Publication Date Jan. 26, 2021

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark The mark consists of a stylized version of a dragon's head in the colors of red and white. The dragon's head is in various shades of red. The eyes of the dragon are white, and the stitching on the forehead of the dragon is in white, with raised red edging. The word "LIVEHOUSE" situated on the bottom of the stitching is in white. There are red horns coming out from the top of the head with three spikes on each side. The dragon's hair, eye lashes and beard are all red triangles shaped with pointy ends to them. The word "LONG" appearing in different shades of the colors red and orange, is situated in the background of the dragon's head. The angles of the word "LONG" feature sharp corners instead of a natural curve. One of the dragon's two long red whiskers runs through the letter "L" and the other runs through the letter "g", and part of the dragon's mouth blocks the top of the letter's "o" and "n". Color Drawing Yes Color Claimed The color(s) red, orange, and white is/are claimed as a feature of the mark.

accept virtual or monetary wagers sold as a feature of downloadable game software; Downloadable geographic information
system (GIS) software; Downloadable gesture recognition software; Downloadable graphical user interface software;
Downloadable intelligent personal assistant software for virtual reality, augmented reality, mixed reality, extended reality;
Downloadable interactive game software; Downloadable interactive multimedia software featuring audio and video
information for dentists on the subject of treatments, procedures and alternatives related to dentistry; Downloadable LAN
(local area network) operating software; Downloadable middleware for software application integration; Downloadable
middleware for virtual reality, augmented reality, mixed reality, extended reality; Downloadable mobile operating system
software; Downloadable music-composition software; Downloadable network access server operating software; Downloadable
network video recording software for IP (Internet Protocol) video surveillance; Downloadable pattern recognition software for
eye tracking module; Downloadable project management software; Downloadable project management software in the field of
eye tracking module; Downloadable speech recognition software; Downloadable UPI (universal peripheral interface) software;
Downloadable USB (universal serial bus) operating software; Downloadable video game software; Downloadable virtual
reality software for medical teaching; Downloadable virtual reality software for eye tracking module; Downloadable virtual
reality game software; Downloadable virtual reality training simulation software in the field of virtual reality, augmented
reality, mixed reality, extended reality; Downloadable VPN (virtual private network) operating software; Downloadable WAN
(wide area network) operating software; Downloadable web site development software; Electronic chips for the manufacture
of integrated circuits; Electronic software updates, namely, downloadable computer software and associated downloadable
data files for updating computer software in the fields of eye tracking module, provided via computer and communication
networks; Electronic communications systems comprised of computer hardware and recorded software for the transmission of
data between two points; Electronic sports training simulators; Encoded electronic chip cards containing programming used to
eye tracking module; Encoded electronic chip cards for eye tracking module; Home and office automation systems comprised
of computer hardware, wireless and wired controllers, and downloadable software for automating virtual reality, augmented
reality, mixed reality, extended reality; Home automation hubs comprised of voice-activated speakers, computer hardware, and
downloadable software for virtual reality, augmented reality, mixed reality, extended reality; Home automation hubs
comprised of voice-activated speakers, computer hardware, and recorded software for virtual reality, augmented reality, mixed reality, extended reality; Home automation systems comprised of computer hardware, wireless and wired controllers, and downloadable software for automating virtual reality, augmented reality, mixed reality, extended reality; Integrated chip (IC) voice recorders; Integrated circuits, integrated circuit chips, and integrated circuit modules for digital video compression and decompression; Integrated circuits, integrated circuit chips, and integrated circuit modules for encoding and decoding digital video; Intelligent personal assistant devices comprised of voice-activated speakers, computer hardware, and recorded software for virtual reality, augmented reality, mixed reality, extended reality; Multimedia software recorded on CD-ROM featuring virtual reality, augmented reality, mixed reality, extended reality; Multiprocessor chips; Office automation systems comprised of computer hardware, wireless and wired controllers, and downloadable software for automating virtual reality, augmented reality, mixed reality, extended reality; Optical discs containing software and programming, used to set-up and calibrate televisions and video output devices; Recorded software for eye tracking module; Recorded CAD/CAM software for eye tracking module; Recorded children's educational software; Recorded computer application software for mobile phones, namely, software for eye tracking module; Recorded computer software and hardware for eye tracking module sold as a unit; Recorded computer software development tools; Recorded computer software for database management; Recorded computer software for use in database management; Recorded computer software for eye tracking module and instructional user guides sold as a unit; Recorded computer software for eye tracking module; Recorded computer software platforms for virtual reality, augmented reality, mixed reality, extended reality; Recorded computer application software for virtual reality, augmented reality, mixed reality, extended reality, namely, software for eye tracking module; Recorded computer game software; Recorded computer gaming software for gambling; Recorded computer gaming software for recreational game playing purposes; Recorded computer operating software; Recorded computer operating system software; Recorded computer search engine software; Recorded computer virtual reality game software; Recorded computer-aided design (CAD) software for eye tracking module; Recorded computer-aided manufacturing (CAM) software for eye tracking module; Recorded database management software for eye tracking module; Recorded educational software featuring instruction in eye tracking module; Recorded game software; Recorded mobile operating system software; Recorded speech recognition software; Recorded video game software; Recorded virtual reality software for eye tracking module; Semiconductor chip sets; Semiconductor chip sets for use in virtual reality, augmented reality, mixed reality, extended reality; Semiconductor chips; Sensor chips for scientific use; Silicon chips; System on a Chip (SoC); Wireless communication device featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device
