization and storage of ores, metals, nuclear materials, nuclear fuels, plutonium, uranium, thorium, actinides, lanthanides, xenon, krypton, platinoids in particular ruthenium, palladium, rhodium and platinum and nuclear waste; rotating and static electric machines, namely, pneumatic and hydraulic jacks excluding jacks for elevators, electrostatic generators; jacks being pneumatic and hydraulic jacks, excluding jacks for elevators; regulators being machine parts; speed governors for machines, excluding speed governors for elevators; industrial robots and industrial remote-controlled robots for carrying out measurements, inspections, sampling or analyses, collection, treatment and recycling of nuclear material, spent nuclear fuel, nuclear waste and remediation and decommissioning of nuclear sites or facilities; industrial robots for the manufacture and preparation of radio-pharmaceuticals; all of the foregoing used in the nuclear field and the field of the fight against climate change

**International Classes**

**Environmental Control Apparatus**

For Education services, namely, conducting classes, seminars, workshops, tutorial sessions, and mentoring in the fields of energy and the fight against climate change; training, education and teaching services in the nature of classes, seminars, tutoring for personnel and operators of mining sites and of nuclear facilities, plants, centers and infrastructures in the field of nuclear cycle facilities and nuclear power plant operation, maintenance and decommissioning, nuclear plan operation, safety and best practices safety; organizing and conducting of colloquiums, conferences, congresses, exhibitions, forums, seminars, symposia, teleconferences and video conferences in the fields of energy and the fight against climate change for educational purposes
For Chemical products, preparations and compositions namely, industrial chemicals for the energy industries; chemical materials, namely, chemical preservatives for use as corrosion inhibitors for use on nuclear fuel storage units; nuclear materials, namely, uranium, actinides and lanthanides; chemicals for extracting and separating actinides or lanthanides from aqueous or organic solutions, suspensions or gases; chemical products resulting from nuclear fission, namely, uranium, plutonium, actinides, and fission products, namely, nuclei known as fission fragments formed by the fission of heavy elements, plus the nuclides formed by the fission fragments' radioactive decay for use in nuclear energy production; chemicals derived from treatments carried out in the nuclear fuel cycle, namely, xenon, and krypton; chemical products, namely, unprocessed synthetic neutron resins, materials being cements, glass compounds, ceramic compounds, lead substitute compounds for protection against ionizing radiation, neutron shielding materials for protection against ionizing radiation, corrosion-resistant chemicals for use as coating and protection of material against corrosion of equipments used in nuclear fuel cycle; chemical compositions for the immobilization of radioactive materials and nuclear waste, in particular compositions comprising cement, glass or ceramics; fuel for nuclear reactors, nuclear fuels for atomic piles and nuclear reactors

For Consolidation services in the nature of business management and advisory services to business desiring to consolidate in the field of nuclear fuel, ores, nuclear materials, uranium, plutonium and nuclear waste; consolidation services in the nature of business management and advisory services to business desiring to consolidate in the field of radio-pharmaceuticals, components of radio-pharmaceuticals or other chemicals or nuclear products

For Construction services, namely, construction of industrial infrastructures, industrial facilities and of equipment and apparatus in the nature of buildings and structures, plants, and installations in the nature of nuclear fuel cycle installation, in the fields of energy and the fight against climate change; Installation and maintenance services of industrial infrastructures, industrial facilities and of equipment and apparatus in the nature of buildings and structures, plants, installations in the nature nuclear fuel cycle installation, in the fields of energy and the fight against climate change; construction and installation of platforms and mine borers, and maintenance services for mines, factories and facilities for storage, warehouse, conversion, isotopic separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; sanitation in the nature of cleaning, dismantling, maintenance, renovation and restoration services for mining sites, sites contaminated by radio-nuclides, nuclear installations, equipment and apparatus of nuclear power plant, research facilities or nuclear cycle industry in the nuclear field; construction, installation and maintenance services for nuclear power plants, nuclear reactors, research and engineering facilities in the fields of nuclear energy and the fight against climate change; construction, installation and maintenance of facilities and equipment used for transporting materials in the field of nuclear energy; mining operation being mining extraction, extraction of uranium deposits, extraction of uranium, extraction of nuclear materials, mineral drilling in particular of nuclear materials; inspection in the course of construction of nuclear facilities, supervision of construction works, providing information relating to construction in the fields of nuclear energy and the fight against climate change
International Classes  37 - Primary Classes US Classes  100, 103, 106 International Class Title  Construction and Repair

