use sets of artificial respiration tubes for respiratory apparatus; autoclavable sets of respiratory tubes for artificial respiration apparatus; medical breathing tubes, in particular tubes being accessories for respiration and anesthesia; respiratory tubes for artificial respiration apparatus; medical surface-heated respiratory tubes for respirators for artificial respiration; endotracheal tube cuffs for medical purposes; inflatable endotracheal tube cuffs for artificial respiration for medical purposes; cuff pressure monitors for use with endotracheal tube cuffs; apparatus and equipment for measuring, monitoring and adjustment of pressure in endotracheal tube cuffs for medical purposes; valves for respirators for artificial respiration; expiration valves being part of medical apparatus, namely, expiration valves being part of artificial respiration apparatus and expiration valves being part of medical ventilators; expiration valves for maintaining lung pressure, expiration valves for maintaining lung pressure being part of artificial respiration apparatus and expiration valves for maintaining lung pressure being part of medical ventilators; peep activators being parts of medical ventilators for maintaining pressure; pressure reducers for medical purposes, namely, pressure reducers for use with artificial respiration apparatus and pressure reducers for use with medical ventilators; pressure reducers for medical respirators for artificial respiration; measuring cuvettes for medical purposes for determining the carbon dioxide content of the air exhaled by a human, and for analysis of the air flow; sensors for medical purposes, namely, respiratory sensors; medical sensors for measuring respiratory flow and breath pressure; medical sensors for measuring oxygen saturation in the blood; carbon dioxide (CO2) sensors for medical purposes; fraction of inspired oxygen (FiO2) medical sensors; pulse oximeter oxygen saturation (SpO2) sensors for medical purposes and oxygen flow sensors for medical purposes; medical sensors for respiratory mechanisms, namely, oxygen monitors; sensors for measuring the pressure in inflatable endotracheal tube cuffs for artificial respiration for medical purposes; temperature measuring instruments for medical use, namely, temperature indicator labels for medical purposes and thermometers for medical purposes; electronic temperature recorders for electronic temperature recorders for medical use; temperature sensors for medical use; sensors for measuring the temperature of breathing air for use in medical respiratory apparatus; temperature probes for medical purposes; optical temperature measuring instruments for medical inspection purposes; optical sensors for water level detection in humidification chambers for medical respiratory apparatus; nasal cannulae; portable nebulizers for medical purposes; vacuum pumps for medical purposes; filters for medical purposes for purifying breathing air, namely, air filters for medical ventilators; membranes for filtration for medical use, namely, filter membranes for anesthesia and filter membranes for use with medical ventilators and apparatus for artificial respiration; filters for medical purposes, namely, bacteria filters; water traps being parts and/or accessories for medical apparatus, namely, apparatus for artificial respiration and medical ventilators; mechanical filters for respirators for artificial respiration; airway adapters being parts of medical and surgical apparatus, namely, invasive and non-invasive ventilators and instruments; filters for respiration systems being apparatus for artificial respiration; connectors for filters for respiration systems being apparatus for artificial respiration; tube extensions for breathing tubes for use in apparatus for artificial respiration; tube heaters being part of medical apparatus, namely, tube heaters being part of breathing tubes for use in apparatus for artificial respiration; adapters for tube heaters being part of medical apparatus, namely, adapters for tube heaters being part of breathing tubes for use in apparatus for artificial respiration; tube clips being part of medical apparatus, namely, tube clips for use with breathing tubes for use in apparatus for artificial respiration; tube connections being part of medical apparatus, namely, tube connections for use with breathing tubes for use in apparatus for artificial respiration; medical tubing, namely, medical ventilator tubing, tubing for use with cannulas and tubing for use with catheters; compressed air tubes for medical purposes for use with apparatus for artificial respiration and medical ventilators; tube systems, consisting of tubes, tube adapters, tube connections and valves for ventilators and anesthesia machines for use in patient care and respiratory tube adapters, tube connections and valves for respirators for artificial respiration, and tubes for medical suction in the nature of a
sound suction apparatus; surface-heated respiratory tube systems, namely, wall-heated breathing circuits; filters for medical use, namely, air filters for medical ventilators; measuring devices for medical use, namely, medical devices for measuring and displaying lung capacity, inspiration and expiration flow rates and volumes, temperature and CO2 concentration of inhaled and exhaled air; measuring instruments adapted for medical use, namely, medical instruments for measuring and displaying lung capacity, inspiration and expiration flow rates and volumes, temperature and CO2 concentration of inhaled and exhaled air, manual probe heads for medical purposes, namely, probe heads for cardiac probes, surgical probes and urethral probes; air inlet filters for incubators for medical purposes; apparatus for measuring body signals in connection with patient analysis, namely, heart, oxygen and pulse rate monitors, and respiratory monitors; patient monitoring instruments, namely, medical apparatus for monitoring vital signs of patients, patient monitoring alarms and patient monitoring sensors; apparatus and instruments for monitoring patients, in particular patient monitoring apparatus, namely, medical apparatus for monitoring vital signs of patients, patient monitoring sensors and alarms; alarm management systems for patient monitoring, consisting of medical apparatus for monitoring vital signs of patients, patient monitoring alarms and operational software for patient monitoring apparatus and patient monitoring alarms; clinical information systems for monitoring patients, consisting of medical apparatus for monitoring vital signs of patients and patient monitoring alarms; systems for monitoring patient data, consisting of medical apparatus for monitoring vital signs of patients and patient monitoring alarms; precision instruments for medical purposes, namely, surgical instruments, medical instruments for cutting tissue; heating plates for humidifiers for use with respirators for artificial respiration; probes for medical purposes; parts for all the aforesaid goods, included in this class

**International Classes**

**Primary Classes US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Printed matter, namely, printed matter in the nature of reports, manuals and guides for use in the fields of medical respiration and laboratory automation; prospectuses, namely, prospectuses in the nature of informational brochures, printed reports and product guides in the field of medical respiration and in the field of laboratory automation; operating manuals for apparatus for artificial respiration and medical ventilators or for laboratory equipment and technical writing or drawing books

**International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

**For** Machines, namely, compressors for gases, stacking apparatus, namely, stacking machines, blowing machines for the compression, exhaustion and transport of gases, hand-held filtering units, namely, disposable filtration holders, vacuum filters and disposable bottle-top filters; compressors, namely, compressors for machines and air compressors; pumps for machines; valves as machines components in the nature of valves operated by changes in pressure; valves as machine components in the nature of power operated valves; valves as machine components in the nature of valves operated automatically by pneumatic control; valves for pumps; valve positioners being parts of machines; valve position adjusters being parts of machines; valve manifolds being parts of machines; blowing machines for the compression, exhaustion and transport of gases; parts for all the aforesaid goods

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery
