39 - Primary Classes

US Classes 100, 105

**International Class Title** Transportation and Storage

**For** Production of electricity, namely, electricity generation heat, namely, heating air for others for the purpose of drying paint and curing cement and provision of fuel through fuel systems, namely, processing of fuel materials; drinking water, namely, water treating, production of potable water through treatment; sanitary and rain drainage systems services, namely, waste water services, water treatment in the nature of biological nutrient removal and advanced wastewater treatment; grinding
for the installation of cables and pipes in the ground with minimum excavation; manufacture and finishing services for agricultural and food manufacturing, namely, metal treating, metal reclamation services and metal laminating; manufacture, namely, custom manufacture of general product lines in the field of steel pipe and tubing, assembly of products for others, and installation of pipe modules and equipment, namely, pipe tapping services, namely, drilling or cutting holes in pressurized pipes without draining or spilling the contents of the pipes, for gravity drainage facilities by heat and steam in the field of heavy oil extraction

**International Classes**  40 - Primary Classes **US Classes**  100, 103, 106 **International Class Title**  Material Treatment

**For**  Electric, structural and mechanical engineering, technical feasibility studies in the field of environmental engineering; conducting of technical feasibility studies in the field of new technologies; sustainable architectural design services; technical project studies and consultancy services related thereto, all in the field of new technologies in the field of telecommunications networks for third parties; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems in the field of urban refurbishment; architectural design, namely, planning of construction works and in particular planning of buildings and infrastructure systems for buildings; engineering services in the field of urban refurbishment; drawing up technical expertise, namely, architectural design featuring preliminary studies and development in the field of construction, servicing and repair of urban facilities; infrastructure architectural design services, and in particular industrial design, product development, engineering, planning of electronic communications networks and product development of network equipment in the field of construction of buildings, roads and railways; provision of technical assistance, namely, consulting services in the field of environmental assessments for evaluating the importance of environmental risks on the urban, rural and suburban ground, air and water; technical assistance services, namely, civil engineering relating to aircraft facilities; engineering services, and in particular transport engineering; computer project management services, and in particular planning and supervision of computer projects execution in the field of construction of buildings and construction planning consulting in the field of acoustics, sound, noise and vibration for scientific purposes featuring sound modeling for roads and railway tracks for forecasting and prevention of traffic noise; material testing services; computer simulation based on computer programs for others featuring real-time visual simulation and prototyping in the field of road and rail transport planning, value engineering services, design services, namely, computer-aided design services and projects development services, namely, engineering featuring project planning and implementation strategies using modelling tools and professional analysis all relating to heavy civil construction and infrastructures; geophysical exploration for the oil, gas and mining industries; design of factory buildings, namely, facilities for paper pulp and wood pulp; scientific research and development of new chemical processes; surveying in the field of engineering, supply and construction, in particular topographic and geological surveying; start-up services and commissioning, namely, product research and development, configuration of facilities in the planning stage in the nature of architectural services, architectural services featuring optimization studies in the design phase and system functional testing in the nature of testing the functionality of apparatus and instruments and readiness plans in the nature of architectural planning services in the field of engineering, supply and construction for quality assurance in the field of construction; engineering projects execution, namely, engineering drawing services; supply and construction management, namely, materials testing in the field of construction of buildings; reviewing standards and practices for insurance compliance with environmental regulations, namely, testing, analysis, and evaluation of service providers to determine conformity with established accreditation standards; industrial design, namely, industrial space
design, and in particular design requirements, mechanical design, namely, design of mechanical and micromechanical components; and residential and factory building design with consideration of the installation specifications in the field of construction of buildings; calibration services relating to instrumentation, control and automation equipment in the manufacturing industry and construction; geological surveys; qualitative evaluation in the nature of product quality evaluation of minerals or oils; technical assistance, namely, conducting geological surveys and research in the field of geology; geological research services; geotechnical investigation in the nature of scientific research, soil sampling and evaluation for analysis purposes; preparation of technical mining reports, namely, providing information concerning mining exploration services; inspection services in the environmental field of geological mining; hydraulic and hydrologic engineering services, namely, design of gravity drainage systems with steam; engineering services in the field of geotechnology and waste water; hydrologic and engineering modeling and design of measures to protect areas likely to be inundated by storm-water and flood-waters, namely, design services for safety systems for basins and barriers for controlling water produced; energy