For | Electrical and electric connector systems, namely, connectors and interconnection systems, cable assemblies, terminals and splices, pin and socket connectors, printed circuit board connectors, RF coaxial connectors, ribbon and flat panel connectors, MPI interconnects; mechatronic systems, namely, combination of mechanical and electronic systems for use in sensing and control systems, in hybrid housings, housings for hybrid circuits, premolded packages for semiconductor based sensors and injection moulded lead frames, comprised of stamped parts such as high precision lead frames and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, Hall and MR Sensors, temperature sensors, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a unit; electrical and electric relays, namely, panel/plug-in relays, industrial and consumer relays, high-voltage relays, PCB relays, surface-mount relays, signal level relays, microwave relays, time delay relays; surface mounted device terminals; electrical relays, namely, panel/plug-in relays, industrial and consumer relays, high-voltage relays, PCB relays, surface-mount relays, signal level relays, microwave relays, time delay relays; battery disconnect switches, double micro relays, high current relays for use in car alarms, flashers, lamps, and motor reverse relays; Testers used as hand tools for testing wire and cable identification without direct metallic contact; telecommunication relays for use in communication technology, networking equipment, telecommunications terminals, and accessories, broadband, wireless, central office switching, measurement and control equipment, automobile technology, medical equipment, and entertainment electronics; industrial relays, namely, mid-range PC board relays, mid-range plug-in/panel mount general purpose relays, power PC board relays and power plug-in relays; computer relays, namely, signal PC board relays and power PC board relays; electrical apparatus and electronic components used in relation to aerospace and defense, computer and consumer electronics, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic products, namely, electrical and optical cables, circuit breakers, sensors, fuse boxes, mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling, RF power transistors, electrical control panels, and antennas, computer monitors, touch screens; electrical and electric terminals and connectors; electrically conductive items, namely, pin and socket connectors, power connectors, RF coaxial connectors, printed circuit board connectors, ribbon and flat panel connectors, fiber optic connectors, rectangular heavy-duty connectors, low profile rectangular connectors, power drawer connectors, high speed connectors, micro miniature and nanominiature connectors, elastomeric connectors, photovoltaic connectors, battery connectors, and zero-insertionforce connectors; chip carrier sockets; electric sockets; electronic circuits; sensors for sensing proximity, angle, speed, temperature, and CO2 gas, namely, pulse wire sensors, PLC sensors, position sensors, rotational sensors, touchcontrol sensors, industrial sensors, seat position sensor, non-contact throttle position sensors, Hall sensors, contact-less position sensors, electronic radar sensors, electronic inductive sensors, and electronic gas sensors; antennas, and wave reflectors; GPS antennas; antenna systems; GPS systems; satellite radio antennas,
multi band antennas, RFID portal antennas, space launch antennas, stamped metal antennas, printed circuit board antennas, RFI microwave antennas, flex film antennas, telemetry antennas, aerospace antennas, internal cell phone antennas, and antennas and antennas according to IEEE 802.15.1 Standard; receivers for audio, light, laser light electro magnetic wave, and micro wave signals; GPS receivers; circuit boards; plasma, LCD, and CRT screens and interactive displays utilizing acoustic pulse recognition, surface wave, resistive, infrared and capacitive, LCD, plasma and CRT touch monitors; wire and board processing equipment, namely, wire to board connectors, board-to-board connectors, cable-to-board connectors, cable-to-cable connection and series connectors; magnets, namely, sensors, relays and switches; electrical resistors; electrical power resistors; electrical and magnetic inductors; chokes, namely, an inductor used to block signals of particular frequencies; trimmers, namely, variable resistors and potentiometers, and variable capacitors and variable controls; electrical power inductors; electric switches; blank smart cards comprised of embedded integrated programmable circuits; fiber optic products, namely, fiber optic connectors, cables, adapters and accessories, namely, sensors, couplers and splitters, and attenuators; optical backplane interconnects for audio, video and data signals; optical fibers; fiber optic communication components, namely, emitters, diodes, laser diodes, adapters, optical modules, attenuators and switches, fiber optic cables, couplers; electro-optic products, namely, cables, pulse suppressor boxes, polarization mode dispersion analyzers for fiber capability to support high speed, electro optical