electronic apparatus for data processing; electronic apparatus for detecting leaks; electronic apparatus for developing communication links, namely, telecommunications cables; electronic apparatus for information delivery, namely, computer servers; electronic apparatus for information exchange, namely, computer servers; electronic apparatus for controlling the operation of machines, namely, industrial automation controls; electronic apparatus for manipulating data, namely, computer hardware; electronic apparatus for measuring environmental conditions, namely, moisture sensors; electronic apparatus for monitoring machines, namely, optical inspection apparatus; electronic apparatus for providing communication links, namely, computer servers; electronic apparatus for reading information, namely, bar code readers; electronic apparatus for relaying data, namely, computer servers; electronic apparatus for telemetry, namely, wireless transmitters and receivers; electronic apparatus for testing communication links, namely, computer hardware; electronic apparatus for the measurement of toxic gases; electronic apparatus for the transmission of data, namely, computer servers; apparatus for controlling the remote operation of machines, namely, automated digital controls for commercial and industrial food service equipment; electronic apparatus for transmitting information, namely, wireless transmitters; electronic assemblies comprised of electric wires and electric switches; electronic chips in the nature of semi-conductors for the manufacture of integrated circuits; electronic circuit boards; electronic circuit substrate, namely, quantum dots being crystalline semiconductor material; electronic circuits; electronic circuits for data processing apparatus; electronic circuits for use with computers; electronic coding apparatus; electronic colour analysers; apparatus for controlling the output of data, namely, computer hardware; electronic colour analysis apparatus; electronic communication apparatus, namely, smart phones; electronic communication installations comprised of computer servers and modems; electronic component carriers, namely, electronic circuits; electronic components, namely, semiconductor power elements; electronic components in the nature of microchips; electronic computer apparatus, namely, computers; electronic connectors for electronic circuits; electronic control apparatus, namely, computer hardware; electronic control apparatus for agricultural machines, namely, flow regulators for agriculture use; apparatus for controlling the processing of data, namely, microcontrollers; electronic control apparatus for automatic machines, namely, optical inspection apparatus; electronic control apparatus for computer programmes, namely, computer hardware; electronic control apparatus for electric motors, namely, electronic servo motor controllers; electronic control apparatus for engines; electronic control apparatus for the remote control of gear pumps; electronic control apparatus for the remote control of industrial machines; electronic control apparatus for lighting; electronic control apparatus for the remote control of machine tools; electronic control apparatus for the remote control of industrial machines; electronic control apparatus for the remote control of motors; apparatus for controlling the storage of data, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electronic control apparatus for use with the remote control of vacuum pumps; electronic control apparatus for the remote control of valves; electronic control circuits; electronic control devices for the remote control of industrial rotary machines; electronic control devices for the remote control of turbines; electronic control installations for the remote control of industrial operations; electronic control installations for the remote control of sensors used in industrial operations; electronic control operating apparatus, namely, electric switches and electric control panels; electronic control systems comprised of electric switches and electric control panels; electronic control units comprised of electric switches and electric control panels; apparatus for data collection, namely, wireless receivers; electronic speed controllers; electronic controls for the remote control of industrial machines; electronic counting apparatus, namely, currency counting machines; electronic damper control apparatus; electronic data apparatus for use with computers, namely, data processors; electronic data carriers, namely, optical data carriers featuring telecommunications equipment operating instructions; electronic data carriers, namely, CD-ROMs with computer operating programs; electronic data