feasibility studies, namely, technology consultation services in the field of alternative energy, namely, gasifying and combusting alternative fuels; evaluation of project resources, namely, testing, analysis, and evaluation of the goods of others to assure compliance with industry standards for planning and energy resources; evaluative research in the nature of engineering and construction drafting projects, scientific research and industrial research all in the field of environmental technology; research services relating to the environment, namely, research in the field of environmental protection and preparation of reports relating to environmental protection factors; providing environmental services, in particular environmental management in the nature of engineering services in the field of environmental compliance, environmental sustainability in the nature of design for others in the field of environmental engineering; assistance and technical support services relating to conservation of the natural environment, namely, technical consultation in the field of environmental science; environmental management systems services, in particular providing environmental services, namely, technical consultation in the field of environmental science, engineering services and design for others in the field of environmental engineering all relating to obtaining environmental permits alongside regulatory authorities and social acceptability of sound, air quality, use of energy, visual resources and evaluation of alternative solutions; sustainable development services, especially technical assistance in the field of environmental development, namely, providing a website featuring information about green architecture, interior design, sustainable community planning and infrastructure development; monitoring services for air quality, namely, technical air quality monitoring services; technical assistance in the field of acoustics, sound and vibration reduction, namely, consulting in the field of acoustics, sound, noise, and vibration for scientific purposes; environmental socio-economic studies, namely, conducting feasibility studies in the field of environmental engineering; services relating to archaeology, namely, archaeological exploration and research; geomatic services, namely, geological estimations and research; architectural design services featuring visual simulations of the construction of buildings and mapping services; environmental management services, namely, environmental testing and inspection services; information in the field of environmental sustainability, namely, providing a website featuring environmental information about climate change and bio-diversity; civil engineering relating to water irrigation, including engineering concerning the planning, development and management of the optimal use of water resources; technical assistance in the field of waste management, namely, engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; geological research services; computer project management services for the design of buildings; technical assistance services, namely, troubleshooting of computer software problems featuring databases of information in the field of environmental health, environmental quality and environment safety; technical planning, namely, urban planning featuring the preparations of plans and preliminary and final construction
specifications in the field of urban facilities, in particular urban roads and sidewalks, distribution and treatment of water, land development, public services, lighting; land use planning services featuring planning services for roads and motorways; process engineering services, namely, engineering services featuring process design, process validation and civil engineering in the field of the construction of buildings; land use planning services featuring the planning of gravity drainage systems with steam, in the field of heavy oil extraction; land use planning services featuring landfill design; real estate services relating to the design of, namely, graphic design services for creating virtual tours of real estate for sale; sustainable residential building design; new product design services, namely, planning and design of compression units in the nature of gas compressors, electrical compressors, and manual compressors; project planning, namely, engineering services, particularly technical project planning and design engineering of lines for the processing of web products and construction establishment in the nature of construction drafting; evaluation services in the field of environmental sites, namely, evaluation and testing of real estate sites for the presence of hazardous and illegal materials; new product design services featuring planning of thermal processes for industrial furnaces; planning in particular, new product design of systems for handling bulk material composed of pipes, tubes, couplings, pumps, blowers, filters, valves; architectural services concerning pipeline construction planning; architectural services concerning project planning by sequencing stages of construction; project studies, namely, conducting scientific feasibility studies concerning principal planning of road and rail constructions, urban design planning services concerning road and rail transport; computerized modeling services for micro-simulation of road and rail traffic; traffic planning services for traffic management projects for short-term and long-term; Providing a web site or digital application featuring technology that enables users to create a chronological schedule of events for construction projects

For Business data analysis services, namely analysis of web and mobile sites of others regarding, sales, customers, product usage, market trends and actions, creating predictive and attribution models; business and commercial data analytics services and consultancy
International Classes 35 - Primary Classes US Classes 100, 101, 102 International Class Title Advertising and Business
For Downloadable computer programs and downloadable software for marketing automation and management of customer data using a customer data platform; downloadable computer analytics software for the analysis of customer data
International Classes 9 - Primary Classes US Classes 21, 23, 26, 36, 38 International Class Title Electrical and Scientific Apparatus