For  Optical and electro-optical equipment, namely, computer monitors, video monitors, optical character readers, optical disk drives; luminous, mechanical, and luminous optical signs; electronic signs featuring acoustics; data processing equipment; computers, computer peripheral devices; control instruments for nuclear-fuel refining equipment and machinery, for nuclear-power generation plants and installations, and for transportation, storage and recycling of spent nuclear fuel; electronic control systems for nuclear-power generation plants and installations; radiation measuring instruments; physico-chemical analysis instruments for analyzing and measuring the properties of nuclear fuel for use in the energy industry; ground prospecting apparatus, namely, surveying instruments; mine prospecting instruments, namely, surveying instruments, ground-penetrating radar apparatus, downhole survey and measurement equipment; mapping apparatus, namely, GPS navigation devices and receivers; apparatus for recording, transmission, receiving, storage, reproduction and processing of sound, images or data; materials and equipment in the nature of electrotechnical vibration meters, scales, bevels for measuring, lasers not for medical use, pocket calipers for measuring and tape measures used in the energy fields for recording, monitoring, analyzing, communicating, measuring, controlling, conducting and supervising industrial installations, industrial equipment and automated processes; topographical apparatus and instruments for acquiring topographic and radiological data for use of cartographic results in intervention, decontamination or dismantling of nuclear installations, namely, mapping apparatus in the nature of scanners, GPS navigation devices for acquiring topographic and radiological data for use in intervention, decontamination or dismantling of nuclear installations; computer interfaces; Information technology programs in the nature of computer operating programs; software being monitoring, management, related to nuclear activities, process supervising and criticality software, namely, software for monitoring nuclear facilities and managing nuclear facility systems; alarms used in the field of energy, namely, alarm monitoring systems, alarm installations and alarms for protection, surveillance, measurement, inspection, control, governing and supervising industrial installations and related electrical networks and equipment, all of the foregoing used in the field of nuclear energy; radioactivity detection apparatus, Geiger counters; sensors and apparatus for measuring and analyzing radioactivity; protective masks, clothing and footwear for protection from fire and nuclear radiation during interventions in a hostile environment; electric couplings

International Classes  9 - Primary Classes US Classes  21, 23, 26, 36, 38 International Class Title  Electrical and Scientific Apparatus

For  Physical security consultancy in the fields of energy; physical security and security surveillance services for mines, nuclear power plants, nuclear reactors, factories and facilities for warehouse, storage, conversion, treatment, isotopic separation, reprocessing, recycling and packaging of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field

International Classes  45 - Primary Classes US Classes  100, 101 International Class Title  Personal and legal services

For  Communication by computer terminals and transmission of information by electronic communication networks in the fields of energy and the fight against climate change; remote communication services being providing access to building and security information in the nature of information related to the status of the control, adjustment, measurement, signaling, regulation, protection and monitoring of plants or installations in the field of energy and the fight against climate change; dissemination and transmission of messages, data and information via Extranet, Internet and Intranet networks in the fields of
energies and the fight against climate change; networking services in the nature of providing multiple-user access to a global computer information network for data transmission and accessing on-line information

**International Classes** 38 - Primary Classes  
**US Classes** 100, 101, 104 - International Class Title Communication

*For* Collection for transport, disposal, storage, packing, packaging, transport via rail, road, water and air, warehouse and storage of nuclear fuel, ores, nuclear materials in the nature of uranium, plutonium and nuclear waste; collection for transport, disposal, storage, packing, packaging, transportation by rail, road, water and air, and storage of radio-pharmaceutical products, components of radio-pharmaceuticals or other chemical or nuclear products

**International Classes** 39 - Primary Classes  
**US Classes** 100, 105 - International Class Title Transportation and Storage

*For* 3D printing services; processing of nuclear fuel cycle materials; conversion, treatment, reprocessing, isotopic separation, recycling and transformation of ores, nuclear materials, uranium, plutonium, thorium, actinide and lanthanide, nuclear fuel, materials used in the field of nuclear energy or from processes carried out in the nuclear fuel cycle, namely, xenon, krypton, platinoids, in particular ruthenium, palladium, rhodium and platinum, and nuclear waste; treatment of solid, liquid and gaseous materials including radio-elements, used in nuclear industry; treatment services for liquid and gaseous nuclear effluents; nuclear solid waste treatment; remediation and decontamination of soil, waste, water, nuclear equipment, apparatus, workshop and facilities at mine sites, nuclear installations, and radionuclide contaminated sites; waste-handling services, namely destruction, incineration, vitrification, conditioning, immobilization packaging and disposal, of metallic, organic and mineral waste from the nuclear industry; assembling of products commissioned by others; treatment of materials in the energy sector being fuels, ores, materials used in the field of nuclear energy and nuclear materials in the nature of uranium, plutonium and nuclear wastes

**International Classes** 40 - Primary Classes  
**US Classes** 100, 103, 106 - International Class Title Material Treatment