collection apparatus, namely, wireless receivers; electronic data communications apparatus, namely, modems; electronic data communications installations, namely, computer servers; apparatus for data input, namely, input devices for computers; electronic data input apparatus, namely, input devices for computers; electronic data interchange apparatus, namely, computer network switches; electronic data output apparatus, namely, computer hardware; electronic data processing apparatus; electronic data processing devices; electronic data processing equipment; electronic data processing installations comprised of data processors; electronic data processing machines; electronic decoders; electronic design analysis apparatus, namely, computer hardware; apparatus for data output, namely, computer hardware; electronic devices for data processing, namely, computer hardware; electronic devices for indicating the interaction of fields, namely, computer hardware; electronic devices for information processing, namely, computer hardware; electronic devices for the transmission of data between computers, namely, computer servers; electronic devices for the transmission of data between microprocessors, namely, computer servers; electronic devices for transmitting data, namely, computer servers; electronic measuring apparatus, namely, lasers for measuring; electronic measuring instruments, namely, lasers for measuring; electronic metering apparatus, namely, water meters; electronic metronomes; apparatus for data processing; electronic microprocessors; electronic miniature electric relays; electronic monitoring apparatus, other than for medical use, namely, battery monitors; electronic monitoring instruments, other than for medical use, namely, battery monitors; electronic plug-in cards, namely, blank smart cards; electronic point of sale transaction terminals; electronic pressure sensors; electronic process apparatus, namely, data processing apparatus; electronic programmable logic controllers; electronic programming units, namely, programmable logic controllers; apparatus for data storage, namely, blank data storage media; electronic rain gauges; electronic receiving apparatus, namely, wireless receivers; electronic data relays for sensors; electronic sensors, namely, temperature sensors; electronic signal generating apparatus, namely, signal generators; electronic signal processing apparatus; electronic signal processing apparatus for musical instruments; electronic signal transmission apparatus, namely, emergency signal transmitters; electronic signal transmitters for emergencies; electronic computer switches; apparatus for data transmitting, namely, radio transmitters; electronic switching amplifiers; electronic switching apparatus, namely, computer switches; electronic system control apparatus, namely, thermostats; electronic temperature monitors, other than for medical use, namely, thermometers; electronic temperature recorders, other than for medical use; electronic test apparatus for testing bonds between metals; electronic test apparatus for testing welds; electronic testing instruments for testing electrical systems, namely, voltmeters; electronic theft prevention apparatus, other than for vehicles, namely, burglar alarms; electronic theft prevention installations, other than for vehicles, namely, central alarm units; apparatus for decoding encoded signals; electronic thermometers, other than for medical use; electronic time recording apparatus; electronic timers; electronic timers for lubricating installations; electronic timing apparatus, namely, timers; electronic timing control apparatus, namely, timers; electronic timing control instruments, namely, timers; evaluation apparatus, namely, moisture sensors; fixed multi-channel communication apparatus, namely, radios; fixed radio apparatus for voice transceivers; aerial filters; apparatus for detecting fire, namely, smoke detectors; fixed radio apparatus for voice transmission; fixed radio instruments for data transceivers; fixed radio instruments for data transmission; fixed single channel communication apparatus, namely, radios; housings for computers; housings for electrical apparatus, namely, electrical junction box housings; housings for electrical instruments, namely, electrical junction box housings; housings for electrical sub-assemblies, namely, electrical switch housings; housings for electronic instruments, namely, electrical switch housings; housings for electronic sub-assemblies, namely, electrical switch housings; apparatus for detecting gases; housings for measuring apparatus, namely, housings for moisture sensors; integrated circuit boards; integrated circuit
cards; integrated circuit cards for bearing stored data in the field of telecommunication equipment; integrated circuit cards for
storing data; integrated circuits; integrated circuit test clips being computer hardware; integrated circuits; integrated circuits for
networks for use in identification; interface network modems; apparatus for detecting light obscuring substances; logging
apparatus, namely, electronic data loggers; logic circuits; measuring instrument, namely, electronic data loggers; mobile
telecommunications apparatus, namely, mobile phones; modems; modems for communications networks; modular
instrumentation apparatus, namely, computer hardware; monitoring apparatus, other than for medical purposes, namely, battery
monitors; monitoring control apparatus, electric control panels; electronic monitoring installations for the remote control of
industrial operations; apparatus for detecting smoke; electronic monitoring instruments, namely, battery monitors; monitoring