targeting system, infrared aperture radar, research radar, targeting pod system, cameras, infrared cameras, high-resolution, digital imagery, pump lasers, high frequency electro-optical modulators and converters, electro-optical connectors, electro-optical transceivers, electro-optical seeker, Electro/Optical Interconnects, electro-optical converters; backplane electronic circuit boards; backplane electronic circuit board interconnects; attenuators; multiplexers; amplifiers; resistors; telematics systems for use in sending, receiving, and storing information via telecommunication devices, namely, antennas, satellite radio antennas, multi-band antennas, missiles, military aviation and GPS systems; computer software for computer system and application development, deployment and management for use in relation to aerospace and defense, automobiles, computer and consumer electronics, household and major appliances, motors other than for land vehicles, power tools, lawn equipment, switches, base stations, NIC and PC cards, systems for the electrical power industry including rail transport systems, premises cabling, communication networks, industrial motors, lighting, industrial machinery and process control equipment, heating, ventilation and air conditioning, security system components, instrumentation, medical equipment, medical diagnostics and mobility devices such as electrical harness design, identification software and radio software; electronic and electrical filters, namely, connector filters, RFI./EMI filters, filters for 1-, 2- and 3-phase electrical systems, power entry modules, board level filter for facility filters, feed through filters; optical signal filters, namely, power line filters and signal line filters; diplexers; capacitors; circulators; electronic isolators; transformers; electronic couplers; electric power connectors; microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, drivers, namely, drivers for allowing communication and interaction between microwave devices or components, allowing control over another microwave device or component, and for supplying power between microwave devices or components, microwave products, namely, microwave amplifiers, antennas, attenuators, RF power transistors, dispersion shifted optical fibers, synthesizers, mixers/modulators, diodes, frequency moderators, limiters, couplers, isolators, splitters, combiners, transformers, inductors, chip capacitors, transistors, switches, oscillators, transceivers; mixers, namely, connectorized, flat-pack, drop-in and surface-mount mixers used in aerospace and defense, and wireless and broadband communication applications; modulators, namely, connectorized, flat-pack, drop-in and surface-mount modulators used in aerospace and defense, and wireless and broadband communication applications; heat sinks for use with electronic components, namely, for networking, storage and PCI; heat sinks for use with computers and electronic components, namely, radial and pin fin/unidirectional heat sinks, ball grid array
heat sinks, computer heat sinks, I/O pluggable heat sinks, custom heat sinks and dual in-line memory module heat sink assemblies; phase shifters, namely, phase shifters for changing transmission phase angle of a network; drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; electric, electrical and electronic meters, namely, hour energy meters, digital metering systems, meter relays, digital meters, and analogue instrument meters; electric, electronic and electrical controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers and programmable controllers; parts for RFID tags; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; fuses; radar systems consisting out of a transmitter and a receiver and an amplifier; RF components, namely, radio frequency connectors, and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frames, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; enclosures and cabinets for electrical, patch panel, fiber optic and electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices; cabinets adapted to contain communication instruments, namely, optical cables, electronic cables, backplanes, controllers and radio frequency connectors and contactors, switches, cables, terminals and splices, circuit breakers, sensors, fuse boxes, mechatronics and mechatronic modules, namely, connector housings, packaging for chips and substrates, frames, lead frame, wires and cables, splitters, insulators, RF power transistors, electrical control panels, antennas, and relays; fully qualified and integrated hardware and software for identification and labeling products; cable management devices, namely, cable tray systems, rack mount cable management, aluminum raceway system and wiring ducting; wiring systems consisting of wires, cables, squib cables, arrestors, transformers, vacuum circuit breaker, switches and connectors for large car movements, roofs, trains, and cars; ribbon cables; wiring rack systems, high voltage cable assemblies, namely, high voltage cables, high voltage cable racks, high voltage cables and termination, high voltage cables and connector; lighting ballasts