GOODS AND SERVICES INFORMATION
For Couplings and transmission components for land vehicles; couplings for water vehicles
International Classes 12 - Primary Classes US Classes 19, 21, 23, 31, 35, 44 International Class Title Vehicles

For Connectors, in particular plug-in connectors and power adapters for fluid pipes, all specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and sanitary purposes; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic sockets specially adapted for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and water supply; multiple plug-in connectors comprising fluid pipes, namely, compressed air pipes, specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and water supply; male and female fluid header connectors for fluid pipes, specially adapted for use in apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and water supply; multiple plug-in connectors for fluid pipes, in particular compressed air conduits; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic sockets and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors specially adapted for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supply
International Classes 11 - Primary Classes US Classes 13, 21, 23, 24, 31, 34 International Class Title Environmental Control Apparatus

For Electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, in particular plug-in connectors, including connectors in modular form; devices for electric, electronic, electromagnetic and optical connection and networking; electric contacts, plugs, sockets, contact pins and sleeves; electric contact pin and socket blocks; electric conductors; electrical controllers; electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric contacts, electric, electronic,
electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, including in modular form; electric couplings, connections, not being part of machines; electronic and optical jack cables, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cord connectors, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection panels; connection units comprising electrical, electronelectrical, electromagnetic, optical fiber-optic, optoelectronic, coaxial, triaxial, electropneumatic, electrohydraulic and electrofluidic connectors, also combined with fluid conduits, including in modular form; hybrid electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and connector systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electric contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, including in modular form; acoustic conduits; testing and quality control devices, namely, mass electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect systems comprised of docking frames and housings, bearing pins, panel mounting surfaces for devices and units under test (D/UUT), interchangeable test adapters (ITA), interchangeable test adapter frames, receivers, receiver modules, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies, receiver patch cords, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic, analog, digital, radio frequency, fiber-optic, power, thermocouple, pneumatic and vacuum connectors and coaxial relays, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic modular connectors and printed circuit board adapters for connecting test instruments to interchangeable test adapters; test and testing equipment, namely, apparatus and instruments for electrical, mechanical and chemical testing of printed circuit boards and assembled units; test and testing equipment, namely, devices for testing of materials for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic contacts, connectors and connector systems, apparatus and instruments for testing of gas, liquids and solids, calibrated measuring devices of partial discharge measurements, voltage, mating cycles, and current-carrying capacity; test and testing equipment for the development and manufacture of contacts, connectors and connector systems; electronic connectors and interface equipment for connecting test and testing equipment; modular and scalable electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections being parts of testing and quality control devices; adapters for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection and networking, including adapters for fluid conduits, including in modular form; hybrid electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic adapters; interchangeable test-adapters (ITA) for mass interconnect systems for testing of printed circuit boards and assembled units; parts, components and accessories of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector interfaces between test instruments and devices/units under test (D/UUT); electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect panels being electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connector interfaces between test instruments and devices/units under test (D/UUT), including in modular form; interfaces for detectors; mating fixture components for mass testing, namely, housings for signal, power, high current, high voltage, coaxial, highspeed data transmission, fiber-optic, air and fluid connections; electric, electronic, electromagnetic, optical, fiber-optic and opto-
electronic adapter panels; electric, electronic, electromagnetic, optical, fiber-optic and opto-electronic, coaxial, triaxial, signal, high-voltage or low-voltage transmission cables, also used in combination with fluid conduits, including in modular form; modular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic interconnections for testing, detecting and monitoring; receivers for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic coaxial, triaxial, signal, high-voltage or low-voltage transmission connecting elements and groups of connecting elements, including receivers in modular form; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for mass interconnect systems, including in modular form; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receiver modules for mass interconnect systems, including in modular form; mounting hardware for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for mass interconnect systems, including in modular form; mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for interchangeable test adapters (ITA); slides, hinges and rails for mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic receivers for interchangeable test adapters (ITA); electrified rails for use with testing equipment; locking systems comprised of electronic lock assemblies, cables, locking connectors, locking housings, cables and locking sleeves for components of modular connectors; housings for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and connector systems; housings for test and testing equipment specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers, adapters and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic interfaces for mass interconnect systems; frames specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers, adapters and interfaces for mass interconnect systems; frames specially adapted for interface equipment for connecting test and testing equipment; pin-frames, namely, pin-frames for mounting electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect modules; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic socket frames; docking frames for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections; tables, cabinets, racks, platforms, boxes, panels, rails and mounts specially adapted to hold test, testing and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic control equipment; testing racks specially adapted for mounting and holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, receivers and adapters used for testing printed circuit boards and assembled units; mounts specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections and interfaces, namely, tables, cabinets, racks, platforms, boxes, panels and rails specially adapted for holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections and interfaces; racks, cabinets, mounts, tables and panels specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass interconnect systems comprised of modular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, electrical contacts, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic printed circuit board connectors, housings, docking frames and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable assemblies; switch panels being patching panels for housing electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electrical switches; splices for electrical transmission lines; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic switch cabinets and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic switch desks consisting of metal and plastic, for use in industry, installation, testing, electronics, networking, data processing, interactive terminal systems and data transmission; control
cabinets specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection equipment; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic control panels; control units for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic mass testing interconnects; sub-racks specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plug-in units with electronic circuits; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors for measuring, counting, alignment and calibrating instruments; serial and parallel computer ports, electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic ports, electrical, electronic, electromagnetic, optical, fiber-optic and optoelectronic connection units and cable connectors for measuring, counting, alignment and calibrating apparatuses; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for scientific research and educational apparatus and simulators; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for laboratory apparatus and instruments; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for laboratory robots; electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections specially adapted for scientific and laboratory devices for treatment using electricity; cables and wires for electricity; electric cable assemblies; networking and wiring systems comprised of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cables for multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections; components of wiring systems, in particular bars for multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections; fiber-optic cables; telecommunication cables, fiber-optic and wiring harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for electrical ground connections and guard shields for high voltage electric cables; accessories for high voltage electric cables for industrial applications, namely, electric connectors, housings, electric rings and clips, cable terminations, cable protective sheaths for high voltage electric cables; components of cabling for improving transmission of signals, particularly electric plates, divider coils, electric blocks, electric brackets, electric wiring ducts, electric rings and clips, housing for power outlets and panels, and overvoltage protector devices; devices for switching and monitoring electrical power supplies; power terminals, in particular power connectors; electrical power distribution units; repeating reels for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic wire; terminal electric signal converters, electric signal relays; circuit boards; multi-circuit electrical bands; current distribution components, in particular electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic adaptors for connectors and devices, and electric load-breakers; modules and system components for energy subdistribution, power supplies, namely, power supply units, electric accumulators; power-supplying apparatus, including uninterruptible power supplies, including in modular form; electrochemical systems, namely, high power electrical connectors and cables, high power contactors for battery switching and control, circuit protection devices, power distribution units; multiple electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plug-in connectors, including in modular form; interfaces, namely, for data processing, data processing apparatus, and machines and/ or units under test (UUT) or devices under test (DUT); apparatus for linking computers in networks, namely, computer network adaptors, apparatus for protecting computers against electrical power supply problems, namely, power surge protectors; attachment electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plugs; electrical plug device enabling connection and disconnection of power and/or control cables; electric contact inserts for plug connectors and modular connectors, anti-kink sleeves for protecting electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic plugs, cables or cable terminations; protective caps for protecting electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, plugs and couplings and electric contacts, cable hoods, metal solder tabs for