For Software as a service services featuring software for marketing automation and management of customer data using a customer data platform; computer software consultancy; software as a service (SaaS) services featuring analytics software used to report and measure what customers do with applications used on web and mobile sites; providing temporary use of non-downloadable software for marketing automation and management of customer data using a customer data platform
International Classes 42 - Primary Classes US Classes 100, 101 International Class Title Scientific and computer services

- Apparatus, instruments and cables for electricity, namely, transistors, electrical controllers for magnetic bearing control, and electric cables; navigation, guidance, tracking, targeting and map making devices, namely, GPS tracking devices and GPS receivers; safety, security, protection and signaling devices, namely, luminous safety beacons, personal security alarms, protective eyeglasses, protective gloves and protective masks; optical devices, enhancers and correctors, namely, spectacles and optical condensers; scientific and laboratory devices for treatment using electricity, namely, lasers for the treatment of metal surfaces to repel water; measuring, detecting and monitoring instruments, indicators and controllers, namely, infrared detection apparatus, alarm monitoring systems and temperature indicators; scientific research and laboratory apparatus, educational apparatus and simulators, namely, medical diagnostic simulators for use as teaching aids for orthopedic surgery and electrodes for laboratory research; information technology and audio-visual, multimedia and photographic devices, namely, cameras and audio-video receivers; downloadable databases in the field of genetic sequencing, rare diseases, tumor diseases and health indicators; electronic databases in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics recorded on computer media; downloadable interactive databases in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; data recorded electronically, namely, CDs and DVDs featuring interactive databases in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; prerecorded magnetic data carriers featuring data in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; data recorded electronically from the internet, namely, downloadable scientific and medical data via the internet; recorded data files, namely, electronic data files and databases, namely, business and tax forms, scientific and medical data, for use with computer software, recorded on computer media; downloadable multimedia files containing artwork, text, audio, images, 2D-images, 3D-images, video, games, Internet Web links relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable media, namely, audio files, video recordings, multimedia files featuring data in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; digital recording media, namely, blank CDs, blank DVDs, blank USB flash drives; electrical and mechanical data processing equipment and accessories, namely, central processing units for processing information, data, sound or images; communications equipment, namely, antennas for wireless communications apparatus and communications computers; data storage devices and media, namely, blank tapes for storage of computer data, computer hardware for high-speed processing and storage of data using
multiple CPU's; downloadable and recorded software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer operating programs; downloadable and recorded computer software platforms for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded application software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded interactive software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded education software; computer software, recorded, for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded adaptive software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded industrial process control software; downloadable and recorded multimedia software for processing multimedia files relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded software for processing media files relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded business software for increasing productivity, measuring productivity, managing the resources and performing other business functions accurately, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded embedded software for controlling machines or devices that are not typically thought of as computers, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, assistive devices, robotics; downloadable and recorded computer application software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded bioinformatics software for analyzing and interpreting biological data, relating to biology, computer science, information engineering, mathematics, data analysis and statistics; downloadable and recorded software testing software; downloadable and recorded computer software for encryption; interfaces for computers; electronic databases in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, information engineering, robotics, technology, mathematics, data analysis and statistics recorded on computer media; computer database servers being computer servers; downloadable and recorded database server software; downloadable and recorded computer software for database management; downloadable and recorded data and file management and database software; downloadable emoticons for mobile phones; hologram apparatus; USB web keys for launching a web browser; USB web keys for automatically launching pre-programmed website URLs; prerecorded CD-Roms featuring science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, information engineering, robotics, mathematics, data analysis and statistics; downloadable mobile coupon being consumer coupons downloaded from a global computer network; downloadable electronic