*For* Engineering and laboratory research for scientific and technological projects in the fields of energy and the fight against climate change; scientific research, analysis and study in the fields of energy and the fight against climate change; research, design and development of new products for others in the fields of energy and the fight against climate change; research, development, analysis, study and design relating to pharmaceuticals, radio-pharmaceuticals and components of pharmaceutical and radio-pharmaceutical products; material testing in the fields of energy and the fight against climate change; providing scientific advice and expertise regarding in the fields of energy and the fight against climate change; computer simulation in the fields of energy and the fight against climate change and control services in the nature of quality control for others in the fields of energy and the fight against climate change; scientific, technological and industrial research, and design related to environmental protection, sustainable development, and the fight against climate change; scientific and technological studies, expertise, advice and information in the field of environmental protection, sustainable development, and the fight against climate change; technical consulting in the field of pollution detection for prevention of pollution risks in connection with activities developed in the fields of energy; energy auditing services in the nature of auditing services for sites being nuclear fuel cycle and power plants, facilities and in the fields of energy; design, programming, updating, maintenance and rental of computer software applied to the energy and climate change fields; analysis, design, and on-site and remote management of information technology systems of others; professional technological consultations and planning in the field of renewable energy sources, for the fight against climate change; mine prospecting in the nature of geological prospecting for nuclear
materials; inspection of nuclear materials for quality and nuclear safety and security control purposes; inspection of nuclear facilities for quality and nuclear safety and security control purposes; quality and nuclear safety and security control, inspection services for mines, nuclear power plants, nuclear reactors, factories and facilities for warehouse, storage, conversion, treatment, isotopic separation, reprocessing, recycling and packaging of ores, nuclear materials, uranium, plutonium, nuclear waste, nuclear fuels and materials used in the nuclear field

**International Classes** 42 - Primary Classes

**US Classes** 100, 101

**International Class Title** Scientific and computer services

**For** Unwrought and semi-wrought common metals and their alloys for use in the energy industries; machined, laminated, cast, shaped, finished or semi-finished products made of steel, aluminum, copper, lead, tin, zirconium and their alloys, and sintered materials thereof, namely, rods, casings, castings and forgings; metal materials, namely, storage tanks, containers and casks for the packaging, transport, storage, warehousing, and handling of radioactive materials, radio-pharmaceutical products, component parts of radio-pharmaceutical products or other chemical or nuclear products; metal building materials namely, girders, braces, shores and supports for nuclear power plants and reactors, uranium mines, factories and facilities for storage, warehousing, conversion, isotope separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service, or in decommissioning; metal transportable buildings for nuclear power plants and reactors, uranium mines, factories and facilities for storage, warehousing, conversion, isotope separation, treatment, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, under construction, in service, or in decommissioning