electric connections, contact bushings for use as parts and fittings of electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic contacts in cables, sleeves for electric contact plugs, electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic cable fittings, electric resistances, clips for holding electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors; patch panels for housing electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors and cables; accessories for wiring for electrical distribution networks, electrical terminal boxes and electrical junction boxes, namely, electrical terminal blocks and electrical connectors; electrical locking devices for locking electrical connectors; systems for electrical cable harnesses and connectors comprised of electrical wires and cables, connectors, clamps, housings and sleeves; devices for managing cables and electrical lines, namely, clips and reels; plug-in units for sub-racks, namely, electric plug-in cards, bus circuit boards, electric pin and socket connectors; power supply units; electrical processing equipment, namely, connectors between wires and boards, boards and boards, cables and boards and cables and cables; electric contact pins and electric sockets of metal; electric contact sleeves of metal; metal housings specially adapted for electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connections, connectors, interfaces and controls, namely, cabinets, cubicles, closets, boxes and tables; storage racks from metal specially adapted for housing testing equipment, electronics, computers, and interactive terminal systems, and electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connecting, networking and data transmission systems

For measuring and testing machines and instruments, namely, digitizers, wearable activity trackers, temperature indicators, measuring instruments in the nature of gasometers, thermometers, not for medical purposes, water meters, precision balances, planimeters, derived-unit measuring machines and apparatus, pressure gauges, level indicators, acoustic meters, tachometers, accelerometers, refractometers, photometers, altimeters, hygrometers, illuminometers, vibration meters, noisemeters, speed indicators, calorimeters, viscosimeters, concentration meters, gravimeters, densimeters, dynamometers, flowmeters, angle gauges, spherometers, inclinometers, interferometers, graduation checkers in the nature of calibration checkers, length measuring gauges, screw-thread measuring machines and instruments, comparators, surface roughness testing machines and instruments, automatic liquid-level control machines and instruments, automatic fluid-composition control machines and instruments, automatic liquid-level control machines and instruments, automatic combustion control machines and instruments, metal compression testing machines, metal hardness testing machines, metal strength testing machines, concrete testing machines, cement testing machines, textile testing machines, plastic testing machines, lumber testing machines, surveying machines and instruments, alidades, meteorological instruments, distance measuring apparatus, clinometers, magnetic compasses for surveying, magnetic gyrocompasses, level measuring machines for surveying, precision theodolites, surveying chains, transits for surveying, levelling rods for surveying, sextants, meridian transit telescopes, astronomical spectrographs; testing apparatus not for medical purposes, namely, semiconductor testing apparatus; measuring devices, electric, namely, clamp meters for measuring electricity; resistance measuring instruments; optical sensors; actinometers; weighing apparatus and instruments; surveying apparatus and instruments; electric wires and cables; telecommunication machines and apparatus, namely, intercoms, portable telephones, automatic switching apparatus for telecommunication, telephone sets; wire communication machines and apparatus, namely, apparatus for transmission of communications, teletypewriters, automatic telegraph apparatus, phototelegraphy apparatus, manual telegraph apparatus; power-line transmission machines and apparatus, open-wire transmission machines and apparatus, cable broadcast transmission machines and apparatus, apparatus for broadcasting, recording, transmission or reproduction of sound or images, television receivers in the nature of TV sets, television transmitters, radio receivers, radio transmitters, aeronautical radio communication machines and apparatus, single-channel radio communication machines and apparatus for fixed stations, marine radio communication...
machines and apparatus, navigation apparatus for vehicles in the nature of on-board computers, radio beacon machines and apparatus, radar apparatus, loran navigation machines and apparatus, remote control telemetering machines and apparatus, digital voice recorder, sound recording apparatus, public-address systems and instruments, digital audio players, compact disc players, juke boxes, musical, tape recorders, electric phonographs, record players, sound and video recording and playback machines; video frequency devices and apparatus, namely, video communications apparatus, DVD players, DVD recorders, digital cameras, digital photo frames, videocameras in the nature of camcorders, videodisc players, videotape recorders, video projectors; parts and accessories for telecommunication machines and apparatus, namely, antennas, magnetic tape erasers, magnetic tape cleaners, magnetic head cleaners, loudspeakers, fuses for telecommunication apparatus, change-over switches for telecommunication apparatus, telephone connectors, electric capacitors for telecommunication apparatus, electric resistors for telecommunication apparatus, pickups for telecommunication apparatus, indicator lights for