Mark Information

Standard Character Claim: No  Mark Drawing Type: 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S)

Description of the Mark: The mark consists of a circle in graded shades of purple, through the center of which run three straight lines from left to right, at the end of each of which is a smaller circle. The center line and smaller circle are white. The top and bottom lines and smaller circles are a darker shade of purple. A fourth line in white starting on the left side below the three straight center lines curves and crosses over the three lines several times and ends on the right just below the bottom straight line. Color Drawing: Yes  Color Claimed: The color(s) purple and white is/are claimed as a feature of the mark.

Goods and Services Information

For: Tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that locate conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that generate photographic images of conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that generate video images of conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that measure conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that determine the bend radius of conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that audit conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that diagram conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems,
wireless networks and cellular communication networks, that map conduit; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that locate ducts; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that generate photographic images of ducts; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that generate video images of ducts; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that measure ducts; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that determine the bend radius of ducts; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that locate conduits; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that locate pipes; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that audit conduits; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that audit pipes; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that diagram conduits; tools, namely, electronic devices and apparatus for mapping empty ducts, conduits and pipes, using radio frequency, global positioning systems, wireless networks and cellular communication networks, that diagram pipes; probes for use in generating 3-dimensional maps of conduit, ducts, and pipes, for commercial, governmental and industrial purposes, namely, probes for locating conduit, probes for generating photographic images of conduit, probes for generating video images of conduit, probes for measuring conduit, probes for determining the bend radius of conduit, probes for auditing conduit, probes for diagramming conduit, probes for mapping conduit, probes for locating ducts, probes for generating photographic images of ducts, probes for generating video images of ducts, probes for measuring ducts, probes for determining the bend radius of ducts, probes for auditing ducts, probes for diagramming ducts, probes for mapping ducts, probes for locating pipes, probes for generating photographic images of pipes, probes for generating video images of pipes, probes for measuring pipes, probes for determining the bend radius of pipes, probes for auditing pipes, probes

beveled corners at the top and is wider at the top than the bottom. This middle element contains a silver, white, and dark
blue foliage design with a red circle with a white and blue border at the center and a silver ribbon motif with dark blue
edges that unfurls to the right and left of the red circle and extends beyond the edges of the shape, appearing to curl around
behind it. The remainder of the middle element is comprised of fine silver lines radiating out from the foliage design on a
white ground. The middle and bottom elements of the mark are outlined in dark blue, silver and white, but the bottom
element's top border has a section of yellow that does not extend across the entire length. The mark is characterized by the
relative placement and separation between these three elements which together create a tapering effect, with the top
cartouche the widest, the middle element wider at the top than the bottom, and the bottom rectangle the narrowest. Color
Drawing  Yes  Color Claimed  The color(s) dark blue, silver, red, yellow and white is/are claimed as a feature of the
mark.