**For**  Electric wires and cables; electrical resistance wires; electrical fuse wires; sheaths for electric cables; electrical shielding spacers for cables and cable assemblies; electric cable end caps; electric cable connectors; cable glands specially designed for use with electric cables; electric cable grommets; junction sleeves for electric cables; identification sleeves of plastics specially designed for electrical wiring in the nature of electric wires and cables; cable sleeves specially designed for the marking of electric cables; strain clamps specially designed for electric cables; cable wiring devices for electricity, namely, electricity conduits, ducting for electric cables, cable branch boxes, cable junction boxes, and cable termination boxes; cable monitoring apparatus, namely, electronic interference detectors, insulation resistance meters, and temperature sensors; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; photovoltaic solar modules for production of electricity; energy storage units, namely, batteries; energy monitoring and analysis apparatus, namely, electronic monitors for energy usage; electric control devices for energy management used for monitoring, analyzing, and storing energy and operational data; smart grid energy management systems, namely, energy meters for tracking and monitoring energy usage, computer network server hardware and software for use in monitoring and controlling energy demand and consumption, and electric controls for monitoring and adjusting energy usage; computer hardware for use in smart grid applications; magnets; electric coils; electromagnetic coils; electromagnets; superconductive magnet apparatus in the nature of magnets; electric batteries and structural and replacement parts thereof; dry cells and batteries; accumulators in the nature of batteries; fuel cells; photovoltaic cells and modules; battery separators; chargers for electric batteries; electrodes not for medical use; electrode wires in the nature of electrodes used with electrical discharge machines; electric discharge tubes, other than for lighting purposes; apparatus for recording, transmission, processing and reproduction of data, sound and images; data communications apparatus, namely, data transmitters, data receivers, and data processors; radio communication machines and apparatus, namely, transmitters and receivers; radar apparatus; mobile telecommunications apparatus, namely, mobile data terminals (MDT); broadcasting apparatus, namely, transmitting and receiving apparatus for radio and television broadcasting,
for long-distance transmission of sound, data and images, and for cable broadcast transmission; teleconferencing and video conferencing apparatus, namely, cameras, digital cameras, video graphics controllers, video monitors, microphones, speakers, and speakerphones; apparatus and equipments for managing delivery of content via internet, namely, network routers and set-top boxes; instruments, apparatus and components for optical communication networks, namely, optical fibers, optical fiber cables, light-emitting diodes, laser diodes, photodiodes, optical lenses, micro-electronic mechanical system ("MEMS") devices comprising integrated circuits, optical polarizers in the nature of optical filters, optical resonators, integrated optical circuits, crystal oscillators, non-medical tunable lasers for optical networks, optical modulators, optical amplifiers, optical repeaters, optical filters, optical fiber gratings, optical multiplexers, optical demultiplexers, optical circulators, optical couplers, optical splitters, optical combiners, optical interleavers, optical waveguides, optical fiber arrays, optical attenuators, optical isolators, optical dispersion compensators, dynamic gain equalizers, optical transmitters, optical receivers, optical transceivers, optical transponders, optical data links, optical media converters, optical routers, and optical switches; optical fiber splicing apparatus, namely, optical fiber fusion splicers and fusion splice sleeves; optical fibers measuring or testing machines and instruments, namely, fiber optic continuity testers, optical fiber identifiers, fiber optic visual fault locators, optical power meters, optical wavelength meters, optical spectrum analyzers, optical time-domain reflectometers, polarization mode dispersion analyzers, optical insertion loss and return loss testers; remote fiber test systems (RFTS), namely, instruments for remotely testing the reliability and connection quality of fiber optic cables; apparatus and instruments for the distribution of video signals, namely, computer hardware and recorded software for the monitoring, analysis, diagnosis, control, and administration of video distribution systems; component structural and replacement parts for optical disk drives; lasers not for medical use; laser machining apparatus, namely lasers, not for medical use; optical structural and replacement component parts for lasers not for medical use; optical lenses; optical filters; mirrors in the nature of optics for use as structural and replacement parts for lasers, not for medical purposes; prisms for optics purposes; partial reflectors for use as structural and replacement parts for lasers, not for medical purposes; optical phase retarders for use as structural and replacement parts for lasers, not for medical purposes; beam splitters for use as structural and replacement parts for lasers, not for medical purposes; diffraction gratings for use as structural and replacement parts for lasers, not for medical purposes; beam combiners for use as structural and replacement parts for lasers, not for medical purposes; beam combiners for use as structural and replacement parts for lasers, not for medical purposes; optical windows for use as structural and replacement parts for lasers, not for medical purposes; beam homogenizers for use as structural and replacement parts for lasers, not for medical purposes; laser beam expanders for use as structural and replacement parts for lasers, not for medical purposes; laser beam scanners for use as structural and replacement parts for lasers, not for medical purposes; structural and replacement parts for spectacles; spectacle temples and bows specially adapted for spectacle frames; spectacle frames; semiconductors; semiconductor wafers; semiconductor chips; semiconductor devices; heat sinks for use in electronic components; peltier devices in the nature of heat pumps