newsletters in the field of science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering, technology, robotics; downloadable printable planners and organizers; phonograph records featuring sound recordings; downloadable and recorded software related to handheld digital electronic devices, namely, software for acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering, robotics; downloadable and recorded middleware for identifying and authenticating users and establishing standardized directories; integrated software packages, namely, downloadable and recorded software for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded programs for computers for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer programmes stored in digital form for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer programmes for use in telecommunications, namely, to provide remote access to systems and exchange files and messages in text, audio and/or video formats between different computers or users; downloadable and recorded interactive multimedia computer programs for processing multimedia files, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer programmes for data processing; computer programs, downloadable, for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded programs for smartphones for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable computer game programs; downloadable and recorded interactive multimedia game programs; downloadable and recorded software programs for video games; computer games program software downloaded via the internet; downloadable and recorded computer programs for video and computer games; downloadable and recorded interactive computer game programs; downloadable and recorded educational tablet applications featuring instruction in science, medicine, prosthetics, orthopedics, engineering, technology; downloadable and recorded educational computer applications featuring instruction in science, medicine, prosthetics, orthopedics, engineering, technology; downloadable and recorded educational mobile applications featuring instruction in science, medicine, prosthetics, orthopedics, engineering, technology; downloadable mobile applications for use with wearable computer devices for acquiring and recording data from users, giving
information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, healthcare, robotics; downloadable and recorded mobile software applications for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; computer software applications, downloadable, for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable software applications for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable software applications for processing data, acquiring and recording data from users, giving information and feedback to users, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded software development kits (SDK); collaboration software platforms being downloadable and recorded computer software; downloadable and recorded computer application software for use in implementing the internet of things (IoT); downloadable mobile applications for the transmission of information; downloadable mobile applications for the transmission of data; downloadable and recorded interactive computer software enabling exchange of information; downloadable and recorded computer programs for connecting remotely to computers or computer networks; downloadable mobile applications for the management of data; downloadable mobile applications for the management of information; downloadable and recorded information retrieval computer software applications; downloadable and recorded computer software programs for data storage; downloadable and recorded computer utility programs for file management; downloadable and recorded computer programs for accessing, browsing and searching online databases; downloadable and recorded image recognition software; downloadable and recorded computer software to automate data warehousing; downloadable and recorded data and image processing software for making three dimensional models; downloadable and recorded data mining software; downloadable and recorded computer programmes for image processing; downloadable and recorded data processing software for graphic representations; downloadable and recorded media development software; downloadable and recorded publishing software; downloadable and recorded business management software; downloadable and recorded product lifecycle management software; downloadable and recorded management information system (MIS) software; downloadable and recorded computer software for business purposes for increasing productivity, measuring productivity, managing the resources and performing other business functions accurately, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded enterprise content management (ECM) software; downloadable and recorded software for the processing of business transactions; downloadable and recorded artificial intelligence software for making machines learn from experience, adjust to new inputs and perform human-like tasks, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded artificial intelligence software for 3D reconstruction of body parts, classification of medical data, disease diagnosis; downloadable and recorded artificial intelligence software for analysis of medical data, biometric data, climatic data, epidemiological data; downloadable and recorded artificial intelligence and machine learning software for 3D reconstruction of body parts, classification of medical data, disease diagnosis, data fusion, profiling and translating; downloadable and recorded machine learning software for healthcare for 3D reconstruction of body parts, classification of medical data, disease diagnosis; downloadable and recorded home automation software; downloadable and recorded machine learning software for analysis of medical data, biometric data, climatic data, epidemiological data; downloadable and recorded machine learning software for