for up to 25 KV; lighting controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers, programmable controllers; touch systems, namely, computer touch systems for use with LCD and CRT touch monitors and touch screens; accessories for high tension cables, namely, accessories for high tension cables connecting electronic power stations and towers, namely, outdoor oil filled terminations, outdoor dry type terminations, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; processing equipment, namely, electronic sound mixing, processing and synthesizing apparatus; house mark for the following: chokes, namely, an inductor used to block signals of particular frequency; blank smart cards comprised of embedded integrated programmable circuits; premolded packages, namely, insulating body, housings, forms and wraps for semiconductor based sensors and injection molded leadframes, comprised of stamped parts, namely, high precision leadframes and contact parts for switching functions, electroplated functional surfaces for wire bonding, soldering, resistance and laser welding, and corrosion protection, overmolding for chip and substrate packaging and hermetic housing, and assembly technology for the integration of electronic components, circuit protection and joining technologies for metals and plastics, selective soldering, resistance and laser welding, and gluing, the aforementioned sold as a
unit; accessories for radios, namely, amplifiers, circuits, printed circuits, control heads, control stations, consoles, chargers, headsets, hand held controllers, microphones, programming accessories, namely, tuners, speaker mics; house mark for a full line of telecommunications and communications equipment, namely, telephones and parts therefore; house mark for full line of the following: electronic components, namely, cables and cable assemblies, wires, circuit breakers, switches and knobs, sensors, heat sinks, timers, resistors, arrestors, transformers, meters, controllers, connectors, electric sockets, capacitors, couplers, transceivers, control panels, circuit boards, relays, and drivers, namely, electronic drivers for allowing communication and interaction between electronic devices or components, allowing control over another electronic device or component, and for supplying power between electronic devices or components; computer software and hardware for electronic control systems; hardware and software for identification and labeling products; proximity connectors; cable connectors; electromechanical components, namely, cables, circuit breakers, heat sinks and thermal printers, relays, sensors, switches, knobs and timers; electronic modules, namely, rectifiers; fiber optics and fiber optic and fiber optic communication equipments, components and products, namely, attenuators, switches, cable assemblies, backplane interconnects, connectors, adaptors, tooling products and accessories, namely, tool measuring instruments, electrooptics, namely, cables, interconnects, multiplexers, amplifiers, circulators, transformers, and fiber optic distribution products, namely, cables; fiber optic filters; radio frequency identification and labeling tags; passive components, namely, electrical connectors, capacitors, inductors, resistors, transformers, wires, cables, fuses, and relays; power supplies; heat sinks for use in electronic components; RF and microwave products, namely, antennas, amplifiers, attenuators, power transistors, oscillators, coax, adapters, contacts, RF and signal filters and inductors, dispersion shifted optical fibers, synthesizers, mixers, modulators, diodes, frequency modulators, limiters, couplers, isolators, splitters, combiners, transformers, chip capacitors, transistors, switches, oscillators, transceivers, and drivers, namely, drivers for allowing communication and interaction between microwave devices and components, allowing control over another microwave device or components and for supplying power between microwave devices or components; parts for RFID tags; radar sensors and antennas; components for circuit boards, namely, terminals and disconnects; radio accessories, namely, antennas, connectors and batteries; tooling products, namely, tool measuring instruments; touch screens, touch screen displays and monitors; receivers for audio, light, laser light electro magnetic wave, micro wave, and radio frequency signals; rectifier tubes; phase shifters, namely, phase shifters for changing transmission phase angle of a network; optical backplane interconnects for audio, video and data signals; molded harnessing products, namely, electrical wire, cable, and cable assemblies; harnessing and tubing electronic products and accessories, namely, adaptors, terminators, tubing, connections, battery terminal connector clamps, end vent caps for batteries, and junction sleeves; components for circuit boards used in computers, consumer electronics, communication equipment, aerospace and defense, industrial machinery and instrumentation industries; electronic components for machines, tools, motors other than for land vehicles and engines, namely, connectors and contactors, relays, switches, cable