for electronic components; lead wires specially designed for electronic components; lead frames specially designed for semiconductor devices; bonding wires specially designed for semiconductor devices; integrated circuits; integrated circuit modules; integrated circuit packages comprised primarily of integrated circuits; printed circuits; flexible printed circuits; electronic circuit boards; anisotropic conductive films specially designed for use in connecting electronic circuits, for use in the manufacture of electronic devices; surface acoustic wave components, namely, surface acoustic wave filters being radio-frequency and microwave frequency filters for use as low/high and bandpass filters in communication devices; electronic transistors; thermistors; computer peripheral apparatus; electronic data input apparatus, namely, portable data entry computer terminals; optical character readers; bar code readers; bar code decoders; image scanners; display apparatus, electrical or electronic, namely, computer video display monitors, electronic display screens; image processing systems, namely, cameras,
scanners, computer hardware and recorded computer software for processing digital images; remote monitoring apparatus, namely, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; train control systems comprising computer hardware and recorded software for controlling trains, radios, communication equipment in the nature of transmitters and receivers, positioning equipment in the nature of electronic position-signal transmitters and electronic position-signal receivers, and speed sensors; crane guidance system comprising an inductive radio; road condition sensors, namely, temperature sensors, moisture meters, rain gauges and snow depth sensors; traffic sensors for use with traffic control systems; apparatus and instruments for traffic control centers, namely, display monitors, computers, and recorded computer software to manage traffic; traffic signal controllers, namely, actuated and pretimed traffic signal controllers; electronic variable message signs (VMS) and other electronic sign boards used on roadways to display traffic information; recorded and downloadable computer software for use in software development; recorded and downloadable computer software for searching and retrieving data from databases; recorded and downloadable computer software for use in database management; recorded and downloadable computer software in the field of artificial intelligence (AI), for home automation, the intelligent automation and control of vehicles, and observing and measuring defects by processing images in the field of industrial process monitoring; recorded and downloadable computer software for natural language search processing; recorded and downloadable computer software for use in the field of information technology asset management, for tracking and managing location, information of users and licensed software in each computer and electronic device; recorded and downloadable computer software for managing information on computer hardware assets; recorded and downloadable computer software for tracking lease and maintenance information for computer hardware and software; recorded and downloadable computer software for management of computer software licenses; recorded and downloadable computer software for distributing, installing, updating and uninstalling software on other computers via computer networks; recorded and downloadable computer software for computer security and anti-virus protection; recorded and downloadable computer software for peer-to-peer file sharing; recorded and downloadable computer software for use in planning, maintenance and management of computer networks; recorded and downloadable computer software for use in monitoring and protecting computer networks; recorded and downloadable computer software for use in the field of technical support help desk, for communicating with users and providing remote technical assistance; recorded and downloadable computer software for use in the field of internet content delivery network, for transmitting data to users and allowing them to download data from the Internet; recorded and downloadable computer software for use in electronic data interchange (EDI), for transmitting data between electronic devices; recorded and downloadable computer software for use in data cleansing, for deleting data permanently for security purposes; recorded and downloadable computer software for use in the field of work flow management, for scheduling, planning and organizing the word of businesses; recorded and downloadable computer software for document management; recorded and downloadable computer software for use in processing purchase transactions; recorded and downloadable computer software for use in the field of production management, namely, computer software for industrial process control and factory automation; recorded and downloadable computer software for use in the field of logistics management, namely, for arranging, planning, scheduling, and coordinating the transportation of goods for others; recorded and downloadable computer software for collecting, transmitting and analyzing vehicle data such as location and speed; recorded and downloadable computer software for monitoring performance of vehicles and warning dangerous driving behavior; recorded and downloadable computer software for use in geographic information systems, for tracking and transmitting location data; recorded and downloadable computer software for converting, sharing and displaying map data;