3D reconstruction of body parts, classification of medical data, disease diagnosis, data fusion, profiling and translating; downloadable and recorded biometric software; biometric identification systems, namely, biometric scanners; downloadable and recorded assistive software, namely, software that assists screen magnification, screen reading, speech recognition, text-to-speech, Braille printers, Braille scanners, touch screen displays; downloadable and recorded CAD/CAM software for aiding in the creation, modification, analysis and optimization of a design in the field of prosthetics, orthopedics, engineering, medicine, architecture, robotics; downloadable and recorded computer software for interpreting fingerprints or palm prints; computer interface apparatus, namely, interfaces for computers, computer interface boards and computer network interface devices; downloadable and recorded firmware and device drivers for controlling a device relating to medicine, telemedicine, sports, prosthetics, orthopedics, computer science, engineering and robotics; downloadable and recorded computer software for monitoring data from user applications or web platforms, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer programs for user interface design; downloadable and recorded graphical user interface software; downloadable and recorded testing software for testing functioning, usability, security; downloadable and recorded middleware for management of software functions on electronic devices; downloadable and recorded software for remote diagnostics; downloadable and recorded maintenance software for maintaining activities which help limit machine and equipment downtime and lengthen the lifecycle of assets; downloadable and recorded predictive maintenance software for maintaining equipment data for performance trends and using condition-based monitoring to alert appropriate staff of any potential issues; downloadable and recorded optimization software for optimizing computer hardware; downloadable and recorded firmware for providing low-level control for a device's specific hardware, relating to medicine, telemedicine, prosthetics, orthopedics, computer science, engineering and robotics; downloadable and recorded device software drivers; downloadable and recorded electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; downloadable and recorded firmware for operating a device, connecting to a specific device; computer peripherals; downloadable and recorded basic Input/Output System (BIOS) software; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks and CD-ROM; downloadable and recorded computer operating systems software; downloadable and recorded computer utility programs for performing computer system diagnostics; downloadable computer utility programs for helping computers perform better, keeping computers free from unwanted software such as viruses or spyware, customizing desktop and user interface; downloadable and recorded computer programs for the enabling of access or entrance control of homes, offices, hospitals, nursing homes; downloadable and recorded augmented reality software for simulation, namely, simulators for driving or control of vehicles, flight simulators, simulators of surgical operations, simulators for physical rehabilitation; downloadable and recorded augmented reality software for education featuring science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded augmented reality software for use in mobile devices for integrating electronic data with real world environments; downloadable and recorded augmented reality software for playing computer games, pilot training, medical teaching, surgical operations, physical rehabilitation; downloadable and recorded augmented
reality software for use in mobile devices for playing computer games, pilot training, medical teaching, surgical operations, physical rehabilitation; downloadable and recorded virtual reality software for education featuring science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded virtual reality software for medical teaching; downloadable and recorded virtual reality game software; downloadable and recorded augmented reality game software; downloadable and recorded virtual reality software for playing computer games, pilot training, medical teaching, surgical operations, physical rehabilitation; downloadable and recorded virtual reality software for simulation, namely, flight simulators, electronic clinicians training simulators, surgical operations simulators; downloadable and recorded virtual and augmented reality software for playing computer games, pilot training, flight simulators, medical teaching, surgical operations simulators, physical rehabilitation; downloadable and recorded web application software, namely, software platforms for application development and web hosting; downloadable and recorded web application and server software for software platforms for application development and web hosting relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded network access server operating software; downloadable and recorded application simulation software for modeling a real phenomenon with a set of mathematical formulas relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded content management software; downloadable and recorded cloud computing software for ensuring on-demand availability of computer system resources, especially data storage and computing power, without direct active management by a user, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded computer software to enable the provision of information via the internet, namely, web browsing software; downloadable and recorded computer software to enable the provision of information via communications networks, namely, web browsing software; downloadable and recorded payment software, namely, payment gateway software for linking e-commerce websites to credit card processing networks; downloadable and recorded software for commerce over a global communications network, namely, downloadable payment gateway software for linking e-commerce websites to credit card processing networks; downloadable and recorded computer e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable and recorded software for operating an online shop, namely, ensuring on-demand availability of computer system resources, especially data storage and computing power, without direct active management by the user, relating to science, medicine, telemedicine, sports, prosthetics, orthopedics, biology, computer science, engineering and robotics; downloadable and recorded e-payment software, namely, electronic financial platform that accommodates multiple types of payment and debt transactions in an integrated mobile phone, PDA, and web-based environment; downloadable and recorded software for arranging online transactions; downloadable and recorded e-commerce and e-payment software, namely, software for electronically buying or selling of products on online services or over the Internet; digital signal processing apparatus, namely, digital signal processors (DSP) for analog signals; encoding and decoding apparatus and instruments, namely, liquid crystal display (LCD) monitors, audio processing devices being signal processors, musical tone generation devices being electronic sound mixing, processing and synthesizing apparatus, cameras, video cameras; signal couplers, namely, acoustic couplers, and optical couplers; wireless communication apparatus, namely, Television and Radio Broadcasting Systems being apparatus for broadcasting, recording, transmission or reproduction of sound or images; wireless communication apparatus, namely, Satellite Communication Systems being satellite dishes, and satellite transmitters and receivers; wireless communication apparatus, namely, Radar System being radar machines and apparatus; wireless communication apparatus, namely, Mobile Telephone Systems