units, namely, battery monitors; downloadable and recorded computer programs for the remote monitoring of industrial
operations; portable apparatus for receiving satellite transmissions, namely, satellite telephones; portable telecommunications
apparatus, namely, satellite telephones; pressure measurement apparatus, namely, pressure sensors; pressure measurement
tools, namely, pressure indicators; pressure measuring apparatus, namely, pressure indicators; pressure meters; pressure
monitors, other than for medical use, namely, pressure sensors; apparatus for detecting vapours, namely, smoke detectors;
primary cells being photovoltaic cells; printed circuit boards; printed circuit boards for computers; printed circuit boards for
mounting in computers; printed circuit boards for remote data transmission; printed circuit cards; printed circuit expansion
boards; printed circuits; printed circuits for use with timing mechanisms; printed circuits on substrates of flexible film;
apparatus for digital signal processing; printed circuits on substrates of plastics material; printed electronic circuits; printed
electronic circuits for apparatus; printed electronic circuits for machines; process computers; electronic process control
apparatus for the remote control of industrial operations; process control computers; process control digital controllers for the
remote control of industrial operations; electric process control instruments for the remote control of industrial operations;
process control operator interface units; process control units, namely, electronic apparatus for the remote control of industrial
operations; process control units being controller modules, namely, electronic apparatus for the remote control of industrial
operations; process control units using process control computers, namely, electronic apparatus for the remote control of
industrial operations; electric process controllers, namely, electric installations for the remote control of industrial operations;
electric process controllers, namely, electronic apparatus for the remote control of industrial operations; electric process
controlling apparatus, namely, electric installations for the remote control of industrial operations; electronic process controlling
apparatus, namely, electronic apparatus for the remote control of industrial operations; downloadable and recorded process
controlling computer software for remote control of industrial operations; apparatus for electronic information processing,
namely, data processors; processing circuit boards; processing computers; programmable computers; programmable control
apparatus, namely, lighting control apparatus; programmable electronic controllers for computers; programmable controls,
namely, lighting control apparatus; programmable controls for lighting installations; programmable digital read-out units,
namely, electronic display interfaces; programmable electronic apparatus, namely, lighting control apparatus; programmable
electronic apparatus for use with machines, namely, programmable logic controllers; apparatus for fault detection, namely,
fault circuit indicators; programmable logic arrays; programmable telecommunication apparatus, namely, modems;
programmable timers; programming apparatus, namely, computer hardware; programming apparatus for use with computers,
namely, programmable logic controllers; recorded optical discs featuring programming instructions for data processing
apparatus; recorded computer programs for controlling lighting installations; downloadable and recorded computer programs
bearing encoded information for controlling lighting installations; downloadable and recorded programs for computers for controlling lighting installations; recorded programs for computers for controlling lighting installations; apparatus for gathering information, namely, wireless receivers; recorded computer programs for operating data processing apparatus; computer programs for operating data processing apparatus, recorded on disks; computer programs for operating data processing apparatus recorded on tapes; downloadable and recorded computer programs for operating data-processing apparatus; downloadable and recorded computer programs for operating microcomputers; downloadable and recorded computer programs for operating personal computers; downloadable and recorded computer programs for processing data on computers; downloadable and recorded computer programs for use in communications for connecting users to a global computer network; digital signal transmitters, namely, pulse code modulation apparatus for transmission via cable; digital signal transmitters, namely, pulse code modulation apparatus for transmission via satellite; digital signal transmitters, namely, pulse code modulation instruments for transmission via cable; digital signal transmitters, namely, pulse code modulation instruments for transmission via satellite; pulse code modulation multiplexing instruments; pulse counters not for medical use; radio sets; apparatus for identifying cows, namely, radio frequency identification tags; radio signal antennae; radio signal transmission apparatus; radio transceivers; radio transmission apparatus; radio-frequency antennas; radio-frequency