recorded and downloadable computer software for calculating optimal travel routes; recorded and downloadable computer software for comparing and analyzing geographic and address information; recorded and downloadable computer software for assessing and utilizing real time road traffic information; recorded and downloadable computer software for predicting future information on traffic congestions; recorded and downloadable computer software for collecting vehicle trip data and evaluating travel time; recorded and downloadable computer software for use in developing map-enabled computer software applications; recorded and downloadable computer software for use in capturing, managing, reporting and assessing geographical information and geographically related information relative to location, distribution or densities of infrastructure; recorded and downloadable computer software for accounting management and patient billing in hospitals; recorded and downloadable computer software for ordering clinical tests and for reporting and evaluating results of clinical tests; recorded and downloadable computer software for measuring pressure; downloadable electronic map database featuring roadway, road tolls and charges, service stations, car parks and other information regarding transport and travel; structural and replacement parts for photocopiers, laser beam printers, facsimile machines and imaging equipment in the nature of scanners; electric actuators; vibration isolation equipment for use with electronics, optical, measuring, testing, scientific and laboratory equipment other than for medical or veterinary purposes, namely, vibration dampeners specially designed for use with electric cables and electronic equipment; vibration isolation tables in the nature of laboratory furniture for laboratory use; electrical junction blocks in the nature of junction boxes; electric relay junction boxes; fuses; electric fuse boxes; electrical connectors; ECUs (Electronic Control Units) for controlling land vehicle engines; electric switches; electric switch panels in the nature of electric control panels; optical apparatus for use in land vehicles, namely, CCD (charge coupled device) cameras and vehicle mounted night vision cameras; CCD (Charge Coupled Device) cameras for land vehicles; electronic infrared cameras; electronic image processors which modify and analyze images taken from video cameras in association with a computer; video monitors; sensing apparatus for use in land vehicles, namely, velocity sensors, acceleration sensors, gyro sensors, and impact sensors; velocity sensors; acceleration sensors; gyro sensors; impact sensors; measuring apparatus and instruments, namely, micrometer gauges, plug gauges, testing devices for hardness testing, temperature sensors, measuring apparatus for humidity levels in gases and solid substances, water level indicators, oil level sensors, oil pressure gauges, oxygen sensors not for medical use, pressure gauges, strain gauges, physical displacement sensors, gyroscopes, sensors for determining velocity, acceleration sensors, acoustic meters, light sensors, radiation measuring apparatus, ammeters, voltmeters, electric power meters, conductivity sensors, resistance measuring instruments, frequency meters, measuring apparatus and instruments for measuring network traffic, electrical contact probes for testing integrated circuit packages, and fiber optic probes not for medical use; laboratory apparatus and instruments, namely, magnetic separators, filtration membranes, diamond anvils using ultrahigh pressure for scientific research, and crucibles; meteorological observation apparatus, namely, wind measurement apparatus; security apparatus, system and instruments, namely, computer-based image processing devices for detecting suspicious persons by processing images captured by cameras and electric and electronic video surveillance installations; electric and electronic video surveillance installations; life saving apparatus and equipments, namely, life-buoys, life-saving rafts, inflatable lifeboats and radar reflector apparatus; filters for non-medical respiratory masks; ear plugs for swimmers; ear plugs for divers; ozonisers, namely, ozonators; electrolysers, namely, electrolytic cells; egg-candlers; blueprint apparatus, namely, blueprinting machines; cash registers; coin counting or sorting machines; photo-copying machines; time and date stamping machines; punched card office machines; voting machines; fire extinguishers; fire pumps; fire hoses; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas leak alarms; burglar alarms; protective helmets; railway signals; vehicle breakdown warning triangles; road signs, luminous or mechanical; breathing apparatus for divers, namely, compressed
air bailout units, not for sports; computer game programs for arcade video game machines; simulators for the steering and control of vehicles; electronic sports training simulators; photographic apparatus and instruments, namely, cameras; cinematographic apparatus and instruments, namely, video cameras; optical apparatus and instruments, namely, microscopes; power distribution or control machines and apparatus, namely, power supplies, electric connectors, electric terminals, electric transformers, electrical inductors, electrical resistors, surge protectors, electrical reactors, electrical capacitors, electrical relays, electric converters, inverters for power supply, switchboards, power distribution panels, circuit breakers, electrical fuses, electrical controllers, electric switches, electric contacts, electric sockets, electric plugs, semiconductor power elements, and transistors being electrical apparatus; rotary converters; phase modifiers for communication apparatus; electrical cells and batteries; electric and magnetic meters and testers; electric wires and cables; telecommunication machines and apparatus, namely, telecommunications transmitters, receivers for telephone, audio, and video, transceivers, transponders, cable connectors for telecommunication apparatus, scramblers for scrambling signals in connection with data transmission, encoders, decoders, set-top boxes, power-line transmission apparatus in the nature of broadband power line communication systems for transferring broadband data over electrical power lines, network routers, computer network switches, modems, computer network hubs, computer network interfaces, and home gateways; smartphones; electronic machines, apparatus and their parts, namely, computers and computer peripherals; magnetic cores; electrodes; fire boats; satellites for scientific purposes; fire engines; dust masks; gas masks; welding masks; fireproof garments; gloves for protection against accidents; spectacles in the nature of eyeglasses; goggles, namely, safety goggles; computer game programs for home video game machines; electronic circuits and CD-ROMs recorded with computer game programs for hand-held games with liquid crystal displays; protective helmets for sports; sports whistles; weight belts for scuba diving; air tanks for scuba diving; snorkels; regulators for scuba diving; metronomes; electronic circuits and CD-ROMs recorded with automatic performance computer programs for electronic musical instruments; downloadable music files; exposed cinematographic films; exposed slide films; slide film mounts