telecommunication apparatus, electrical phonomotors, headphones, electrical transformers for telecommunication apparatus, surge protectors, microphones for telecommunication apparatus, blank record disks, headsets for telephones; telephone apparatus; intercommunication apparatus, namely, telephones incorporating intercommunication systems; telecommunication transmitters; modems; facsimile machines; electronic machines, namely, electrostatic copying machines, electronic desk calculators, hand-held electronic dictionaries, word processors, smartwatches, smartglasses, bar code readers, tablet computers, computer terminals, portable computers, coherent Ising machines, wearable video display monitors, headsets for use with computers, digital projectors; computers; computer peripheral devices; data processing apparatus; computer hardware; personal digital assistants in the shape of a watch; smartphones; electron tubes; semi-conductor elements, namely, thermistors, diodes, transistors; semiconductors; electronic circuits, not including those recorded with computer programs; integrated circuits; downloadable computer software and software programs for remote operation of telecommunications switches and for voice mail and messaging, to process voice, video, facsimile and data, for computer data delivery, for encrypting and decrypting an electronic data system to interface with cable and broadcast television networks; downloadable computer software for use in database management, for use as a spreadsheet, for word processing, and for drawing pictures for children; downloadable computer software and software programs for use in the fields of electronic payments, providing databases of demographic information and encryption/decryption of information, for processing credit card transactions in the field of electronic commerce; downloadable computer software and software programs for facilitating computer aided design (CAD) and large scale integrated circuit design, for automatic order cycle processes between retailers and manufactures; recorded computer software for data management and downloadable software for accessing a global computer network or interactive computer communications network which provides information on a wide variety of topics of public interest in the fields of business, computers, culture, and electronic commerce; downloadable software for downloading data from a computer network; downloadable computer programs for managing data centers; downloadable computer programs for database integration downloadable computer programs for database management in connection with cloud computing services; downloadable computer programs for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; downloadable computer programs for managing telecommunication networks in connection with cloud computing services; downloadable computer programs for managing the electronic storage of data; downloadable computer programs for integration of private and public cloud computing environments; downloadable computer programs for providing cloud hosting services; downloadable computer programs for efficient utilization of cloud computing services through creation, deployment and management of ICT resources from devices and networks to the cloud computing platform; downloadable computer anti-virus software; downloadable computer software
for use in computer security for ensuring data security, internet security through preventing computer viruses, preventing
computer risks through ensuring the security of downloadable data, computer system threat analysis, computer virus scanning,
identity management, penetration testing of computers and networks to assess information security vulnerability;
downloadable computer software for deep learning, natural language generation, statistical learning, supervised learning,
unsupervised learning, data mining, predictive analytics and business intelligence; computer hardware and embedded systems
consisting of recorded computer software and computer hardware for artificial intelligence, machine learning, deep learning,
natural language generation, statistical learning, supervised learning, unsupervised learning, data mining, predictive analytics
and business intelligence; recorded computer software and downloadable computer software for voice recognition, image
recognition, video recognition and user interface, dialog management, artificial intelligence, machine learning, natural
language processing, text-to-speech conversion, speech synthesis, emotional detection and synthesis, and voice and data
communications; downloadable computer software for computer vision to optimize workflows and analysis of big data sets;
downloadable computer software for indexing and making searchable data from any application, server or network device;
downloadable computer programs and computer software for data integration, data manipulation, data analysis, development
of predictive systems and privacy management; downloadable computer software programs to design, operate and manage
information communication technology (ICT) systems of others; downloadable computer software for user authentication;
downloadable computer software that enables users to administer, manage and optimize cloud resources and ICT resources;
downloadable computer software for setting up and configuring local and wide area networks; downloadable LAN (local area
network) operating software; downloadable VPN (virtual private network) operating software; downloadable WAN (wide area
network) operating software; downloadable computer software for administration of computer networks; downloadable
network access server operating software; downloadable computer software and programs for performing tasks, namely,
combinatorial optimization, machine learning, and network analysis; downloadable computer software and programs for use in
optical computing and Coherent Network Computing; downloadable software for remotely monitoring environmental
conditions and controlling devices within a building, facility, grounds, or designated spatial area; downloadable computer
software to monitor and control factory manufacturing processes; downloadable software for monitoring and controlling
communication between computers and automated machine systems; downloadable virtual reality software for playing