comprised of radio-frequency antennas, telecommunication towers; Global Positioning System (GPS); wireless communication apparatus, namely, Infrared Communication Systems comprised of infrared detection apparatus, infrared detectors; wireless communication apparatus, namely, Wireless Local Area Network System being local area network hardware; wireless communication apparatus, namely, communication devices for short-range voice, data or image transmission; wireless communication apparatus, namely, Paging Systems being paging equipment; wireless communication apparatus, namely, Cordless Phones, Radio Frequency Identification (RFID) Systems being radio-frequency identification readers; electric communication apparatus, namely, communication devices for short-range voice, data or image transmission, telephones; data communications apparatus, namely, server, web server, modem, router; interactive data transfer apparatus, namely, HMI being human machine interface touch screens; mobile data communications apparatus, namely, GSM/GPRS/3G/4G electronic systems in the nature of electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points; mobile data apparatus, namely, GSM/GPRS/3G/4G electronic systems in the nature of electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points; apparatus for the transmission of data, namely, computer network switches, communication hubs, network routers, modems; wearable digital electronic devices comprised of computer hardware and recorded software for providing access to the internet, namely, smartwatches, smart jewelry, fitness trackers, smart clothing, head-mounted displays being electronic LCD display units with multi-networking (TCP/IP) capabilities; USB dongles being wireless network adapters; wireless local area network devices, namely, local area network hardware, PCs, computer tablets, printers; video communications apparatus, namely, PCs, smartphones and computer tablets; storage apparatus for computer data, namely, computer Network Attached Storage hardware, server repository being network access server hardware; integrated chip (IC) card readers; card reading equipment; electronically encoded identity wristbands; apparatus for the reproduction of images, namely, displays, PCs, tablet computers, smartphones; apparatus for the reproduction of data, namely, displays, PCs, tablet computers, smartphones; 3D scanners; image scanners; optical scanners; fingerprint scanners; scanners being data processing equipment; image analyzers, namely, recorded or downloadable image and photo editing software; physical analyzers, other than for medical use, namely, texture analyzers being surface roughness testing machines and instruments, material analyzers in the nature of apparatus for testing solids, water analyzer being water testing apparatus, gas analyzers being gas testing instruments; downloadable and recorded artificial intelligence software for making machines learn from experience, adjust to new inputs and perform human-like tasks relating to 3D reconstruction of body parts, classification of medical data, disease diagnosis; humanoid robots with artificial intelligence; downloadable and recorded artificial intelligence and machine learning software for analysis of medical data, biometric data, climatic data, epidemiological data 3D reconstruction of body parts, classification of medical data, disease diagnosis, data fusion, profiling, translating; data conversion apparatus, namely, computer switches, protocol conversion systems being computer hardware and recorded computer software for converting measurements; arm rests for use with computers; computer joysticks, not for use with video games; joysticks for use with computers, other than for video games; computer whiteboards; computer components and parts, namely, motherboards, power supplies, central processing units (CPU), random-access memory (RAM) cards, Hard Disk Drives, Solid State Drives, video display cards, optical disk drive, keyboards, webcams, computer mice, computer monitors, document printers, audio speakers; all-in-one computers; computer hardware; wearable computers in the nature of smartwatches, smart glasses, smart jewelry, fitness trackers, smart clothing, head-mounted displays being computer monitors; portable computers; computers for use in data management; communications computers; laptop computers; computer housings in the nature of metal depository housing
sold empty that is specially adapted to contain computer components; electronic memory integrated circuit chips being computer chips; computer chips; multiprocessor chips; chipsets; computer chipsets for use in transmitting data to and from a central processing unit; computer chipsets; application-specific integrated circuits being computer chips; add-on circuit boards for connecting computers to networking software; electronic components for computers, namely, motherboards, power supplies, central processing units (CPU), random-access memory (RAM) cards, Hard Disk Drives, Solid State Drives, video display cards, optical disk drives; components for computers, namely, motherboards, power supplies, central processing units (CPU), random-access memory (RAM) cards, Hard Disk Drives, Solid State Drives, video display cards, optical disk drive, keyboards, webcams, computer mice, computer monitors, document printers, audio speakers; wearable audio equipment, namely, wearable audio speakers, wearable audio microphone; audiovisual teaching apparatus, namely, artificial limbs for medical instruction purposes; radiological