urology surgery and for diagnostic radiopharmaceutical use; artificial limbs; artificial eyes and teeth; orthopedic articles,
namely, pins, plates, and screws being structural component parts of artificial limbs, and implants in the nature of artificial
joints; suture materials; medical clothing, namely, surgical gowns; exercising apparatus for medical rehabilitative purposes,
namely, orthopedic walkers; lamps for medical purposes

International Classes 10 - Primary Classes US Classes 26, 39, 44 International Class Title Medical Apparatus
For Land vehicles; electric land vehicles; self-propelled electric vehicle; shaped vehicle covers being fitted vehicle covers;
structural parts and fittings for vehicles, and wheels; land vehicles for transport; apparatus for locomotion by land, air or water,
namely, land vehicles, air vehicles and water vehicles; motors for land vehicles, water vehicles and air vehicles; electric motors
for land vehicles, water vehicles and air vehicles; audible anti-theft alarms for vehicles; audible reversing alarms in the nature
of back-up warning alarms for vehicles; audible warning systems in the nature of warning lights, audible warning sound for
vehicles; security systems for vehicles other than locks, namely, burglar alarms for vehicles; couplings and transmission
components for land vehicles; air cushion vehicles

International Classes 12 - Primary Classes US Classes 19, 21, 23, 31, 35, 44 International Class Title Vehicular Apparatus
For Machines for the treatment of materials, namely, grinding machines, cutting machines, drilling machines, milling
machines, turning machines, and welding machines; machines for processing workpieces; machines for machining workpieces
with at least one tool, namely, machining centers for metalworking; metalworking machine tools; cutting machine tools;
machining centers for processing workpieces and structural parts therefor; deforming machines for the deforming of metal,
plastic, wood or glass; thermal processing machines used for processing and annealing in the manufacture of workpieces that
include metal, plastic, wood, ceramic, or glass; machines for separating or joining workpieces; electric arc welders; electric
soldering apparatus and slicing apparatus in the nature of metal, plastic, wood, ceramic, or glass slicing machines for
commercial use; pumps for machines; drilling machines and boring apparatus in the nature of boring machines; trueing
machines for metalworking parts and grinding apparatus in the nature of tool grinding machines; sharpening machines and
sharpening apparatus in the nature of sharpening machines; surface treatment machines and surface treatment apparatus,
namely, machines for treating the surfaces of metal, plastic, wood, ceramic, or glass; computer-controlled machines, namely,
machines for the treatment of metal, plastic, wood, ceramic, or glass; machines for manufacturing goods and articles in the
nature of metal, plastic, wood, ceramic, or glass; machines for electric welding; machines for soldering in the nature of electric
soldering apparatus; machines for surface treating metal, plastic, wood, ceramic, or glass; computer-controlled machines for
processing workpieces; motors and engines, except for land vehicles; electricity generators; machine couplings and
transmission components except for land vehicles, namely, transmission chains, belts, conveyor belts, bulk flow chains,
transmission shafts, and gear boxes; agricultural implements other than hand-operated, namely, incorporators, seed drills,
power drill presses, lawn mowers, rolls mill bearings and power tools in the nature of industrial shakers; robots being
machines, namely, industrial robots; electronic industrial robots and robotic systems comprised of industrial robots for the
treatment of materials, and the structural parts therefor; robotic apparatus and robot installations, namely, industrial robots
For Scientific apparatus and instruments, namely, apparatus and instruments for generating, measuring, recording or evaluating sound signals, namely, radio receivers, sound receivers, ultrasonic wave receivers, frequency receivers, frequency meters, sound level meters, ultrasonic wave meters, sound recorders, high frequency recorders for monitoring fast waveforms, ultrasonic wave recorders, sound filters, ultrasonic wave filters, high frequency filters, amplifiers, audio speakers, sound generators and ultrasonic wave generators; apparatus and instruments for measuring and/or recording of sound power, sound strength, sound density, sound intensity, sound wave length or sound frequency, namely, sound level meters, frequency meters, sound recorders, and frequency recorders, optical glasses, optical readers and satellites for scientific purposes, acoustic couplers, data processing couplers, alarm apparatus for fire and smoke in the nature of fire and smoke alarms; analysis apparatus not for medical purposes, namely, sound locating apparatus, namely, sound receivers, frequency receivers, ultrasonic wave receivers, sound analyzers, ultrasonic wave analyzers, frequency analyzers, sound filters, frequency filters, ultrasonic wave filters, sound amplifiers, ultrasonic wave amplifiers, frequency amplifiers, sound meters, ultrasonic wave meters and frequency meters; sound detection and sound control apparatus, namely, sound filters, frequency filters, ultrasonic wave filters, sound amplifiers, ultrasonic wave amplifiers, frequency amplifiers, sound meters, ultrasonic wave meters and frequency meters; apparatus for measuring or evaluating sound signals, namely, radio receivers, sound receivers, ultrasonic wave receivers, frequency receivers, frequency meters, sound meters, ultrasonic wave meters, sound recorders, frequency recorders, ultrasonic wave recorders, sound filters, ultrasonic wave filters, frequency filters, amplifiers, audio speakers, sound generators, ultrasonic wave generators, electronic hardware and downloadable and preloaded software for measuring and evaluating sound signals, electric monitoring apparatus, namely, electronic hardware and downloadable and preloaded software for measuring and evaluating sound signals, electronic monitors for monitoring flow meters, alarm monitoring systems; photographic apparatus and instruments, namely, cameras; cinematographic apparatus and cinematographic instruments, namely, cinematographic projectors; optical apparatus and optical instruments, namely, microscopes, cameras, interferometers, gloss meter, optical pyrometer, laser, refractometer, and video projector; weighing apparatus and weighing instruments, namely, scales; measuring apparatus and instruments, namely, pressure analyzer in the nature of pressure gauges, chemical analyzer in the nature of sensors for measuring concentrations of chemicals in liquid material, solid material and gases, galvanometer, interferometer, thermometer, voltmeter, oscilloscope, viscometer, spectrometer, pycnometer, diffractometer, and profilometer; signaling apparatus and signaling instruments, namely, electronic monitors for monitoring flowmeters temperature, pressure, flowrates, smoke, particle concentrations, gas concentrations, and industrial machine operating parameters alarm monitoring systems, electric sensors, light systems comprising light sensors and switches, and electric surround sound systems in the nature of audio speakers, amplifiers, sound sensors, sound transducer, and piezoelectric transducer; checking and supervision apparatus and checking and supervision instruments, namely, commercial and industrial electric control panels, programmable logic control panels, human machine interface operator control panels, pneumatic control panels, and industrial hydraulic control panels, commercial and industrial monitoring systems for monitoring flowmeters operation of industrial equipment and machines, and operation of laboratory equipment and machines, electric sensors, and electronic monitors for monitoring electric switches operation and parameters of industrial equipment and machines, and operation and parameters of laboratory equipment and machines; life-saving apparatus and assistance instruments, namely, dust masks, safety masks, oxygen supply equipment in the nature of atmospheric oxygen monitors, respirators, oxygen tanks, pressure gauges, and gas regulators, and