components, namely, antennas; radio-frequency filters; radio-frequency modulators; radio-frequency power meters; radio-frequency receivers; radio-frequency transmitter; real-time data processing apparatus; receiving antennas for satellite broadcast; receiving devices for connection to communication networks, namely, wireless receivers; electric relay sockets; electric relays with name bearing tags; relays, electric; remote control apparatus connected by modems to computers; remote data gathering apparatus, namely, global positioning systems; remote data processing apparatus; apparatus for information teleprocessing, namely, data processors; remote monitoring apparatus, namely, video recorders; research apparatus for scientific use, namely, laboratory pipettes; research instruments for scientific use, namely, laboratory pipettes; satellite communication apparatus, namely, satellite dishes; satellite communications equipment, namely, satellite receivers and transmitters; satellite communications instruments, namely, satellite aerials; satellite navigational apparatus; satellite receivers; satellite receiving aerials; satellite receiving apparatus; apparatus for information transmission, namely, network routers; satellite signal receiving antennae; satellite transceivers; satellite transmitting aerials; sensing apparatus not for medical use, namely, pressure sensors; sensing apparatus being parts of anti-theft apparatus, namely, motion sensors; sensing apparatus being parts of intrusion detection apparatus, namely, motion sensors; sensing apparatus being parts of outside lighting apparatus, namely, motion sensors, light sensors; sensing apparatus for use with windows, namely, motion sensors, glass break sensors; sensing devices, namely, motion sensors; sensing devices for the automatic control of machines, namely, pressure sensors; apparatus for interconnecting data processing equipment, namely, computer cables; sensing devices for the control of air currents, namely, wind speed sensors; sensing devices for the control of liquid levels not for medical use, namely, liquid level sensors; sensing devices for the control of temperatures, namely, temperature sensors; digital signal convertors; digital signal processors; signal transmission apparatus, namely, transmitters of electronic signals; electronic signal transmitters; downloadable and recorded...
computer software drivers for installation and operation of document printers; soil moisture meters; solar batteries; apparatus for lighting control; solar batteries for industrial use; solar cells for electricity generation; solar collectors for electricity generation; solar energy collectors for electricity generation; solar energy operating apparatus, namely, solar wafers; strategic telecommunication apparatus for land vehicles, namely, mobile phones; strategic telecommunication apparatus for ships, namely, radios; satellite target surveillance apparatus, namely, global positioning systems; satellite target trackers, namely, global positioning systems; telecommunications apparatus, namely, mobile phones; apparatus for localisation for vehicles via radio-electrical transmission, namely, radios; telecommunications apparatus for diagnostic purposes, namely, global positioning systems; telecommunications apparatus for measuring purposes, namely, global positioning systems; telecommunications apparatus for transferring data to computers, namely, network routers; telecommunications apparatus for transmission purposes, namely, network routers; telecommunications apparatus for transmitting data for use with computers, namely, network routers; telecommunications equipment, namely, network routers; telecommunications instruments for use in cellular radio networks, namely, antenna; temperature compensated crystal oscillators; temperature compensation controls, namely, thermostats; temperature control apparatus, namely, electric switches; apparatus for localisation for vehicles via satellites, namely, global positioning systems; temperature control apparatus, namely, electric switches for vehicles; temperature control apparatus, namely, thermostats; temperature control apparatus, namely, thermostats for machines; temperature control apparatus, namely, thermostats for vehicles; temperature controllers, namely, thermostats; temperature controllers apparatus for machines, namely, thermostats; temperature controlling apparatus, namely, thermostats; temperature controlling apparatus, namely, thermostats for central heating installations; temperature controlling apparatus for machines, namely, thermostats; apparatus for low power electrical engineering, namely, electric switches; temperature controlling instruments, namely, thermostats; temperature display units, namely, thermostats; temperature feedback units, namely, thermostats; temperature gauges; temperature indicating apparatus; temperature indicators; temperature limiters, namely, thermostats incorporating bi-metallic discs; temperature limiters, namely, thermostats incorporating expansion rods; temperature limiters, namely, thermostats for central heating installations; temperature limiters for machines, namely, thermostats; apparatus for mass flow measurement, namely, mass flow