computer games; downloadable augmented reality software for playing computer games; downloadable augmented reality
software for use in mobile devices for integrating electronic data with real world environments; downloadable game programs
for home video game machines; electronic circuits and CD-ROMs recorded with video game programs for hand-held
electronic devices with liquid crystal displays; downloadable image files containing artwork, text, audio, video, games and
Internet Web links relating to sporting, cultural activities, computer games and entertainment activities; pre-recorded video
discs and video tapes featuring music, live-action entertainment, animated entertainment, motion picture films; pre-recorded
video compact discs featuring music, live-action entertainment, animated entertainment, motion picture films; downloadable
electronic publications in the nature of books, magazines and manuals in the fields of computers, computer networks, computer
hardware, computer software, cloud computing, IT security and information risk management; downloadable images and
videos featuring sports, games, entertainment events, music live concerts, shows and plays; downloadable images and videos
in the field of special effects of images

2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S)

**Description of the Mark**  
The mark consists of a green and light green vertical column containing multiple teardrop shapes depicted in white with a purple highlight in the lower left of each teardrop. This column is followed to the right by a white column, after which is a yellow column outlined in green, within which is a triangular shape with rounded corners depicted in red and orange and containing the Cyrillic lettering in white. Between the Cyrillic lettering is a white circular design pierced in the center by a white horizontal line, and there is a small solid white circle after the Cyrillic lettering in white. Underneath this feature of the mark is a red and green strawberry with grey dots and bearing eyes, a nose and a mouth depicted in black and white. The strawberry design is facing a white teardrop design bearing eyes, a nose, and a mouth depicted in black with a red tongue and a light blue highlight in the lower right. Under these two figures is a curved string of Cyrillic letters shown in red. The rounded triangular shape and the two figures with the Cyrillic letters are repeated in the yellow column. To the right of this is another white column, followed by a light green and green column bearing multiple strawberry designs depicted in red, green, with grey dots.

- **Mark Drawing Type**: 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S)
- **Description of the Mark**: The mark consists of a green and light green vertical column containing multiple teardrop shapes depicted in white with a purple highlight in the lower left of each teardrop. This column is followed to the right by a white column, after which is a yellow column outlined in dual green curved lines, within which is a triangular shape with rounded corners depicted in red and orange and containing the Cyrillic lettering in white. Between the Cyrillic lettering is a white circular design pierced in the center by a white horizontal line, and there is a small solid white circle in the Cyrillic lettering. Underneath this feature of the mark is a pink and green raspberry bearing eyes, a nose and a mouth depicted in black and white. The raspberry design is facing a white teardrop design bearing eyes, a nose, and a mouth depicted in black with a red tongue and a light blue highlight in the lower right. Under these two figures is three curved lines of Cyrillic letters shown in purple and red. The rounded triangular shape and the two figures with the Cyrillic letters are repeated in the yellow column. To the right of this is another white column, followed by a light green and green column bearing multiple raspberry designs depicted in pink and green.

MARK INFORMATION
Standard Character Claim  No  Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES
WORD(S)/ LETTER(S) Description of the Mark  The mark consists of heavy black font for the word Noble with a
solid green circle replacing the letter "o," and a smaller solid green circle joining the two words. The word "reactor" is set
lowercase and in a black light font. The lowercase letter "o" has been replaced with two stroked half circles, one black,
one green. Both stroked half circles come to a point at the top and bottom and do not touch, resulting in two small,
triangular areas of whitespace that separate them. This is meant to graphically represent the shape of a fusion reactor.
Color Drawing  Yes  Color Claimed  The color(s) black and green is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION
For  Downloadable computer software using artificial intelligence (AI) to make certain tasks more efficient for customers,
namely, software for analysis of scientific research and development data in the fields of chemistry, physics, and science to
increase the rate of organizing, normalizing, indexing, and structuring multi-modal data, to improve understanding and parsing
discernment and extraction of data, and to increase the rate of invention and progress, in scientifically-oriented disciplines
and fields; Downloadable computer software that improves efficiency of scientific research and development and engineering
in the fields of chemistry, physics, and science by improving understanding and parsing of discernment and extraction of data,
and increasing the rate of invention and progress, in scientifically-oriented disciplines and fields; Downloadable computer
software that implements scalable artificial intelligence (AI) for scientific research and development in the fields of chemistry,
physics, and science; Downloadable computer software that helps enterprise customers ingest, universalize, and operationalize
complex multi-modal data in the fields of chemistry, physics, and science; Downloadable computer software for automated
decision-making in the fields of chemistry, physics, and science; Downloadable computer software for automated analysis and
detection of anomaly in relation to scientific research and development data in the fields of chemistry, physics, and science;