thermometer not for medical purposes; teaching apparatus and teaching instruments, namely, downloadable and preloaded computer software programs for teaching the use of industrial equipment and robotic equipment; acoustic couplers; data processing equipment, namely, computers and couplers; machine warning alarms, safety alarms, environmental safety alarms, namely, alarm monitoring systems; testing apparatus not for medical purposes, namely, chemical testing devices in the nature of chemical testing machines, material testing devices in the nature of plastic solid material testing machines, and pressure testing devices in the nature of pressure testing machines; audio analyzers and resonance analysis apparatus in the nature of resonators, audio sensors, and computers; electric display apparatus, namely, plasma, LED, LCD, and cathode ray tube display panels; electronic display boards; electronic notice boards; control boxes, namely, electric fuse boxes, and circuit boxes; electric installations for the remote control of industrial operations; observation instruments, namely, electronic decibel meters, microscopic sound level meters for the measuring or recording of sound power, sound strength, sound intensity, sound wave length and sound frequency, and instruments for the measuring or recording of sound power, sound strength, sound density, sound intensity, sound wave length or sound frequency, namely, electronic hardware in the nature of computer hardware, sound level meters, frequency meters, sound recorders, and frequency recorders, radio receivers, sound receivers, ultrasonic wave receivers, frequency receivers, frequency meters, sound level meters, ultrasonic wave meters, sound recorders, high frequency recorders for monitoring fast waveforms, radio receivers, sound receivers, ultrasonic wave receivers, frequency receivers, frequency meters, sound meters, ultrasonic wave meters, sound recorders, frequency recorders, ultrasonic wave recorders, sound filters, ultrasonic wave filters, frequency filters and amplifiers; densimeters; laser speed and motion detectors; diagnosis equipment not for medical purposes, namely, computer hardware; pressure detectors; material composition detectors; material structural detectors; sound detectors; diagnostic apparatus, not for medical purposes, for chemical and composition analysis, and material structural analysis; pressure measuring apparatus; pressure indicators; electronic pens; electro-dynamic apparatus for the remote control of signals; electronic controlling apparatus for controlling industrial equipment; steering apparatus for automatically steering vehicles; electronic sensor; electronic sensors for use in the control of engines; programmable logic controllers; electric connection modules; high-frequency apparatus, high frequency sound sensors, and high frequency switches; boiler control instruments; material testing instruments and material testing machines, namely, testing machines for metal, metal, plastic, wood, ceramic, or glass materials; mathematical instruments, namely, graduated rulers, protractors and calculators; apparatus and instruments for physics, namely, beakers and prisms; sound locating instruments, namely, echo sounders, sound transmission devices, namely, apparatus and instruments, namely, sound amplifiers, ultrasonic wave amplifiers, frequency amplifiers, audio speakers, sound generators and ultrasonic wave generators for transmission of sound amplifiers, speakers, sound generators, ultrasonic wave generators, electronic computer hardware and downloadable and preloaded software for the transmission of sound signals; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; non-medical ultrasound apparatus, namely, electronic ultrasound flaw detectors; frequency measuring apparatus; sound frequency meters; frequency meters; apparatus and instruments for the generating, measuring, recording and/or evaluating of sound signals, namely, sound receivers, ultrasonic wave receivers, frequency receivers, frequency meters, sound meters, ultrasonic wave meters, sound recorders, frequency recorders, ultrasonic wave recorders, sound filters, ultrasonic wave filters, frequency filters, amplifiers, speakers, sound generators, ultrasonic wave generators, and electronic computer hardware and downloadable and preloaded software for measuring and evaluating sound signals; apparatus and instruments for measuring and recording sound power, sound strength, sound density, sound intensity, sound wave length and sound frequency; apparatus and instruments for identifying materials, namely, hardness testers, and material composition analyzer in the nature of electronic apparatus for testing compression, strength, hardness, composition
and tensile characteristics of industrial materials; hardness testers; distance measuring apparatus; laser spacing control apparatus, namely, proximity sensors; apparatus and instruments for monitoring, controlling and/or regulating processes for the treatment of materials, namely, downloadable industrial process control software; apparatus and instruments for reversing magnetization, namely, magnets for industrial purposes; apparatus for the magnetic reversal of polarities, namely, magnets for industrial purposes; apparatus for recording sound signals onto storage media; apparatus and instruments for quality control, in particular in the treatment of materials and/or workpieces, namely, downloadable and preloaded industrial process control software; electronic data memories for apparatus for recording processing data for the treatment of materials and/or workpieces, namely, memories for data processing equipment; magnetic data carriers that are loaded with software for use in operating, monitoring and controlling of industrial equipment and machines, operating, monitoring and controlling of laboratory equipment and machines, operating, monitoring and controlling of industrial robotic equipment and machines; magnetic data carriers that are loaded with a database in the field of sound data, material data, machine operating parameters, and robotic operating parameters; optical data carriers that are loaded with software for use in operating, monitoring and controlling of industrial equipment and machines, operating, monitoring and controlling of laboratory equipment and machines, operating, monitoring and controlling of industrial robotic equipment and machines; optical data carriers that are loaded with a database in the field of sound data, material data, machine operating parameters, and robotic operating parameters; computer databases, namely, electronic databases in the field of physics, field of material science, field of geology, field of medical diagnosis, field of chemical analysis, and field of sound analysis; spectrosopes; acoustic transformers; calculators; data processing equipment; computers; computers for installation in machines; downloadable and pre-installed computer software for database management; downloadable and pre-installed computer software for machine control; downloadable and pre-installed computer software for material analysis, medical diagnostics, chemical analysis, sound analysis, and geological analysis; downloadable and pre-installed computer software for the processing of materials; downloadable and pre-installed computer software for control the operation and driving of vehicles; controller, testing, measuring and diagnostic apparatus for vehicles, namely, vehicle engine controllers, vehicle engine monitors, vehicle speed monitor, vehicle speed controller, vehicle fluid monitor, vehicle fluid sensors, vehicle fluid analyzer, vehicle temperature monitor, vehicle temperature controller, vehicle brake monitor, and vehicle brake controller; downloadable and pre-loaded software for operating industrial robots for processing workpieces; electronic robots and robotic systems for material testing, and the parts therefor, laboratory robots