apparatus for industrial purposes, namely, digital radiography detectors, film scanners and digitizers, imaging plates; computer cables; telecommunications cables; printer cables; wireless and cable adapters for connection between media devices; high definition multimedia interface cables; decorative magnets; magnetic badges being decorative magnets; decorative refrigerator magnets; accumulators, electric; battery adapters; dc input power supplies; ac/dc power supplies; electricity storage apparatus, namely, rechargeable batteries; apparatus and instruments for accumulating electricity, namely, electric accumulators; battery chargers; chargers for electric batteries; batteries; lithium ion batteries; lithium batteries; nickel-cadmium batteries; power adapters; electrical adapters; solar batteries for domestic use; cable adapters, namely, electric adapter cables; USB adapters, namely, USB cables; flash card adapters; plug adaptors; power cables; cable jump leads; cables, electric; battery leads; connection cables; electronic control circuits for medical devices, electronic control circuits for electronic musical instruments, electronic control circuits for electric heaters and fans; silicon chips; chips being integrated circuits; electronic chips, namely, electronic chips for the manufacture of integrated circuits; optical inspection apparatus for industrial use; optical apparatus and instruments, namely, interferometer, photometer, spectrometer, DNA sequencers; infrared optical apparatus, namely, night-vision devices being systems primarily comprised of day and night sensors, day and night cameras, and monitors; Near Infrared Spectroscopy (NIRS) devices being spectrosopes; theft prevention apparatus, other than for vehicles, namely, theft alarms; electric safety monitoring apparatus, namely, electronic tire pressure monitors; signaling apparatus, namely, traffic-light apparatus; life-saving apparatus and instruments, namely, life-saving rafts; security control apparatus, namely, security control panels and motion detectors; protective and safety equipment, namely, personal protective equipment (PPE) being safety goggles; electrical access control apparatus, namely, door and window access control system; automatic access security apparatus, namely, automatic gate, speed gate barriers; encoded key cards; apparatus and instruments for geolocation, namely, global positioning system (GPS); global positioning system (GPS) apparatus; electronic navigational and positioning apparatus and instruments; electronic tracking apparatus and instruments, namely, GPS tracking devices; computerized vehicle engine analyzers; multichannel analyzers, namely, oscilloscopes, digital signal analyzers; remote monitoring apparatus, namely, remote sensors for use in measuring thermal and infrared radiation energy waves; electric motor checking being monitoring or supervision apparatus, namely, electronic monitors and monitor modules for monitoring electric current and electrical signals; monitoring apparatus, other than for medical purposes, namely, temperature/ humidity/ pressure measuring apparatus; measuring apparatus, namely, temperature, humidity, and pressure measuring apparatus; precision measuring apparatus, namely, laser distance meters; digital measuring apparatus, namely, digitizers; apparatus for recording data; time recording apparatus; time clocks being time recording devices; electrical recorders, namely, audio recorders, video recorders; electric control apparatus for energy management, lighting control apparatus, entrance control apparatus and outdoor lighting fixtures; automatic control apparatus,
namely, lighting control apparatus, entrance control apparatus; robotic electrical control apparatus in the nature of control apparatus for controlling humanoid robots, prostheses control apparatus, orthoses control apparatus, industrial robots control apparatus; electrical remote control apparatus, namely, radio and infrared apparatus for operating wirelessly another device from a distance; electro-dynamic apparatus for the remote control of signals; programmable control apparatus, namely, computers adapted for the control of manufacturing processes or robotic devices; electronic process controlling apparatus, namely, electronic devices adapted for the control of manufacturing processes and robotic devices; teaching apparatus, namely, electronic interactive whiteboard, artificial limbs used as demonstration devices; temperature sensitive testing apparatus for scientific use, namely, temperature meters not for medical use

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark The mark consists of a shield comprised of five sections surrounded by a black single line - two rectangles at the top, two in the middle, and a section comprising the bottom of the shield. The top left rectangular section is red with three horizontally elongated gold heraldic lions with black outline stacked upon each other facing left. The top right rectangular section is gold with a single red heraldic lion with black outline facing left and standing upright on two hind legs with two front legs stretched left and upward. The lion is surrounded by a red rectangle with black outline with eight red fleur-de-lis with black outline - one in each corner of the rectangle, one in the top and bottom center lines of the rectangle and one in the left and right center of each line of the rectangle. The middle left section of the shield is blue with a gold harp outlined in black comprised of an angel with wings outstretched behind her forming the top portion of the harp and her legs forming the front of the harp connected to the bottom of the harp. Her wings are connected to the black strings of the harp which are connected to the bottom of the harp. The middle right of the shield is red with three horizontally elongated gold heraldic lions with black outline stacked upon each other facing left. The bottom of the shield is gold with a gold open book outlined in black with white pages centered inside. The word "SCIENTIA" is centered in black across two white pages of the open book. The remaining pages are gold with black outline, and three gold buckles with black outline extend from the left and right of the book.
Color Drawing Yes Color Claimed The color(s) red, blue, black white and gold is/are claimed as a feature of the mark.