meters; temperature limiters for use in metal moulding, namely, thermostats; temperature limiters for use in vehicle engines, namely, thermostats; temperature limiters for use in vehicle heating systems, namely, thermostats; electronic temperature logging apparatus; electronic temperature matrix regulators; temperature measurement instruments, namely, thermometers not for medical use; temperature measuring apparatus for household use, namely, thermometers not for medical use; temperature measuring apparatus for scientific use, namely, thermometers; temperature measuring instruments for household use, namely, thermometers not for medical use; apparatus for measured valve acquisition, namely, pressure sensors for valves; temperature measuring instruments for industrial use, namely, thermometers not for medical use; temperature measuring instruments for scientific use, namely, thermometers; temperature meters for household use, namely, thermometers not for medical use; temperature meters for industrial use, namely, thermometers not for medical use; temperature monitors for scientific use, namely, thermostats; temperature monitors for central heating installations; temperature monitors for household use, namely, thermostats; temperature monitors for industrial use, namely, thermostats; temperature monitors for vehicle engines, namely, thermostats; temperature monitors for metal moulding machines, namely, thermostats; apparatus for measurement of gas components in air; temperature monitors for metallic use, namely, thermostats; temperature monitors for use in metal moulding, namely, thermostats; temperature monitors for vehicle heating systems, namely,
thermostats; temperature recorders not for medical use, namely, thermostats; temperature recorders for testing static electricity; temperature recording apparatus not for medical use, namely, thermostats; temperature regulators, namely, thermostats incorporating bimetallic discs; temperature regulators, namely, thermostats incorporating expansion rods; temperature regulators for vehicle engines, namely, thermostats; apparatus for measuring, namely, thermometers not for medical use; temperature responsive control apparatus for vehicle engines, namely, thermostats; temperature responsive control apparatus for vehicle heating systems, namely, thermostats; temperature scanners for industrial use; temperature scanners for scientific use; temperature scanning apparatus for vehicle heating systems; temperature sensitive controls for automatically operating valves, namely, thermostats; temperature sensitive testing apparatus for scientific use, namely, temperature sensors; temperature sensitive testing instruments for industrial use, namely, temperature sensors; temperature sensitive testing instruments for scientific use, namely, temperature sensors; temperature sensors for industrial use; electric temperature switches; thermistors; thermostat control apparatus; thermostat controllers; apparatus for measuring amounts of products for filling into sacks, namely, controlled volume pumps; thermostat controllers for heating installations; electric thermostat wires; thermostats; time recorded devices, namely, time clocks; time clocks for time recording; time coding apparatus, namely, timers; time controlled feeding devices for aquatic animals, namely, timers; time correction filters, namely, timers; time data generators, namely, time clocks; time delay generators, namely, time clocks; apparatus for measuring biomagnetic signals, namely, magnetic locators; time dividers for digital communication apparatus, namely, timers; time division multiplexers; time programmers being time recording apparatus; time recording apparatus; time recording instruments; time registering apparatus, namely, time clocks; time switches, automatic; time-code generators being time recording apparatus; control devices, namely, timers; timers for automatic apparatus; apparatus for measuring board materials, namely, tape measures; timers for switching on electrical devices at pre-programmed times; measuring devices, namely, timing devices in the nature of timers; timing apparatus, namely, timers; timing devices for controlling machines, namely, timers; timing devices for industrial processing apparatus, namely, timers; training guides in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training manuals in electronic format, namely, downloadable training manuals featuring instructions for time recording devices; training manuals in the form of a downloadable computer program for providing instruction concerning the use of time recording devices; training materials, namely, vehicle drive training simulators; transceivers; apparatus for measuring distance; telecommunications transmitters; transmitters for the transmission of electric signals; transmitters for the transmission of electronic signals; telecommunications transmitters for use with computers; transmitters of electronic signals; transmitting apparatus, namely, transceivers; transmitting apparatus for satellite broadcast, namely, global positioning systems; transmitting apparatus for telecommunications, namely, telecommunications transmitters; transmitting apparatus for use in communications, namely, telecommunications transmitters; transmitting instruments, namely, telecommunications transmitters; apparatus for measuring humidity, namely, humidity sensors; transmitting sets, namely, telecommunications transmitters; electric triggering circuits; two-way wireless communication systems comprised of two-way radios; units for converting information received in machine readable format, namely, bar code readers; units for displaying information received in machine readable format, namely, video monitors; wireless communication apparatus, namely, wireless receivers and transmitters; wireless high frequency transmission instruments,