assemblies, terminals and splices, electro-optic cables, circuit breakers, proximity sensors, fuse boxes, mechatronics and mechatronic modules, namely, mechanical remote controls for motors, wires and cables, heat shrink tubing, splitters, insulators, fiber cabling. RF power transistors, electrical control panels, and antennas; protection devices, namely, overcurrent, overvoltage, overheating and electrostatic discharge ESD protection devices; circuit breakers; electrical and lighting controllers, namely, adaptive controllers, analogue controllers, charge controllers, choppers, control controllers, drive controllers, load controllers, galvanometric controllers, master controllers, nonlinear controllers, power and pressure controllers, programmable controllers; cable management devices, namely, cable tray systems, rack mount cable management, aluminum raceway system and wiring ducting; power distribution systems, namely, systems comprised of leadframe sandwiches, radios; radio accessories, namely, antennas, connectors and batteries;
electrical and fiber optic harnesses for use in the electronic industry; accessories for high tension cables, namely, accessories for high tension cables connecting electronic power stations and towers, namely, outdoor oil filled terminations, outdoor dry type terminations, plug-in equipment connections, namely, switchgear and transformer connections, and straight through joints and shield break joints, link boxes to ground and protect shields of high voltage cables, sleeves, connectors and fittings, surge arresters; house mark for a full line of labeling products, namely, thermal printers; surge arresters for use in insulating materials; internal cooling fans for computer chips; specialty labeling identification products, namely, dot matrix printers; chip card readers; electrical terminators and testers that permit wire and cable identification without direct metallic contact; insulation displacement impact testers; electrical insulating products, namely, chip coolers and chip to board socket; electrical insulating products, namely, heat sinks for computers; electrical insulating materials, namely, fins, cooling fin, crimp fin, and folded fin, all for computers] * Electrical and electric connectors *

GOODS AND SERVICES INFORMATION
For Unified intelligent automation software tools that provide intelligent policy-based governance and resource management
capabilities for pools of computing and other information-technology resources, namely, a cluster of computers, a group of
computer clusters known as a grid or grids, commercial enterprise and high-performance computing data centers, dynamic, on-
demand or virtualized infrastructure and data centers, utility-based computing systems, high-performance computing systems,
networked computers, heterogeneous environments, and hybrid operating system environments, in the nature of downloadable
computer software that provides a single, secure interface to all of the associated computing resources for intelligent policy-
based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by
administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing
resource availability and status information, installation of software and provisioning operating system changes, power
management, software upgrades management, accounting and usage management for reporting and billing, third-party
application integration management, workload policy management, and job scheduling for both batch and interactive jobs;
downloadable computer software for automated governance, monitoring, managing, profiling, and indicating available
computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling,
operating system provisioning, power management, and computing resource policy implementation that enables
administrators, managers, and end users to automate, control, and utilize multiple computing resources across computer
clusters and grids, heterogeneous computers, hybrid operating system environments, high-performance computing
environments, and computing networks and for providing data on a cluster, grid or grids, on-demand data center, high-
performance computing environment, and computing networks; downloadable computer software for statistical diagnostic and
performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer
resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load
balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues, and computing nodes; downloadable computer software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; downloadable computer software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, high-performance computing environments, on-demand data centers, or networked computers; downloadable computer software for dynamic command-line and graphical management of computing resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; downloadable computer software for interface with and collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; downloadable computer software for peer-to-peer collaboration of multiple instances to provide domain-specific policies and to provide native resource management support