namely, wireless receivers and transmitters; wireless pulse transmitters; wireless receiving apparatus, namely, wireless receivers; wireless transmission apparatus, namely, wireless transmitters; aerials for radios; apparatus for measuring liquids, namely, liquid level sensors; apparatus for measuring noise, namely, noise level meters; apparatus for measuring overheat, namely, thermometer sensors; apparatus for measuring paper, namely, measuring rules; apparatus for measuring pressure, namely, pressure sensors; apparatus for measuring temperature, namely, thermometers not for medical purposes; apparatus for measuring the temperature of fluids, namely, thermometers not for medical purposes; apparatus for message sending, namely, modems; apparatus for meteorological monitoring, namely, rain gauges; apparatus for monitoring atmospheric conditions, namely, rain gauges and thermometers not for medical use; aerials for telecommunications; apparatus for monitoring combustion, namely, automatic combustion controls machines and instruments; apparatus for monitoring electrical components, namely, electric meters; apparatus for monitoring electrical instruments, namely, electric meters; apparatus for monitoring electronic components, namely, pressure sensors; apparatus for monitoring electronic instruments, namely, pressure sensors; apparatus for monitoring fluid pipes, namely, flowmeters; apparatus for monitoring gas in the atmosphere, namely, air analysis apparatus; apparatus for monitoring the operations of engines, namely, temperature sensors; apparatus for monitoring vacuum pumps, namely, pressure sensors; apparatus for processing data

Mark Literal(s)

The mark consists of a design resembling an upside-down diamond comprising two segments where the bottom segment comprises three connected triangles and where the top segment's left half comprises two connected triangles and the right half comprises two connected triangles. Color

Color is not claimed as a feature of the mark.

For Anti-infectives; anti-inflammatories; antibacterial pharmaceuticals; antibiotics; antifungal preparations; antivirals; cardiovascular pharmaceuticals; dermatological pharmaceutical preparations; inhaled pharmaceutical preparations for the prevention and treatment of respiratory diseases and disorders; pharmaceutical preparations acting on the central nervous system; pharmaceutical preparations and substances for the prevention and treatment of gastrointestinal diseases; pharmaceutical preparations for the prevention and treatment of diseases and disorders of the autoimmune system, the metabolic system, the endocrine system, the musculo-skeletal system and the genitourinary system; pharmaceutical preparations for use in hematology and in tissue and organ transplantation; pharmaceutical preparations for the prevention and treatment of eye diseases and conditions; pharmaceutical preparations for the prevention and treatment of heart rhythm disorders; pharmaceutical preparations for the prevention and treatment of immune system related diseases and disorders; pharmaceutical preparations for the prevention and treatment of kidney diseases; pharmaceutical preparations for the prevention and treatment of diabetes; pharmaceutical preparations for the prevention and treatment of hypertension; pharmaceutical preparations for the prevention and treatment of skin disorders; pharmaceutical preparations for use in dermatology; pharmaceutical preparations for use in urology; pharmaceutical preparations for use in ophthalmology; pharmaceutical preparations for the prevention and treatment of cancer and tumors; pharmaceutical preparations for the prevention and treatment of allergies; pharmaceutical preparations for the prevention and treatment of bone diseases; pharmaceutical preparations for the prevention and treatment of respiratory diseases and asthma

MARK INFORMATION

| Standard Character Claim | No |
| Mark Drawing Type | 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) |
| Description of the Mark | The mark consists of the word "BLADT" over "INDUSTRIES" within a quadrilateral background. The color white appears in the stylized letters of the word BLADT; the color orange appears in a triangular design within the letter "A" and in the lower portion of the quadrilateral background. The color black appears in the upper portion of the quadrilateral background and in the word "INDUSTRIES". Color Drawing | Yes |
| Color Claimed | The color(s) the black, white and orange are claimed as a feature of the mark |
| Disclaimer | "INDUSTRIES" |
